PITTSBURGH, April 27, 2022 – [Wabtec Corporation](#) (NYSE: WAB) today reported first quarter 2022 GAAP earnings per diluted share of \$0.80, up 35.6% versus the first quarter of 2021. Adjusted earnings per diluted share were \$1.13, up 27.0% versus the same quarter a year ago. First quarter sales were \$1.93 billion and cash from operations was \$161 million.

"The Wabtec team made solid progress in the quarter against our long-term strategy by delivering profitable growth and continued margin expansion across our Freight and Transit segments" said Rafael Santana, Wabtec's President and CEO. "The resiliency of the business and the focus of the team was evident in the strong first quarter financial results despite rising costs, continuing supply disruptions, and the impact on our business due to the conflict in Ukraine.

- GAAP and adjusted EPS increased from the year-ago quarter primarily due to higher sales and increased operating margins. GAAP EPS further benefited from a favorable effective tax rate, along with lower restructuring and transaction costs.

Backlog

Wabtec Corporation Consolidated Backlog Comparison			
Backlog \$ in millions	March 31,		
	2022	2021	Change
12-Month Backlog	\$6,631	\$5,706	16.2 %
Total Backlog	\$22,759	\$21,672	5.0 %

Cash Flow and Liquidity Summary

- During the first quarter, the Company generated cash from operations of \$161 million versus \$292 million in the year ago period due primarily to proactive building of inventory ahead of higher volumes and supply chain disruptions.
- At the end of the quarter, the Company had cash and cash equivalents of \$488 million and total debt of \$4.24 billion. At March 31, 2022 the Company's total available liquidity was \$1.50 billion, which includes cash and cash equivalents plus \$1.01 billion available under current credit facilities.
- During the first quarter, the Company repurchased \$296 million of shares and raised the regular quarterly common dividend by 25%.

2022 Financial Guidance

- Wabtec's 2022 financial guidance continues to be with sales expected to be in a range of \$8.30 billion to \$8.60 billion and adjusted earnings per diluted share to be in a range of \$4.65 to \$5.05.
- For full year 2022, Wabtec expects strong cash flow generation with operating cash flow conversion of greater than 90 percent.
- The Company is not presenting a quantitative reconciliation of our forecasted GAAP earnings per diluted share to forecasted adjusted earnings per diluted share as we are unable to predict with reasonable certainty and without unreasonable effort the impact and timing of restructuring-related and other charges, including acquisition-related expenses and the outcome of certain regulatory, legal and tax matters. The financial impact of these items is uncertain and is dependent on various factors, including timing, and could be material to our Consolidated Statements of Earnings.

Information about non-GAAP Financial Information and Forward-Looking Statements

Wabtec's earnings release and 2022 financial guidance mentions certain non-GAAP financial performance measures, including adjusted gross profit, adjusted operating expenses, adjusted operating margin, EBITDA, adjusted EBITDA, adjusted effective tax rate, adjusted income tax expense, adjusted income from operations, adjusted interest and other expense adjusted earnings per diluted share and operating cash flow conversion. Wabtec defines EBITDA as earnings before interest, taxes, depreciation and amortization. Wabtec defines operating cash flow conversion as net cash provided by operating activities divided by net income plus depreciation and amortization including deferred debt cost amortization. While Wabtec believes these are useful supplemental measures for investors, they are not presented in accordance with GAAP. Investors should not consider non-GAAP measures in isolation or as a substitute for net income, cash flows from operations, or any other items calculated in accordance with GAAP. In addition, the non-GAAP financial measures included in this release have inherent material limitations as performance measures because they add back certain expenses incurred by the Company to GAAP financial measures, resulting in those expenses not being taken into account in the applicable non-GAAP financial measure. Because not all companies use identical calculations, Wabtec's presentation of non-GAAP financial measures may not be comparable to other similarly titled measures

of other companies. Included in this release are reconciliation tables that provide details about how adjusted results relate to GAAP results.

This communication contains “forward-looking” statements as that term is defined in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended by the Private Securities Litigation Reform Act of 1995, including statements regarding the impact of acquisitions by Wabtec, including the acquisition of GE Transportation (the “GE Transportation merger”) and Nordco, statements regarding Wabtec’s expectations about future sales and earnings, and statements about the impact of evolving global conditions on Wabtec’s business. Set forth below is the calculation of the non-GAAP performance measures included in this press release. We believe that these measures provide useful supplemental information to assess our operating performance and to evaluate period-to-period comparisons. Wabtec Financial Results & Company Highlights

Forward looking statements & non-GAAP financial information

This communication contains "forward-looking" statements as that term is defined in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended by the Private Securities Litigation Reform Act of 1995, including statements regarding the impact of acquisitions by Wabtec, including the acquisition of GE Transportation (the "GE Transportation merger") and Nordco, statements regarding Wabtec's expectations about future sales and earnings and statements about the impact of evolving global conditions on Wabtec's business. All statements, other than historical facts, including statements synergies and other benefits from acquisitions; statements regarding Wabtec's plans, objectives, expectations and intentions; and statements regarding macro-economic conditions and evolving production and demand conditions; and any assumptions underlying any of the foregoing, are forward-looking statements. Forward-looking statements concern future circumstances and results and other statements that are not historical facts and are sometimes identified by the words "may," "will," "should," "potential," "intend," "expect," "endeavor," "seek," "anticipate," "estimate," "overestimate," "underestimate," "believe," "could," "project," "predict," "continue," "target" or other similar words or expressions. Forward-looking statements are based upon current plans, estimates and expectations that are subject to risks, uncertainties and assumptions. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those indicated or anticipated by such forward-looking statements. The inclusion of such statements should not be regarded as a representation that such plans, estimates or expectations will be achieved. Important factors that could cause actual results to differ materially from such plans, estimates or expectations include, among others, (1) unexpected costs, charges or expenses resulting from acquisitions, including the GE Transportation merger; (2) uncertainty of Wabtec's expected financial performance; (3) failure to realize the anticipated benefits of acquisitions, including as a result of integrating acquired targets into Wabtec; (4) Wabtec's ability to implement its business strategy; (5) difficulties and delays in achieving revenue and cost synergies; (6) inability to retain and hire key personnel; (7) evolving legal, regulatory and tax regimes; (8) changes in general economic and/or industry specific conditions, including the impacts of tax and tariff programs, supply chain disruptions, industry consolidation and changes in the financial condition or operating strategies of our customers; (9) changes in the expected timing of projects; (10) a decrease in freight or passenger rail traffic; (11) an increase in manufacturing costs; (12) actions by third parties, including government agencies; (13) the severity and duration of the evolving COVID-19 pandemic and the resulting impact on the global economy and, in particular, our customers, suppliers and end-markets; (14) the imposition of economic sanctions on Russia resulting from the invasion of Ukraine could lead to disruption, instability, and volatility in global markets and negatively impact our operations and financial performance; and (15) other risk factors as detailed from time to time in Wabtec's reports filed with the SEC, including Wabtec's annual report on Form 10-K, periodic quarterly reports on Form 10-Q, periodic current reports on Form 8-K and other documents filed with the SEC. The foregoing list of important factors is not exclusive. Any forward-looking statements speak only as of the date of this communication. Wabtec does not undertake any obligation to update any forward-looking statements, whether as a result of new information or development, future events or otherwise, except as required by law. Readers are cautioned not to place undue reliance on any of these forward-looking statements.

This presentation as well as Wabtec's earnings release and 2022 financial guidance mention certain non-GAAP financial performance measures, including adjusted gross profit, adjusted operating expenses, adjusted income from operations, adjusted interest and other expense, adjusted operating margin, adjusted income tax expense, adjusted effective tax rate, adjusted earnings per diluted share, EBITDA and adjusted EBITDA, net debt and operating cash flow conversion rate. Wabtec defines EBITDA as earnings before interest, taxes, depreciation and amortization. Wabtec defines operating cash flow conversion as net cash provided by operating activities divided by net income plus depreciation and amortization including deferred debt cost amortization. While Wabtec believes these are useful supplemental measures for investors, they are not presented in accordance with GAAP. Investors should not consider non-GAAP measures in isolation or as a substitute for net income, cash flows from operations, or any other items calculated in accordance with GAAP. In addition, the non-GAAP financial measures included in this presentation have inherent material limitations as performance measures because they add back certain expenses incurred by the company to GAAP financial measures, resulting in those expenses not being taken into account in the applicable non-GAAP financial measure. Because not all companies use identical calculations, Wabtec's presentation of non-GAAP financial measures may not be comparable to other similarly titled measures of other companies. Included in this presentation are reconciliation tables that provide details about how adjusted results relate to GAAP results. Wabtec is not presenting a quantitative reconciliation of its forecasted GAAP earnings per diluted share to forecasted adjusted earnings per diluted share as it is unable to predict with reasonable certainty and without unreasonable effort the impact and timing restructuring-related expenses and the outcome of certain regulatory, legal and tax matters; the financial impact of these items is uncertain and is dependent on various factors, including the timing, and could be material to Wabtec's Consolidated Statement of Earnings.
