

Bravida acquires Electrosec Elteknik i Östergötland AB and strengthens its position in electrical systems

Bravida acquires the company Electrosec Elteknik i Östergötland AB and thereby strengthens its position in electrical systems in the Östergötland region. The company has 10 employees and generates annual sales of around SEK 25 million.

Electrosec Elteknik was founded in 2010 by Anders Dalhammer and Kalle Andersson. The business is currently active in electrical services and electrical contracting. The head office is located in Linköping and the company is also in Motala and Borensberg. Its customers include the Swedish Police Authority, small and large construction contractors and a number of large farmers.

“This acquisition will strengthen our presence in the field of electrical systems in Linköping. Electrosec Elteknik has employees with great competence and in the long term we can now reach more new customers in the area of electrical systems and also within heating and plumbing, and HVAC,” comments Sven Westdahl, Regional Manager for the Närke, Östergötland and Gotland region at Bravida.

Kalle Andersson, former CEO of Electrosec Elteknik, will continue to work for Bravida. He comments:

“Together with Bravida, we can now develop further and achieve bigger goals with the help of the extensive competence within the group. Bravida is a well-established large company and our employees will now have greater development opportunities. It feels great that we are now part of Bravida and I look forward to what the future holds.”

Bravida took over as the new owner on 1 June 2022.
