

## Release of the English AFC Website

As part of the AFC Group's efforts to expand its overseas business (in Singapore, Canada, etc.) and to strengthen its IR activities for overseas markets, we have released our new English website on March 23, 2021, for the benefit of overseas stakeholders and investors.

We will also start an English email service. We look forward to registration by those of you who are interested in the service. Similar to the Japanese version, the service is also compatible with smartphones and tablets.

We will continuously provide the latest information widely throughout the world.

### \* Notification on registration for the email service

If you would like to subscribe to the email service in Japanese, please visit the Japanese version of our website to register. If you prefer to receive the service in English, please register from the English website. If you would like to receive the service in both Japanese and English, please register from both the Japanese and English website.

Welcome to the [English website](#).

### [Overseas business development by the AFC Group]

We established AFA (Singapore) in 2013 in order to capture the demand of the aviation industry, which is a global growth industry, not only domestically but also internationally. Later in 2014, we established AFN (Canada), and in 2018, AFS (Singapore), currently having three overseas subsidiaries. Our group is now developing business in Seletar Airport, Singapore, and Langley Regional Airport, Canada.

### [Our overseas business]

#### Pilot training facilities

In order to meet the worldwide demand for pilot training, which is expected to increase further in the future, we have provided a finance lease for a pilot training facility at Seletar Airport, Singapore, and loans for flight simulators equipped in the facility.

#### Maintenance facilities

Responding to the growing international demand for helicopters, we have taken out a finance lease for a helicopter maintenance facility at Langley Airport in Canada. We also provide a financing lease for an engine maintenance facility at Singapore Seletar Airport in Singapore to capture aviation demand in Asia.

### [Opening of Singapore Office]

The Singapore office was opened in April 2020 for the purpose of strengthening the sales force in Singapore and Southeast Asia and gathering overseas information for the entire AFC Group. The office is currently staffed by an office manager and an advisor. If you have any inquiry, please feel free to contact us through the form on our website. \* [Inquiry form](#)

#### (Location of the Singapore Office)

Address: 20 Anson Road, #11-01 Twenty Anson,
