NOTE 1— ORGANIZATION, BUSINESS AND PRINCIPLES OF CONSOLIDATION

Basis of Presentation -

Business Description

First Choice Healthcare Solutions, Inc. ("FCHS," "the Company," "we," "our" or "us") is an integrated healthcare service platform which concentrates on treating patients in the following specialties: Orthopedics, Interventional Pain Medicine and related diagnostic and ancillary services in the Brevard County, Florida market.

Going Concern

The financial statements have been prepared on a going concern basis of presentation. During the year ended December 31, 2021, the Company experienced operating losses of \$7,454,192 and corresponding cash outflows from operations of \$5,614,803. This performance reflected challenges that confront a growing company in the healthcare market such as growing referral bases and negotiating favorable contract rates with third party payors for services rendered as well as the negative impact of the CEO indictment in November 2018. On June 15, 2020, the Company filed for bankruptcy protection under subchapter 5 of chapter 11 bankruptcy code in the Middle District of Florida, Orlando Division.

As a result of the CEO's alleged actions the Company has been subject to litigation which was stayed or settled in bankruptcy as well as incurred damage to its relationships with its employees and referral sources. The Company's ability to continue as a going concern is dependent upon the success of its continuing efforts to implement a business development plan to grow its revenue base, reduce operating costs, especially as related to physician services, and access additional sources of capital, and/or sell assets.

However, in order to execute the Company's business development plan, which there are no assurances can be achieved, the Company may need to raise additional funds through public or private equity offerings, debt financings, corporate collaborations or other means and potentially reduce operating expenditures. If the Company is unable to secure additional capital, it may have to curtail its business development initiatives and take additional measures to reduce costs in order to conserve its cash, thus raising substantial doubt about its ability to continue as a going concern more than one year from the date of issuance of the 2021 financial statements included in this filing.

Crane Creek Surgery Center

Effective October 1, 2015, the Company, through its wholly owned subsidiary, CCSC Holdings, Inc., acquired a 40% interest in Crane Creek Surgery Center ("Crane Creek"). In connection with the investment, the Company is entitled to 51% voting rights for all decisions that most significantly affect the economic performance of Crane Creek. The 40% equity interest acquired entitles the Company to 40% of the profit or loss of Crane Creek.

Non-controlling interests relate to the third-party ownership in a consolidated entity in which the Company has a controlling interest. For financial reporting purposes, the entity's assets, liabilities, and operations are consolidated with those of the Company, and the non-controlling interest in the entity is included in the Company's consolidated financial statements as a component of total equity.

On January 31, 2018 (effective January 1, 2018), the Company entered into a Membership Interest Purchase Agreement (the "Purchase Agreement") with HMA Blue Chip Investments, LLC ("Blue Chip"). Pursuant to the terms of the Purchase Agreement, the Company acquired from Blue Chip 24.05 Class B Units of membership interest in the Center for cash consideration of \$400,000 (the "Transaction"), representing a 25% ownership interest in the Center. As a result of the Transaction, the Company holds a 65% ownership interest in the Center.

As a result of the Purchase agreement described above, Crane Creek Surgical Partners, LLC became a majority-owned subsidiary of the Company effective January 1, 2018.

On February 29, 2020, the Company sold its interest in Crane Creek Surgical Partners, LLC.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Use of estimates

The preparation of the financial statements in conformity with United States generally accepted accounting principles ("U. S. GAAP") requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates. Significant estimates include the recoverability and useful lives of long-lived assets, provision against bad debt, the fair value of the Company's stock, and stock-based compensation. Actual results may differ from these estimates.

Patient Service Revenue

Our revenues generally relate to net patient fees received from various payers and patients themselves under contracts in which our performance obligations are to provide services to the patients. Revenues are recorded during the period our obligations to provide services are satisfied. The contractual relationships with patients, in most cases, also involve a third-party payer (Medicare, Medicaid, managed care health plans and commercial insurance companies, including plans offered through the health insurance exchanges) and the transaction prices for the services provided are dependent upon the terms provided by (Medicare and Medicaid) or negotiated with (managed care health plans and commercial insurance companies) the third-party payers. The payment arrangements with third-party payers for the services we provide to the related patients typically specify payments at amounts less than our standard charges and generally provide for payments based upon predetermined rates for services or discounted fee-for-service rates. Management continually reviews the contractual estimation process to consider and incorporate updates to laws and regulations and the frequent changes in managed care contractual terms resulting from contract renegotiations and renewals.

Rental Revenue

As of December 31, 2021, in addition to housing our corporate headquarters and First Choice Medical Group, the building leases 33,663 square feet of commercial office space to non-affiliated tenants. Our corporate headquarters and FCID Medical offices currently utilize 8,945 square feet on the fifth floor of Marina Towers; and First Choice Medical Group, including its MRI center and physical therapy center, currently occupies 35,920 square feet on the ground, first and second floors.

Concentrations of credit risk

The Company's financial instruments that are exposed to a concentration of customer risk and accounts receivable risk. Occasionally, the Company's cash and cash equivalents in interest-bearing accounts may exceed FDIC insurance limits. The financial stability of these institutions is periodically reviewed by senior management. Revenues and accounts receivable are concentrated between two major payers with the approximate risk level outlined below.

| Revenue Concentration: | | |
|------------------------|---------------|-------------|
| | Year ended De | ecember 31, |
| | 2021 | 2010 |
| Government Payors | 30.7 % | 30.2 % |
| Commercial Payor 1 | 24.0 % | 14.5 % |

Concentration of Risk

Receivable Concentration:

| | December 31, | December 31, December 31, |
|--------------------|--------------|---------------------------|
| | 2021 | 2020 |
| Government Payors | 11.8 % | 22.5 % |
| Commercial Payor 1 | 27.2 % | 16.5 % |

Accounts receivables

Accounts receivables are carried at their estimated collectible amounts net of doubtful accounts. The Company analyzes its history and identifies trends for each major payer sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for bad debts. Management regularly reviews data about these major payer sources of revenue in evaluating the sufficiency of the contractual allowances.

Patient receivables are accounts receivables from services provided to patients who have third-party coverage. The Company analyzes contractually due amounts and provides a provision for bad debts, if necessary. The Company records a provision for bad debts in the period of service on the basis of past experience or when indications are the patients are unable or unwilling to pay the portion of their bill for which they are responsible. The difference between the standard rates (or the discounted rates if negotiated) and the amounts actually collected after all reasonable collection efforts have been exhausted, is charged off against the allowance for doubtful accounts.

Rental receivables from rental activities are periodically evaluated for collectability in determining the appropriate allowance for doubtful account and provision of bad debts.

Patents

Intangible assets with finite lives are amortized over their estimated useful lives. Intangible assets with indefinite lives are not amortized but are tested for impairment annually. The Company's intangible assets with finite lives are patent costs, which are amortized over their economic or legal life, whichever is shorter.

Net loss per share

Basic net loss per common share is based upon the weighted-average number of common shares outstanding. Diluted net income per common share is based on the weighted-average number of common shares outstanding and potentially dilutive common shares outstanding and computed as follows:

| | Year ended December 31, | | | | | |
|---|-------------------------|----|-------------|--|--|--|
| | 2021 | | 2020 | | | |
| Numerator: | | | | | | |
| Net loss attributable to First Choice Healthcare Solutions, Inc. | \$ (7,454,192) | \$ | (6,550,434) | | | |
| | | | | | | |
| Denominator: | | | | | | |

| Weighted-average common shares, basic | 32,810,043 | 32,958,288 |
|---|----------------|----------------|
| Weighted-average common shares, diluted | 32,810,043 | 32,958,288 |
| | | |
| Basic: | \$ (0.23) | \$ (0.20) |
| Diluted: | \$ (0.23) | \$ (0.20) |

The computation excludes potentially dilutive securities when their inclusion would be anti-dilutive, or if their exercise prices were greater than the average market price of the common stock during the period.

Stock-based compensation

The Company measures the cost of services received in exchange for an award of equity instruments based on the fair value of the award. For employees and directors, the fair value of the award is measured on the grant date and for non-employees, the fair value of the award is generally re-measured on vesting dates and interim financial reporting dates until the service period is complete. The fair value amount is then recognized over the period during which services are required to be provided in exchange for the award, usually the vesting period. Stock-based compensation expense is recorded by the Company in the same expense classifications in the consolidated statements of operations, as if such amounts were paid in cash. Upon exercise of a common stock equivalent, the Company issues new shares of common stock out of its authorized shares.

Segment information

Operating segments are identified as components of an enterprise about which separate discrete financial information is available for evaluation by the chief operating decision maker, or decision-making group, in making decisions how to allocate resources and assess performance. In 2019, the Company determined it operated in a single segment healthcare service.

Long-lived assets

The Company follows a "primary asset" approach to determine the cash flow estimation period for a group of assets and liabilities that represents the unit of accounting for a long-lived asset to be held and used. Long-lived assets to be held and used are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The carrying amount of a long-lived asset is not recoverable if it exceeds the sum of the undiscounted cash flows expected to result from the use and eventual disposition of the asset. Longlived assets to be disposed of are reported at the lower of carrying amount or fair value less cost to sell.

Property and equipment are stated at cost. When retired or otherwise disposed, the related carrying value and accumulated depreciation are removed from the respective accounts and the net difference less any amount realized from disposition, is reflected in earnings. For financial statement purposes, property and equipment are recorded at cost and depreciated using the straight-line method over their estimated useful lives of 5 to 15 years.

The Company evaluates the recoverability of long-lived assets based upon forecasted undiscounted cash flows. Should impairment in value be indicated, the carrying value of intangible assets will be adjusted, based on estimates of future discounted cash flows resulting from the use and ultimate disposition of the asset. Assets to be disposed of are reported at the lower of the carrying amount or the fair value less costs to sell.

On December 31, 2019, the Company management performed an evaluation of its goodwill and other acquired intangible assets for purposes of determining the implied fair value of the assets. As a result of the evaluation the Company determined book value of its goodwill in connection with the consolidation of Crane Creek did exceeded its fair value at as a result wrote off the goodwill for the years ended December 31, 2019.

Income taxes

The Company recognizes deferred tax assets and liabilities for the expected future tax consequences of items that have been included or excluded in the financial statements or tax returns. Deferred tax assets and liabilities are determined on the basis of the difference between the tax basis of assets and liabilities and their respective financial reporting amounts ("temporary differences") at enacted tax rates in effect for the years in which the temporary differences are expected to reverse.

The Company follows a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return.

Management has evaluated and concluded that there were no material uncertain tax positions requiring recognition in the Company's consolidated financial statements as of December 31, 2021 and 2020. The Company does not expect any significant changes in its unrecognized tax benefits within twelve months of the reporting date.

Treasury Stock

The Company uses the cost method when it purchases its own common stock as treasury shares and displays treasury stock as a reduction of shareholders' equity.

Fair Value of Financial Instruments

Accounting Standards Codification subtopic 825-10, Financial Instruments ("ASC 825-10") requires disclosure of the fair value of certain financial instruments. ASC 825-10 defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required or permitted to be recorded at fair value, the Company considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance. ASC 825-10 establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 825-10 establishes three levels of inputs that may be used to measure fair value:

- Level 1 Quoted prices in active markets for identical assets or liabilities
- Level 2 Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets with insufficient volume or infrequent transactions (fewer active markets); or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 Unobservable inputs to the valuation methodology that are significant to the measurement of fair value of assets or liabilities.

To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement is disclosed and is determined based on the lowest level input that is significant to the fair value measurement.

The carrying value of the Company's cash, accounts receivable, accounts payable, short-term borrowings (including lines of credit and notes payable), and other current assets and liabilities approximate fair value because of their short-term maturity.

As of December 31, 2021, and 2020, the Company did not have any items that would be classified as level 1, 2 or 3 disclosures.

Reclassifications

Certain reclassifications have been made to prior year data to conform to the current year's presentation. These reclassifications had no impact on reported income or losses.

Recent accounting pronouncements

In February 2016, the FASB issued ASU 2016-02—Leases (Topic 842), requiring lessees to recognize a right-of-use asset and a lease liability on the balance sheet for all leases except for short-term leases. For lessees, leases will continue to be classified as either operating or finance leases in the income statement. The effective date of the new standard for public companies is for fiscal years beginning after December 15, 2018 and interim periods within those fiscal years. Early adoption is permitted. The new standard must be adopted using a modified retrospective transition and requires application of the new guidance at the beginning of the earliest comparative period presented. The Company is evaluating the effect that the updated standard will have on its financial statements and related disclosures. In the first quarter 2019, the Company recorded right to use assets of approximately \$10.8 million, a lease liability of approximately \$11.6 million and the elimination of approximately \$0.8 million of deferred rent.

In August 2016, the FASB issued ASU 2016-15—Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments. ASU 2016-15 provides guidance for eight specific cash flow issues with respect to how cash receipts and cash payments are classified in the statements of cash flows, with the objective of reducing diversity in practice. The effective date for ASU 2016-15 is for annual periods beginning after December 15, 2017 and interim periods within those fiscal years. Early adoption is permitted. The Company adopted ASU 2016-15 in the first quarter of 2018 and such adoption did not have a material impact on the Company.

In June 2018, the FASB issued ASU 2018-07, Stock Compensation (Topic 718); Improvements to Non-employer Share-Based Payment Accounting. The amendment aligns the accounting for share based payments issued to employees and non-employees. The amendments in this update are effective for public companies for annual periods beginning after December 15, 2018, including interim periods within those periods. The Company is currently reviewing the impact of the adoption of ASU 2018-07 on its consolidated financial statements.

Subsequent events

The Company evaluates events that have occurred after the balance sheet date but before the financial statements are issued. Based upon the evaluation, the Company did not identify any recognized or non-recognized subsequent events that would have required adjustment or disclosure in the consolidated financial statements, except as disclosed.

NOTE 3 – LIQUIDITY

During the year ended December 31, 2021, the Company experienced operating losses of \$7,454,1925 and corresponding cash outflows from operations of \$5,614,803. This performance reflected challenges that confront a growing company in the healthcare market such as growing referral bases and negotiating favorable contract rates with third party payors for services rendered as well as the negative impact of the CEO indictment in November 2018. As a result of the CEO's alleged actions the Company has been subject to litigation as well as incurred damage to its relationships with its employees and referral sources. The Company's ability to continue as a going concern is dependent upon the success of its continuing efforts to implement a business development plan to grow its revenue base, reduce operating costs, especially as related to physician services, and access additional sources of capital, and/or sell assets.

However, in order to execute the Company's business development plan, which there are no assurances can be achieved, the Company may need to raise additional funds through public or private equity offerings, debt financings, corporate collaborations or other means and potentially reduce operating expenditures. If the Company is unable to secure additional capital, it may have to curtail its business development initiatives and take additional measures to reduce costs in order to conserve its cash, thus raising substantial doubt about its ability to continue as a going concern more than one year from the date of issuance of the 2020 financial statements included in this filing.

NOTE 4 — NOTES PAYABLE

Line of credit, CT Capital

FCMG - Brevard entered into a Loan and Security Agreement (the "Loan Agreement") with CT Capital, Ltd., d/b/a CT Capital, LP, a Florida limited liability partnership (the "Lender"). Under the Loan Agreement, the Lender committed to make an accounts receivable line of credit in the maximum aggregate amount of \$2,500,000 to FCMG - Brevard with an interest rate of 6% per annum (the "Loan"). Interest is due and payable monthly. The Lender may convert up to \$2,000,000 of the outstanding principal amount or interest on the Loan into common stock of the Company at a conversion price of \$0.75 per share.

On March 1, 2018, the Loan Agreement with CT Capital, Ltd. ("Lender") was amended to extend the Maturity Date to December 31, 2020 and further provide that neither the Company nor Lender shall effectuate any conversion of the Loan to the extent that after giving effect to any such conversion, the Lender would beneficially own in excess of 9.99% of the number of shares of our Company's shares of Common Stock outstanding immediately after giving effect to the issuance of shares of Common Stock issuable upon conversion of the Loan by the Lender.

As of December 31, 2021, the outstanding balance was zero as result of the Company's June 14, 2020 bankruptcy filing. On December 31, 2020, the outstanding balance was \$1,100,000 and the remaining principal amount the Lender can convert into common stock is \$600,000, subject to the limitations set forth above. The balance available on the line of credit is zero as a result of the Company's June 15, 2020 bankruptcy filing.

In May of 2020 the Company took three separate Payroll Protection loans totaling \$1,386,580 the loans. Each loan will either be forgiven or paid back over five years at one percent interest.

The Warrant contains full rachet anti-dilution rights, including without limitation not being subject to a reverse stock split until exercised.

NOTE 5 — CAPITAL STOCK

Preferred stock

The Company is authorized to issue 1,000,000 shares \$0.01 par value preferred stock. As of December 31, 2020, and 2019, none was issued and outstanding.

Common stock

During the year ended December 31, 2021 the Company did not issue any stock. During the year ended December 31, 2020, the Company issued an aggregate of 148,245 shares of its common stock to officers, employees, and service providers.

In the first quarter 2018, the Company and Steward Health Care System LLC ("Steward") entered into a Stock Purchase Agreement (the "Purchase Agreement"). Pursuant to the terms of the Purchase Agreement, the Company issued five (5) million shares of common stock in exchange for cash proceeds of \$7.5 million.

The Company agreed that, upon demand from Steward after the six month anniversary of the Closing Date, the Company shall use its reasonable best efforts to prepare and file with the SEC, a registration statement and such other documents as may be necessary in the advice of counsel for the Company, and use its commercially reasonable efforts to have such registration statement declared effective in order to comply with the provisions of the Securities Act of 1933, as amended, so as to permit the registered resale of the common shares.

In addition, the Company has agreed that, on or after April 1, 2022, upon ninety (90) days prior written notice, Steward may sell fifty percent (50%) of the common stock to the Company one-time during each of the following two (2) calendar years thereafter at a price equal to the purchase price under the Purchase Agreement pro-rated for the number of shares being purchased. Notwithstanding the foregoing, the put option shall automatically terminate and be of no further force and effect in the event the market capitalization (as defined in the Purchase Agreement) of the Company is equal to or more than \$100,000,000 at any time after the date of the Purchase Agreement. As part of the confirmed bankruptcy plan filed in February of 2021 the Company reached a settlement with Steward Healthcare to eliminate Steward's ability to sell the common stock back to the Company.

The Company has classified the net proceeds from the sale of the Company's common stock as temporary equity, until the final bankruptcy order is issued. On April 27, 2022 the bankruptcy court approved the Company's exit from bankruptcy.

Litigations, Claims and Assessments

The Company is involved in lawsuits and legal proceedings which arise in the ordinary course of business including potential disputes with patients, former employees, and investors. The following will summarize the current status of each active case.

On or about April 3, 2018, Beachside Physical Therapy, Inc. and its owner, Optimis Corp. (collectively, "Beachside") instituted an action against among others, the Company's subsidiary, First Choice Medical Group of Brevard, Inc. ("FCMG") and Chris Romandetti, the Company's former CEO, as a Counterclaim Defendant in ongoing litigation commenced by the former owner of Beachside ("Ryland") and his wife in October 2016 against Beachside. The action was commenced in the Circuit Court of the Eighteen Judicial Circuit in and for Brevard County, Florida, and seeks damages from FCMG for tortious interference of the restrictive covenants of the Stock Purchase Agreement dated as of December 30, 2011 between the Plaintiff and Beachside, together with temporary and permanent injunctive relief to prevent further breaches of the restrictive covenants. Ryland has been employed by FCMG as Director of Physical Therapy since February 28, 2017. The Company has settled the case in bankruptcy court.

On February 1, 2019 Kris Romandetti, the former CEO's wife and Leading Edge Medical Consulting, LLC a company controlled by Kris Romandetti filed suit against the Company. The action was commenced in the Circuit Court of the Eighteen Judicial Circuit in and for Brevard County, Florida alleging (i) breach of contract, (ii) unpaid wages, (iii) unjust enrichment, and (iv) tortious interference for failure to pay money in connection with a separation of employment from First Choice. Ms. Romandetti and Leading Edge Medical Consulting, LLC are seeking \$278,000 plus incurred legal fees.

On March 28, 2019, the Company filed a motion to dismiss. On April 26, 2019, the court set a mandatory mediation hearing on February 20, 2020 and set the trial date for December 20, 2020 along with various pretrial hearings beginning in May 2020. Ms. Romandetti and the Company have had preliminary conversations regarding a settlement but are not close to coming to agreement. The case was stayed in bankruptcy court.

On March 29, 2019, a putative class action was filed by plaintiff MAZ Partners LP ("MAZ") against the Company and former Company Chief Executive Officer Christian Romandetti ("Romandetti") in the U.S. District Court for the Middle District of Florida. MAZ alleges it purchased 250,859 shares of the Company's common stock. The action seeks certification of a class of persons who purchased the Company's common stock between April 1, 2014, and November 14, 2018, and seeks to recover damages against the Company for alleged violations of Section 10(b) of the Securities Exchange Act of 1934 in connection with alleged materially misleading statements made to the investing public. The case was settled in bankruptcy court.

On August 16, 2019, Donovan Davis, Jr. filed a lawsuit against First Choice Healthcare Solutions Inc. The action was commenced in the Circuit Court of the Eighteen Judicial Circuit in and for Brevard County, Florida alleging unjust enrichment and conspiring to aid in fraud and theft of Mr. Davis's possessions. Mr. Davis. On September 5, 2019, the Company filed a motion to dismiss the complaint. On October 22, 2019 Donovan Davis filed an amended complaint. The Company filed a motion to dismiss on November 1, 2019. The case was stayed in bankruptcy court.

Guarantees

Mr. Christian Romandetti, Sr. the Company's former CEO is a guarantor on the master lease of the property located at 709 South Harbor City Blvd and is also a guarantor on the Company's note with CT Capital.
