State Road (SR) 933/NW 12 Avenue Roadway Project Begins December 5

From NW 19 Street to NW 29 Street

MIAMI, Fla. – The Florida Department of Transportation (FDOT) is scheduled to begin a roadway project the week of December 5 along SR 933/NW 12 Avenue from NW 19 Street to NW 29 Street. The work will last roughly eight months and will cost an estimated \$2.4 million.

The scope of work includes: installing traffic signal mast arms at the intersections of NW 19 Street and NW 24 Street; upgrading existing traffic signal features at the intersections of NW 20 Street and NW 28 Street; reconstructing pedestrian sidewalks, curb ramps, and curb and gutters; upgrading vehicular and pedestrian signals, signage, and pavement markings; removing/replacing existing light poles and/or installing new light poles with Light Emitting Diode (LED) lights; upgrading existing drainage structures; enhancing landscape; and repaving and restriping the roadway.

To build this project safely, it will be necessary to close travel lanes and sidewalks, and establish detours at times. Work will be done in stages to minimize construction related impacts. Drivers might experience delays traveling through the area and should seek alternate routes if possible. Please use caution when traveling through construction zones.

Please follow all posted signage and note that this schedule may change due to bad weather or other unexpected conditions.

For more information, please contact FDOT's Public Information Office at (305) 470-5349, or Construction Community Outreach Specialist Christian Gonzalez at (786) 837-4884 or csgonzalez@corradino.com. For additional information about this or other FDOT projects, please visit www.fdotmiamidade.com.

Drivers are encouraged to log on to www.fl511.com before they travel to get real-time traffic and lane closure information. The Florida Department of Transportation reminds motorists to always drive safely and avoid distractions while driving. Remember to put down cell phones. Florida law restricts motorists from using a wireless device in a school zone or an active construction zone.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities
