Important information concerning this presentation

This presentation, prepared by Nexa Resources S.A. (herein referred to as the "Company" or "Nexa"), is solely for informational purposes. Disclosure of this presentation, its contents, extracts or abstracts to third parties is not authorized without express and prior written consent from the Company.

Certain statements disclosed herein are "forward-looking statements" in which statements contained herein that the information is not clearly historical in nature are forward-looking, and the words "anticipate," "believe," "continues," "expect," "estimate," "intend," "strategy," "project" and similar expressions and future or conditional verbs such as "will," "would," "should," "could," "might," "can," "may," or similar expressions are generally intended to identify forward-looking such statements. These forward-looking statements speak only as of the date hereof and are based on the Company's current plans and expectations and are subject to a number of known and unknown uncertainties and risks, many of which are beyond the Company's control. As a consequence, current plans, anticipated actions, and future financial position and results of operations may differ significantly from those expressed in any forward-looking statements in the presentation. You are cautioned not to unduly rely on such forward-looking statements when evaluating the information presented herein and we do not intend to update any of these forward-looking statements.

This presentation includes the Company's unaudited non-IFRS measures, including: adjusted EBITDA; net debt; working capital; cash cost net of by-products. The Company presents non-IFRS measures when we due to the belief that the additional information is useful and meaningful to investors. Non-IFRS measures do not have any standardized meaning and are therefore unlikely to be comparable to similar measures presented by other companies. The presentation of non-IFRS measures is not intended to be a substitute for, and should not be considered in isolation from, the financial measures reported in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board.

The information and opinions contained herein should not be construed as a recommendation to potential investors and no investment decision should be based on the truthfulness, timeliness or completeness of such information or opinions. None of the advisors to the Company or any parties related to them or their representatives shall be liable for any losses that may result from the use or contents of this presentation.

This presentation also contains information concerning the Company's industry that are based on industry publications, surveys and forecasts. The information contained herein involves and assumes a number of assumptions and limitations, and the Company did not independently verified the accuracy or completeness of such information.

All dollar amounts referenced in this presentation, unless otherwise indicated, are expressed in United States dollars. The contents hereof should not be construed as investment, legal, tax or other advice and you should consult your own advisers as to legal, business, tax and other related matters concerning an investment in the Company. The Company is not acting on your behalf and does not regard you as a customer or a client. It will not be responsible to you for providing protections afforded to clients or for advising you on the relevant transaction. There is no obligation to update the information included in this presentation.

Certain information contained in this presentation with respect to the Company's Morro Agudo, Shalipayco, Magistral and Florida Canyon Zinc projects are preliminary economic assessments within the meaning of NI 43-101 (as defined herein). Such preliminary economic assessments are preliminary in nature, including certain information as of inferred mineral resources that are too speculative geologically to have the economic considerations applied to them that would enable them to be categorized as mineral reserves, and there is no certainty that such preliminary economic assessments will be realized. The bases for such preliminary economic assessments (including certain qualifications and assumptions) are described in the Company's documents filed with the SEC and in each of the provinces and territories of Canada.

Nexa | A resilient performance in a challenging scenario

Effective response to COVID-19. Crisis committee remains in place

- The health and safety of our people remain our top priority
- Nexa recorded the 3rd highest Adjusted EBITDA in its history
- Disciplined cost control and capital allocation
- Aripuanã on track
- Strong balance sheet and continued deleverage process

Attractive project portfolio in different stages of maturity

ESTIMATED TIMELINE

Note: Estimated timeline as of April 2021. ¹Annual zinc equivalent production; ²In 2021, we expect to advance further detailed engineering and optimization opportunities to mitigate the risk of project execution, before consideration of project approval. ³Capital allocation strategy in response to COVID-19; ⁴ FEL3 resumed 1Q21, as expected.

Aripuanã | Project

Competitive cash cost position with attractive returns

Project overview

- 11 years LOM¹ with excellent potential to extend mine life beyond 20 years² based on current inferred resources and exploration drilling campaigns (i.e., the current Babaçu drilling activities indicate room for further resource expansion)
- Zinc equivalent³ average production¹ 119kt/yr
- Sustainable project:
 - √ Tailings disposal: 50% dry stacks and 50% cement paste backfill
 - √ 100% process water recirculation, with minimal discharge to the environment

Highlights

- Estimated start-up early 2022
- Estimated project CAPEX of US\$547 million (US\$353 million invested since the project execution approval)
- Status (March, 2021):
 - 79% overall physical progress

- 97% of procurement completed
- 90% of long lead equipment delivered to site
- In March, we initiated stoping (trial mining) activities at Arex. We have 250 employees working on mine development at Aripuana

¹Based only on current mineral reserves; ²Based on significant currently inferred mineral resources and Nexa's good track record of conversion to indicated resources; ³Consolidated mining production in kton of zinc equivalent calculated by converting copper, lead, silver and gold contents to a zinc equivalent grade based on consensus LT forecasts

1Q21 Overview

1Q21 Consolidated results

Mining segment

Smelting segment

Liquidity and Indebtedness

Nexa | Disciplined capital allocation

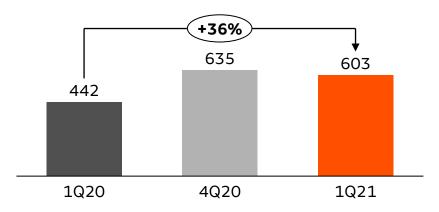

Cash Flow | 1Q21

1Q21 Consolidated results

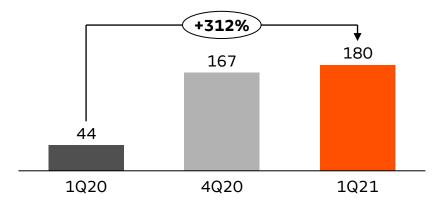

Net Revenue¹

Net revenue in 1Q21 increased by 36% vs 1Q20, mainly driven by higher zinc and copper prices.

Compared to 4Q20, net revenue decreased by 5% due to lower volumes, partially offset by the increase in prices.

Adjusted EBITDA

Adj. EBITDA in 1Q21 was positively affected by higher prices; lower costs and by-products contribution. The BRL devaluation vs USD also contributed to this performance.

Compared to 4Q20, Adj. EBITDA increased by 8% driven by higher metal prices and lower costs.

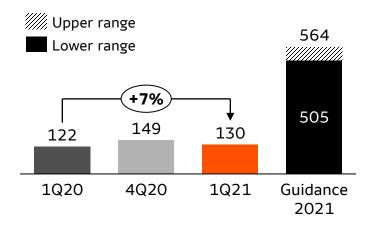

⁽¹⁾ Includes intersegment revenues

Mining segment

Zinc Equivalent

(000 ton)

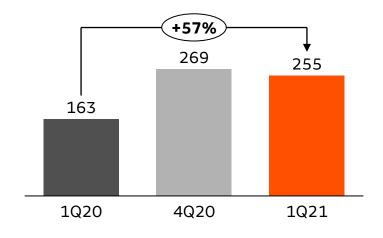

1Q21 zinc equivalent production was 7% higher driven by Cerro Lindo and El Porvenir.

Zinc production was relatively **flat** y-o-y while **lead** and **copper** production **increased** by 10.5% and 12.6%, respectively.

Net Revenue

(US\$ million)

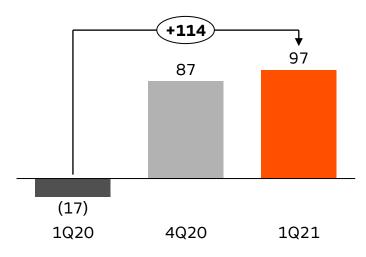

1Q21 net revenue was up 57% mainly driven by higher metal prices in addition to volumes increase.

Compared to 4Q20 net revenue decreased by 5% due to lower mining production, partially offset by higher prices.

Adjusted EBITDA

(US\$ million)

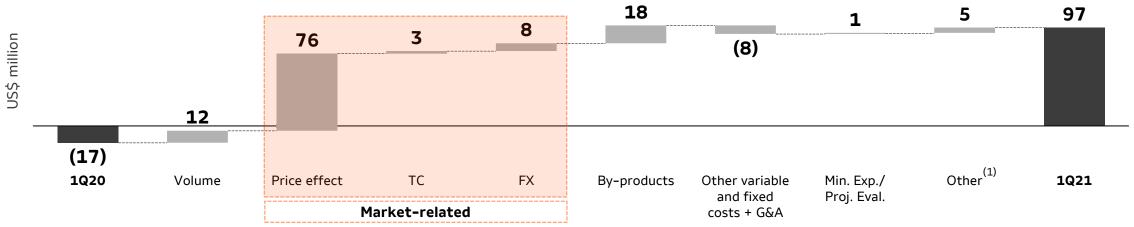

1Q21 Adj. EBITDA was US\$97 million, strongly recovering from 1Q20.

Compared to 4020 Adj. EBITDA increased by 11.6% due to higher prices and lower costs.

Mining segment

1Q21 results positively impacted mainly by higher LME prices and lower operating costs and corporate expenses

Comments

- Market related factors had a positive variation impact of US\$105 million.
- Higher LME prices.
- Lower operating costs and corporate expenses.
- Positive foreign exchange effect.
- Cash cost in 1Q21 decreased 54% y-o-y to US\$0.24/lb.

(1) Includes: Other income and expenses 1Q20 1Q21 M Guidance 2021

Smelting segment

1Q21 results positively impacted mainly by higher prices and TCs, and BRL devaluation

Metal Sales (Zinc metal + Oxide) (000 ton)

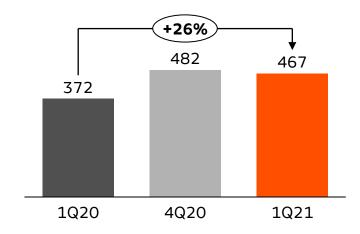

1Q21 metal sales up 2% from 1Q21, mainly driven by solid demand in our home markets.

Compared to 4Q20 metal sales were 8% lower due to sales seasonality.

Net Revenue

(US\$ million)

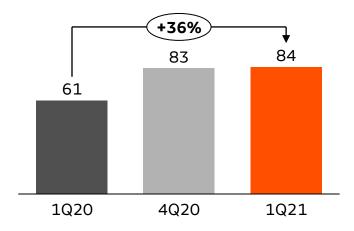

1Q21 net revenue was 26% higher y-o-y, following higher average zinc prices.

Compared to 4Q20 net revenue was down 3% also due to lower volumes.

Adjusted EBITDA

(US\$ million)

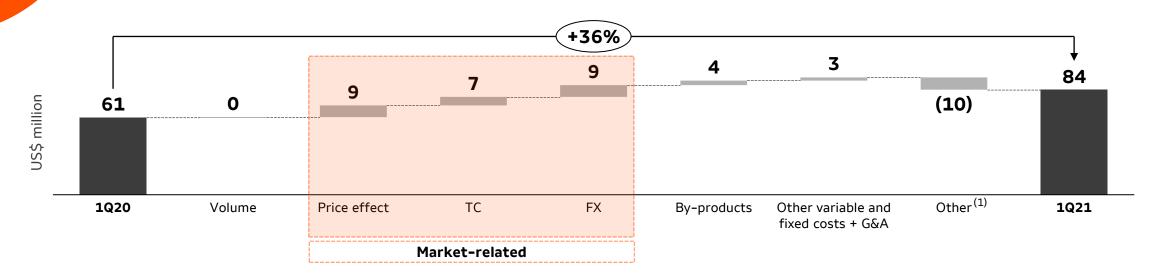

1Q21 EBITDA was up 36% y-o-y driven by higher prices and TCs, the BRL devaluation and increase in by-product contribution.

Compared to 4Q20 EBITDA was relatively flat (up 1%).

Smelting segment

1Q21 results positively impacted by higher metal price levels (zinc and by-products)

Comments

- Market related factors such as prices, TCs and FX had a positive variation impact of US\$25 million.
- **By-products** had a positive variation of US\$4 million.
- Expenses impacted negatively by environmental provision in Três Marias (US\$6 million).
- Cash cost in 1Q21 of US\$1.00/lb compared to US\$0.80/lb in 1Q20.

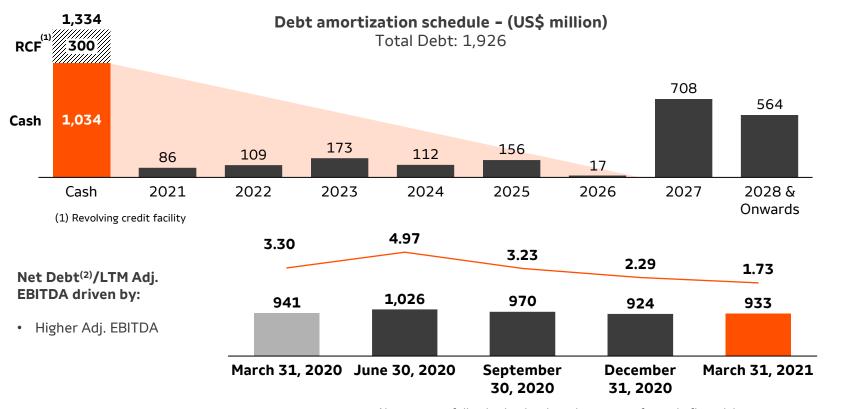

⁽¹⁾ Includes: Other income and expenses and Project Evaluation

Liquidity and Indebtedness

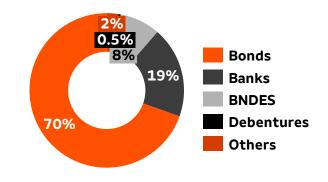

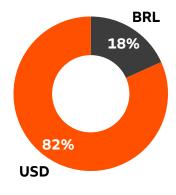

Average debt maturity: 5.3 years @4.69% avg. cost

Gross debt by Category

Gross debt by Currency

Nexa successfully obtained waivers in respect of certain financial covenants

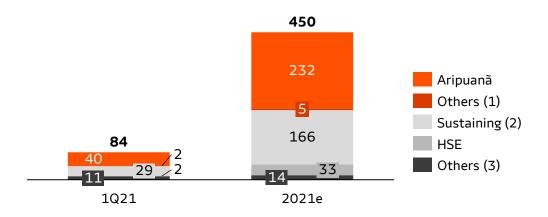

Extended debt profile. Only 4.5% (US\$86 million) of the total debt matures in 2021 and 29.5% (US\$567 million) matures between 2022 and 2026, while **66.1%** (US\$1,272 million) of total debt matures after 2027.

⁽²⁾ Gross debt (US\$1,926 million), minus cash and cash equivalents (US\$1,006 million), minus financial investments (US\$28 million), plus derivatives (US\$18 million), plus Lease Liabilities (US\$23 million).

Nexa | Disciplined capital allocation

Capital expenditures

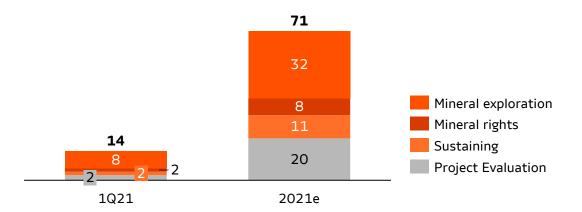

CAPEX totaled US\$84 million in 1Q21.

- Aripuanã amounted to US\$40 million
- Essential sustaining (including HSE) investment of US\$31 million

2021 estimated CAPEX of US\$450 million remains unchanged.

Exploration and Project evaluation

Exploration and Project Evaluation expenses in 1Q21 amounted to US\$14 million.

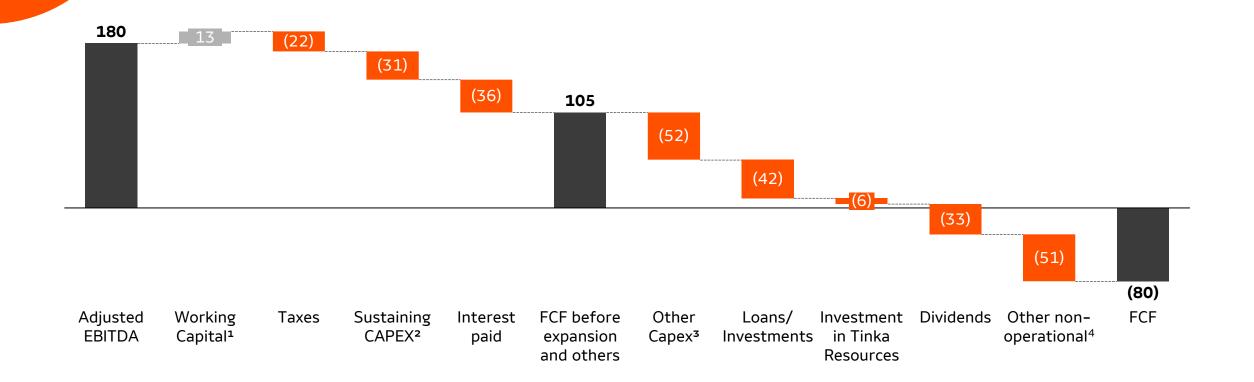

Investments are expected to accelerate next quarters.

2021 guidance is maintained.

⁽¹⁾ Including Vazante LOM extension, Magistral FEL3 and Bonsucesso FEL3 studies completion. (2) Investments in tailing disposal are included in sustaining expenses. (3) Modernization, IT and others; including reconciliation of US\$10 million mainly related to advance payment of imported materials

Cash Flow | 1Q21 US\$ million

FCF before expansion positively impacted by a solid operating income

We were in a comfortable balance sheet cash position to invest in expansion CAPEX, pay dividends and loans

⁽¹⁾ Breakdown available at Financial Statement explanatory note "Changes in operating assets and liabilities". / (2) "Sustaining CAPEX" includes Sustaining, HS&E, Tailing Dams, (3) "Other CAPEX" includes Expansion/Greenfield, Modernization, IT & Others (detailed breakdown available in the Earnings Release). / (4) Adjustments to reconcile Adjusted EBITDA to cash income (loss) before income tax.

Market fundamentals and 2021 priorities

Market Fundamentals

Nexa | 2021 priorities

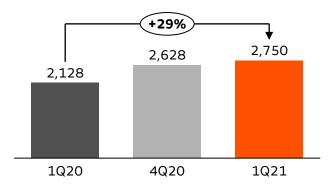

Market Fundamentals

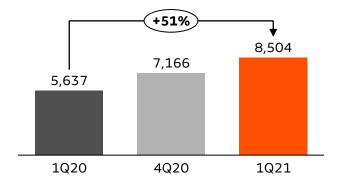

Base metals have shown a strong performance, which is expected to continue throughout the first half of the year at least, supported by economic stimulus packages and vaccines programs.

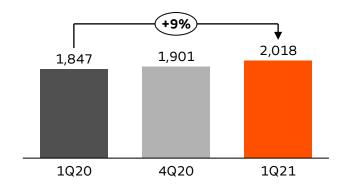

Copper LME average price¹ US\$/ton

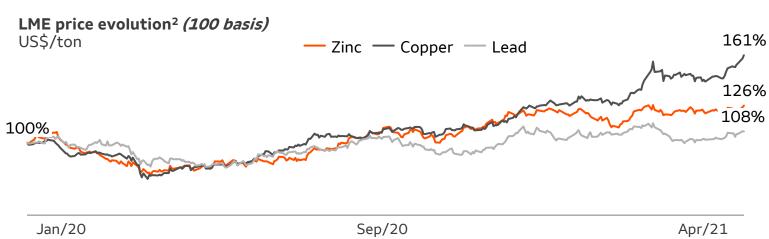

Lead

LME average price¹
US\$/ton

Comments:

- Zinc price increase continued to be driven by a strong economic activity in China and by a better sentiment towards commodities in general.
- Copper prices presented a significant upward curve during the quarter with prices exceeding the US\$9,000/t barrier.

⁽¹⁾ Based on daily prices, as traded in the London Metal Exchange. (2) Based on daily prices until April 27th, as reported by the London Metal Exchange and Shanghai Futures Exchange.

Nexa | 2021 priorities

Support our host communities and local governments

Continue capturing gains from our **Nexa Way** program gaining through increased **efficiency**, **productivity** and **cost reduction** initiatives

Deliver the construction of Aripuana's mine and plant on time and on budget

Continue to deliver on guidance

Financial discipline with focus on balance sheet strength and leverage ratios improvement with market recovery

We remain positive in industry fundamentals and we're confident Nexa has a unique position to generate value for all its stakeholders

thankyou
