TOMBOLA GOLD

**A near-term Australian Gold Producer
fast tracking to gold production
and cashflow in 2022**

INVESTOR PRESENTATION

MARCH 2022

PRESENTED BY

Byron Miles, Managing Director

ersonal use only

IMPORTANT INFORMATION

Introduction

The information in this presentation has been prepared by Tombola Gold Ltd (the Company) for the purpose of providing a high-level overview of its business model and experienced management team.

Forward looking statements

Certain sections of this presentation contain forward looking statements that are subject to risk factors associated with, among others, the economic and business circumstances occurring from time to time in the places and sectors in which Tombola operates. Such forward-looking statements are not guarantees of future performance, which involves known and unknown risks, uncertainties and other factors, many of which are beyond Tombola's control, that may cause actual results to differ materially from those expressed or implied in such statements.

Whilst based on information from sources considered reliable, Tombola Gold Ltd (TBA), its directors, employees and consultants do not represent, warrant or guarantee, expressly or impliedly, that the information in this document and presentation is complete or accurate. To the maximum extent permitted by law, TBA disclaims any responsibility to inform any recipient of this document and presentation of any matter that subsequently comes to its notice, which may affect any of the information contained in this document and presentation.

Disclaimer

Although reasonable care has been taken to ensure that the facts stated in this presentation are accurate and that the opinions expressed are fair and reasonable, no representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information and opinions contained in this presentation and no reliance should be placed on such information or opinions.

To the maximum extent permitted by law, none of the Company nor any of their respective members, directors, officers, employees or agents, advisers, consultants nor any other person accepts any liability whatsoever for any loss, however arising, from the use of this document or its contents or otherwise arising in connection with it, including, without limitation, any liability arising from fault or negligence on the part of the Company or any of their respective directors, officers, employees or agents.

Competent Person Statement

Statements contained in this report relating to exploration results and potential is based on information compiled by Mr Aaron Day, who is a member of the Australasian Institute of Mining and Metallurgy (MAusIMM). Mr Day is the Managing Director of Tombola Gold Ltd and whom has sufficient relevant experience in relation to the mineralisation styles being reported on to qualify as a Competent Person as defined in the Australasian Code for Reporting of Identified Mineral Resources and Ore Reserves (JORC Code 2012). Mr Day consents to the use of this information in this report in the form and context in which it appears.

BOARD & MANAGEMENT

DR ANDREW FIREK

Non-Executive Chairman

- Over 25 years of global resource industry experience in coal, iron ore, base and precious metals
- Founding director of three ASX-listed companies.
- Former CEO of Coalworks, taken over by Whitehaven in 2012, and an executive director of Allegiance Mining and Zelos Resources.
- Holds a MSc and PhD, and is a Fellow of the AIMM and Australian Institute of Energy.

ROD WATT

Exploration Director

- A highly experienced Geologist with over 30 years experience in both major and junior exploration companies.
- At WMC Resources he held Senior Geologist roles at Olympic Dam, the fourth largest copper deposit and single largest uranium project in the world, and at the Ernest Henry Project, one of the largest copper mines in Australia.
- Former Country Exploration Manager for Anglo American in SE Asia and PNG exploring for porphyry copper gold deposits.

BYRON MILES

Managing Director

- Financial market professional with significant experience having worked as a Fund Manager and Stockbroker for over 15 years.
- Specialist in mergers and acquisitions, with transactions across various commodities and geological locations.
- Proven track record of helping companies develop from inception to profitable businesses – 5 years operating private investment company Solidify Capital Pty Ltd.

SAMUEL KENNEDY

Non-Executive Director

- Significant experience in M&A and corporate finance and former Director of Primest Capital Hong Kong.
- 15 years' experience in global multi-sector mergers, acquisitions and special situations including natural resources in the CIS and Greater China regions.
- Co-founder of Geothermal Developer Emerging Markets Energy Singapore and member of the Advisory Board of the Edison Institute in Washington DC.

GEOFF KIDD

Executive Director

- Over 35 years experience working in senior management and operations positions for mining companies or leading consultants to the mining industry.
- Former COO of Coalworks Limited prior to its takeover by Whitehaven, working across several international jurisdictions.
- Founding director and managing partner of Sedgman & Associates, a company which commercialised CSIRO inventions for the mining industry.

INVESTMENT HIGHLIGHTS

GOLD

- 01 **Newly appointed Board and Management** driving the restructure and growth of the Company - **Q4, 2021 & Q1 2022**
- 02 **Mining commenced at Comstock Gold Mine** at the Golden Mile Project in Conclurry, QLD, with drill and blast successfully completed and rehabilitation of raw water dam almost complete - **Q4, 2021**
- 03 **Imminent gold production at Mt Freda** in Cloncurry, QLD, with the second blast scheduled for **Q1, 2022**
- 04 **Diamond drilling continues at the Shamrock tenement** with the aim of identifying areas of near surface gold
- 05 Scoping Studies completed at A\$2,285 per ounce for \$160m revenue for \$79m in profit, with the **gold price currently over A\$2,800 per ounce providing further potential upside**
- 06 **Various debt facilities in negotiation** to expedite and expand development, with other avenues being considered to reduce lead time to production
- 07 **Expansion strategy in place** - Near-term gold cashflows to drive resource expansion and LOM extension and exploration focus
- 08 **Various toll treating methods being considered** to expedite gold production
- 09 **Further geological work being undertaken by the new Board**, to unlock the potential of the projects
- 10 **Core infrastructure in place** – roads, power, on-site facilities - Mt Freda gold processing plant construction underway.
- 11 **Exploration upside potential at Cloncurry and South Australian projects** - Co-Cu and high-grade Cu-Au at Cloncurry plus Tier-1 IOCG potential at Burra in South Aust

ROBUST SCOPING STUDY OUTCOMES: GOLDEN MILE & MOUNT FREDA FAST-TRACK TO MINING

Scoping Study¹ results indicate potential for a profitable operation at the Golden Mile and Mount Freda Projects, with the study incorporating Financial and Operational Studies including up-to-date mining and production costs from preferred providers. Based on study results, both projects are to progress directly to mining.

Mining

- ▶ Mining at both projects to be by conventional open pit methods - drill and blast followed by load and haul
- ▶ In near-surface weathered zone, mining will be free-dig where possible with no drill and blast

Processing

- ▶ Various toll treating methods being considered to expedite gold production
- ▶ Mt Freda ore to be processed on-site at Vat Leach CIC Processing Plant – construction is underway²

Production

- ▶ Mt Freda is expected to produce ~64,000oz of gold over initial 30-month LOM from a throughput of ~+300,000tpa
- ▶ Golden Mile is expected to produce ~15,000oz of gold over initial 20-month LOM

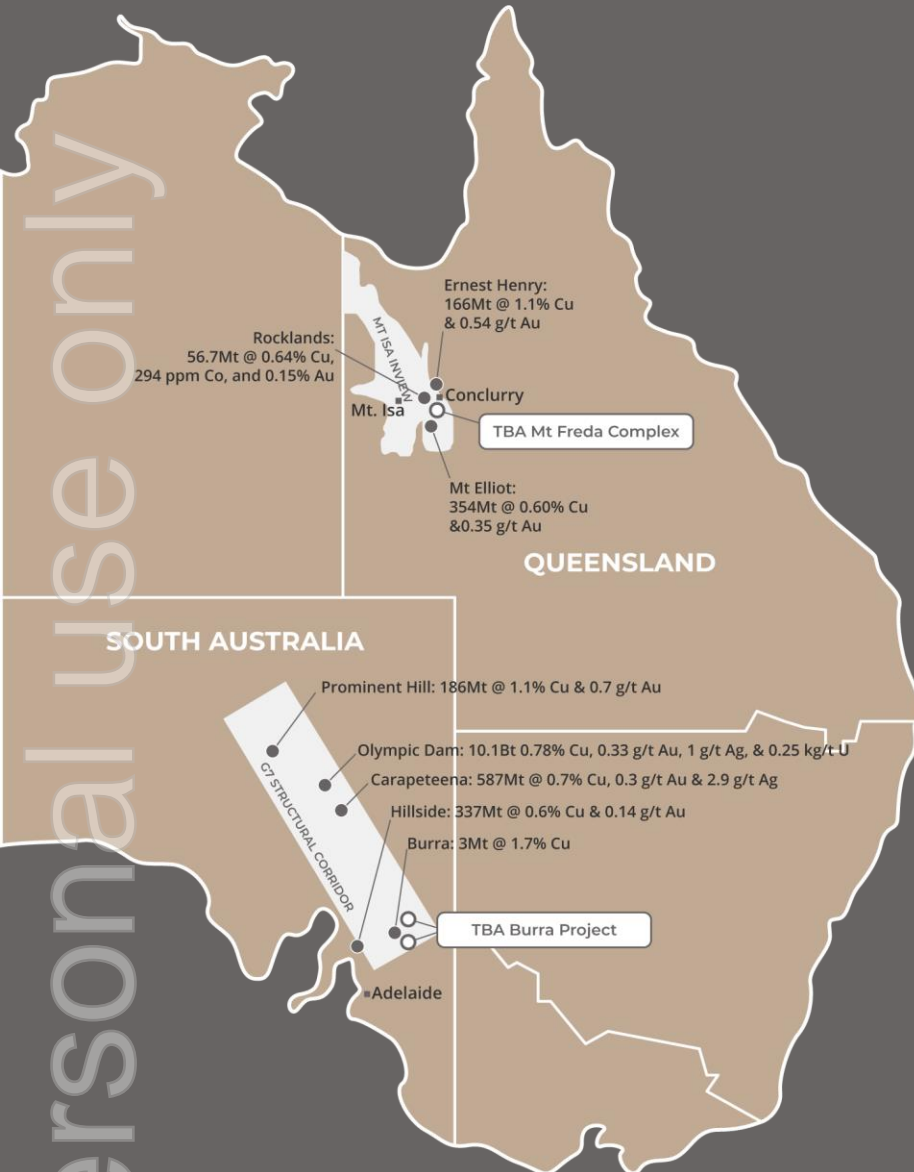

**Scoping Study Completed
at A\$2,285 per ounce Au**
Current Price A\$2,800 +

\$160m Combined Expected Revenue

\$79m Combined Expected Profit

First gold is expected from Golden Mile and Mount Freda mid 2022

PROJECTS SUMMARY

- ▶ Projects in **world class Australian mineral provinces.**
- ▶ **Initial production to come from 2 projects;**
 - ✓ **Mount Freda Gold Project** – proposed open pit operation
 - ✓ **Golden Mile Gold Project** – Comstock, Shamrock and Falcon open-pit targets; followed by
- ▶ Gold mining operations & cash flows at Mt Freda Complex, Cloncurry in QLD - **mining commenced at Comstock Gold Mine in Q1, 2022.**
- ▶ **Looking for Tier-1 deposits and unlocking near term ounces** within the current known ore bodies
- ▶ **Large, drill-ready Au-Cu-Co targets** in QLD & South Australia.
- ▶ **World class neighbours** - Rio Tinto, Newcrest, Oz Minerals, W.H Soul Pattinson.

MT FREDA PROJECT: NEAR-TERM MINING OPERATION

- ▶ Portfolio of high-quality gold assets in the Mt Freda Complex in Cloncurry district, Western Queensland
- ▶ Project Background:
 - ✓ Mt Freda mined by ASX-listed Diversified Mineral Resources in 1980's
 - ✓ Delivered a head-grade of >5g/t Au and very high gold recoveries of >98% from CIP processing plant
 - ✓ Deposit was mined by open cut to a depth of only ~40m – providing significant further opportunity at depth
- ▶ Mining commenced with the second blast scheduled for Q1 2022
- ▶ Project sits on a granted Mining Licence
- ▶ JORC 2012 Resource upgrade confirmed March 2021
- ▶ Robust Scoping Study completed July 2021
- ▶ To be mined as an open pit with processing on-site via a VAT Leach and Carbon in Column (CIC) processing plant – construction is underway

*TBA ASX announcement, 4 March 2021

EXPANSION PLANS:

MT FRED A & GOLDEN MILE

The Scoping Studies represent stage-1 outcomes only – Tombola anticipates significant further expansion of gold operations based on additional targeted drilling

- ▶ Current global JORC Mineral Resource for the Mt Freda and Golden Mile projects; **1.7 Mt at 2.06 g/t Au, containing approximately 113,000oz of gold¹**
- ▶ Current resource is based on:
 - ✓ Drilling at Golden Mile to just 50m depth at Comstock mine and to 100m depth at Shamrock and Falcon mines; and
 - ✓ Drilling at Mt Freda to depth of 200m
- ▶ The shallow resource has facilitated open pit mining and the commencement of mining within a shorter timeframe

Expansion Case

- ✓ **Golden Mile:** hosts another 5 historical gold mines not included in Resource within a 2-kilometre-wide zone of mineralisation
- ✓ Tombola plans resource drilling at these 5 mines to extend LOM once gold production is established
- ✓ **Mt Freda:** > 14 holes drilled below the 200m resource depth (up to 300m depth) and all intersected gold mineralisation[^]
- ✓ Resource will be expanded at depth to extend LOM once gold production commences

FURTHER EXPLORATION: FOLLOWING UP EXCEPTIONAL RESULTS

Little Duke Drilling intersects 122 m wide IOCG style mineralisation

Figure 1. Little Duke LD19RD025 cross section and geological interpretation indicates drilling intersected a 122 m wide IOCG style gold and copper mineralisation zone, (Refer ASX release 26th September for previous RC drilling results).

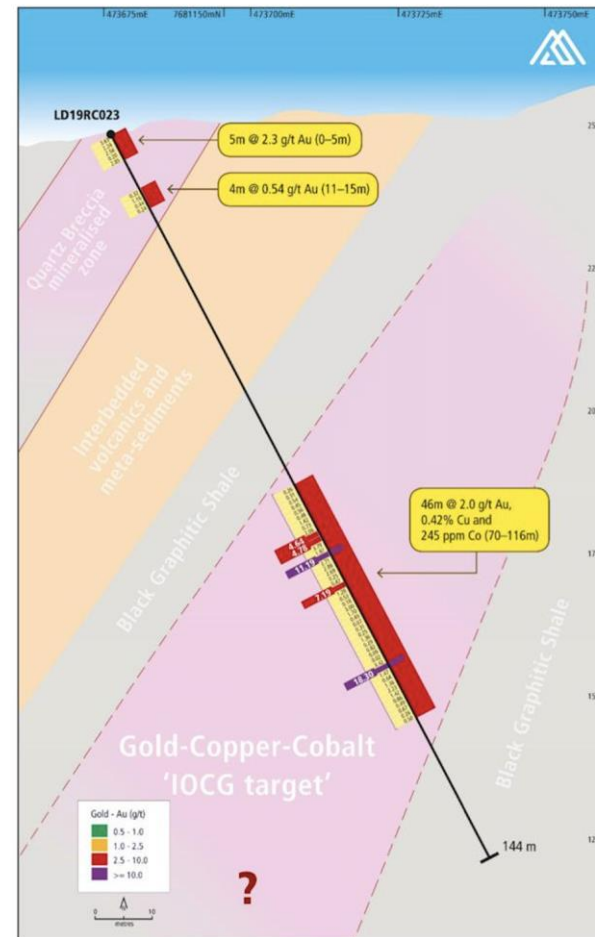

Figure 2. Geological interpretation through drill hole LD19RC023 that intersected both shallow gold mineralisation near surface, and deeper IOCG style gold, copper and cobalt in a graphitic black shale unit, retuning gold assays of up to 18.3 g/t. (Refer image 4 & 5 below for location).

Figure 1. Geological interpretation of Diamond Core Hole ES19DD0019 drilled under the Evening Star Copper mine into an Ausmex potential IOCG conductive target. ES19DD0019 is a "re-drill" of drill hole ES19DD004 that was abandoned when an under-ground void was intercepted. Recent results have greatly assisted in the current geological interpretation, with the Company now planning down hole IP and EM surveys to assist in targeting deeper IOCG drilling.

ACCELERATED PROJECT DEVELOPMENT: CURRENT STATUS

Resource upgrade drilling at Mt Freda

Mt Freda on-site office facilities

- ✓ Mt Freda & Golden Mile JORC 2012 Resource upgrade¹: **Complete**
 - ✓ Mt Freda and Golden Mile Scoping Studies[^]: **Complete**
 - ✓ Landowner Owner Agreements: **Complete**
 - ✓ Golden Mile Mining Lease[#]: **Granted**
 - ✓ Mt Freda open-pit dewatering: **Complete**
 - ✓ Binding ore processing agreement for Golden Mile Project^{*}: **Complete**
 - ✓ Haul road from Mt Freda mine to highway and internal access roads: **Complete**
 - ✓ Contract miners appointed: **Q3, 2021**
 - ✓ Plan of Operations submitted: **Expected in Sept Qtr, 2021**
 - ✓ Mining operations commenced at Golden Mile: **Commenced Q1 2022**
-
- ▶ Report by Ken Collison to provide greater understanding of Burra – **Early Q2, 2022**
 - ▶ Mining operations commence at Mount Freda: **Q2 2022**
 - ▶ Mt Freda processing plant: **Construction underway – Q2 2022**
 - ▶ Mt Freda processing plant: **Construction underway – Q2 2022**
 - ▶ On-site office infrastructure: **Underway and ongoing**
 - ▶ Golden Mile: Production, first economical material removed from in-situ – **Q2, 2022**
 - ▶ Mt Freda: first gold pour – **Late Q2 / Early Q3, 2022**

BURRA, STH AUST: WORLD-CLASS COPPER, GOLD & REE TARGETS

Strategic tenement holding in
world-class domain

- ▶ ~6,500² km in the G2 Structural Corridor, host to Olympic Dam, Carrapeteena, Prominent Hill
- ▶ Multiple historic high-grade copper and gold workings
- ▶ Conductivity identified below Burra is similar in scale and character to large conductive anomaly below BHP's Olympic Dam
- ▶ Close-spaced Magnetotelluric (MT) Geophysical Survey and 3D modelling at Princess Royal Prospect completed
- ▶ This high-resolution survey helps differentiate discrete targeted conductors from lithological graphitic units

*TBA ASX announcement 30 April 2020
