

A photograph of a woman and a young girl standing next to a dark-colored electric vehicle (EV) in a wooded area. The girl is holding a charging cable and plugging it into the car's charging port. The woman is standing behind her, smiling and looking at the car. The background is filled with green trees and foliage. The text "EVolve NY's Mission: a Fast Electric-Charging Station Near You" is overlaid on the left side of the image in a large, bold, sans-serif font.

EVolve NY's Mission: a Fast Electric-Charging Station Near You

Making New York a Leader in EV Infrastructure

The New York Power Authority's EVolve NY program's vision: Make electric vehicles an **affordable, convenient** option and help provide New Yorkers with cleaner air. We're working to make sure that whatever EV you're driving, you'll have public, **easy-to-find options** throughout the state for **quickly recharging** your vehicle.

The heart of \$250 million EVolve NY program is:

- installing up to 800 new EV fast charging stations throughout the state by 2025
- locating chargers along the state's major highway corridors, from north to south and from east to west
- positioning chargers often within just a few minutes of the exit

EV charging in New York State's largest cities will be easier, too. EVolve NY will install [fast charging hubs in New York City and the state's other largest cities](#). NYPA has already partnered with the Port Authority of New York and New Jersey to install a new 10-port charging station at John F. Kennedy International Airport in Queens, the largest public fast-charging station in the Northeast.

And to make EV ownership even more affordable, the state's Drive Clean Rebate offers a rebate of up to \$2,000 for new EV purchases or leases.

EVolve NY FAQ

- ✓ **Do EVolve NY charging stations work for any electric vehicle?**
- ✓ **How much of New York State will EVolve NY charging stations cover?**
- ✓ **How long does it take to charge a vehicle at an EVolve NY charging station?**
