

2023 Annual Results

In an uncertain macro-economic environment that has impacted retail banking activities, La Banque Postale Group reported improved results in 2023, led by the insurance businesses¹.

- **Attributable net profit** up 36.2% vs 2022 at €995 million
- **Higher net banking income**, up 16.7% vs. 2022 at €7,255 million, mainly lifted by favourable market effects at CNP Assurances
- **Improved cost-income ratio** at 69.3% (down 9.2 points vs. 2022), reflecting a positive jaw effect
- **Low cost of risk** at 11 basis points (€201 million)
- **Increased RONE**, at 7.4% vs. 5.4% at end-2022²

A robust capital structure

- A high level of solvency, with a **CET1 ratio** of 18.1%
- Robust liquidity ratios, with the **LCR** at 146% and the **NSFR** at 132%
- **Broad deposit base, with demand deposits holding up better than the market** and a high proportion of Retail Banking deposits (95% of the total)
- **CNP Assurances Group SCR coverage ratio** of 253% at end-2023
- Controlled risk profile, with a **low non-performing exposures rate** of 0.9%.

Significant events

- **CNP Assurances Holding³ created on 11 April 2023.** Wholly-owned by La Banque Postale, it leads the Group's insurance division comprising CNP Assurances SA (including its subsidiaries) and La Banque Postale's four legacy insurance subsidiaries (Property & Casualty, Death/Disability, Health and Advisory);
- **Birth of a European key player in conviction-based asset management and multi-specialist solutions⁴.** La Financière de l'Échiquier (LFDE) was acquired by LBP AM in July 2023 and will be merged with Tocqueville Finance at the end of March 2024. The partnership with Aegon AM was extended until 2035;
- **Planned closure of Ma French Bank (MFB), La Banque Postale's online bank.** The closure process is expected to take 12 to 18 months and is the subject of information-consultation procedures with employee representatives. Closure costs of €107 million were recognised in 2023, including business-related asset write-downs and restructuring provisions;
- La Banque Postale is the only bank to have an indicator to measure the impact of its activities on the environmental, societal and territorial dimensions. **The Impact Weighting Factor (IWF)**, which is innovative and was co-created with WWF France, was implemented in 2023 and covers 64% of the bank's financing activities⁵.

¹ 2022 figures restated following the application of IFRS 17 (see methodology in the Appendices section)

² RONE = Attributable net profit/Average risk-weighted assets capitalised at 14%

³ Named "CNP Assurances Group"

⁴ LBP AM offers a wide range of tailor-made solutions to meet the specific needs of customers in terms of financial and non-financial management objectives.

⁵ Adopted on Asset and Project Finance, Commercial Real Estate Finance and Retail Home Loan.

Recognition for the Group's community engagement and climate initiatives

- **Non-financial ratings:** La Banque Postale was rated World's Best Bank for ESG performance by Moody's ESG Solutions (74/100), AAA by MSCI, Best French bank and Third Best Bank Worldwide in the "Diversified banks" sector (out of a total of 329 rated banks) by Sustainalytics and A- by CDP with the "Leadership" level achieved for the fifth year running.
- **An enhanced range of socially responsible products to help individual customers support the just transition:** an impact home loan offer has been launched and the IWF has been added to the criteria for pricing decisions.
- **LBP-LBP AM-CNP Assurances €1 billion impact infrastructure debt fund to help drive the energy transition:** the fund will be financed by CNP Assurances, jointly allocated by La Banque Postale and LBP AM, and managed by LBP AM. It was launched in September 2023 and is classified as an "Article 8" fund for the application of the SFDR⁶. It will finance projects aligned with the Paris Agreement.

Stéphane Dedeyan, Chairman of La Banque Postale's Executive Board, said:

"In an economic and geopolitical environment that has become tougher over the last two years, La Banque Postale Group reported higher profits in 2023, led by the insurance businesses.

These results reflect our diversified bancassurance model and contrasting performances across the business lines. Our Insurance division enjoyed favourable market conditions, as well as from CNP Assurances' multi-partner model in France and international markets. Our Retail Banking business line's commercial activity and results were particularly affected by the rise in interest rates, while our CIB business line delivered a resilient performance against a backdrop of higher interest rates and increased competition. Finally, our Asset Management and Wealth Management business line enjoyed strong momentum, led by positive market effects and the contribution of La Financière de l'Échiquier (LFDE), which was consolidated for the first time in 2023.

The highlights of the year were two major strategic transactions. First was the creation of CNP Assurances Holding, the umbrella entity for all the insurance businesses, which completes the creation of our major bancassurance group. Second was LBP AM's acquisition of LFDE, creating a French and European key player in conviction-based asset management and multi-specialist solutions.

Thanks to the engagement of all our teams, we have also stepped up our commitment to sustainable finance, in particular with the roll-out of impact home loans and the launch of an impact infrastructure debt fund.

In 2024, we will pursue our strategic ambition and consolidate our leadership in sustainable finance. With the new management team in place since January, the challenge now is to accelerate the transformation of our banking model and manage our businesses more tightly. The aim is to build a more balanced and, consequently, a more sustainable model that will enable us to serve all our individual, corporate and institutional customers in a manner that exemplifies our purpose. Offering the best in bancassurance for everyone is what being a socially responsible bank is all about. And that's La Banque Postale's purpose."

⁶ Since Regulation (EU) 2019/2088 on the publication of sustainability information in the financial services sector (known as the Sustainable Finance Disclosure Regulation – SFDR) came into effect in March 2021, managers of sustainable investment funds have been subject to increased transparency obligations. Article 8 covers funds that promote social or environmental characteristics

Improved financial results

La Banque Postale Group's business performance and results

La Banque Postale reported higher profits for 2023, led by the insurance business. The banking businesses' results were more uneven in an uncertain economic and financial climate. They included non-recurring costs of €107 million relating to the planned closure of Ma French Bank (impairment of business-related assets and provisions for restructuring costs).

2023 consolidated income statement and business line income statement (under IFRS 17)

(in € millions)	2022 Group	2023 Group	Change vs. 2022	2022 business lines	2023 business lines	Change (vs. 2022) business lines	Change (like-for-like)

(1) RONE = Attributable net profit/Average risk-weighted assets capitalised at 14%.

The reported amounts for 2022 have been restated for the impact of applying IFRS 17 (see the methodology note on page 20).

Note: The business line income statement does not include items not arising in the normal course of business, and items that cannot be allocated directly to the business lines, such as ALM measures, the impact of the internal margin under IFRS 17 and certain expenses such as the Single Resolution Fund (SRF)/Fonds de Garantie des Dépôts et de Résolution (FGDR) contributions and management fees (see page 14 for more details).

La Banque Postale Group delivered a resilient business performance in 2023, against a backdrop of mixed conditions in the French and international markets.

With the French real estate market in decline due to higher interest rates, **home loan originations**⁷ contracted by 46% in 2023 to €8.1 billion. **Consumer finance**⁸ originations dipped by 1% to €2.6 billion in a retreating market. At €16.1 billion, **CIB originations** were down 31% in 2023, after the previous year's particularly dynamic performance.

Total **life insurance new money** in France and in international markets contracted by 5.7% to €28 billion, with the flow of money into unit-linked funds accounting for a high 49.1% of the total⁹.

Personal Risk/Protection earned premiums in France and in international markets amounted to €6.8 billion, a decline of 0.6%. Property & Casualty earned premiums totalled €982 million, up 9.5%.

Net banking income was 16.7% higher at €7,255 million.

⁷ Including Louvre Banque Privée

⁸ Personal loans and revolving lines of credit

⁹ Excluding transfers

Insurance division (CNP Assurances Group)¹⁰ revenue was up €1,313 million, led primarily by favourable market effects, optimised hedging positions, an improved claims experience and positive experience adjustments (IFRS 17) in Term Creditor Insurance in France. The banking businesses experienced a decline in performance, with the **net interest margin**¹⁰ (**NIM**) down by €348 million (17%), including the €76 million negative impact related to the home savings plan provision. Net interest margin was affected by the increase in interest rates on regulated savings deposits and the pressure on lending margins from application of the government cap on interest rates charged to borrowers (usury rate). **Fees and commissions**¹⁰ were more or less stable at €2.8 billion (up €10 million), reflecting the rate freeze decided for the whole of 2023.

Operating expenses were up by just 2.2% to €4,949 million, attesting to sound cost discipline in a period of high inflation and continued spending on business development and diversification projects. Excluding the non-recurring costs associated with the planned closure of Ma French Bank, underlying operating expenses were **stable**. This stability illustrates the operating cost efficiencies delivered by expenditure rationalisation measures that resulted in savings of €125 million in 2023 (related to forecast).

The positive jaw effect drove a 9.2-point improvement in the Group's cost-income ratio to 69.3%.

Gross operating profit amounted to €2,306 million, an increase of 67.6%.

In 2023, **cost of risk** amounted to €201 million, without any major increase in the loss ratio. This amount represents a low 11 basis points of outstanding loans (down 1 basis point vs. 2022) in a persistently uncertain environment. It reflects:

- An adjustment of statistical provisioning parameters;
- Updated general provisioning measures for both retail and corporate customers;
- Adjustments to the level of individual provisions on several exposures.

Non-performing exposures (NPEs) rose slightly to 0.9% of total exposures, due to a limited number of specific exposures being reclassified as Stage 3. At 35.8%, the coverage rate was slightly higher in 2023, due to the significant guarantees securing these exposures.

Attributable net profit was up 36.2% at €995 million.

RONE rose to 7.4% from 5.4% in 2022¹¹.

¹⁰ Like-for-life perimeter

¹¹ RONE = Attributable net profit/Average risk-weighted assets capitalised at 14%

A robust balance sheet structure

Total assets at 31 December 2023 amounted to €738 billion compared with €717 billion at 1 January 2023.

Key indicators

	1 January 2023 (IFRS 17)	31 Dec. 2023	Change
BALANCE SHEET			
Total assets (€bn)	717	738	+2.9%
CAPITAL			
Total regulatory own funds (€bn)	21.2	21.4	+0.9%
Common Equity Tier 1 (CET1) ratio	17.9%	18.1%	+0.2 pts
Leverage ratio	6.9%	7.3%	+0.4 pts
CNP Assurances Group SCR coverage ratio	232% ¹²	253%	+21 pts
LIQUIDITY			
Loan-to-deposit ratio	87.2%	88.4%	+1.2 pts
Liquidity coverage ratio (LCR)	147%	146%	-1 pt
Net stable funding ratio (NSFR)	129%	132%	+3 pts
Liquidity reserve (€bn)	46.9	54.8	+16.8%

The Group's financial structure is robust, with total regulatory own funds of €21.4 billion.

The first-time application of IFRS 17 at 1 January 2023 had a positive impact on La Banque Postale's **Common Equity Tier 1 (CET1)** ratio (up 3.2 points vs. end-2022 under IFRS 4).

At 31 December 2023, the CET1 ratio stood at 18.1% (up 0.2 points vs. 1 January 2023), representing headroom of 9.3 points above the regulatory requirement of 8.896%¹³.

The CET1 ratio includes the impact of the La Financière de l'Échiquier acquisition for 50 basis points. The planned closure of Ma French Bank had no net impact on the ratio.

The **Tier 1 ratio** stood at 19.7% and the **total capital ratio** was 22.2%.

Risk-weighted assets (RWA) contracted by €0.2 billion over the year to €96.3 billion at 31 December 2023.

The **leverage ratio**¹⁴ was stable (up 40 basis points vs. 1 January 2023) at 7.3%.

CNP Assurances Group's SCR coverage ratio was 253%, an increase of 21 points vs. 1 January 2023.

La Banque Postale Group's liquidity position was also very robust, with a **loan-to-deposit ratio** of 88.4% at end-2023 providing ample scope to fund business growth. Liquidity ratios were high once again and significantly above prudential requirements, with the **LCR** at 146% and the **NSFR** at 132% at 31 December 2023.

Liquidity reserves rose by 17% in the year to €54.8 billion, including €46.2 billion in high quality liquid assets (HQLA).

¹² Variation compared to the SCR rate pro forma at end-2022

¹³ SREP requirements applicable at 31 December 2023, excluding Pillar 2 Guidance (P2G)

¹⁴ Leverage ratio excluding 100% of savings centralised with Caisse des Dépôts

Customer deposits were resilient, dipping by just 1% vs. 31 December 2022 to €205.3 billion. The proportion of Retail Banking deposits was high, at 95% of total customer deposits. The 6.3% decline in Retail and Corporate demand deposits over the year was less than the contraction of the market which was down 12.2% year-on-year at end-December 2023. Retail deposits are very granular. Of total eligible deposits, 90% are insured¹⁵ under the *Fonds de Garantie des Dépôts et de Résolution* (FGDR) bank guarantee scheme.

At 31 December 2023, the credit ratings awarded to La Banque Postale by Fitch and Moody's were unchanged.

On 9 October 2023, Standard & Poor's Global Ratings (S&P) upgraded the rating of La Banque Postale's hybrid debt issues by two notches. The rating of these instruments is now determined on the basis of CNP Assurances' issuer credit rating (ICR), whereas it was previously based on La Banque Postale's stand-alone credit profile (SACP). S&P decided on this change in approach due to the size of CNP Assurances within La Banque Postale Group, expressing the view that the hybrid debt rating was supported by CNP Assurances' capital strengths and the greater capital fungibility between La Banque Postale and CNP Assurances.

Ratings and outlooks

	Fitch	Moody's	Standard & Poor's
Long-term ratings	A	A2	A+
Outlook	Stable	Stable	Negative
Last updated	6 December 2023	3 November 2023	22 February 2024
Short-term ratings	F1+	P1	A-1

In 2023, La Banque Postale continued its bond issuance strategy in order to optimise its capital structure in particular and increase the resources eligible for inclusion in its Minimum Requirement for own funds and Eligible Liabilities (MREL).

€750 million were raised in senior non-preferred debt and €1 billion in senior preferred debt.

In June 2023, La Banque Postale successfully launched its first issue in Swiss francs, comprising two Senior Preferred Notes tranches for a total of CHF 330 million (€337 million).

La Banque Postale also carried out two covered bond issues through La Banque Postale Home Loan SFH, the subsidiary set up to refinance home loans granted by the La Banque Postale network in France, for a total of €2.25 billion.

In early 2024, two new issues were carried out, covering 66% of the financing plan for the current year.

The first of these, carried out on 19 January 2024, was a €750 million covered bond issue by La Banque Postale Home Loan SFH, with a maturity of ten years, a final spread of MS +45 bps and a coupon of 3.125%. It is the inaugural issue under the Green and Social Bond Framework updated in 2023. The issue was nearly five times oversubscribed, with the final order book amounting to €3.6 billion. The issue proceeds will be used to finance acquisition, renovation and construction projects designed to reduce energy use in residential buildings. Like all issues carried out by La Banque Postale Home Loan SFH since the entry into force of the harmonised European framework for covered bonds (8 July 2022), this benefits from the ACPR Premium label (European High-Quality Covered Bond).

The second issue, on 5 February 2024, was a €750 million Senior Preferred Notes issue maturing in June 2030, with a final spread of MS +90 bps and a coupon of 3.50%. This issue will strengthen the Group's MREL ratio.

¹⁵Percentage of deposits eligible for a bank guarantee under France's deposit guarantee and resolution fund (FGDR) that are effectively insured

Results by business line

The reported amounts for 2022 have been restated for the impact of applying IFRS 17 (see the methodology note on page 20).

Business performance

Total outstanding loans amounted to €77.2 billion (up 2.0% vs. 31 December 2022), including €69.6 billion in **home loans** (up 1.3%). **Consumer finance loans**¹⁶ were 6.3% higher, at €6.1 billion.

With the property market in decline in 2023, due to higher interest rates, **home loan originations** contracted by 46.2% to €7.6 billion. In a retreating market, **consumer finance originations** were down by just 1.4% at €2.6 billion.

Overall, **on-balance sheet deposits** were down 0.9% year-on-year at €193 billion. **Regulated savings deposits were 8% higher**¹⁷ at €86.6 billion. *Livret A* deposits grew by 4.8% over the year to €66.7 billion.

Savings/Pensions business

Life insurance technical reserves rose by 1.0% to €284.2 billion, with linked liabilities representing 19.1% of the total, an increase of 2.5 points vs. 2022.

New money grew by 4.6% to €15.8 billion. The proportion of new money invested in unit-linked funds remained high at 37.4%, an increase of 5.0 points vs. 2022.

Personal Risk/Protection and Property & Casualty businesses

Personal Risk/Protection earned premiums in France amounted to €4.5 billion, a decline of 1.7%. Property & Casualty earned premiums were 14.2% higher, at €668 million.

The **non-life insurance penetration rate** among La Banque Postale's customers rose by 0.8 points over the year to 30.4%.

¹⁶ Personal loans and revolving lines of credit

¹⁷ Livret A, Livret d'Épargne Populaire (LEP) and Livret de Développement Durable et Solidaire (LDDS) passbook savings accounts

Other significant events

An impact home loan was launched in July 2023, adding to the Bank's socially responsible offers. The product features a subsidised interest rate depending on the type of property purchased, whether it is a new build or a property needing renovation. Following an initial Energy Performance Diagnostic (EPD), **since December 2023 projects are reviewed using the Impact Weighting Factor (IWF)**. The IWF is a proprietary application developed by La Banque Postale in conjunction with WWF France. It assigns an overall score to a project, based on its energy performance and its impact on biodiversity, taking into account the land take rate or criteria designed to assess local impact and the contribution to social inclusion.

The barriers to access the **very popular Cachemire 2 Série 2 life insurance policy** have been lifted with the introduction of the new Gestion Intégrale turnkey management option. The product is distributed by La Banque Postale and insured by CNP Assurances. In 2023, it attracted new money of €3.6 billion, of which 40% was invested in unit-linked funds. At 31 December 2023, it represented total technical reserves of €8.6 billion.

Financial results (vs. 2022)

Net banking income rose by 14.8%, reflecting active management of interest rate hedges, favourable market effects and positive experience adjustments (IFRS 17) in the insurance business, particularly in Term Creditor Insurance in France. Net interest margin (down €333 million or 25.9%) was affected by the increase in interest rates on regulated savings deposits and the pressure on lending margins from application of the government cap on interest rates charged to borrowers (usury rate).

Operating expenses were kept under control, rising by just 2.8%. Excluding the non-recurring costs associated with the planned closure of Ma French Bank, underlying operating expenses were **stable**.

The **cost-income ratio** improved by 9.8 points vs. 2022 to 83.5%, generating a positive jaw effect.

With no major loss events and a prudent provisioning policy, **cost of risk** fell 26.8% year on year to €90 million.

Attributable net profit was up 51.4% at €434 million.

International Bancassurance (16% of total business line net banking income)

(in € millions)	2022	2023	Change vs. 2022	Change vs. 2022 (like-for-like)

The reported amounts for 2022 have been restated for the impact of applying IFRS 17 (see the methodology note on page 20).

Business performance

In Europe excluding France

Savings/Pensions new money came to €5.4 billion (down 28.7%), with new money in Italy eroded by competition from Italian government bonds (BTP Italia). Net new money was affected by the increase in surrenders in Italy. Unit-linked sales represented a high proportion of Savings/Pensions new money, at 37.9%.

Personal Risk/Protection earned premiums contracted by 0.7% to €1.1 billion, while Property & Casualty earned premiums were 10.9% higher at €68 million.

In Latin America

Savings/Pensions new money contracted by 16.2% to €5.1 billion, with the flow of new money in Brazil affected by the shift in savings inflows towards bank products.

Personal Risk/Protection earned premiums rose by 3.9% to €1.2 billion, while Property & Casualty earned premiums were 1.6% lower at €246 million.

Financial results (vs. 2022)

Net banking income rose by 28.9%, led primarily by favourable market effects in Europe, which boosted the Savings/Pensions insurance service result and offset the effect of higher surrenders in Italy. Revenue from own-funds portfolios rose sharply in Latin America.

Expenses were stable (up 0.5%) thanks to strict cost discipline.

Attributable net profit was up 48.8% at €317 million.

Corporate and Investment Banking (11% of business line net banking income)

(in € millions)	2022	2023	Change vs. 2022	Change vs. 2022 (like-for-like)
Net banking income	915	906	-0.9%	-1.2%

Profit before tax	287	279	-2.8%	-1.7%
Attributable net profit	213	207	-2.8%	-1.3%

Business performance

Total **outstanding loans** amounted to €43.8 billion, **up 0.7%** from 31 December 2022. Outstanding loans to small and intermediate-sized enterprises (SMEs/ISEs) grew by a strong 13.2% over the year to €12.3 billion, while loans to Large Corporates were down 3.7% at €10.5 billion. The fastest growth concerned loans to Financial Institutions and Large Institutions, with total outstanding loans to these customers up 55.0% at €2.2 billion. Outstanding loans to the Local Public Sector were down 7.3% at €18.8 billion.

Total loan originations for the year amounted to €16.1 billion, a decrease of 30.9% vs. 2022 that was due to the high prior-year basis of comparison and a fall-off in demand in response to higher interest rates. However, lending to Local Public Sector customers remained substantial, with originations amounting to €9.4 billion in 2023.

Asset and project finance originations rose by 11.6%, led by financing for renewable energy projects. **Factoring originations** (in purchased receivables) were 11.4% higher, at €23.1 billion.

The contribution to net banking income of **Capital Markets activities** grew by 14% (up €15 million). The main growth drivers were the derivatives business and sales of EMTNs to retail customers. The **Debt Capital Markets (DCM)** business performed well, participating in 83 deals in 2023.

The **Transaction Banking** business was stable in an environment shaped by increased competition for deposits due to rising interest rates. Cash management services were the main growth driver.

Financial results (vs. 2022)

Net banking income was down 0.9%, reflecting narrower interest margins due to the application of the government cap on interest rates (usury rate) charged to Local Public Sector customers and the higher cost of refinancing.

Net banking income generated by the SME/ISE segment rose by 12%, led by Factoring (up 37%) and Structured finance (up 41%). Net banking income in the Large Corporates segment declined by 4% from the previous year's high level. Net banking income in the particularly buoyant Financial Institutions segment grew by 21%, reflecting strong momentum in Structured Finance, Asset and project finance (up 78%) and Transaction banking. The Local Public Sector segment contributed 22% of CIB's net banking income.

Expenses fell by 1.8% thanks to tight cost discipline.

The **cost of risk** began to return to normal, mainly due to provisions set aside for a certain number of specific exposures.

Attributable net profit came to €207 million, down 2.8%.

Wealth and Asset Management (5% of business line net banking income)

(in € millions)	2022	2023	Change vs. 2022	Change vs. 2022 (like-for-like)
Net banking income	303	388	+28.0%	+7.7%
Operating expenses	(201)	(250)	+24.2%	+9.1%

Wealth Management

La Banque Postale Group's private banking division, built around the Louvre Banque Privée centre of expertise, has been ramping up its operations since its commercial launch in January 2023, with assets under management up 8.8% (vs. end-December 2022) to €79.8 billion at end 2023.

Business performance

Louvre Banque Privée's **total assets under management**¹⁸ amounted to €18.0 billion at end-2023, up 20% on one year earlier. Louvre Banque Privée recorded **net new money of €2.1 billion**, representing a 10.2% year-on-year increase.

Life insurance business grew during the period, with technical reserves rising 26.5% to €13.7 billion at 31 December 2023 on the back of the €1.75 billion inflow of new money during the year (vs. €1 billion in 2022). The contribution of unit-linked products to new money remained high, at around 47%.

Assets under discretionary management rose by 20.3% to €10 billion. New money totalled €922 million (down 7% year-on-year).

Outstanding loans stood at €4.9 billion (up 2.6%), including €4.6 billion in **home loans** (up 2.9%).

During 2023, 18 new wealth management service desks were opened in post offices. As of 31 December 2023, Louvre Banque Privée products were distributed through 89 service desks and 27 private banking centres.

¹⁸ For Louvre Banque Privée only

Asset Management

Business performance

At 31 December 2023, LBP AM had **assets under management** of €67.8 billion, an increase of 21.5% vs. end-2022 that was primarily due to the consolidation of LFDE and a favourable market effect. With a long-standing commitment to socially-responsible investing (all of its open-ended funds have been labelled SRI since the end of 2020), LBP AM is a recognised player in sustainable finance. Its ambitious Net Zero commitment for 2030, one of the most challenging among participants in the international Net Zero Asset Managers Initiative (NZAMI), is for 80% of its total assets to be invested in companies that have defined their low-carbon pathway to achieve net zero emissions by 2050.

On a like-for-like basis for asset management, **net new money** was **positive at €2.4 billion**. The inclusion of assets managed by LFDE net of the exclusion of part of the assets managed on behalf of Malakoff Humanis following the sale of its 5% stake in LBP AM Holding contributed €5.1 billion. The market effect was a positive €4.6 billion.

In 2023, the financial and non-financial performances of LBP AM and Tocqueville were once again recognised:

- Tocqueville Finance was on the 2023 Alpha League Table podium for the second year running, being named in third place in 2023 and second place in 2022, out of more than 300 asset management companies;
- LBP AM and Tocqueville Finance won six prizes at the “Grands Prix des SICAV – Mieux Vivre Votre Argent” awards, making them the most garlanded companies at this year’s event;
- Two awards won by LBP AM and Tocqueville Finance at the “Trophées du Revenu 2023” event, including the Gold Trophy for the best “European Equities” range over a three-year period;
- At the L’Agefi 2023 Grands Prix awards, the “Sustainable Finance Prize” was awarded to LBP AM.

Financial results (vs. 2022)

Net banking income was up by 28%, reflecting favourable market effects, growth in assets under management (up 21.5% at LBP AM and up 20.0% at Louvre Banque Privée) and the consolidation of LFDE.

Expenses rose by 24.2%, due to the costs incurred to set up the private banking division and the transaction costs related to the LFDE acquisition.

Operating profit was up 35.4% thanks to a positive jaw effect.

Excluding the €60 million capital gain realised on the sale of interests in AEW Europe and Ostrum AM on 13 May 2022, underlying growth in **attributable net profit** was a healthy 6.5%.

Corporate Centre

The Corporate Centre is used to record income and expenses that cannot be allocated directly to La Banque Postale Group business lines, such as ALM measures, the internal margin effect under IFRS 17 and certain expenses such as the Single Resolution Fund (SRF)/*Fonds de Garantie des Dépôts et de Résolution* (FGDR) contributions and management fees. Income and expenses resulting from the application of the accounting standard on business combinations, which do not arise in the normal course of business, are also allocated to the Corporate Centre.

The results of the Corporate Centre are as follows:

<i>(in € millions)</i>	2022	2023	Change vs. 2022
Net banking loss	(689)	(707)	-19
<i>Insurance contract distribution costs</i>	<i>(683)</i>	<i>(707)</i>	<i>-25</i>
<i>Management fees</i>	<i>(25)</i>	<i>-</i>	<i>+25</i>
<i>ALM gains</i>	<i>19</i>	<i>-</i>	<i>-19</i>
Operating expenses and cost of risk	593	644	+51
<i>Insurance contract distribution costs</i>	<i>683</i>	<i>707</i>	<i>+25</i>
<i>SRF and FGDR contribution</i>	<i>(93)</i>	<i>(61)</i>	<i>-32</i>
Operating loss	(96)	(63)	+33
Pre-tax loss	(96)	(63)	+33
Attributable net loss	(105)	(47)	+58

The reported amounts for 2022 have been restated for the impact of applying IFRS 17 (see the methodology note on page 19).

The Corporate Centre includes the following items:

- **the reclassification of insurance contract distribution costs**, recognised as a deduction from net banking income in accordance with IFRS 17;
- a €61 million **reduction in contributions to the Single Resolution Fund (FRU) and the *Fonds de Garantie des Dépôts et de Résolution* (FGDR)** in 2023.

Outlook

The economic and geopolitical outlook for 2024 is still uncertain. Nevertheless, there are signs of improvement in some economic indicators, with inflation beginning to slow and interest rates levelling off after peaking at the end of 2023. Against this backdrop, La Banque Postale intends to pursue its strategic ambition and consolidate its leadership in impact finance. The strategy to accelerate the transformation of its banking model and build a more balanced and, consequently, a more sustainable model, is organised around three pillars:

- **Strengthen the organisation's fundamentals:** Retail Banking will review its customer model in order to increase value creation by customer segment and improve penetration rates. This will be achieved without abandoning its community values, including its commitment to the most vulnerable customers. It will accelerate deployment of the multi-channel model and continue to ramp up the use of digital technology. The aim is to make digital services accessible via all channels and to bring ever greater immediacy, proximity and fluidity to the customer experience. Lastly, it will step up its efforts to improve operating efficiency, by pursuing the cost-cutting plan and the planned closure of its mobile bank, Ma French Bank.
- **Develop growth and diversification drivers:** La Banque Postale will continue the business line diversification strategy launched several years ago, in order to build a more balanced and sustainable business model. It will pursue the community-based development of its corporate and investment banking arm, particularly among local public sector and corporate customers. It will also increase the value created by its private banking arm, Louvre Banque Privée. This will be achieved by developing its own wealth management franchise and lowering the barriers to access to the wealth engineering services offered by the private banking division. In addition, the Group will step up the development of LBP AM's asset management business. The aim is to consolidate its position as the European key player in conviction-based asset management and multi-specialist solutions¹⁹, with the integration of La Financière de l'Échiquier. At the same time, CNP Assurances' multi-partner development strategy will be pursued in the life and non-life insurance segments in France and in its international markets. Lastly, La Banque Postale will continue to increase business synergies within the major public financial hub.
- **Transform the model to exemplify La Banque Postale's purpose:** in order to consolidate its leadership in sustainable finance, and in line with its objective of achieving net zero emissions from its banking activities by 2040, La Banque Postale, which has been a mission-led company since 2022, will continue to implement its ambitious sustainability commitments. One of the main commitments is to deploy the Impact Weighting Factor and expand the range of bancassurance products and services that meet environmental, social and regional challenges. As well as improving the customer and co-worker experience, La Banque Postale will be carrying out a number of cultural transformation and co-worker engagement projects, to ensure that everyone plays a part in the organisation's performance and purpose.

¹⁹ LBP AM offers a wide range of tailor-made solutions to meet the specific needs of customers in terms of financial and non-financial management objectives

Alternative performance measures (APMs)

Article 223-1 of the AMF General Regulation

APM	DEFINITION/CALCULATION METHOD
Operating expenses	Sum of general operating expenses, net depreciation and amortisation, and impairment of property, plant and equipment and intangible assets.
Cost of risk (in basis points)	Average cost of commercial banking credit risk for the quarter divided by outstanding loans at the beginning of each quarter.
Cost-income ratio	Operating expenses divided by net banking income adjusted for doubtful interest.

Glossary

TERMS	DEFINITION
Bancassurance France	Business line comprising La Banque Postale's Retail Banking business, including professional customers, Ma French Bank, La Banque Postale Consumer Finance and CNP Assurances Group's activities in France.
International Bancassurance	Business line comprising CNP Assurances Group's international bancassurance businesses notably in Brazil, Italy and Ireland.
Corporate and Investment Banking	Business line comprising the corporate, local public sector, financial institutions and institutional customer segments, as well as the specialised financing and capital markets businesses.
Wealth and Asset Management	Business line comprising Louvre Banque Privée and the asset management subsidiaries (LBP AM, Tocqueville Finance and La Financière de l'Échiquier).
Business line NBI	Business line net banking income excluding the Corporate Centre segment.
Net banking income excluding PEL/CEL effect	Net banking income restated for increases or decreases in provisions for commitments related to home loan savings accounts and plans (PEL and CEL).
Operating expenses	Sum of general operating expenses, net depreciation and amortisation, and impairment of property, plant and equipment and intangible assets.
Cost of risk (in basis points)	The cost of risk is the sum of changes in the stock of provisions (allocation and recovery) of losses and recoveries, on the risks of all segments of the bank, in particular credit risk (receivables, securities, and off-balance sheet commitment).
Cost-income ratio	Ratio of the share of GNP (Net Banking Income) used to cover operating expenses (operating costs of the company). It is determined by dividing the management fees by the GNP.
Corporate Centre	The Corporate Centre is used to record income and expenses that cannot be allocated directly to the Group's business lines, such as ALM measures, the internal margin effect under IFRS 17 and certain expenses such as the Single Resolution Fund (SRF)/ <i>Fonds de Garantie des Dépôts et de Résolution</i> (FGDR) contributions and management fees (excluding since 2023). Income and expenses resulting from the application of the accounting standard on business combinations, which do not arise in the normal course of business, are also allocated to the Corporate Centre.
Common Equity Tier 1 (CET1)	Common Equity Tier 1 (Common Equity Tier 1 "CET 1"), as defined in Article 50 of the CRR, corresponds to the share capital and associated issue premiums, reserves, retained earnings and general bank risk funds minus regulatory deductions.
Not-performing exposures	All types of debt instruments (credits and bonds) with a risk of not being repaid in full. They are characterized by the presence of an unpaid amount of more than 90 days or a debtor risk making the recovery of this exposure unlikely outside the activation of guarantees and collateral.
Leverage Ratio	Ratio of Tier 1 capital to total leverage ratio exposure, which includes assets and off-balance sheet items regardless of their level of risk.
Liquidity coverage ratio (LCR)	The Basel Committee's final document on the LCR ratio dates from January 2013 (The Liquidity Coverage Ratio and liquidity risk monitoring tools). It was transposed in Europe in the CRR regulation, then in the EU Delegated Regulation 2015/61 of 10 October 2014. The principle of this ratio is to ensure that a bank survives a 30-day liquidity crisis through the availability of high-quality liquid assets. The ratio is calculated by dividing the sum of unencumbered, high-quality liquid assets by the liquidity requirement in a stress environment over a 30-day period. An LCR proxy is calculated daily.
Return on Normative Equity (RONE)	The Return On Equity is a financial ratio that measures the ability of a company or project to create profit compared to the capital made available. RWA capitalised at 14% calculated using the standard approach.
RWA	Risk-weighted assets, corresponding to the minimum required capital of a bank or other financial institution based on their level of risk. RWA are calculated based on a percentage of assets weighted by the corresponding risk exposure.
PPA	Purchase Price Allocation.
Effect of a change in scope of consolidation	Measures the change in revenue that is due to a change in the scope of consolidation from one year to the next due to the disposal or acquisition of a business.
Centralised savings	Amount collected by the banks on <i>Livret A</i> and <i>LDDS</i> regulated savings accounts, that is transferred to Caisse des Dépôts' savings fund used to finance social housing and urban policy initiatives.
SRF and FGDR contribution	Contributions by La Banque Postale to the EU Single Resolution Fund (SRF) and to the <i>Fonds de Garantie des Dépôts et de Résolution</i> (FGDR).
Sources of funds	Demand deposits and amounts held in on-balance sheet savings accounts.
LPS	Local Public Sector.

SCR	The SCR (Solvency Capital Requirement) represents the target capital needed to absorb the shock caused by a major risk (for example: an exceptional disaster, a shock on assets...). It can be calculated using a standard formula provided for in the Solvency II Directive and the European Commission Delegated Regulation of 10 October 2014 or a complete or partial internal model.
OTD	Originate to Distribute.

Methodology: Application of IFRS 17

General principles

IFRS 17 – Insurance Contracts is applicable retrospectively in accordance with IAS 8; it replaces IFRS 4 for annual reporting periods beginning on or after 1 January 2023. Comparative figures of 2022 and the year ended 31 December 2022 have therefore been presented on a pro forma basis in the consolidated financial statements of La Banque Postale Group. The transition impacts are recognised in equity using the three methods provided for in the standard:

- The Full Retrospective Approach (FRA), used for La Banque Postale Assurances IARD property & casualty policies and for certain cohorts of CNP Assurances contracts;
- The Fair Value Approach (FVA), whereby insurance contracts are measured at fair value at the transition date and in line with the approach adopted on creating the major state-owned financial group announced on 4 March 2020. This approach is used for the majority of insurance contracts written by CNP Assurances, particularly savings and pensions contracts;
- The Modified Retrospective Approach (MRA), a simplified version of the FRA used for La Banque Postale Prévoyance personal risk policies.

Effective from the IFRS 17 transition date on 1 January 2022, a new balance sheet indicator was created – “Insurance contract liabilities” – comprising the following three components: the Best Estimate (BE), based on the discounted present value of future cash flows arising from insurance contracts; the Contractual Service Margin (CSM), which represents profits not yet recognised in the income statement; and the Risk Adjustment (RA).

Presentation of the consolidated financial statements under IFRS 17

The presentation of the financial statements has been adjusted in line with the new presentation of insurance activities required under IFRS 17.

The main restatements applicable to the presentation of La Banque Postale Group's consolidated balance sheet are as follows:

- Cancellation of intangible insurance assets such as portfolios of insurance contracts and financial contracts with a discretionary participation feature previously recognised separately in the financial statements. These items are now included in the projected future cash flows from insurance contracts;
- Discontinuation of shadow accounting for deferred participation assets on the assets side and net deferred participation liabilities on the liabilities side;
- Discontinuation of the overlay approach permitted by IFRS 4 and chosen upon first-time application of IFRS 9. The effects of IFRS 9 now apply in full to the financial asset and liability portfolios of insurance entities;
- Measurement of equity instruments available for sale at fair value through other comprehensive income not reclassifiable to profit or loss;
- Investment property measured at fair value through profit or loss, in accordance with the option offered by IAS 40, as amended following the publication of IFRS 17, for hedges of savings and pensions contracts only.

The main restatements and reclassifications applicable to the presentation of La Banque Postale Group's income statement are as follows:

- Income and expenses relating to ceded insurance and reinsurance contracts are presented separately under net banking income (NBI);
- Expenses relating to the insurance contracts of insurance entities and those incurred by the Bank for insurance product distribution are presented by category as a deduction from NBI;
- The internal margin related to fees and commissions received by the Bank and expenses incurred by the Bank is reclassified to the “Corporate Centre” to give a clearer picture of the business lines within segment information;
- The cost of credit risk on financial investments of insurance activities is presented on a separate line as an insurance item in NBI.

Results conference call

Sophie Renaudie, Executive Board member, in charge of Finance and Strategy will present La Banque Postale Group's 2023 results during a webcast conference call in English followed by a Q&A session on 1 March 2024 at 3:00 p.m. (CET). The webcast will be available one hour after the end of the call on La Banque Postale's website (www.labanquepostale.com), in the "Investors" section.

La Banque Postale's Supervisory Board, meeting under the chairmanship of Philippe Wahl on 28 February 2024, examined the 2023 interim consolidated financial statements reviewed by the Statutory Auditors, approved by the Executive Board of La Banque Postale and presented by its Chairman Stéphane Dedeyan.

The Statutory Auditors have substantially completed their review of the consolidated financial statements for the period ended 31 December 2023. They will issue their review report further to completion of the specific verifications required by French law and regulations.

This press release constitutes La Banque Postale's financial information for 2023. More detailed information will be provided in the Universal Registration Document at 31 December 2023, which will be published on the bank's website www.labanquepostale.com.

ABOUT LA BANQUE POSTALE

La Banque Postale, together with its subsidiaries including CNP Assurances, is a major international bancassurance group, ranked 11th in the euro zone based on total assets. With its diversified business model and wide range of accessible products and services, La Banque Postale works with and partners 20 million customers in France – private individuals, businesses, and public sector players. A subsidiary of La Poste Groupe, La Banque Postale offers local banking services through 17,000 contact points, including 7,000 post offices, throughout France.

The new strategic plan, “La Banque Postale 2030”, is designed to support the Group's ambition to become France's favourite bank, thanks to an integrated, multi-channel bancassurance offer organised around its three brands: La Banque Postale, for routine banking, Ma French Bank, for fully-mobile banking, and Louvre Banque Privée, for private banking.

La Banque Postale is stepping up its diversification strategy and developing its specialist businesses, particularly in asset management, insurance, consumer credit and corporate and investment banking.

As a community bank, La Banque Postale is committed to shaping a “just transition” by embedding environmental and social impact objectives in its governance system. A mission-led company since March 2022 and a leader in impact finance, La Banque Postale aims to achieve net zero emissions by 2040. It holds a leading position in terms of non-financial ratings.
