# Pasofino Gold Announces a Non-Brokered Private Placement of up to US\$5.5 Million Supported by a Strategic Investment of Approximately US\$4.5 Million Subscription from ESAN

12/6/2021

Toronto, Ontario--(Newsfile Corp. - December 6, 2021) - Pasofino Gold Limited (TSXV: VEIN) (OTCQB: EFRGF) (FSE: N07) ("Pasofino" or the "Company") is pleased to announce a non-brokered private placement of common shares at \$0.70 (or US\$0.55) per share for gross proceeds of up to US\$5.5 million (the "Offering"). Approximately US\$4.5 million of the Offering (being 8,225,092 Common Shares) has been subscribed for by ESAN, a leading Turkish mining company. ESAN has been granted the right to nominate one director to the Board of the Company and a right to maintain its shareholding interest in the Company should the Company raise additional funds in the future by way of private placement or prospectus offering.

## Highlights

- This round of funding provides sufficient capital to complete the Feasibility Study ("FS").
- With the updated Mineral Resource Estimate just completed, Pasofino is well on-track to deliver a strong FS in Q2/22 and the study includes scheduling of the mine plan to optimize the projects economics by taking advantage of a higher-grade zones carrying 2.9Moz grading 1.58 g/t gold (Measured and Indicated).

Ian Stalker, CEO, commented;

"This strategic investment further confirms our view that the Dugbe project is high quality and has the potential to become a major gold producer within the industry. We look forward to the completion of the FS which will highlight the significant upside that exists at Dugbe given the close proximity to port, the large land package, the high-grade zones, and continued positive relationships with stakeholders in Liberia."

The Offering is expected to close in December 2021 and is subject to certain closing conditions including, but not limited to, the receipt of all necessary approvals including the conditional listing approval of the TSX Venture Exchange and the applicable securities regulatory authorities. The Offering is being made by way of private placement in Canada. The securities issued under the Offering will be subject to a hold period in Canada expiring four months and one day from the closing date of the Offering.

The securities offered have not been registered under the U.S. Securities Act of 1933, as amended, and may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirements. This news release shall not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of the securities in any State in which such offer, solicitation or sale would be unlawful.

#### About the Dugbe Gold Project

The 2,559 km<sup>2</sup> Dugbe Project is located in southern Liberia and situated within the south westmost part of the Birimian Supergroup, which is host to the majority of West African gold deposits. To date, two gold deposits have been identified on the Project; Dugbe F and Tuzon. Both deposits outcrop at surface and may be amenable to open-cut mining. The deposits are located within 4 km of the Dugbe Shear Zone which is thought to have played a role in large scale gold mineralization in the area. A large amount of exploration in the area was conducted by Hummingbird including 74,497 m of diamond coring. 70,700 m of this was at the Dugbe F and Tuzon deposits, discovered by Hummingbird in 2009 and 2011 respectively. In 2020 and 2021 Pasofino drilled a further 14,638 m mostly at Dugbe F and Tuzon. Pasofino is well underway with a feasibility study for gold production from these deposits. In addition, there are a number of gold targets within the Project. In 2019, Hummingbird signed a 25-year Mineral Development Agreement ("MDA") with the Government of Liberia providing the necessary long-term framework and stabilization of taxes and duties. Under the terms of the MDA, the royalty rate on gold production is 3%, the income tax rate payable is 25% (with credit given for historic exploration expenditures), the fuel duty is

reduced by 50%, and the Government of Liberia is granted a free carried interest of 10% in the Project.
