SEVEN ARTS ENTERTAINMENT, INC.

Condensed Consolidated Unaudited Financial Statements

Notes For the Year Ending June 30, 2022

NOTE 1. NATURE AND BACKGROUND OF BUSINESS

The accompanying consolidated financial statements include Seven Arts Entertainment, Inc. (the 'Company', 'we' or 'us'), a Wyoming corporation, its wholly-owned subsidiaries and any majority controlled interests.

The Company is the continuation of certain business of Seven Arts Pictures PLC ('PLC'), which was founded in 2002 by Peter Hoffman as an independent motion picture production and distribution business, engaged in the development, acquisition, production, and licensing of theatrical motion pictures for exhibition in domestic (ie. the US and Canada) and foreign theatrical markets, and for subsequent worldwide release in other forms of media, including home video/dvd and pay and free television.

Following approval by shareholders at a meeting held on June 10, 2010, the Company was formed on June 11, 2010 and became a wholly-owned subsidiary of PLC. On this date, the Company entered into an Asset Transfer Agreement, as amended on January 27, 2011 and again on August 31, 2011, transferring all assets from 'PLC' to the Company in exchange for assumption by the Company of all liabilities, as well as one share of Common Stock in the Company for every Ordinary Share of PLC previously distributed to shareholders. This share exchange was approved by NASDAQ Capital Markets on August 31, 2011 for the Company's NASDAQ listing to be effective as of September 1, 2011. On November 8, 2011, PLC was placed into voluntary creditors' liquidation under English law. Certain indebtedness of PLC remained with PLC and will be subject to administration or payment in those administration proceedings.

On January 1, 2012, Seven Arts Film Entertainment Limited sold all of its film assets to the Company in return for assumption of indebtedness. Seven Arts Film Entertainment Ltd ceased operations on May 31, 2013, on the closing of its office in London, England, and placed into voluntary liquidation on October 9, 2013.

On June 30, 2012, Seven Arts Film Entertainment Louisiana LLC ('SAFELA') was transferred to the Company. SAFELA had a 30-year lease to operate a film production and post-production facility at 807 Esplanade, New Orleans, Louisiana. The post-production facility commenced operations on July 1, 2012.

Seven Arts Pictures Louisiana LLC ('SAPLA') had entered into a credit agreement with Advantage Capital Community Development Fund LLC, dated October 11, 2007, for the acquisition and improvement of the production and post-production facility located at 807 Esplanade, New Orleans, Louisiana for aggregate principal advances of up to $3,700,000. This agreement was guaranteed by the Company's predecessor. Approximately $3,700,000 plus interest had been drawn down under the terms of this credit agreement by June 30, 2012. The Company assumed the liability in return for $1,000,000, plus a contingent sum of $750,000 (contingent on receipt of at least $5,000,000 in cash proceeds from the tax credits to be earned by SAPLA) due to an agreement with the now mortgagor Palm Finance Corp. ('Palm'). A construction loan of $1,950,000 previously guaranteed by the Company has now also been assumed by the Company, SAFELA. On August 28, 2014, the Company satisfied the obligations to Palm as discussed below.

Seven Arts Music. Inc. ('SAM') became a wholly-owned subsidiary of the Company on February 23, 2012, although transaction costs had been incurred as early as September 2011. The first of the DMX albums acquired from David Michery was released on September 11, 2012. The first of the Bones Thugs-N-Harmony albums was fully delivered to the Company as of June 30, 2013 and scheduled for release in November 2013. The agreements under which SAM acquired its music assets were effective as of September 29, 2011 (Big Jake Music or 'BJM') and December 19, 2011 (Michery Assets, 'Michery'), publicly announced and commenced business activities on those dates, though definitive agreements were not executed, nor control gained, until February 23, 2012.

On February 13, 2014, May 2, 2013 and August 31, 2012, the Company affected one-for-one hundred, one-for-fifty and one-for-seventy reverse stock splits, respectively, collectively referred to as the Stock Splits. Unless otherwise noted, all impacted amounts included in the consolidated financial statements and notes thereto have been retroactively adjusted for the Stock Splits. Unless otherwise noted, impacted amounts include shares of common stock authorized and outstanding, share issuances and cancellations, shares underlying preferred stock, convertible notes, warrants and stock options, shares reserved conversion prices of convertible securities, exercise prices of warrants and options, and loss per share.

On September 14, 2012, trading of the Company's common stock on NASDAQ was suspended due to the stock price not meeting or exceeding the minimum $1.00 bid price per share for a minimum of ten trading days prior to September 20, 2012, the extended deadline given to the Company to meet this performance requirement. The Company's common stock commenced trading on OTC Market Group's OTCQB tier under the symbol 'SAPX'. On Febriary 25, 2014, the Company's common stock was transferred by the OTC Markets Group, Inc. to the OTCPink tier under the same symbol.

On February 7, 2014, Peter Hoffman resigned as CEO, with Katrina Hoffman, his wife, appointed as replacement CEO.

On August 22, 2014, the Company closed the acquisition of 100% of the capital stock of iPTerra Technologies, Inc. and 100% of the membership interests in Aeronetworks LLC from Sanwire Corporation by issuance of 30,000 shares of Preferred Stock Series D ($100 par value, $3,000,000 total price) convertible into shares of Common Stock at 100% of the volume-weighted average price of the Company's Common Stock for the ten (10) trading days prior to conversion. The closing was subject to a condition subsequent requiring the execution of a Loan Workout Agreement inter alia Palm Finance Corp ('Palm') and the Company, which was not executed until August 29, 2014. On Closing, the entire board, except Antony Hickox, resigned and Mr Richard Bjorklund ('Chairman and CEO', replacing Katrina Hoffman) and Robert Riggs were appointed to the board. Ms. Candace Wernick resigned as CFO and was replaced by Mr. Robert Lasalle.

On October 15, 2014, the Company changed its name to 'Wireless Connect, Inc.' and redomiciled to Wyoming. The Company changed its name back to Seven Arts Entertainment, Inc. on October 15, 2015, but this was not filed with the February 15, 2018.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared for Seven Arts Entertainment, Inc. in accordance with accounting principles generally accepted in the United States of America (US GAAP), with all numbers shown in US Dollars.

In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for fair presentation of the financial statements have been included. The financial statements include acquired subsidiaries, as discussed below, and include all consolidation entries required to include those subsidiaries.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

For the Balance Sheet and Statement of Cash Flows, all highly liquid investments with maturity of three months or less are considered to be cash equivalents. The Company had no cash equivalents as at June 30, 2022 or 2021.

Income Taxes

Income taxes are provided in accordance with the FASB Accounting Standards (ASC 740), Accounting for Income Tax. A deferred tax asset or liability is recorded for all temporary differences between financial and tax reporting and net operating loss carry forwards. Any deferred tax expense (benefit) resulting from the net change during the year is shown as deferred tax assets and liabilities. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it was more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Basic and Diluted Net Income (Loss) Per Share

Net income (loss) per unit is calculated in accordance with Codification topic 260, “Earnings per Share” for the periods presented. Basic net loss per share is computed using the weighted average number of common shares outstanding. Diluted loss per share has not been presented because the shares of common stock equivalents have not been included in the per share calculations as such inclusion would be anti-dilutive. Diluted earnings per share is based on the assumption that all dilutive stock options, warrants and convertible debt are converted or exercised applying the treasury stock method. Under this method, options, warrants and convertible debt are assumed exercised at the beginning of the period (or at the time of issuance, if later), and as if funds obtained thereby were used to purchase shares of common stock at the average market price during the period. Options, warrants and/or convertible debt will have a dilutive effect during periods of net profit only when the average market price of the units during the period exceeds the exercise or conversion price of the items.

Stock Based Compensation
Codification topic 718 "Stock Compensation" requires that the cost resulting from all share-based transactions be recorded in the financial statements and establishes fair value as the measurement objective for share-based payment transactions with employees and acquired goods or services from non-employees. The codification also provides guidance on valuing and expensing these awards, as well as disclosure requirements of these equity arrangements. The Company adopted the codification upon creation of the Company and will expense share-based costs in the period incurred. The Company has not yet adopted a stock option plan and all share-based transactions and share based compensation has been expensed in accordance with the codification guidance.

Convertible Instruments
The Company evaluates and accounts for conversion options embedded in its convertible instruments in accordance with professional standards for "Accounting for Derivative Instruments and Hedging Activities". Professional standards generally provide three criteria that, if met, require companies to bifurcate conversion options from their host instruments and account for them as free standing derivative financial instruments. These three criteria include circumstances in which (a) the economic characteristics and risks of the embedded derivative instruments are not clearly and closely related to the economic characteristics and risks of the host contract, (b) the hybrid instrument that embodies both the embedded derivative instrument and the host contract is not re-measured at fair value under otherwise applicable generally accepted accounting principles with changes in fair value reported in earnings as they occur, and (c) a separate instrument with the same terms as the embedded derivative instrument would be considered a derivative instrument. Professional standards also provide an exception to this rule when the host instrument is deemed to be conventional as defined under professional standards as "The Meaning of Conventional Convertible Debt Instrument".

The Company accounts for convertible instruments when it has determined that the embedded conversion options should not be bifurcated from their host instruments in accordance with professional standards when "Accounting for Convertible Securities with Beneficial Conversion Features," as those professional standards pertain to "Certain Convertible Instruments." Accordingly, the Company records, when necessary, discounts to convertible notes for the intrinsic value of conversion options embedded in debt instruments based upon the differences between the fair value of the underlying shares of common stock at the commitment date of the note transaction and the effective conversion price embedded in the note. Debt discounts under these arrangements are amortized over the term of the related debt to their earliest date of redemption. The Company also records when necessary deemed dividends for the intrinsic value of conversion options embedded in preferred shares of common stock based upon the differences between the fair value of the underlying shares at the commitment date of the note transaction and the effective conversion price embedded in the note.

ASC 815-40 provides that, among other things, generally, if an event not within the entity's control could require net cash settlement, then the contract shall be classified as an asset or a liability.

Fair Value of Financial Instruments
We adopted the guidance of ASC-820 for fair value instruments, which clarifies the definition of fair value, prescribes methods for determining fair value, and establishes a fair value hierarchy to classify the inputs used in measuring fair value, as follows:

Level 1 Inputs are unadjusted quoted prices in active markets for identical assets or liabilities available at the measurement date.

Level 2 Inputs are quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, inputs other than quoted prices that are observable, and inputs derived from or corroborated by observable market data.

Level 3 Inputs are unobservable inputs which reflect the reporting entity's own assumptions on what assumptions the market participants would use in pricing the asset or liability based on the best available information.

The carrying amounts for cash, accounts receivable, accounts payable and accrued expenses, and loans payable approximate their fair value based on the short-term maturity of these instruments. We identified assets or liabilities that are required to be presented on the balance sheet at fair value in accordance with the accounting guidance as at June 30, 2022, as detailed in Note 11, Derivative Liabilities, and no such assets or liabilities as at June 30, 2021.

ASC 825-10 "Financial Instruments" allows entities to voluntarily choose to measure certain financial assets and liabilities at fair value (fair value option). The fair value option may be elected on an instrument-by-instrument basis and is irrevocable, unless a new election date occurs. If the fair value option is elected for an instrument, unrealized gains and losses for that instrument should be reported in earnings at each subsequent reporting date. We elected to apply the fair value option to outstanding instruments.

Derivative Liabilities
Derivative financial instruments consist of convertible instruments and rights to shares of the Company's common stock. The Company assessed that it had derivative liabilities as at June 30, 2022, as detailed in Note 11, Derivative Liabilities, and no derivative liabilities as at June 30, 2021.

ASC 815 generally provides three criteria that, if met, require companies to bifurcate conversion options from their host instruments and account for them as free standing derivative financial instruments. These three criteria include circumstances in which (a) the economic characteristics and risks of the embedded derivative instrument are not clearly and closely related to the economic characteristics and risks of the host contract, (b) the hybrid instrument that embodies both the embedded derivative instrument and the host contract is not re-measured at fair value under otherwise applicable generally accepted accounting principles with changes in fair value reported in earnings as they occur and (c) a separate instrument with the same terms as the embedded derivative instrument would be considered a derivative instrument subject to the requirement of ASC 815. ASC 815 also provides an exception to this rule when the host instrument is deemed to be conventional, as described.

Impact of New Accounting Standards
The Company does not expect the adoption of recently issued accounting pronouncements to have a significant impact on the Company's results of operations, financial position, or cash flow.

NOTE 3. GOING CONCERN
The Company's financial statements are prepared in accordance with generally accepted accounting principles applicable to a going concern. This contemplates the realization of assets and the liquidation of liabilities in the normal course of business. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. Currently, the Company does not have significant cash or other material assets, nor does it have operations or a source of revenue sufficient to cover its operation costs and allow it to continue as a going concern.

The Company has a limited operating history and had a cumulative net loss from inception to June 30, 2022 of $46,384,101. The Company has a working capital deficit of $6,092,328 as at June 30, 2022.

These financial statements for the year ending June 30, 2022 have been prepared assuming the Company will continue as a going concern, which is dependent upon the Company's ability to generate future profits and/or obtain necessary financing to meet its obligations as they come due.

The management has committed to an aggressive growth plan for the Company. The Company's future operations are dependent upon external funding and its ability to execute its business plan, realize sales and control expenses. Management believes that sufficient funding will be available from additional borrowings and private placements to meet its business objectives including anticipated cash needs for working capital, for a reasonable period of time. However, there can be no assurance that the Company will be able to obtain sufficient funds to continue the development of its business operation, or if obtained, upon terms favorable to the Company.

NOTE 4. ACQUISITIONS AND DISPOSALS
The Company has made the following acquisitions:

Muse Media LLC

The Company applies the provisions of ASC Topic 815-40, Contracts in Entity's Own Equity ("ASC Topic 815-40"), under which convertible instruments, which contain terms that protect holders from declines in the stock price (reset provisions), may not be exempt from derivative accounting treatment. As a result, embedded conversion options in convertible debt are recorded as a liability and are revalued at fair value at each reporting date. If the fair value of the note exceeds the face value of the related debt, the excess is recorded as change in fair value in operations on the issuance date.

The Company identified embedded derivatives related to the Convertible Loan Notes issued on August 1, 2021, September 14, 2021 and September 24, 2021 totaling $95,592. NOTE 11. INCOME TAXES

The Company uses the assets and liability method of accounting for income taxes pursuant to SFAS No. 109 "Accounting for Income Taxes". Under the assets and liability method of SFAS No. 109, deferred tax assets and liabilities are recognized for the future tax consequences attributable to temporary differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

In June 2006, the FASB issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes." Specifically, the pronouncement prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken from year ended December 31, 2015 tax return onwards. The interpretation also provides guidance on the related derecognition, classification, interest and penalties, accounting for interim periods, disclosure and transition of uncertain tax positions. The Company adopted this interpretation effective on inception.

For the year ended June 30, 2022, the Company had available for US federal income tax purposes net operating loss carryovers of $43,692,665, all of which will expire by 2042.

The Company has provided a full valuation allowance against the full amount of the net operating loss benefit, since, in the opinion of management, based upon the earnings history of the Company, it is more likely than not that the benefits will not be realized.

	June 30, 2022	June 30, 2021
Statutory federal income tax rate	21.00%	21.00%
Statutory state income tax rate	0.00%	0.00%
Valuation allowance	(21.00%)	(21.00%)
Effective tax rate	0.00%	0.00%

Deferred income taxes result from temporary differences in the recognition of income and expenses for financial reporting purposes and for tax purposes. The tax effect of these temporary differences representing deferred tax assets result principally from the following:

Deferred Tax Assets (Gross Values)	June 30, 2022	June 30, 2021
Net operating loss carry forward	$ (43,692,665)	$ (43,533,361)
Less valuation allowance	43,692,665	43,533,361

It is believed that there is no related liability to be borne by the Company in connection with this matter.

In 2016, Arrowhead Capital Finance Ltd ('Arrowhead') sued the Company in the US District Court of New York (the 'Court') for loans due in 2009 from Seven Arts Pictures Ltd, the Company's predecessor. On January 3, 2020, the Court found the Company liable and awarded Arrowhead a judgement of $2,496,160, plus interest at a rate of 9% per annum on the outstanding principal balance, until paid and accruing since June 5, 2018.
