

Dr. Manfred Krischke

Manfred Krischke has been awarded a PhD in aerospace engineering from the Technical University of Munich. He was the Founder and CEO of RapidEye – a successful start-up, which uses satellites to map and monitor agriculture and forestry. He also was the Managing Director of Intermap GmbH and VP at Intermap Corp - an innovative geospatial solutions company, traded on the Toronto Stock Exchange, which employed at that time over 950 people worldwide. He has been a Senior Advisor to Spacetec Capital Partners, a venture capital company specializing in early stage investment and consulting services for established hi-tech companies and governmental agencies. The first seven years of his professional career he was Business Development Manager at the space technology company Kayser-Threde GmbH in Munich, Germany.
