PART B - OTHER INFORMATION

1. Listing and Admission to trading - De listing

Application will be made for the Securities to be admitted to trading on the Multilateral Trading Facility EuroTLX (managed by Borsa Italiana S.p.A.). The Issuer is not a sponsor of, nor is it responsible for the admission and trading of the Securities on the EuroTLX and no assurance can be given that any such application will be successful.

2. Ratings

Ratings:

The Notes have not been rated.

The long-term credit rating of the Issuer is A+ from S&P Global Ratings Europe Limited ("**Standard & Poor's**").

The long-term credit rating of the Guarantor is Aa3 from Moody's and A+ from Standard & Poor's.

As defined by Moody's, an "Aa" rating means that the obligations of the Issuer and the Guarantor under the Programme are judged to be upper-medium grade and are subject to low credit risk. Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aaa through Caa. The modifier 3 indicates a ranking in the lower end of that generic rating category.

As defined by Standard & Poor's, an obligation rated 'A' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the relevant Issuer and Guarantor's capacity to meet its financial commitment on the obligation is still strong. The addition of a plus (+) or minus (-) sign shows relative standing within the major rating category.

Standard & Poor's is established in the European Union and is registered under Regulation (EC) No. 1060/2009 (as amended) (the "**CRA Regulation**"). Moody's is not established in the European Union and has not applied for registration under the CRA Regulation. The ratings issued by Moody's have been endorsed by Moody's France SAS in accordance with the CRA Regulation. Moody's France SAS is established in the European Union and registered under the CRA Regulation.

3. Interests of Natural and Legal Persons Involved in the Offer

Investors shall be informed of the fact that Banca Generali (the "Distributor") will receive from the Issuer placement fees implicit in the Issue Price of the Securities equal to a maximum amount of 2% (all tax included) of the issue amount. All placement fees will be paid out upfront.

Investors are also informed that the Distributor will receive from the Issuer a fee of 0.50% (tax excluded) for the activity of promotion of the Certificates on the secondary market to be performed by the Distributor in the period of one year starting from the first date of trading of the Certificates on EuroTLX (the "Relevant Period"). Such fee shall be calculated on the basis of the value of the Certificates purchased by Holders on EuroTLX during the Relevant Period.

Investors must also consider that such fees are not included in the price of the Securities on the secondary market and, therefore, if the Securities are sold on the secondary market, fees embedded in the Issue Price will be deducted from the sale price.

Save as discussed in the "*Potential Conflicts of Interest*" paragraph in the "*Risks*" in the Base Prospectus, so far as the Issuer is aware, no person involved in the offer of the Securities has an interest material to the offer.

What are the key risks that are specific to the securities?

Most material risk factors specific to the securities

There are also risks associated with the Securities, including:

1. Risks related to the structure of the securities:

The return on the Securities depends on the performance of the Underlying Reference(s) and whether knock-in or knock out features apply. Auto-callable Products include automatic early redemption mechanisms. Depending on the applicable formula, if an automatic early redemption event occurs investors may be exposed to a partial loss of their investment. Investors may be exposed to a partial or total loss of their investment.

2. Risks related to the underlying and its disruption and adjustments:

Unlike a direct investment in any Share(s), Stapled Share(s), GDR(s) and/or ADR(s) comprising the Underlying Reference(s) (together the "Share(s)"), an investment in Share Securities does not entitle Holders to vote or receive dividends or distributions (unless otherwise specified in the Final Terms). Accordingly, the return on Share Securities will not be the same as a direct investment in the relevant Share(s) and could be less than a direct investment.

Exposure to shares, similar market risks to a direct investment in an equity, potential adjustment events or extraordinary events and market disruption or failure to open of an exchange may have an adverse effect on the value and liquidity of the Securities.

3. Risks related to the trading markets of the securities:

The trading price of the Securities may be affected by a number of factors including, but not limited to, the relevant price, value or level of the Underlying Reference(s), the time remaining until the scheduled redemption date of the Securities, the actual or implied volatility associated with the Underlying Reference(s) and the correlation risk of the relevant Underlying Reference(s). The possibility that the value and trading price of the Securities will fluctuate (either positively or negatively) depends on a number of factors, which investors should consider carefully before purchasing or selling Securities.

4. Legal risks:

The terms of the Securities will contain provisions for calling meetings of holders of such Securities to consider matters affecting their interests generally. These provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority.

3. Il Gruppo BNPP potrebbe subire perdite importanti nelle sue attività di negoziazione e investimento a causa di oscillazioni e della volatilità di mercato.
4. Quali sono i principali rischi specifici dei titoli?

Fattori di rischio più significativi specifici dei titoli

Esistono anche rischi relativi ai Titoli, compresi:

1. Rischio relativo alla struttura dei Titoli:

Il rendimento dei Titoli dipende dall'andamento dell/i Sottostante/i di Riferimento e dall'applicazione delle clausole di Knock-in o Knock-out. I Prodotti di tipo *auto-callable* includono un meccanismo di rimborso anticipato automatico. Sulla base della formula applicabile, in caso si verificasse un evento di rimborso anticipato automatico, gli investitori potrebbero essere esposti a una perdita parziale dell'investimento. Gli investitori possono essere esposti a una perdita parziale o totale dell'investimento.

2. Rischio relativo al Sottostante e a eventi di turbativa e rettifica:

A differenza di un investimento diretto in una o più Azione/i, una o più Azione/i Stapled, GDR e/o ADR dell/i Sottostante/i di Riferimento (in seguito denominate congiuntamente la/le "Azione/i"), un investimento in Titoli legati ad Azioni non autorizza i Portatori dei Titoli a votare o ricevere dividendi o distribuzioni (salvo diversamente specificato nelle Condizioni Definitive). Di conseguenza, il rendimento dei Titoli Azionari non sarà lo stesso di un investimento diretto nella/e Azione/i pertinente/i e potrebbe essere inferiore a un investimento diretto.

L'esposizione alle azioni, rischi di mercato simili a un investimento diretto in azioni, eventi di rettifica o eventi straordinari e di turbativa sul mercato o la mancata di apertura di un mercato azionario (borsa) possono avere un effetto negativo sul prezzo e la liquidità dei Titoli.

3. Rischi relativi ai mercati di negoziazione dei Titoli:

Il prezzo di negoziazione dei Titoli può essere influenzato da una serie di fattori tra cui, a titolo esemplificativo ma non esaustivo, il prezzo, il valore o il livello dell/i Sottostante/i di Riferimento, il tempo rimanente fino alla data di liquidazione/rimborso dei Titoli, la volatilità implicita o realizzata associata all/i Sottostante/i di Riferimento e al rischio di correlazione dell/i Sottostante/i di Riferimento. La possibilità che il prezzo di negoziazione dei Titoli fluttui (positivamente o negativamente) dipende da una serie di fattori che gli investitori dovranno considerare attentamente prima di acquistare o vendere i Titoli.

4. Rischi legali

Le condizioni dei Titoli conterranno disposizioni per la convocazione di assemblee dei Portatori di tali Titoli per valutare questioni che riguardano i loro interessi. Tali disposizioni consentono a maggioranze predefinite di vincolare tutti i Portatori, inclusi i Portatori che non hanno partecipato o votato all'assemblea in questione e i Portatori che hanno votato in modo contrario rispetto alla maggioranza.
