ASX RELEASE

REX ACQUIRES BOEING 737 SIMULATOR

Rex today announced the acquisition of a Boeing 737 Full Flight Simulator (B737 FFS) from Boeing US Training & Flight Services L.L.C.

The B737 FFS satisfies the Qualification Level D requirements promulgated by the Civil Aviation Safety Authority (CASA) and will be used for type ratings, recurrent training and proficiency checks. It is also certified for Upset Recovery Training (UPRT) and can be configured for a number of variants of the B737, including B737-800, B737-700 and B737 Boeing Business Jet (BBJ).

The B737 FFS will continue to be housed at and maintained by Ansett Aviation Training (AAT) in Brisbane. It will later be co-located with the SAAB 340 FFS at Rex's Simulator Centre in Sydney when the latter is ready in 2 years' time. Rex will make the B737 FFS available for use by other carriers, within Australia and internationally, whenever spare slots are available.

The acquisition of the Boeing 737 FFS bolsters Rex's position in the domestic market by strengthening our training capabilities and demonstrates Rex's long-term commitment to domestic operations in Australia.

This announcement is authorised by Mr Lim Kim Hai, Executive Chairman, Regional Express Holdings Limited.

Rex is Australia's largest independent regional and domestic airline operating a fleet of 60 Saab 340 and six Boeing 737-800NG aircraft to 61 destinations throughout all states in Australia. In addition to the airline Rex, the Rex Group comprises wholly owned subsidiaries Pel-Air Aviation (air freight, aeromedical and charter operator) and the two pilot academies, Australian Airline Pilot Academy in Wagga Wagga and Ballarat.
