In order to fund the start-up of operations during the period ended March 31, 2022, management plans to enter into several financing transactions and try to raise funds. The continuation of the Company as a going concern is dependent upon its ability to generating profitable operations that produce positive cash flows. If the Company is not successful, it may be forced to raise additional debt or equity financing.

There can be no assurance that the Company will be able to achieve its business plans, raise any more required capital or secure the financing necessary to achieve its current operating plan.
