Bexar County Medical Examiner Update
For Quintana Road Incident Fatalities

The Bexar County Medical Examiner's Office (BCMEO) continues their work of identifying the victims who perished in the truck-trailer found on Quintana Road in San Antonio, TX.

As of last night, 19 of the victims have been conclusively identified. Their ages range from 13 to 38. Of these 19 victims, eight were citizens of Mexico, six were citizens of Guatemala, and five were citizens of Honduras.

In addition to the conclusive identifications, 30 potential identifications have been made. The BCMEO's efforts remain focused on the identification of the deceased in their care.

Four of the victims remain unidentified at this point. The overall number of deceased stands at 53.

We will publish additional information based on the conclusively identified cases in due course. As we are not aware if the decedent's next of kin has been notified yet, we refrain from releasing more detailed data out of respect for the grieving.

The BCMEO expects to publish another update by Tuesday, July 5, 2022.
