State Road (SR) 7/NW 2 Avenue at NW 183 Street/Miami Gardens Drive Nighttime Lane Closures Begin September 14

MIAMI, Fla. – Beginning Wednesday, September 14 through Thursday, September 15 2022, nighttime lane closures will occur at the intersection of SR 7/NW 2 Avenue and NW 183 Street/Miami Gardens Drive, between the hours of 9 p.m. and 5:30 a.m., for the installation of new traffic signal mast arms. Law enforcement will assist with directing traffic through the area.

During this nighttime operation, it will be necessary to close travel lanes (one direction at a time) for approximately five-ten minutes to allow crews to safely install the new mast arms. Drivers might experience delays traveling through the area and should seek alternate routes if possible.

Please use caution when traveling through construction zones and note that this schedule may change due to bad weather or other unexpected conditions.

This work is part of the ongoing FDOT roadway project along SR 7/NW 2 Avenue from NW 183 Street/Miami Gardens Drive to NW 188 Street. For more information, please contact FDOT's Public Information Office at (305) 470-5349, or Construction Community Outreach Specialist Christian Gonzalez at (786) 837-4884 or csgonzalez@corradino.com. For additional information about this or other FDOT projects, please visit www.fdotmiamidade.com.

Drivers are encouraged to log on to <u>www.fl511.com</u> before they travel to get real-time traffic and lane closure information. FDOT would like to remind drivers that wearing a safety belt is the single most effective way to protect people and reduce fatalities in motor vehicle crashes.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities
