iFAST Global Bank Celebrates 1st Year Anniversary of Digital Personal Banking

LONDON (24 April 2024) — UK-based iFAST Global Bank (“iGB”), the digital banking division of iFAST Corporation Ltd. (“iFAST Corp” or together with its subsidiaries, the “Group”), celebrates the 1st year anniversary of its Digital Personal Banking (“DPB”) platform.

Launched on 24 April 2023, the DPB provides an online portal and mobile application for clients globally to open an iFAST Global Bank account. The DPB currently offers a multi-purpose bank account that is seamlessly linked to fixed-term and notice deposits in multiple currencies including GBP, USD, EUR, HKD, SGD and CNY, and offers instant access via Faster Payments Service (FPS).

In the UK, the Faster Payments Service allows real-time electronic transfers between accounts, and this feature was introduced earlier this year for iFAST Global Bank account holders. The DPB has seen encouraging progress since launch. Clients from over 70 countries have opened an iFAST Global Bank personal banking account, with UK residents accounting for about 30% of the deposits.

“We are thankful to our clients for putting their trust in iFAST Global Bank. We are guided by how we can make banking without boundaries come true, in a simple and seamless way. There is clearly demand from global clients to open a digital banking account from a full-licensed bank in the UK. From the feedback we have received, clients like the ease in opening an online bank account and find the process to transfer money into the bank account to be seamless. We provide very competitive interest rates on the different currencies and there is no maximum limit on the interest they can earn on their iFAST Global Bank account, unlike many bank offerings in the market,” said Mr Simon Lee, General Manager of the DPB platform at iFAST Global Bank.

The DPB platform will continue to actively improve on the services it offers to clients. “We have emphasised the ability to develop our IT and Fintech knowledge internally since the start of our business in the year 2000. With the support from our in-house teams, we will continue to help iFAST Global Bank roll out new services relatively quickly and in a cost-efficient way. The growth of iFAST Global Bank will help to accelerate our digital banking and wealth management business with a truly global business model,” said Mr Lim Chung Chun, CEO, iFAST Corp.

iFAST Global Bank has three business divisions - besides the DPB, the other two are the EzRemit business and the Digital Transaction Banking (DTB). Both the EzRemit and DTB have continued to expand their business. The EzRemit has onboarded new originating counterparties in 4Q2023 and expects to further expand into new Middle Eastern countries, including Saudi Arabia, this year. The DTB business division has seen continued growth in clients onboarded and increased inflow into its Safeguarding and Savings Accounts in 4Q2023. DTB is planning to build system and product enhancements to improve customer offerings in 2024.

To celebrate its 1st year anniversary, iFAST Global Bank is doubling its referral reward from £5 to £10 for the period of 24 April 2024 to 7 May 2024 to eligible participants. For the full details of the campaign, please visit <https://www.ifastgb.com/home>
