K-TIG Limited and Its Controlled Entities Appendix 4E

1. Company details

Name of entity: K-TIG Limited ABN: 28 158 307 549

Reporting period: For the year ended 30 June 2022 Frevious period: For the year ended 30 June 2021

2. Results for announcement to the market

			\$
Revenues from ordinary activities	Up	137% to	3,702,512
Loss from ordinary activities after tax attributable to the owners of K-TIG Limited	- Up	33% to	(5,962,663)
Loss for the year attributable to the owners of K-TIG Limited	Up	33% to	(5,962,663)

Dividends

No dividend has been declared or paid for the year ended 30 June 2022 (30 June 2021: \$nil).

Brief explanation of any of the figures reported above

The Group recorded \$3,702,512 of revenue for the current year (2021: \$1,561,556). The loss from ordinary activities for the Group after providing for income tax amounted to \$5,962,663 (30 June 2021: \$4,482,667). The increase in loss is mainly attributable to the significant investment in several strategic areas focused on defence, nuclear, USA, UK and customer acceleration pillars and an increase in employee benefits expense due to key appointments of key management and share-based payments.

K-TIG continued working with Defence Primes and Nuclear to demonstrate the advantages of keyhole TIG welding to their applications. In addition, k-TIG continues to invest in R&D to expand the range of metals that have independently verified welding protocols.

3. Net tangible assets	Reporting	Previous
	period Cents	period Cents
Net tangible assets / (liabilities) per ordinary security	2.31	3.43

Right-of-use assets recognized under AASB 16 Leases are classified as intangible assets for the purpose of determining the net tangible assets

K-TIG Limited and Its Controlled Entities Review of Operations For the year ended 30 June 2022

Overview

K-TIG is a transformative, industry-disrupting welding technology that seeks to change the economics of fabrication. K-TIG's high-speed precision welding technology welds up to 100 times faster than traditional TIG welding, achieving full penetration in a single pass in materials up to 16mm in thickness and typically operates at twice the speed of plasma welding.

K-TIG works across a wide range of applications and is particularly well suited to corrosion-resistant materials such as stainless steel, nickel alloys, titanium alloys, carbon steels, and most exotic materials. It easily handles longitudinal and circumferential welds on pipes, spooling, vessels, tanks and other materials in a single pass.

Originally developed by the CSIRO, K-TIG owns all rights, title and interest in and to the proprietary and patented technology and has been awarded Australian Industrial Product of the Year and the DTC Defence Industry Award.

2022 Highlights

During the year, K-TIG has made substantial progress and delivered on key business milestones.

Revenue Growth

- Revenue increased by 137% to \$3.70m (2021: \$1.56m)
- Operating cash receipts increased by 308% to \$3.88m (2021: \$0.95m)
- Continued sales momentum and increase in sales pipeline as potential customers responded to the increased capabilities of the USA and UK subsidiaries and the European market expansion

Strong Balance Sheet

- Cash of \$3.8m
- Net assets of \$4.7m

Business Development and Operations

Despite a challenging macroeconomic environment in view of the global Covid-19 pandemic and seeing a lengthening in the sales cycle due to economic conditions, K-TIG achieved several key milestones during the year, including:

- Successfully raised \$3.85m (before costs) via a private placement with solid support from existing major shareholders, new institutions & family offices, sophisticated investors
- Signed formal agreement with the Nuclear Advanced Manufacturing Research Centre (Nuclear AMRC) to develop a turnkey robotic welding cell that may be used to produce nuclear storage containers. The project will see K-TIG and Nuclear AMRC collaborate to develop the robotic welding cell within a Nuclear Industry Technology Demonstration Facility. In addition, K-TIG will own all Intellectual Property developed by the project
- Continuing to investigate opportunities in the Nuclear sector in the United Kingdom
- Established UK operations and appointed two senior business development executives to drive the UK and European market expansion
- K-TIG successfully welded the armoured steel provided by and joint geometries specified by Hanwha Defense Australia and Hanwha Defense Corporation; following the previously announced MOU
- Actively progressed the engagement with Defence Primes in the Australian Maritime Defence sector to target lightweight structures of current award contracts
- Signed distributor agreements across Europe, South East Asia, the Middle East and the United States
- K-TIG's ongoing in-house R&D development and in conjunction with customers in the development of Evolve 3
 Controller to support optional advanced functionality, development of other features including weld inspection,
 automated seam tracking, robotic interfaces and multi torch applications, development of turnkey welding cells
 integrating K-TIG systems
- Strengthened the executive management team to support continued international growth and allow the business to execute on several strategic fronts

K-TIG remains focused on accelerating its strategic pillars, including enhancing its presence in the USA, UK and European markets, advancing K-TIG's technology in the multi-billion dollar defence and nuclear industries and undertaking R&D, in-house and in conjunction with innovative customers to develop welding solutions for other metals such as aluminium, other exotics and other highly specialised industries.

The Directors present their report, together with the financial statements, on K-TIG Limited ("K-TIG" or "Company") and its controlled entities ("consolidated group") for the ended 30 June 2022.

Directors

The following persons were directors of K-TIG Limited during the financial year and up to the date of this report unless otherwise stated:

Stuart Carmichael Syed Basar Shueb Adrian Smith Anthony McIntosh Trish White David Acton Darryl Abotomey

Principal activities

K-TIG is a transformative, industry-disrupting welding technology that is changing the economics of fabrication with its proprietary high-speed precision welding technology.

Dividends

No dividends were declared or paid out during the financial year (30 June 2021: Nil).

Significant changes in the state of affairs

There were no significant changes in the state of affairs of the consolidated group during the financial year.

Review of operations

Refer to the Review of Operations in the preceding section.

Matters subsequent to the end of the financial year

No matter or circumstance has arisen since 30 June 2022 that has significantly affected, or may significantly affect the consolidated group's operations, the results of those operations, or the consolidated group's state of affairs in future financial years.

On 29 July 2022, entered into a non-binding MOU with Darchem Engineering Limited (Darchem) regarding intent to novate an Intermediate Level Waste, ILW, Nuclear Storage container contract that Darchem has to K-TIG. Whereby K-TIG to facilitate company technology development and optimise the design and manufacturing process for Intermediate Level Waste Containers.

Likely developments and expected results of operations

The Company continues to build an extensive sales pipeline in key growth markets, including the United States, United Kingdom and Europe.

Environmental regulation

The consolidated group is not subject to any significant environmental regulation under Australian Commonwealth or State law.

Information on directors

Other current directorships:

Former directorships (last 3

years):

Stuart Carmichael Name:

Non-Executive Chairman (Appointed 30 June 2017) Title:

Qualifications: B Com, C.A (Aust)

Experience and expertise: Mr Carmichael has extensive international corporate advisory, mergers and acquisitions, and operational experience. Mr Carmichael held various senior

executive leadership positions with UGL, DTZ, AJG and KPMG Corporate Finance. Mr Carmichael has extensive corporate and operational experience across multiple geographies, having lived and worked in the US, UK, Europe,

the Middle East and Australia.

Mr Carmichael's sector experience includes the construction, transportation and logistics, facilities management, corporate real estate and professional services sectors. Mr Carmichael graduated from the University of Western Australia with a Bachelor of Commerce degree, majoring in Accounting and

Finance and is a qualified Chartered Accountant.

Non-Executive Director of De.mem Limited (ASX:DEM)

Non-Executive Director of ClearVue Technologies Limited (ASX:CPV) Non-Executive Director of Harvest Technology Group Limited (ASX:HTG) Non-Executive Director of Orexplore Technologies Limited (ASX:OXT) Non-Executive Director of Osteopore Limited (ASX:OSX) - October 2021

Non-Executive Director of Swick Mining Services Limited (ASX:SWK)- February

Non-Executive Chairman of Schrole Limited (ASX:SCL) - May 2022

Syed Basar Shueb Name:

Non-Executive Director (Appointed 30 September 2019) Title:

Qualifications: Bachelor of Science in Computer Engineering

Experience and expertise: Mr Shueb is the General Manager of the Pal Group of Companies, a subsidiary of

the Abu Dhabi-based Royal Group, chaired by His Highness Sheikh Tahnoon Bin Zayed Al Nahyan, and is the Chairman of Royal Falcon Mining LLC. Mr Shueb has extensive experience in the process, manufacturing, fabrication, construction and

service industries.

Other current directorships: Former directorships (last 3 years):

Name: Mark Twycross

Title: Non-Executive Director (Appointed 20 February 2020 – 16 March 2020, from 28 July

2020 - 1 December 2021)

Executive Director (Appointed 16 March 2020 - 28 July 2020)

BSc civil engineering, Grad diploma business, FAICD Qualifications:

Mr Twycross has over 40 years in the energy, oil and gas, water and infrastructure Experience and expertise:

industries in Australasia (Australia, New Zealand and Papua New Guinea), Southeast Asia, the Middle East, Africa, Caspian and United Kingdom. Mr Twycross brings a track record of securing major contracts and contract execution to clients in

the oil and gas, and water infrastructure sectors.

Mr Twycross has previously held senior executive leadership positions with Quanta

Services and McConnell Dowell.

Other current directorships: Former directorships (last 3 years):

K-TIG Limited and Its Controlled Entities

Directors' report

Remuneration report (audited)

The remuneration report details the key management personnel remuneration arrangements for the consolidated group, in accordance with the requirements of the Corporations Act 2001 and its Regulations.

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including all directors.

⁽²⁾ Unlisted options exercisable at \$0.30 per option, expiring 30 Sep 2023

⁽³⁾ Performance rights per director, 500,000 class A, 500,000 class B and 500,000 class C

⁽⁴⁾ Vesting long-term incentive shares

Remuneration report audited (continued)

The remuneration report is set out under the following main headings:

- Principles used to determine the nature and amount of remuneration
- Details of remuneration
- Service agreements
- Share-based compensation
- Additional information
- Additional disclosures relating to key management personnel

Principles used to determine the nature and amount of remuneration

The Board is responsible for determining and reviewing directors and senior executives compensation arrangements. The Board assesses the appropriateness of the nature and amount of emoluments of such officers yearly by reference to relevant employment market conditions with the overall objective of ensuring maximum stakeholder benefit from the retention of a high-quality board and executive team. The expected outcome of this remuneration structure is to retain and motivate the Directors and Senior Executives.

The board has adopted a formal Remuneration Committee Charter and Remuneration Policy as part of its Corporate Governance Policies and Procedures. Currently, the entire Board performs the function of the Remuneration Committee. However, given that the consolidated group remains at an early stage of development, the Board's overall approach to compensation remains subject to change. Accordingly, it will continue to evolve as the consolidated group grows and develops its business.

In accordance with best practice corporate governance, the structure of non-executive director and executive director/managing director remuneration is separate.

Non-executive directors' remuneration

The Constitution provides that the remuneration of non-executive Directors will not be more than the aggregate fixed sum determined by a general meeting of shareholders. The remuneration of executive Directors will be set by the Directors and may be paid by way of a fixed salary or consultancy fee.

Fees and payments to non-executive Directors reflect the demands which are made on, and the responsibilities of, the Directors. Non-executive Directors' fees and payments are reviewed annually by the Board. Non-executive Directors do not receive performance-based pay.

The maximum aggregate amount which has been approved to be paid to non-executive Directors is currently set at A\$500,000 per annum.

Executive directors

Executive Directors are not entitled to receive any additional compensation, including employee options, in their capacity as Directors.

Chairman's fees

The chairman's fees are determined independently of the fees of non-executive Directors based on comparative roles in the external market.

Additional fees

A Director may also be paid fees or other amounts as the Directors determine if a Director performs special duties or otherwise performs services outside the scope of the ordinary duties of a Director. A Director may also be reimbursed for out-of-pocket expenses incurred as a result of their directorship or any special duties.

Retirement allowances for directors

Superannuation contributions required under the Australian Superannuation Guarantee Legislation continue to be made and are deducted from the Directors' overall fee entitlements where applicable.

Remuneration report audited (continued)

Executive remuneration

Compensation objectives

Pursuant to the Remuneration Policy, the consolidated group's compensation policies and practices are designed to:

- (a) align executive remuneration with shareholder interests;
- (b) retain, motivate and reward appropriately qualified executive talent for the benefit of the consolidated group;
- (c) to achieve a level of remuneration that reflects the competitive market in which the consolidated group operates;
- (d) to ensure that individual remuneration is linked to performance criteria if appropriate; and
- (e) to ensure that executives are rewarded for both financial and non-financial performance.

The Board aims to satisfy these objectives by adopting a compensation program for executive officers that combines base remuneration, which is market-related, with performance-based remuneration, which is determined annually. All market comparisons reflect an informal assessment and are based on the Board's knowledge and experience in executive compensation matters. The Company retained no remuneration consultant in determining the remuneration of any of the KMP.

Overall remuneration decisions are subject to the discretion of the Board. They can be changed to reflect competitive and business conditions in the consolidated group's and shareholders' interests to do so. Executive remuneration and other terms of employment are reviewed annually by the Board regarding the performance and relevant comparative information.

Compensation components

In accordance with the remuneration policy, the compensation currently consists primarily of three elements: base salary, cash bonus and long-term equity incentives. Each element of compensation is described in more detail below.

Base salary

A primary element of the Company's compensation program is base salary. The Company believes a competitive base salary is necessary to attract and retain qualified executive officers. Accordingly, the amount payable to an executive officer is determined based on the scope of their responsibilities and prior experience while considering an informal evaluation of competitive market compensation for similar positions and overall market demand for such executives at the time of hire.

Base salaries are reviewed annually and increased for merit reasons, based on the executive officer's success in meeting or exceeding Company and individual objectives. Additionally, base salaries can be adjusted as warranted throughout the year to reflect promotions or other changes in the scope or breadth of the executive officer's role or responsibilities and market competitiveness.

Cash bonus plan

Remuneration for certain individuals is directly linked to the performance of the consolidated group. A portion of a cash bonus and incentive payments are dependent on defined milestones being met. In addition, ad hoc cash bonuses may be paid from time to time if deemed appropriate by the Board, based on the attainment of particular objectives.

Long-term equity incentives

Equity-based awards are a variable element of compensation that allows executive officers to be rewarded for their sustained contributions to the consolidated group. Equity awards reward continued employment by an executive officer, with an associated benefit to K-TIG of attracting employees, continuity and retention. Executives may participate in share, performance rights and option schemes generally made in accordance with thresholds set in plans approved by shareholders if deemed appropriate. However, the Board considers it appropriate to retain the flexibility to issue shares, performance rights and options to executives outside of approved schemes in exceptional circumstances.

Voting and comments made at the Company's 2021 Annual General Meeting ('AGM')

At the 2021 AGM, 98.47% of the votes received supported the adoption of the remuneration report for the year ended 30 June 2021. The Company did not receive any specific feedback at the AGM regarding its remuneration practices.

Details of remuneration

Details of the consolidated group's remuneration of key management personnel are set out in the following tables.

The value of remuneration received or receivable by key management personnel for the consolidated group for the financial year is as follows:

Remuneration report audited (continued)

				Super-	Equity-Settled

Darryl Abotomey	100%	-	-	-	-	-

Cash bonuses are dependent on meeting defined performance measures. Adrian Smith is entitled to an STI cash bonus of up to 75% of base salary (excluding super) payable each anniversary (01 November) subject to the satisfaction of mutually agreed revenue and operational KPI's. The Board has approved the maximum 75% of base salary payable, and the bonus is accrued evenly up to 30 June 2022 on this basis. The bonus is payable on the anniversary of the commencement of employment as Managing Director.

Service agreements

Remuneration and other terms of employment for key management personnel are formalised in service agreements. Details of these agreements are as follows:

⁽²⁾ Appointed 20 February 2020, resigned 1 December 2021

⁽³⁾ Appointed 1 December 2021

⁽⁴⁾ Appointed 1 December 2021

K-TIG Limited and Its Controlled Entities

Directors' report

For the year ended 30 June 2022

Remuneration report audited (continued)

Name: Adrian Smith

Title: Managing Director (from 1 November 2020)

Agreement commenced: 1 November 2020 (as an amendment to the existing Executive Services Agreement)

Term of agreement: Until 1 November 2023 (1 month written notice)

Details: Base salary of \$29,166.67 per month plus superannuation

Cash bonus of up to 75% of base salary (excluding superannuation) subject to the

satisfaction of mutually agreed KPI's

Grant of 4,500,000 long-term incentive shares to be issued at subsequent

anniversary dates of commencement of employment in the new role

The Board will conduct a review of the terms annually

Key management personnel have no entitlement to termination payments in the event of removal for misconduct.

Share-based compensation

Issue of shares

No ordinary shares were issued to directors and other key management personnel as part of compensation during the year ended 30 June 2022.

Performance rights

The terms and conditions of each grant of performance rights over ordinary shares affecting the remuneration of directors and other key management personnel in this financial year or future reporting years are as follows:

a	Number of Performance Rights		Milestone		Exercise	Fair Value per Performance Right at Grant
Name	Granted	Grant Date	Date	Expiry Date	Price	Date
Stuart Carmichael		27/11/2020		22/12/2025		
- Class A	500,000		Before 1 Apr 2021		\$ -	\$0.0995
- Class B	500,000		Before 1 Oct 2021		\$ -	\$0.1252
- Class C	500,000		Before 1 Oct 2022		\$ -	\$0.1563
Syed Shueb		27/11/2020		22/12/2025		
- Class A	500,000		Before 1 Apr 2021		\$ -	\$0.0995
- Class B	500,000		Before 1 Oct 2021		\$ -	\$0.1252
- Class C	500,000		Before 1 Oct 2022		\$ -	\$0.1563
Mark Twycross		27/11/2020		22/12/2025		
- Class A	500,000		Before 1 Apr 2021		\$ -	\$0.0995
- Class B	500,000		Before 1 Oct 2021		\$ -	\$0.1252
- Class C	500,000		Before 1 Oct 2022		\$ -	\$0.1563
Anthony McIntosh		27/11/2020		22/12/2025		
- Class A	500,000		Before 1 Apr 2021		\$ -	\$0.0995
- Class B	500,000		Before 1 Oct 2021		\$ -	\$0.1252
- Class C	500,000		Before 1 Oct 2022		\$ -	\$0.1563

The Performance rights have the following milestones attached to them and are subject to the milestone dates set out below:

- a) Tranche 1 (Class A): 2,000,000 performance rights will vest when the Company achieves a volume-weighted average price ("VWAP") of at least \$0.35 over any twenty consecutive trading day period before 1 April 2021;
- b) Tranche 2 (Class B): 2,000,000 performance rights will vest when the Company achieves a VWAP of at least \$0.50 over any twenty consecutive trading day period before 1 October 2021; and
- c) (Tranche 3 (Class C): 2,000,000 performance rights will vest when the Company achieves a VWAP of at least \$0.75 over any twenty consecutive trading day period before 1 October 2022.

Performance rights granted carry no dividend or voting rights. All performance rights were granted over unissued fully paid ordinary shares in the Company. Performance rights vest based on the vesting period, whereby the executive becomes beneficially entitled to the performance rights on the vesting date. Performance rights are exercisable by the holder from the vesting date. There has not been any alteration to the terms or conditions of the grant since the grant date. No amounts are paid or payable by the recipient regarding granting such performance rights.

Remuneration report audited (continued)

Tranche 1 had already vested before the relevant milestone date of 1 April 2021, and Tranche 2 has already vested before the relevant milestone date of 1 October 2021. Accordingly, the holders had not exercised the vested performance rights as of 30 June 2022.

Mark Twycross resigned as a director on 1 December 2022. The board exercised their discretion to remove the service conditions of his unvested (class c) performance shares. This modification has no impact on the fair value of the performance rights or the other vesting conditions

The share-based payment expense recognised concerning performance rights over ordinary shares granted and the value of performance rights exercised and lapsed for directors and other key management personnel as part of compensation during the year ended 30 June 2022 are set out below:

Name	Shared- Based Payment expense of Performance Rights during the Year	Value of Performance Rights Exercised during the Year	Value of Performance Rights Lapsed during the Year	Remuneration Consisting of Performance Rights for the Year %
Stuart Carmichael	61,207	-	-	43%
Syed Basar Shueb	61,207	-	-	53%
Mark Twycross	61,207	-	-	79%
Anthony McIntosh	61,207			53%
	244,828			

Options

No options were granted to directors and other key management personnel as part of compensation during the year ended 30 June 2022.

Long-term incentive shares

The terms and conditions of each grant of long-term incentive shares affecting the remuneration of directors and other key management personnel in this financial year or future reporting years are as follows:

Name	Number of Long Term Incentive Share	Grant Date	Vesting Date	Fair Value per Share at Grant Date
Adrian Smith				
- Tranche 1	1,000,000	27/11/2020	01/11/2021	\$0.27
- Tranche 2	1,500,000	27/11/2020	01/11/2022	\$0.27
- Tranche 3	2,000,000	27/11/2020	01/11/2023	\$0.27

On 1 November 2020, Mr Smith was appointed as Managing Director of the Company. Shares will be issued at each employment anniversary, with 50% of shares issued subject to a voluntary escrow period of 12 months.

The share-based payment expense recognised concerning long-term incentive shares granted and the value of long-term incentive shares lapsed for directors and other key management personnel as part of compensation during the year ended 30 June 2022 are set out below:

Long-Term Incentive Shares	Balance at the Start of the Year	Number of Long-Term Incentive Shares Converted to Ordinary Shares during the Year	Balance at the End of the Year

⁽¹⁾ All options are exercisable at 30 June 2022

Long-term incentive shares holding

Following approval by shareholders at the Company's Annual General Meeting on 27 November 2020, Mr Smith is earning up to 4,500,000 ordinary shares in the Company. Long-term incentive shares of 1,000,000 were converted to ordinary shares during the financial year (30 June 2021: nil).

Other transactions with key management personnel and their related parties

During the financial year, payments for company secretarial, accounting and corporate advisory fees, totalling \$120,730 (30 June 2021: \$96,531), were made to Ventnor Capital Pty Ltd (the director-related entity of Mr Carmichael). The current trade and other payable balance as at 30 June 2022 was nil (30 June 2021: \$12,230). All transactions were made on normal commercial terms and conditions and at market rates.

No related party loans were held or provided by the Company at any time during the financial year (30 June 2021: nil).

This concludes the remuneration report, which has been audited.

Additional information

The earnings of the consolidated group for the five years to 30 June 2022 are summarised below:

	2022 \$	2021 \$	2020 \$	2019 \$	2018 \$
Sales revenue	3,702,512	1,561,556	333,366	1,069,198	2,236,196
EBITDA	(5,767,474)	(4,233,702)	(8,245,702)	(1,641,599)	(33,018)
ЕВІТ	(5,954,261)	(4,473,399)	(8,407,290)	(1,686,617)	(101,189)
Loss after income tax	(5,962,663)	(4,482,667)	(8,411,825)	(1,690,187)	(105,787)

The factors that are considered to affect total shareholders return ('TSR') are summarised below:

	2022 \$	2021 \$	2020 \$	2019 \$	2018 \$
Share price at financial year end (\$) (1)	0.25	0.44	0.19	-	-
Total dividends declared (cents per share) (1)	-	-	-	-	-
Basic loss per share (cents per share) (1)	(3.43)	(2.76)	(6.97)	-	-

⁽¹⁾ Despite the consolidated group applying the continuation method of accounting for the acquisition of Keyhole TIG Ltd in the financial year ended 30 June 2020, the TSR factors have not been presented for financial years before 30 June 2020 due to incomparable operations and capital structures.

Shares under option

Unissued ordinary shares of K-TIG Limited under option at the date of this report are as follows:

Unissued				
ordinary			Exercise	Number
shares	Grant Date	Expiry Date	Price	under Option
	30/09/2019	30/09/2023	\$0.30	5,472,152
	30/09/2019	30/09/2023	\$0.30	960,000
	30/09/2019	30/09/2023	\$0.30	180,000

No person entitled to exercise the options had or has any right by virtue of the option to participate in any share issue of the Company or of any other body corporate.

Shares issued on the exercise of options

There were no shares issued of K-TIG Limited during the year ended 30 June 2022 and up to the date of this report on the exercise of options granted:

Shares issued			
on exercise of	Date Options	Exercise	Number
options	Granted	Price	under Option
	29/01/2018	\$0.23	2.101.428

Indemnity and insurance of officers

The Company has indemnified the directors and executives of the Company for costs incurred in their capacity as a director or executive, for which they may be held personally liable, except where there is a lack of good faith.

During the financial year, the Company paid a premium in respect of a contract to insure the directors and executives of the Company against liability to the extent permitted by the Corporations Act 2001. The insurance contract prohibits disclosure of the liability's nature and the premium's amount.

Indemnity and insurance of auditor

The Company has not, during or since the end of the financial year, indemnified or agreed to indemnify the auditor of the Company or any related entity against a liability incurred by the auditor.

During the financial year, the Company has not paid a premium in respect of a contract to insure the auditor of the Company or any related entity.

Proceedings on behalf of the Company

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Company or to intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

Non-audit services

There were a total of \$2,352 in non-audit services provided during the financial year by the auditor (30 June 2021: \$6,332).

The directors are satisfied that the provision of non-audit services during the financial year by the auditor (or by another person or firm on the auditor's behalf), is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001.

The directors are of the opinion that the services as disclosed in Note 24 to the financial statements do not compromise the external auditor's independence requirements of the Corporations Act 2001 for the following reasons:

- all non-audit services have been reviewed and approved to ensure that they do not impact the integrity and objectivity
 of the auditor; and
- none of the services undermines the general principles relating to auditor independence as set out in APES 110 –
 Part 4A of Ethics for Professional Accountants issued by the Accounting Professional and Ethical Standards Board,
 including reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the
 Company, acting as an advocate for the Company or jointly sharing economic risks and rewards.

Officers of the Company who are former partners of BDO Audit Pty Ltd

There are no officers of the Company who are former partners of BDO Audit Pty Ltd.

K-TIG Limited and Its Controlled Entities **Directors' report**

For the year ended 30 June 2022

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out immediately after this directors' report.

Auditor

BDO Audit Pty Ltd was appointed at the last AGM, a change from BDO Audit (SA) Pty Ltd. BDO Audit Pty Ltd continues in office in accordance with section 327 of the Corporations Act 2001.

This report is made in accordance with a directors resolution pursuant to section 298(2)(a) of the Corporations Act 2001.

On behalf of the directors

Stuart Carmichael

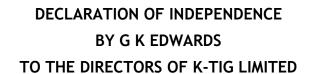

Chairman

30 August 2022

Perth

Tel: +61 8 7324 6000 Fax: +61 8 7324 6111 www.bdo.com.au BDO Centre Level 7, 420 King William Street Adelaide SA 5000 GPO Box 2018 Adelaide SA 5001 Australia

As lead auditor of K-TIG Limited for the year ended 30 June 2022, I declare that, to the best of my knowledge and belief, there have been:

- 1. No contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- 2. No contraventions of any applicable code of professional conduct in relation to the audit.

This declaration is in respect of K-TIG Limited and the entities it controlled during the period.

G K Edwards Director

Note 1. Significant accounting policies

The principal accounting policies adopted in the preparation of the financial statements are set out below. Unless otherwise stated, these policies have been consistently applied to all the years presented.

New or amended Accounting Standards and Interpretations adopted

The consolidated group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been adopted early.

Adoption of the new and amended accounting standards had no material financial impact on the consolidated group.

Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001, as appropriate for for-profit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB').

For the year ended 30 June 2022, the consolidated group reported a loss of \$5.9m (2021: \$4.4m loss) and cash used in operating activities of \$4.7m (2021: \$3.7m cash used). Notwithstanding these events, the Directors believe that it is reasonably foreseeable that the consolidated entity will continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the financial report; having prepared forecast cashflow information for a period of least 12 months from the end of the reporting period, taking into consideration plausible downside scenarios. Key to these forecasts are relevant assumptions regarding the group's business in particular:

- Continued revenue growth as a result of having established operations in key markets such as the UK and USA
- Careful cashflow management, including controlling discretionary spending
- The receipt of R&D tax incentives claims for eligible expenditure incurred in the year ended 30 June 2022

Accordingly, the Directors believe that the consolidated entity will be able to continue as a going concern and that it is appropriate to adopt the going concern basis in preparing the financial report.

Historical cost convention

The financial statements have been prepared under the historical cost convention, except for, where applicable, the revaluation of financial assets and liabilities at fair value through profit or loss.

Critical accounting estimates

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the consolidated group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in Note 2.

Equity structure

The equity structure (the number and type of equity instruments issued) in the financial statements reflects the equity structure of KTG.

Earnings per share

The weighted average number of shares outstanding for the year ended 30 June 2022 is based on the combined weighted average number of shares of the K-TIG Limited consolidated group outstanding in the year.

Parent entity information

In accordance with the Corporations Act 2001, these financial statements only present the consolidated group's results. Supplementary information about the legal parent entity is disclosed in Note 26.

Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of K-TIG Limited ('company' or 'parent entity') as at 30 June 2022, and the results for the year then ended. K-TIG Limited and its subsidiaries together are referred to in these financial statements as the 'consolidated group'.

Note 1. Significant accounting policies (continued)

Subsidiaries are all those entities over which the consolidated group has control. The consolidated group controls an entity when the consolidated group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the consolidated group. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between entities in the consolidated group are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the consolidated group.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. Without the loss of control, a change in ownership interest is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Where the consolidated group loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary, together with any cumulative translation differences recognised in equity. In addition, the consolidated group recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

Operating segments

Operating segments are presented using the 'management approach', where the information presented is on the same basis as the internal reports provided to the Chief Operating Decision Makers ('CODM'). The CODM is responsible for allocating resources to operating segments and assessing their performance.

Foreign currency translation

The financial statements are presented in Australian dollars, which is K-TIG Limited's functional and presentation currency.

Foreign currency transactions

Foreign currency transactions are translated into Australian dollars using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at financial year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

Revenue recognition

The consolidated group recognises revenue as follows:

Revenue from contracts with customers

Revenue is recognised at an amount that reflects the consideration to which the consolidated group is expected to be entitled in exchange for transferring goods or services to a customer. For each contract with a customer, the consolidated group: identifies the contract with a customer; identifies the performance obligations in the contract; determines the transaction price; allocates the transaction price to the separate performance obligations based on the relative stand-alone selling price of each distinct good or service to be delivered, and recognises revenue when or as each performance obligation is satisfied in a manner that depicts the transfer to the customer of the goods or services promised.

Sale of goods

Revenue from the sale of goods is recognised at the point in time when the customer obtains control of the goods, which is generally at the time of delivery.

Rendering of services

Revenue from a contract to provide services is recognised over time as the services are rendered.

Revenue from government grants

Grant income is recognised in line with AASB 120, when there is reasonable assurance that the consolidated group has complied with the conditions attached to the grant.

Note 1. Significant accounting policies (continued)

WaaS

Welding as a Service (WaaS) revenue is recognised at an amount that reflects the greater of the minimum monthly charge or the usage rate stipulated in the contract, which the consolidated group is expected to be entitled to under an operating lease in accordance with AASB 16. The minimum term of the license or lease period is generally three years. The license or lease equipment is capitalised as an asset and depreciated over the expected useful life being five years. Upon signing of the license or lease contract, the customer is generally required to make a prepayment which is recorded on the statement of financial position as "Amounts received in advance". After delivery and commissioning of the WaaS asset, the prepayment is applied against the monthly fee until it is exhausted.

Interest

Interest income is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

Other revenue

Other revenue is recognised when it is received or when the right to receive payment is established.

Income tax

The income tax expense or benefit for the period is the tax payable on that period's taxable income based on the applicable income tax rate for each jurisdiction, adjusted by the changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to be applied when the assets are recovered, or liabilities are settled, based on those tax rates that are enacted or substantively enacted, except for:

- When the deferred income tax asset or liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting nor taxable profits; or
- When the temporary taxable difference is associated with interests in subsidiaries, associates or joint ventures, and the reversal timing can be controlled, it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets are recognised for temporary deductible differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The carrying amount of recognised and unrecognised deferred tax assets are reviewed at each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Conversely, previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

Deferred tax assets and liabilities are offset only where there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets against deferred tax liabilities, and they relate to the same taxable authority on either the same taxable entity or different taxable entities which intend to settle simultaneously.

Prior to the acquisition of Keyhole TIG Limited in September 2019, K-TIG Limited (the 'legal parent') and its wholly-owned Australian subsidiaries had formed an income tax consolidated group under the tax consolidation regime. K-TIG Limited is in the process of adding Keyhole TIG Limited to that group. The legal parent and each subsidiary in the consolidated tax group continue to account for their own current and deferred tax amounts. Accordingly, the consolidated tax group has applied the 'separate taxpayer within group' approach in determining the appropriate amount of taxes to allocate to the consolidated tax group members.

In addition to its own current and deferred tax amounts, the legal parent also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from each subsidiary in the consolidated tax group.

Note 1. Significant accounting policies (continued)

Assets or liabilities arising under tax funding agreements with the tax consolidated entities are recognised as amounts receivable from or payable to other entities in the consolidated tax group. The tax funding arrangement ensures that the intercompany charge equals the current tax liability or benefit of each tax consolidated group member, resulting in neither a contribution by the legal parent to the subsidiaries nor a distribution by the subsidiaries to the legal parent.

Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the consolidated group's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period, or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in the consolidated group's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period, or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current.

Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with financial institutions, and other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. For the statement of cash flows presentation purposes, cash and cash equivalents also include bank overdrafts, shown within borrowings in current liabilities on the statement of financial position.

Trade and other receivables

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses. Trade receivables are generally due for settlement within 30 days.

The consolidated group has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance. In addition, trade receivables have been grouped based on days overdue to measure the expected credit losses.

Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

Inventories

Materials and components, and finished goods are stated at the lower of cost and net realisable value on a 'first in first out' basis. Cost comprises of direct materials. Costs of purchased inventory are determined after deducting rebates and discounts received or receivable.

Stock in transit is stated at the lower of cost and net realisable value. Cost comprises of purchase and costs, net of rebates and discounts received or receivable.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated completion costs and the costs necessary to make the sale.

Financial assets

Financial assets are measured at amortised cost if they are held within a business model whose objective is to hold the financial assets and collect its contractual cash flows. The contractual terms of the financial assets give rise to cash flows that are solely principal payments and interest on the principal amount outstanding. After initial recognition, these are measured at amortised cost using the effective interest method. Discounting is omitted where the effect of discounting is immaterial. The consolidated group's cash and cash equivalents, trade and other receivables fall into this category of financial instruments.

Note 1. Significant accounting policies (continued)

Financial assets are derecognised when the rights to receive cash flows have expired or have been transferred, and the consolidated group has transferred substantially all the risks and rewards of ownership. When there is no reasonable expectation of recovering part or all of a financial asset, its carrying value is written off.

Impairment of financial assets

The consolidated group recognises a loss allowance for expected credit losses on financial assets, which are measured at amortised cost. The measurement of the loss allowance depends upon the consolidated group's assessment at the end of each reporting period as to whether the financial instrument's credit risk has increased significantly since initial recognition, based on reasonable and supportable information that is available, without undue cost or effort to obtain.

Where there has not been a significant increase in exposure to credit risk since initial recognition, a 12-month expected credit loss allowance is estimated. This represents a portion of the asset's lifetime expected credit losses that are attributable to a default event that is possible within the next 12 months. Where a financial asset has become credit impaired or where it is determined that credit risk has increased significantly, the loss allowance is based on the asset's lifetime expected credit losses. The amount of expected credit loss recognised is measured based on the probability-weighted present value of anticipated cash shortfalls over the instrument's life discounted at the original effective interest rate.

Property, plant and equipment

Plant and equipment are stated at historical cost less accumulated depreciation and impairment. Historical cost includes expenditure directly attributable to the acquisition of the items.

Depreciation is calculated on a straight-line basis to write off the net cost of each item of property, plant and equipment over their expected useful lives as follows:

Leasehold improvements2 yearsWaaS assets5 yearsPlant and equipment2.5 - 20 yearsComputer Equipment3 years

If appropriate, the residual values, useful lives and depreciation methods are reviewed and adjusted at each reporting date.

Leasehold improvements are depreciated over the unexpired lease period or the estimated useful life of the assets, whichever is shorter.

An item of property, plant and equipment is derecognised upon disposal or when there is no future economic benefit to the consolidated group. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss. Any revaluation surplus reserve relating to the disposed item is transferred directly to retained profits.

Right-of-use assets

A right-of-use asset is recognised at the commencement date of a lease. The right-of-use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred, and, except where included in the cost of inventories.

Right-of-use assets are depreciated on a straight-line basis over the unexpired lease period or the asset's estimated useful life, whichever is shorter. Where the consolidated group expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is over its estimated useful life. Right-of-use assets are subject to an impairment or adjusted for any remeasurement of lease liabilities.

The consolidated group has elected not to recognise a right-of-use asset and corresponding lease liability for short-term leases with terms of 12 months or less and leases of low-value assets. Lease payments on these assets are expensed to profit or loss as incurred.

Note 1. Significant accounting policies (continued)

Intangible assets

Intangible assets acquired separately are initially recognised at cost. Indefinite life intangible assets are not amortised and are subsequently measured at cost less any impairment. Finite life intangible assets are subsequently measured at cost less amortisation and any impairment. The gains or losses recognised in profit or loss arising from the derecognition of intangible assets are measured as the difference between net disposal proceeds and the intangible asset's carrying amount. The method and useful lives of finite life intangible assets are reviewed annually. Changes in the expected consumption pattern or useful life are accounted for prospectively by changing the amortisation method or period.

Patents and trademarks

Significant costs associated with patents and trademarks are deferred and amortised on a straight-line basis throughout their expected benefit, their finite life of 10 years. Amortisation expense is recognised as R&D expense in the profit or Loss.

Impairment of non-financial assets

Other non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

The recoverable amount is the higher of an asset's fair value less disposal costs and value-in-use. The value-in-use is the present value of the estimated future cash flows relating to the asset using a pre-tax discount rate specific to the asset or cash-generating unit to which the asset belongs. Assets that do not have independent cash flows are grouped together to form a cash-generating unit.

Trade and other payables

These amounts represent liabilities for goods and services provided to the consolidated group before the end of the financial year, which are unpaid. Due to their short-term nature, they are measured at amortised cost and are not discounted. As a result, the amounts are unsecured and are usually paid within 30 days of recognition.

Borrowings

Loans and borrowings are initially recognised at the fair value of the consideration received, net of transaction costs. They are subsequently measured at amortised cost using the effective interest method.

The component of the convertible notes that exhibits characteristics of a liability is recognised as a liability in the statement of financial position, net of transaction costs.

On the convertible notes issue, the liability component's fair value is determined using a market rate for an equivalent non-convertible bond. This amount is carried as a non-current liability on the amortised cost basis until extinguished on conversion or redemption. The increase in liability due to the passage of time is recognised as a finance cost. The remainder of the proceeds is allocated to the conversion option recognised and included in shareholder's equity as a convertible note reserve, net of transaction costs. The carrying amount of the conversion option is not remeasured in the subsequent years. The corresponding interest on convertible notes is expensed to profit or loss.

Leases

As a lessee

For any new contracts entered into by the group, the consolidated group considers whether a contract is or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'. To apply this definition, the consolidated group assesses whether the contract meets three key evaluations which are whether:

- The contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the consolidated group;
 - The consolidated group has the right to obtain substantially all of the economic benefits from the use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract;
- The consolidated group has the right to direct the use of the identified asset throughout the period of use. The consolidated group assesses whether it has the right to direct 'how and for what purposes' the asset is used throughout the period of use.

Note 1. Significant accounting policies (continued)

As a lessor

The consolidated group's accounting policy under AASB 16 has not changed from the comparative period. As a lessor, the consolidated group classified its leases as either operating or finance leases. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of the underlying asset and classified as an operating lease if it does not.

Lease liabilities

A lease liability is recognised at the commencement date of a lease. The lease liability is initially recognised at the present value of the lease payments to be made over the lease term, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the consolidated group's incremental borrowing rate. Lease payments comprise of fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, amounts expected to be paid under residual value guarantees, and the exercise price of a purchase option when the exercise of the option is reasonably certain to occur, and any anticipated termination penalties. The variable lease payments that do not depend on an index or a rate are expensed in the period in which they are incurred.

Lease liabilities are measured at amortised cost using the effective interest method. The carrying amounts are remeasured if there is a change in the following: future lease payments arising from a change in an index or a rate used; residual guarantee; lease term; the certainty of a purchase option; and termination penalties. When a lease liability is remeasured, an adjustment is made to the corresponding right-of-use asset or to profit or loss if the carrying amount of the right-of-use asset is fully written down.

Finance costs

Finance costs attributable to qualifying assets are capitalised as part of the asset. All other finance costs are expensed in the period in which they are incurred.

Provisions

Provisions are recognised when the consolidated group has a present (legal or constructive) obligation as a result of a past event, it is probable the consolidated group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. If the time value of money is material, provisions are discounted using a current pre-tax rate specific to the liability. The increase in the provision resulting from the passage of time is recognised as a finance cost.

Employee benefits

Short-term employee benefits

Liabilities for wages and salaries, including non-monetary benefits, annual leave and long service leave expected to be settled wholly within 12 months of the reporting date, are measured at the amounts expected to be paid when the liabilities are settled.

Other long-term employee benefits

The liability for annual leave and long service leave not expected to be settled within 12 months of the reporting date are measured at the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, the experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on corporate bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

Defined contribution superannuation expense

Contributions to defined contribution superannuation plans are expensed in the period in which they are incurred.

Share-based payments

Equity-settled share-based compensation benefits are provided to employees.

Equity-settled transactions are awards of shares, or options over shares, that are provided to employees in exchange for rendering services.

Note 1. Significant accounting policies (continued)

The cost of equity-settled transactions are measured at fair value on the grant date. Fair value is independently determined using either the Black-Scholes option pricing model or a Monte Carlo simulation that takes into account the exercise price, the term of the option, the impact of dilution, the share price at the grant date and the expected price volatility of the underlying share, the expected dividend yield and the risk-free interest rate for the term of the option, together with non-vesting conditions that do not determine whether the consolidated group receives the services that entitle the employees to receive payment. No account is taken of any other vesting conditions.

The cost of equity-settled transactions are recognised as an expense with a corresponding increase in equity over the vesting period. The cumulative charge to profit or loss is calculated based on the grant date fair value of the award, the best estimate of the number of awards that are likely to vest and the expired portion of the vesting period. The amount recognised in profit or loss for the period is the cumulative amount calculated at each reporting date, less amounts already recognised in previous periods.

Market conditions are taken into consideration in determining fair value. Therefore, any awards subject to market conditions are considered to vest irrespective of whether or not that market condition has been met, provided all other conditions are satisfied.

If equity-settled awards are modified, as a minimum an expense is recognised as if the modification has not been made. An additional expense is recognised, over the remaining vesting period, for any modification that increases the total fair value of the share-based compensation benefit as at the date of modification.

If the non-vesting condition is within the control of the consolidated group or employee, the failure to satisfy the condition is treated as a cancellation. If the condition is not within the control of the consolidated group or employee and is not satisfied during the vesting period, any remaining expense for the award is recognised over the remaining vesting period unless the award is forfeited.

If equity-settled awards are cancelled, it is treated as if it has vested on the date of cancellation, and any remaining expense is recognised immediately. If a new replacement award is substituted for the cancelled award, the cancelled and new award is treated as if they were a modification.

Fair value measurement

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using market participants' assumptions when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Assets and liabilities measured at fair value are classified into three levels, using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. Classifications are reviewed at each reporting date, and transfers between levels are determined based on a reassessment of the lowest input level that is significant to the fair value measurement.

For recurring and non-recurring fair value measurements, external valuers may be used when internal expertise is unavailable, or the valuation is deemed significant. External valuers are selected based on market knowledge and reputation. Where there is a significant change in the fair value of an asset or liability from one period to another, an analysis is undertaken, which includes a verification of the major inputs applied in the latest valuation and a comparison, where applicable, with external sources of data.

Issued capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Note 1. Significant accounting policies (continued)

Dividends

Dividends are recognised when declared during the financial year and are no longer at the company's discretion.

Business combinations

The acquisition method of accounting is used to account for business combinations regardless of whether equity instruments or other assets are acquired.

The consideration transferred is the sum of the acquisition-date fair values of the assets transferred, equity instruments issued or liabilities incurred by the acquirer to former owners of the acquiree. In addition, all acquisition costs are expensed as incurred to profit or loss.

On the acquisition of a business, the consolidated group assesses the financial assets acquired and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic conditions, the consolidated group's operating or accounting policies and other pertinent conditions in existence at the acquisition-date.

Contingent consideration to be transferred by the acquirer is recognised at the acquisition-date fair value. Subsequent changes in the fair value of the contingent consideration classified as an asset or liability is recognised in profit or loss. Contingent consideration classified as equity is not remeasured, and its subsequent settlement is accounted for within equity.

The difference between the acquisition-date fair value of assets acquired, liabilities assumed, and the fair value of the consideration transferred. The fair value of any pre-existing investment in the acquiree is recognised as goodwill. However, suppose the consideration transferred and the pre-existing fair value is less than the fair value of the identifiable net assets acquired, being a bargain purchase to the acquirer. In that case, the difference is recognised as a gain directly in profit or loss by the acquirer on the acquisition date, but only after a reassessment of the identification and measurement of the net assets acquired, the non-controlling interest in the acquiree, if any, the consideration transferred and the acquirer's previously held equity interest in the acquirer.

Business combinations are initially accounted for on a provisional basis. The acquirer retrospectively adjusts the provisional amounts recognised and also recognises additional assets or liabilities during the measurement period, based on new information obtained about the facts and circumstances that existed at the acquisition date. The measurement period ends either earlier (i) 12 months from the date of the acquisition or (ii) when the acquirer receives all the information possible to determine fair value.

Earnings per share

Basic earnings per share

Basic earnings per share are calculated by dividing the profit attributable to the owners of K-TIG Limited, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the financial year.

Diluted earnings per share

Diluted earnings per share adjust the figures used in the determination of basic earnings per share to take into account the after-income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration concerning dilutive potential ordinary shares.

Goods and Services Tax ('GST') and other similar taxes

Revenues, expenses and assets are recognised net of the amount of associated GST unless the GST incurred is not recoverable from the tax authority. In this case, it is recognised as part of the cost of the acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST receivable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from or payable to the tax authority are presented as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the tax authority.

Note 1. Significant accounting policies (continued)

New Accounting Standards and Interpretations not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory have not been adopted early by the consolidated group for the annual reporting period ended 30 June 2022. Accordingly, the consolidated group has not yet assessed the impact of these new or amended Accounting Standards and Interpretations.

Note 2. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates concerning assets, liabilities, contingent liabilities, revenue and expenses. Management believes management's judgements, estimates and assumptions based on historical experience and other factors, including expectations of future events, to be reasonable under the circumstances. However, the resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

Share-based payment transactions

The consolidated group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using either the Binomial or Black-Scholes model taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would not impact the carrying amounts of assets and liabilities within the next annual reporting period. Still, they may impact profit or loss and equity.

Allowance for expected credit losses

The allowance for expected credit losses assessment requires a degree of estimation and judgement. It is based on the lifetime expected credit loss, grouped based on days overdue, and makes assumptions to allocate an overall expected credit loss rate for each group. These assumptions include recent sales experience and historical collection rates.

Estimation of useful lives of assets

The consolidated group determines the estimated useful lives and related depreciation and amortisation charges for its property, plant and equipment and finite life intangible assets. The useful lives could change significantly as a result of technical innovations or some other event. Therefore, the depreciation and amortisation charge will increase where the useful lives are less than previously estimated lives, or technically obsolete or non-strategic assets that have been abandoned or sold will be written off or written down.

Impairment of non-financial assets other than goodwill and other indefinite life intangible assets

The consolidated group assesses the impairment of non-financial assets other than goodwill and other indefinite life intangible assets at each reporting date by evaluating conditions specific to the consolidated group and to the particular asset that may lead to impairment. If an impairment trigger exists, the recoverable amount of the asset is determined. This involves fair value-less disposal costs or value-in-use calculations, which incorporate a number of key estimates and assumptions.

Lease term

The lease term is a significant component in the measurement of both the right-of-use asset and a lease liability. Judgement is exercised in determining whether there is reasonable certainty that an option to extend the lease or purchase the underlying asset will be exercised or an option to terminate the lease will not be exercised when ascertaining the periods to be included in the lease term. In determining the lease term, all facts and circumstances that create an economical incentive to exercise an extension option or not to exercise a termination option are considered at the lease commencement date. Factors considered may include the importance of the asset to the consolidated group's operations; comparison of terms and conditions to prevailing market rates; incurrence of significant penalties; the existence of significant leasehold improvements; and the costs and disruption of replacing the asset. The consolidated group reassesses whether it is reasonably certain to exercise an extension option or not exercise a termination option if there is a significant event or significant change in circumstances.

Incremental borrowing rate

Where the interest rate implicit in a lease cannot be readily determined, an incremental borrowing rate is estimated to discount future lease payments to measure the present value of the lease liability at the lease commencement date. Such a rate is based on what the consolidated group estimates it would have to pay a third party to borrow the funds necessary to obtain an asset of a similar value to the right-of-use asset, with similar terms, security and economic environment.

Employee benefits provision

As discussed in Note 1, the liability for employee benefits expected to be settled more than 12 months from the reporting date are recognised and measured at the present value of the estimated future cash flows to be made in respect of all employees at the reporting date. In determining the present value of the liability, estimates of attrition rates and pay increases through promotion and inflation have been taken into account.

Note 3. Revenue

The consolidated group leases land and buildings for its Adelaide office and warehouse under an agreement. Effective 6 June 2020, the final extension on the current lease was exercised for a further two years, with the lease expiring on 5 June 2022. Renewal has been agreed upon with the lessor for a period of five years; we anticipate the agreement will be executed in August 2022. The consolidated group leases office and warehouse equipment under either short-term or low-value agreements, so have been expensed as incurred and not capitalised as right-of-use assets (Note 5).

Amounts not expected to be settled within the next 12 months

The current provision for employee benefits includes all unconditional entitlements where employees have completed the required service period and those where employees are entitled to pro-rata payments in certain circumstances. The noncurrent amount represents the unvested long-service leave accrual.

Note 17. Issued capital

	2022	2021	2022	2021
Consolidated	Shares	Shares	\$	\$
Ordinary shares - fully paid	181,111,261	169,111,261	27,299,303	23,443,733
	181,111,261	169,111,261	27,299,303	23,443,733

Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the company does not have a limited amount of authorised capital. On a show of hands, every member present at a meeting in person or by proxy shall have one vote, and upon a poll each share shall have one vote.

Capital risk management

The consolidated group's objectives when managing capital is to safeguard its ability to continue as a going concern so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital. Capital is regarded as total equity, as recognised in the consolidated statement of financial position, plus net debt. Net debt is calculated as total borrowings less cash and cash equivalents.

To maintain or adjust the capital structure, the consolidated group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

On 1 November 2020, Mr Smith was appointed as Managing Director of the Company. Shares will be issued to Mr Smith at each anniversary of employment as follows, with 50% of shares issued subject to a voluntary escrow period of 12 months as follows:

- 1,000,000 shares to be issued on 1 November 2021;
- 1,500,000 shares to be issued on 1 November 2022; and
- 2,000,000 shares to be issued on 1 November 2023.

Refer to Note 33 for more details on the calculation of the fair value of the long-term incentive shares granted and the related share-based payment expense for the year.

K-TIG Limited and Its Controlled Entities Notes to the financial statements 30 June 2020

Note 19. Dividends

No dividends were paid during the financial year ended 30 June 2022 (2021: Nil). Franking credits available for subsequent periods based on a 25% tax rate is Nil (30 June 2021: 26%).

Note 20. Financial instruments

Financial risk management objectives

The consolidated group's activities expose it to a variety of financial risks: market risk (including foreign currency risk, price risk and interest rate risk), credit risk and liquidity risk. The consolidated group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the consolidated group.

Risk management is carried out by senior finance executives ('finance') in consultation with the Board of Directors ('the Board'). Finance identifies and evaluates financial risks within the consolidated group's operating units. Finance reports to the Board monthly.

Market risk

Foreign currency risk

The consolidated group undertakes certain transactions denominated in foreign currency and is exposed to foreign currency risk through foreign exchange rate fluctuations. These transactions include customer sales agreements and supplier agreements.

Foreign exchange risk arises from future commercial transactions and recognised financial assets and financial liabilities denominated in a currency that is not the entity's functional currency. The risk is measured using sensitivity analysis and cash flow forecasting.

To protect against exchange rate movements, the consolidated group monitors its cash balances in foreign currencies. In addition, it utilises accumulated foreign currencies to purchase supplies to mitigate the exposure to currency changes.

The carrying amount of the consolidated group's foreign currency denominated financial assets and financial liabilities at the reporting date were as follows:

	Asse	ts	Liabilit	ies
	2022	2021	2022	2021
Consolidated	\$	\$	\$	\$
US dollars	909,162	828,218	214,693	33,937
Euros	127,974	148,908	3,667	-
British pound	122,892	262	52,495	-
	1,160,029	977,388	270,855	33,937

The consolidated group had net financial assets denominated in foreign currencies of \$889,174 as at 30 June 2022 (30 June 2021: net assets \$943,451). Based on this exposure, had the Australian dollar weakened by 10% against these foreign currencies with all other variables held constant, the consolidated group's loss before tax for the year would have been \$88,917 lower (30 June 2021: \$94,345 lower), and equity would have been \$88,917 lower (30 June 2021: \$94,345 lower). The percentage change is the expected overall volatility of the significant currencies, which is based on management's assessment of reasonable possible fluctuations taking into consideration movements over the last 6 months each year and the spot rate at each reporting date. As a result, the actual foreign exchange gain for the year ended 30 June 2022 was \$18,136 (30 June 2021: \$1,531).

Price risk

The consolidated group is not exposed to any significant price risk; refer to the market risk commentary above.

Interest rate risk

There are no loans or borrowings subject to interest rate risk as at 30 June 2022 or 30 June 2021.

Note 20. Financial instruments (continued)

Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the consolidated group. The consolidated group has a strict process of obtaining advance payment for all equipment sales prior to shipment. The consolidated group is exposed to customer credit for its WaaS licence customers in relation to the ongoing monthly payments after the initial Advance Payment has been consumed. Furthermore, K-TIG retains the full title of the products provided under a WaaS operating licence agreement. This exposure is managed carefully with close interaction with the customer. The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the consolidated statement of financial position and notes to the financial statements. The consolidated group does not hold any collateral.

Generally, trade receivables are written off when there is no reasonable expectation of recovery. Indicators of this include the failure of a debtor to engage in a repayment plan, no active enforcement activity and a failure to make contractual payments for a period greater than 1 year.

Liquidity risk

Vigilant liquidity risk management requires the consolidated group to maintain sufficient liquid assets (mainly cash and cash equivalents) and available borrowing facilities to pay debts as and when they become due and payable.

The consolidated group manages liquidity risk by maintaining adequate cash reserves and available borrowing facilities by continuously monitoring actual and forecast cash flows and matching the maturity profiles of financial assets and liabilities.

Remaining contractual maturities

The following tables detail the consolidated group's remaining contractual maturity for its financial instrument liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the financial liabilities are required to be paid. The tables include both interest and principal cash flows disclosed as remaining contractual maturities; therefore, these totals may differ from their carrying amount in the statement of financial position.

	Weighted Average Interest Rate	1 Year or Less	Between 1 and 2 years	Between 2 and 5 Years	Over 5 Years	Remaining Contractual Maturities
Consolidated -						
2022	%	\$	\$	\$	\$	\$

Note 23. Contingent assets and liabilities

Contingent assets

No contingent assets are noted as at 30 June 2022 (30 June 2021: Nil).

Contingent liabilities

In the opinion of the Directors, the consolidated group has contingencies concerning deferred consideration shares as at 30 June 2022 (30 June 2021: deferred consideration shares and consultancy services agreement).

Deferred Consideration Shares

During the financial year ended 30 June 2020, K-TIG Limited completed the 100% acquisition of Keyhole TIG Limited. Part of the acquisition consideration includes up to 30,075,135 deferred consideration shares. Refer to Note 17 for terms of consideration shares.

Note 24. Commitments

There are no lessee commitments as at 30 June 2022 related to equipment operating lease commitments (30 June 2021: \$0). The consolidated group has recognized the facility lease commitments as right-of-use assets at its primary place of business. Refer to Note 11 for right-of-use assets.

Lessor commitments receivable

Lessor commitments relate to operating lease payments to be received from WaaS license agreements. Licenses have a minimum term of 0-3 years (generally 3-year minimum terms). As at 30 June 2022, all operating lease payments to be received are payable in US dollars or Euros, and for the purposes of the maturity analysis have been translated at the spot rate at the reporting date. The maturity analysis of undiscounted operating lease payments to be received is below. The lessor commitments receivable include one license with a customer with no minimum term with a maximum term of 10 years, where the maximum term could likely be 5 years.

Note 24. Commitments (continued)

Performance Rights

The performance rights are subject to the satisfaction of certain milestones and the Board's discretion as per the tables listed below. Mark Twycross resigned as a director on 1 December 2021. The board exercised their discretion to remove the service conditions of his unvested (class c) performance shares. This modification has no impact on the fair value of the performance rights or the other vesting conditions.

	Number of Performance		Milestone
Class	Rights	Milestone	Date
Α	2,000,000	The Company achieving of at least \$0.35 over twenty consecutive trading day period before Milestone Date	1 April 2021
В	2,000,000	The Company achieving of at least \$0.50 over twenty consecutive trading day period before Milestone Date	1 October 2021
С	2,000,000	The Company achieving of at least \$0.70 over twenty consecutive trading day period before Milestone Date	1 October 2022

Options granted pre 01 July 2021 were considered to be granted during the current period when the employment commenced.

Note 34. Operating Segment

The consolidated group is considered to be one operating segment based on products delivered. This operating segment is based on the internal reports reviewed and used by the Board of Directors (who are identified as the Chief Operating Decision Makers ('CODM') in assessing performance and determining the allocation of resources. Accordingly, the information presented in the financial statements approximates the information of the operating segment.

K-TIG Limited and Its Controlled Entities Directors' Declaration For the year ended 30 June 2022

In the directors' opinion:

- the attached financial statements and notes comply with the Corporations Act 2001, the Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes comply with International Financial Reporting Standards as issued by the International Accounting Standards Board as described in Note 1 to the financial statements;
- the attached financial statements and notes give a true and fair view of the consolidated group's financial position as at 30 June 2022 and of its performance for the financial year ended on that date;
- there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

The directors have been given the declarations required by section 295A of the Corporations Act 2001.

Signed in accordance with a resolution of directors made pursuant to section 295(5)(a) of the Corporations Act 2001.

On behalf of the directors

Stuart Carmichael

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF K-TIG LIMITED

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of K-TIG Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2022, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial report, including a summary of significant accounting policies and the directors' declaration.

In our opinion the accompanying financial report of the Group, is in accordance with the *Corporations Act 2001*, including:

- (i) Giving a true and fair view of the Group's financial position as at 30 June 2022 and of its financial performance for the year ended on that date; and
- (ii) Complying with Australian Accounting Standards and the Corporations Regulations 2001.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report. We are independent of the Group in accordance with the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Share Based Payments

Key audit matter

During the year ended 30 June 2022, the Company issued employee performance rights ('performance rights') to employees, which were accounted for as share based payments under AASB 2: Share Based Payments. Share-based payments are a complex accounting area including assumptions utilised in the fair value calculations and judgments regarding the performance rights and incentive shares issued during the year. There is a risk in the financial report that amounts are incorrectly recognised and/or inappropriately disclosed. Refer to Note 1 and 2 of the financial report for a description of the accounting policy and significant estimates and judgements applied to these transactions.

How the matter was addressed in our audit

Our audit procedures included but were not limited to:

- Evaluating management's assessment of the valuation and recognition of the performance rights.
- Obtaining an understanding of the key terms and conditions of the performance rights and incentive shares by inspecting relevant agreements.
- Holding discussions with management to understand the sharebased payment arrangements in place and evaluating management's assessment of the likelihood of meeting any condition attached to the performance rights.
- Assessing the fair value of performance rights determined by an expert management engaged. This included assessing the reasonableness of the key inputs used in the valuation model and valuation methodology.
- Reviewing the adequacy of the Company's disclosures in respect of the accounting treatment of share-based payments in the financial statements, including the significant judgments involved, and the accounting policy adopted.

Revenue recognition and measurement

Key audit matter

Refer to Note 3 of the financial report and Note 1 for the accounting policy.

For the year ended 30 June 2022 the Group recognised \$3,702,512 (2021: \$1,561,556).

Revenue recognition was identified as a key audit matter due to:

- The significance of revenue to the financial report
- The complex nature and terms of revenue transactions and associated payment arrangements
- The large size of individual revenue transactions, and
- Sales being recorded by overseas Group entities.

How the matter was addressed in our audit

Our audit procedures included but were not limited to:

- Understanding and documenting the processes and controls used by the Group in recording revenue
- Assessing the revenue recognition policy for compliance with AASB 15 Revenues
- Checking a sample of revenue transactions to evaluate whether they were appropriately recorded as revenue ensuring the amounts recorded agreed to supporting evidence
- Reviewing the terms and conditions of a sample of executed sales agreements and ensuring that the accounting treatment has been correctly applied
- Checking, for a sample of revenue in advance amounts, whether the amount recognised in the current period was consistent with services supplied per the terms of the customer agreement

Other information

The directors are responsible for the other information. The other information comprises the information in the Group's annual report for the year ended 30 June 2022, but does not include the financial report and the auditor's report thereon, which we obtained prior to the date of this auditor's report, and the annual report, which is expected to be made available to us after that date.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to the directors and will request that it is corrected. If it is not corrected, we will seek to have the matter appropriately brought to the attention of users for whom our report is prepared.

Responsibilities of the directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website (http://www.auasb.gov.au/Home.aspx) at: https://www.auasb.gov.au/admin/file/content102/c3/ar1_2020.pdf

This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 7 to 15 of the directors' report for the year ended 30 June 2022.

In our opinion, the Remuneration Report of K-TIG Limited, for the year ended 30 June 2022, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
