FT WILSHIRE 5000® GAINS \$625 BILLION IN JULY, ENDS POSITIVE FOR THE SIXTH MONTH IN A ROW

- Mega Cap Continues to Drive Market Record Highs -

SANTA MONICA, Calif., August 2, 2021 – The FT Wilshire 5000 IndexSM, definitive benchmark for the broad U.S. stock market, rose 1.79 and 17.52 percent this month and year-to-date, closing at 45,568.17, according to Wilshire. Without dividends reinvested, the index rose an estimated market value of \$625 billion and \$6.6 trillion for the month and year-to-date.

“Investors favored higher quality large cap companies, as economic data has recently underperformed expectations, and rising inflation and COVID-19 cases weighed on smaller cap, cyclically sensitive segments of the equity market,” said Jason Schwarz, President and Chief Operating Officer of Wilshire. “Fortunately, investor sentiment was supported by relatively strong earnings,” Schwarz added.
