SPDR S&P World ex Australia Carbon Control (Hedged) Fund also invested in unit trusts and derivatives in accordance with the provision of the Fund's Constitution.

The Funds did not have any employees during the year.

There were no significant changes in the nature of the Funds' activities during the year.

Directors

The following persons held office as directors of State Street Global Advisors, Australia Services Limited during the year or since the end of the year and up to the date of this report:

James MacNevin (resigned 24 June 2022)

Matthew George

Jonathan Mark Shead

Kathleen Gallagher (appointed 24 June 2022)

Peter Hocking (appointed 24 June 2022)

Review and results of operations

During the year, the Funds continued to invest their funds in accordance with target asset allocations as set out in the governing documents of the Funds and in accordance with the provisions of the Funds' Constitutions.

SPDR S&P Emerging Markets Carbon Control Fund generally invested in the securities that are constituents of the S&P Emerging Markets LargeMidCap Index and aims to achieve investment returns (before fees and other costs), that closely correspond to the performance of the Index.

SPDR MSCI World Quality Mix Fund generally will invest in the securities that are constituents of the MSCI World Factor Mix A-Series Index and aims to achieve investment returns (before fees and other costs), that closely correspond to the performance of the Index.

SPDR S&P World ex Australia Carbon Control Fund generally invested in the securities that are constituents of the S&P Developed ex Australia LargeMidCap AUD Index and aims to achieve investment returns (before fees and other costs), that closely correspond to the performance of the Index.

SPDR S&P Global Dividend Fund generally invested in the securities that are constituents of the S&P Global Dividend Aristocrats Index and aims to achieve investment returns (before fees and other costs), that closely correspond to the performance of the Index.

SPDR S&P World ex Australia Carbon Control (Hedged) Fund generally invested in the securities that are constituents of the S&P Developed ex Australia LargeMidCap AUD Hedged Index in proportion of their relative weightings in the Index and aims to achieve investment returns (before fees and other costs), that closely correspond to the performance of the Index calculated as the aggregation of the percentage capital growth and percentage distribution of income of the Index.

SPDR Dow Jones Global Real Estate ESG Fund generally invested in the securities that are constituents of the Dow Jones Global Select Real Estate Securities Index and aims to achieve investment returns (before fees and other costs), that closely correspond to the performance of the Index.

At 30 June	19.86	22.18	18.30	22.71	21.11

Significant changes in the state of affairs

The impact of the COVID-19 pandemic continued globally across 2021-2022 with travel, border restrictions, quarantines, supply chain disruptions, impacts on consumer demand and market uncertainty. The effects of COVID-19 and global geo-political tensions may continue to adversely affect the global economy, the economies of certain nations and individual issuers, all of which may negatively impact the Funds' performance.

From 1 February 2022, SPDR S&P Emerging Markets Carbon Control Fund changed its name from SPDR S&P Emerging Markets Fund to SPDR S&P Emerging Markets Carbon Control Fund, SPDR S&P World ex Australia Carbon Control Fund changed its name from SPDR S&P World ex Australia Fund to SPDR S&P World ex Australia Carbon Control Fund, SPDR S&P World ex Australia Carbon Control (Hedged) Fund changed its name from SPDR S&P World ex Australia (Hedged) Fund to SPDR S&P World ex Australia Carbon Control (Hedged) Fund and SPDR Dow Jones Global Real Estate ESG Fund changed its name from SPDR Dow Jones Global Real Estate Fund to SPDR Dow Jones Global Real Estate ESG Fund.

Directors' report (continued)

Significant changes in the state of affairs (continued)

From 1 February 2022, the following funds changed their benchmarks:

- The SPDR S&P World ex Australia Carbon Control Fund benchmark changed to the S&P Developed Ex-Australia LargeMidCap Carbon Control Index (AUD).
- The SPDR S&P World ex Australia Carbon Control (Hedged) Fund benchmark changed to the S&P Developed Ex-Australia LargeMidCap Carbon Control AUD Hedged Index.
- The S&P Emerging Markets Carbon Control Fund benchmark changed to the S&P Emerging LargeMidCap Carbon Control Index (AUD).
- The SPDR Dow Jones Global Real Estate ESG Fund benchmark changed to the Dow Jones Global Select ESG Real Estate Securities Index (AUD).

From 14 February 2022, the total management costs for SPDR S&P World ex Australia Carbon Control Fund were reduced from 0.300% to 0.180% and SPDR S&P World ex Australia Carbon Control (Hedged) Fund were reduced from 0.350% to 0.210%.

In the opinion of the directors, there were no other significant changes in the state of affairs of the Funds that occurred during the financial year.

Matters subsequent to the end of the financial year

No matter or circumstance has arisen since 30 June 2022 that has significantly affected, or may significantly affect:

- (i) the operations of the Funds in future financial years, or
- (ii) the results of those operations in future financial years, or
- (iii) the state of affairs of the Funds in future financial years.

Likely developments and expected results of operations

The Funds will continue to be managed in accordance with the investment objectives and guidelines as set out in the governing documents of the Funds and in accordance with the provisions of the Funds' Constitutions.

The results of the Funds' operations will be affected by a number of factors, including the performance of investment markets in which the Funds invest. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

The Funds' investment objectives and strategies remain unchanged which are to track the performance of their underlying indexes. Accordingly the future returns of the Funds are dependent on the performance of their underlying indexes.

Indemnity and insurance of officers

No insurance premiums are paid for out of the assets of the Funds in regards to insurance cover provided to either the officers of State Street Global Advisors, Australia Services Limited or the auditor of the Funds. So long as the officers of State Street Global Advisors, Australia Services Limited act in accordance with the Funds' Constitutions and the *Corporations Act 2001*, the officers remain indemnified out of the assets of the Funds against losses incurred while acting on behalf of the Funds.

Indemnity of auditor

The auditor of the Funds is in no way indemnified out of the assets of the Funds.

Fees paid to and interests held in the Funds by the Responsible Entity or its associates

Fees paid to the Responsible Entity and its associates out of Funds' property during the year are disclosed in note 18 to the financial statements.

No fees were paid out of Funds' property to the directors of the Responsible Entity during the year.

Directors' report (continued)

Fees paid to and interests held in the Funds by the Responsible Entity or its associates (continued)

The number of interests in the Funds held by the Responsible Entity or its associates as at the end of the financial year are disclosed in note 18 to the financial statements.

Interests in the Funds

The movements in units on issue in the Funds during the year are disclosed in note 11 to the financial statements.

The value of the Funds' assets and liabilities is disclosed on the Statements of financial position and derived using the basis set out in note 2 to the financial statements.

Environmental regulation

The operations of the Funds are not subject to any particular or significant environmental regulations under a Commonwealth, State or Territory law.

Rounding of amounts to the nearest dollar

The Funds are entities of the kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 issued by the Australian Securities and Investments Commission (ASIC) relating to the "rounding off" of amounts in the Directors' report. Amounts in the Directors' report have been rounded to the nearest dollar in accordance with that ASIC Corporations Instrument, unless otherwise indicated.

Auditor's independence declaration

A copy of the Auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 8.

This report is made in accordance with a resolution of the directors.

1 General information

These financial statements cover SPDR S&P Emerging Markets Carbon Control Fund (Formerly known as "SPDR S&P Emerging Markets Fund"), SPDR MSCI World Quality Mix Fund, SPDR S&P World ex Australia Carbon Control Fund (Formerly known as "SPDR S&P World ex Australia Fund"), SPDR S&P Global Dividend Fund, SPDR S&P World ex Australia Carbon Control (Hedged) Fund (Formerly known as "SPDR S&P World ex Australia (Hedged) Fund") and SPDR Dow Jones Global Real Estate ESG Fund (Formerly known as "SPDR Dow Jones Global Real Estate Fund") (the "Funds") as individual entities. The fund name changes were effective on 1 February 2022.

SPDR S&P Emerging Markets Carbon Control Fund was constituted on 18 July 2013 and will terminate on 10 November 2093 unless terminated earlier in accordance with the provisions of the Fund's Constitution.

SPDR MSCI World Quality Mix Fund was constituted on 29 June 2015 and will terminate on 10 September 2095 unless terminated earlier in accordance with the provisions of the Fund's Constitution.

SPDR S&P World ex Australia Carbon Control Fund was constituted on 21 December 2012 and will terminate on 17 March 2093 unless terminated earlier in accordance with the provisions of the Fund's Constitution.

SPDR S&P Global Dividend Fund and SPDR Dow Jones Global Real Estate ESG Fund were constituted on 18 July 2013 and will terminate on 31 October 2093 unless terminated earlier in accordance with the provisions of the Fund's Constitution.

SPDR S&P World ex Australia Carbon Control (Hedged) Fund was constituted on 14 November 2012 and will terminate on 7 July 2093 unless terminated earlier in accordance with the provisions of the Fund's Constitution.

SPDR Dow Jones Global Real Estate ESG Fund was constituted on 18 July 2013 and will terminate on 31 October 2093 unless terminated earlier in accordance with the provisions of the Fund's Constitution.

The Responsible Entity of the Funds is State Street Global Advisors, Australia Services Limited (the "Responsible Entity"). The Responsible Entity's registered office is Level 14, 420 George Street, Sydney NSW 2000. The financial statements are presented in Australian currency.

The Funds invested in a diversified portfolio of globally listed securities and derivatives in accordance with the provision of the Funds' Constitutions.

SPDR S&P World ex Australia Carbon Control (Hedged) Fund also invested in unit trusts and derivatives in accordance with the provision of the Fund's Constitution.

The financial statements were authorised for issue by the directors on 25 August 2022. The directors of the Responsible Entity have the power to amend and reissue the financial statements.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated in the following text.

(a) Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board and the *Corporations Act 2001* in Australia. The Funds are for-profit funds for the purpose of preparing the financial statements.

The financial statements are prepared on the basis of fair value measurement of assets and liabilities except where otherwise stated.

The Statements of financial position are presented on a liquidity basis.

Assets and liabilities are presented in decreasing order of liquidity and are not distinguished between current and non-current. All balances are expected to be recovered or settled within twelve months, except for investments in financial assets at fair value through profit or loss and net assets attributable to unitholders.

2 Summary of significant accounting policies (continued)

(a) Basis of preparation (continued)

The Funds invest in financial assets at fair value through profit or loss based on the economic circumstances at any given point in time, as well as to meet any liquidity requirements. As such, it is expected that a portion of the portfolio will be realised within 12 months, however, an estimate of that amount cannot be determined as at reporting date.

In the case of net assets attributable to unitholders, the units are redeemable by unitholders that are Qualifying Australian Residents (as defined in the Product Disclosure Statement ("PDS")), and use a stock broker acting as principal, on demand at the unitholder's option. Other unitholders can sell on the Australian Securities Exchange. However, holders of these instruments typically retain them for the medium to long term. As such, the amount expected to be settled within 12 months cannot be reliably determined.

(i) Compliance with International Financial Reporting Standards

The financial statements of the Funds also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

(ii) New and amended standards adopted by the Funds

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2021 that have a material impact on the Funds.

(iii) New standards, amendments and interpretations not yet adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 July 2022, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the future financial statements of the Funds.

(iv) Consolidation of Entities

The SPDR S&P World ex Australia Carbon Control (Hedged) Fund does not consolidate with the SPDR S&P World ex Australia Carbon Control Fund under the requirements of AASB 127 due to ultimate control being vested in the Board of the Responsible Entity under the terms of the Fund Constitution.

The holdings of SPDR S&P World ex Australia Carbon Control (Hedged) Fund in SPDR S&P World ex Australia Carbon Control Fund as reported in Note 18 Related Party transactions do not allow the SPDR S&P World ex Australia Carbon Control (Hedged) Fund any control in the management and operation of SPDR S&P World ex Australia Carbon Control Fund.

(b) Financial assets and liabilities at fair value through profit or loss

(i) Classification

Assets

The Funds classify their investments based on their business models for managing those financial assets and the contractual cash flow characteristics of the financial assets. The Funds' portfolios of financial assets are managed and their performance are evaluated on a fair value basis in accordance with the Funds' documented investment strategies. The Funds use fair value information to assess performance of the portfolios and to make decisions to rebalance the portfolio or to realise fair value gains or minimise losses through sales or other trading strategies. The Funds' policies are for the Responsible Entity to evaluate the information about these financial assets on a fair value basis together with other related financial information.

Equity securities and derivatives are measured at fair value through profit or loss.

For debt securities, the contractual cash flows are solely payments of principal and interest, however they are neither held for collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Funds' business models' objective. Consequently, the debt securities are measured at fair value through profit or loss.

2 Summary of significant accounting policies (continued)

(b) Financial assets and liabilities at fair value through profit or loss (continued)

(i) Classification (continued)

Liabilities

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

(ii) Recognition/derecognition

The Funds recognise financial assets and financial liabilities on the date they become party to the contractual agreement (trade date) and recognise changes in the fair value of the financial assets or financial liabilities from this date.

Investments are derecognised when the right to receive cash flows from the investments have expired or have been transferred and the Funds have transferred substantially all of the risks and rewards of ownership.

(iii) Measurement

At initial recognition, the Funds measure financial assets and financial liabilities at fair value. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in the Statements of comprehensive income.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the financial assets or financial liabilities at fair value through profit or loss category are presented in the Statements of comprehensive income within 'net gains/(losses) on financial instruments at fair value through profit or loss' in the period in which they arise.

For further details on how the fair values of financial instruments are determined please see note 5 to the financial statements.

(c) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statements of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. Refer to note 4 to the financial statements for further information.

(d) Net assets attributable to unitholders

The units can be put back to the Funds at any time by unitholders that are Qualifying Australian Residents (as defined in the PDS) and use a Stockbroker acting as principal.

The units are carried at the redemption amount that is payable at the reporting date if the holder exercises the right to put the unit back to the Funds. This amount represents the expected cash flows on redemption of these units.

Under AASB 132 *Financial instruments: Presentation*, puttable financial instruments are classified as equity where certain strict criteria are met. The Funds classify the net assets attributable to unit holders as equity as they satisfy the following criteria:

- the puttable financial instrument entitles the holder to a pro-rata share of net assets in the event of the Funds' liquidation;
- the puttable financial instrument is in the class of instruments that is subordinate to all other classes of instruments and class features are identical;
- the puttable financial instrument does not include any contractual obligations to deliver cash or another financial asset, or to exchange financial instruments with another entity under potentially unfavourable conditions to the Funds, and it is not a contract settled in the Funds' own equity instruments; and

2 Summary of significant accounting policies (continued)

(d) Net assets attributable to unitholders (continued)

- the total expected cash flows attributable to the puttable financial instrument over the life are based substantially on the profit or loss.

(e) Cash and cash equivalents

For the purpose of presentation in the Statements of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short term, highly liquid investments with original maturities of three months or less from the date of acquisition that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are classified as liabilities in the Statements of financial position.

Payments and receipts relating to the purchase and sale of investment securities are classified as cash flows from operating activities, as movements in the fair value of these securities represent the Funds' main income generating activities.

(f) Margin accounts

Margin accounts comprise cash held as collateral for derivative transactions. The cash is held by the broker and is only available to meet margin calls. It is not included as a component of cash and cash equivalents.

(g) Investment income

Interest income from financial assets at amortised cost is recognised on a time-proportionate basis using the effective interest method and includes interest from cash and cash equivalents.

Interest from financial assets at fair value through profit or loss is determined based on the contractual coupon interest rate and includes interest from debt securities.

Dividend income is recognised on the ex-dividend date with any related foreign withholding tax recorded as an expense.

Trust distributions are recognised on an entitlements basis.

Dividend and distribution income from financial assets at fair value through profit or loss is recognised in the Statements of comprehensive income within dividend income and distribution income when the Funds' right to receive payments is established.

Other changes in fair value for such instruments are recorded in accordance with the policies described in Note 2(b) to the financial statements.

(h) Expenses

All expenses, including Responsible Entity's fees and the Investment Manager's fees, are recognised in the Statements of comprehensive income on an accruals basis.

(i) Income tax

Under current legislation, the Funds are not subject to income tax provided they attribute the entirety of their taxable income to its unitholders.

Financial instruments at fair value may include unrealised capital gains. Should such a gain be realised, that portion of the gain that is subject to capital gains tax will be attributed so that the Funds are not subject to capital gains tax.

Realised capital losses are not distributed to unitholders but are retained in the Funds to be offset against any realised capital gains. If realised capital gains exceed realised capital losses, the excess is attributed to unitholders.

2 Summary of significant accounting policies (continued)

(i) Income tax (continued)

The benefits of tax credits paid are passed on to unitholders.

The Funds currently incur withholding tax imposed by certain countries on investment income. Such income is recorded gross of withholding tax in the Statements of comprehensive income.

(j) Distributions

In accordance with the Funds' Constitutions, the Funds distribute income and any other amounts determined by the Responsible Entity, to unitholders by cash or reinvestment. The distributions are recognised in the Statements of changes in equity.

(k) Foreign currency translation

(i) Functional and presentation currency

Items included in the Funds' financial statements are measured using the currency of the primary economic environment in which they operate (the "functional currency"). This is the Australian dollar, which reflects the currency of the economy in which the Funds compete for funds and are regulated. The Australian dollar is also the Funds' presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translations at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Statements of comprehensive income.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when fair value was determined. Translation differences on assets and liabilities at fair value are reported in the Statements of comprehensive income on a net basis within net gains/(losses) on financial instruments at fair value through profit or loss.

(l) Due from/to brokers

Amounts due from/to brokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet delivered by the end of the year. The due from brokers balance is held for collection and consequently measured at amortised cost.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Funds shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Funds shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

(m) Receivables

Receivables may include amounts for dividends, trust distributions and interest. Dividends and trust distributions are accrued when the right to receive payment is established. Interest is accrued at the end of each reporting period from the time of last payment. Amounts are generally received within 30 days of being recorded as receivables.

2 Summary of significant accounting policies (continued)

(m) Receivables (continued)

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Funds shall measure the loss allowance on receivables at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Funds shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the counterparty, probability that the counterparty will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

The amount of the impairment loss is recognised in profit or loss within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in profit or loss.

(n) Applications receivable

Applications receivable at reporting date are recognised at fair value and subsequently measured at amortised cost. Amounts are generally received within 2 days of being recorded as receivables. If there is a failure by brokers to deliver application money within the settlement period, the Funds are indemnified against losses via acknowledgements contained in application forms, in addition to provisions of the Funds' Constitutions.

(o) Payables

Payables include liabilities and accrued expenses owing by the Funds which are unpaid as at the end of the reporting period.

(p) Applications and redemptions

Application amounts can be paid by cash or in the form of a parcel of prescribed securities transferred to the Responsible Entity's custodian. The parcel of securities related to in-specie applications generally reflect the characteristics of the Funds' underlying indexes. Investors may purchase units by trading on the Australian Securities Exchange ("ASX").

Unitholders can only redeem units if they are a "Qualifying Australian Resident" as defined in the PDS and use a stockbroker acting as principal. Investors may sell units by trading on the ASX.

Unit prices are determined by reference to the net assets of the Funds divided by the number of units on issue. For unit pricing purposes, net assets are determined using the last reported trade price for securities. These prices may differ from the market.

(q) Goods and Services Tax (GST)

The GST incurred on the costs of various services provided to the Funds by third parties such as Custodial and Administration services, Responsible Entity services and Investment Management services have been passed onto the Funds. The Funds qualify for Reduced Input Tax Credits ("RITC"). Hence Responsible Entity fees, Investment Management fees and other expenses have been recognised in the Statements of comprehensive income net of the amount of GST recoverable from the Australian Taxation Office ("ATO"). Accounts payable are inclusive of GST. The net amount of GST recoverable from the ATO is included in receivables in the Statements of financial position. Cash flows relating to GST are included in the Statements of cash flow on a gross basis.

2 Summary of significant accounting policies (continued)

(r) Use of estimates

The Funds may make estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

For the majority of the Funds' financial instruments, quoted market prices are readily available.

For certain other financial instruments, including amounts due from/to brokers, accounts payable and accrued expenses, the carrying amounts approximate fair value due to the immediate or short-term nature of these financial instruments.

(s) Segment reporting

A business segment is identified for a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different to those of other business segments. A geographical segment is identified when products or services are provided within a particular economic environment subject to risks and returns that are different from those of segments operating in other economic environments.

(t) Hedge accounting

The SPDR S&P World ex Australia Carbon Control (Hedged) Fund has adopted a fair value hedge accounting policy effective 25 January 2013 whereby the Fund has documented the relationship between the hedging instruments and hedged items, as well as the financial risk management objective and strategy for undertaking fair value hedge accounting.

On an ongoing basis, the SPDR S&P World ex Australia Carbon Control (Hedged) Fund assesses whether the hedging instruments that are used in fair value hedging have been and will continue to be highly effective in offsetting changes in the fair value of the hedged items. The gains or losses relating to the hedging instruments are recognised in the profit or loss within changes in the fair value of financial instruments held for trading. Refer to the foreign currency exchange risk section in the Financial risk management note starting on page 28 for more information.

SPDR S&P World ex Australia Carbon Control (Hedged) Fund has chosen under paragraph 7.2.21 of AASB 9 to continue to apply the hedge accounting requirements in AASB 139 to all hedging relationships.

(u) Rounding of amounts

The Funds are entities of the kind referred to in *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191* issued by the Australian Securities and Investments Commission (ASIC) relating to the "rounding off" of amounts in the financial statements. Amounts in the financial statements have been rounded to the nearest dollar in accordance with that ASIC Corporations Instrument, unless otherwise indicated.

(v) Comparative revisions

Comparative information has been revised where appropriate to enhance comparability. Where necessary, comparative figures have been adjusted to conform with changes in presentation in the current year.

3 Financial risk management

The Funds' activities expose them to a variety of financial risks: market risk (including price risk, foreign exchange risk and interest rate risk), credit risk and liquidity risk.

The Funds' overall risk management programme focuses on ensuring compliance with the Funds' PDS and seeks to maximise the returns derived for the level of risk to which the Funds are exposed. The Funds may use derivative financial instruments to alter certain risk exposures.

3 Financial risk management (continued)

Financial risk management is carried out by the Investment Manager under an Investment Mandate approved by the Board of Directors of the Responsible Entity (the "Board").

The Funds use different methods to measure different types of risk to which they are exposed. These methods are explained below.

(a) Market Risk

(i) Price Risk

The Funds invest in listed securities of companies that operate in global markets or in listed unit trusts whose underlying securities are listed on global stock exchanges, cash instruments and derivatives, each with different market risks. The Funds are exposed to equity securities and derivatives securities price risk. The risk is that the value of a Fund's investment portfolio will fluctuate as a result of changes in market prices. The risk is influenced by economic, technological, political and legal conditions and sentiment, all of which can change. This can mean that assets held by the Funds in these markets may fall in value. Growth assets are generally considered to have a higher risk/return profile than income producing assets such as fixed interest securities and cash.

The Investment Manager manages the price risk by following a clearly established investment mandate for Funds investments. The Funds equity investments are listed securities that are constituents of the Dow Jones Global Select ESG Real Estate Securities Index (AUD), S&P Emerging LargeMidCap Carbon Control Index (AUD), MSCI World Factor Mix A-Series Index, S&P Developed Ex-Australia LargeMidCap Carbon Control Index (AUD) and S&P Global Dividend Aristocrats Index and for SPDR S&P World ex Australia Carbon Control (Hedged) Fund underlying investment in unit trusts are listed securities that are constituents of the S&P Developed Ex-Australia LargeMidCap Carbon Control AUD Hedged Index while the cash deposits with banks are at a minimum rating of A1 or higher as rated by Standard & Poor's. The use of derivatives is limited to a small level of the total value of the Fund. Compliance with the Funds' PDS and investment mandate is monitored on a daily basis and reports are provided to the Board and Compliance Committee on a regular basis.

The table on page 43 shows the impact on net asset value of the SPDR S&P Emerging Markets Carbon Control Fund of a reasonably possible shift in the S&P Emerging LargeMidCap Carbon Control Index (AUD), assessed as an increase of 17% (2021: 27%) and decrease of 17% (2021: 27%) in the S&P Emerging Markets LargeMidCap Index (with all other variables held constant).

The table on page 43 shows the impact on net asset value of the SPDR MSCI World Quality Mix Fund of a reasonably possible shift in the MSCI World Factor Mix A-Series Index, assessed as an increase of 13% (2021: 19%) and decrease of 13% (2021: 19%) in the MSCI World Factor Mix A-Series Index (with all other variables held constant).

The table on page 43 shows the impact on net asset value of the SPDR S&P World ex Australia Carbon Control Fund of a reasonably possible shift in the S&P Developed Ex-Australia LargeMidCap Carbon Control Index (AUD) assessed as an increase of 15% (2021: 19%) and decrease of 15% (2021: 19%) in the S&P Developed Ex-Australia LargeMidCap Carbon Control Index (AUD) (with all other variables held constant).

The table on page 43 shows the impact on net asset value of the SPDR S&P Global Dividend Fund of a reasonably possible shift in the S&P Global Dividend Aristocrats Index assessed as an increase of 16% (2021: 19%) and decrease of 16% (2021: 19%) in the S&P Global Dividend Aristocrats Index (with all other variables held constant).

The table on page 44 shows the impact on net asset value of the SPDR S&P World ex Australia Carbon Control (Hedged) Fund of a reasonably possible shift in the S&P Developed Ex-Australia LargeMidCap Carbon Control AUD Hedged Index assessed as an increase of 15% (2021: 19%) and decrease of 15% (2021: 19%) in the S&P Developed Ex-Australia LargeMidCap Carbon Control AUD Hedged Index (with all other variables held constant).

The table on page 44 shows the impact on net asset value of the SPDR Dow Jones Global Real Estate ESG Fund of a reasonably possible shift in the Dow Jones Global Select ESG Real Estate Securities Index (AUD), assessed as an increase of 19% (2021: 23%) and decrease of 19% (2021: 23%) in the Dow Jones Global Select Real Estate Securities Index (with all other variables held constant).

3 Financial risk management (continued)

(a) Market Risk (continued)

(i) Price Risk (continued)

The Funds also manage their exposure to price risk by analysing the investment portfolio by industry sector and geographical sector weighting to that of the S&P Emerging LargeMidCap Carbon Control Index (AUD), MSCI World Factor Mix A-Series Index, S&P Developed Ex-Australia LargeMidCap Carbon Control Index (AUD), S&P Global Dividend Aristocrats Index, S&P Developed Ex-Australia LargeMidCap Carbon Control AUD Hedged Index and Dow Jones Global Select ESG Real Estate Securities Index (AUD).

The SPDR S&P Emerging Markets Carbon Control Fund's policy is to concentrate the investment portfolio in sectors where management believe the Fund can maximise the returns derived for the level of risk to which the Fund is exposed. As a result of the investment strategy and the Indexes, the Fund is exposed to a variety of industries in different international markets, generally consistent with the levels set in the benchmark.

The SPDR MSCI World Quality Mix Fund's policy is to correspond generally to return performance of the MSCI World Factor Mix A-series Index. The Fund uses an optimisation strategy where the exposure to individual securities may be above or below that security's actual weighting in the Fund's Index. As a result of the investment strategy and the MSCI World Factor Mix A-Series Index, the Fund is exposed to a variety of industries in different international markets, generally consistent with the levels set in the benchmark.

The SPDR S&P World ex Australia Carbon Control Fund's policy is to concentrate the investment portfolio in sectors where management believe the Fund can maximise the returns derived for the level of risk to which the Fund is exposed. As a result of the investment strategy and the S&P Developed Ex-Australia LargeMidCap Carbon Control Index (AUD), the Fund is exposed to a variety of industries in different international markets, generally consistent with the levels set in the benchmark.

The SPDR S&P Global Dividend Fund's policy is to invest in securities and markets so that full replication of the S&P Global Dividend Aristocrats Index is achieved. As a result of the investment strategy and the S&P Global Dividend Aristocrats Index, the Fund is exposed to a variety of industries in different international markets, generally consistent with the levels set in the benchmark.

The SPDR S&P World ex Australia Carbon Control (Hedged) Fund's policy is to concentrate the investment portfolio in sectors where management believe the Fund can maximise the returns derived for the level of risk to which the Fund is exposed.

(ii) Foreign exchange risk

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates.

The Funds have assets and liabilities denominated in currencies other than Australian dollars, the Funds functional and presentation currency. The Funds are therefore exposed to currency risk, as the value of the assets and liabilities denominated in other currencies will fluctuate due to changes in exchange rates.

Foreign exchange risk arises as the value of monetary assets and liabilities denominated in other currencies will fluctuate due to changes in exchange rates.

The Funds' foreign exchange exposure on international equity securities is embedded in the price risk as presented on page 43.

Foreign exchange exposure on monetary assets and liabilities has no significant sensitivity impact on the Funds.

For SPDR S&P World ex Australia Carbon Control (Hedged) Fund, the Investment Manager manages investment exposure in line with the S&P Developed Ex-Australia LargeMidCap Carbon Control AUD Hedged Index hedged to Australian dollars. Forward foreign currency contracts are used to hedge currency risk on both non-monetary and monetary assets and liabilities. Foreign exchange risk on non-monetary assets is a component of price risk and not included as part of foreign exchange rate sensitivity.

3 Financial risk management (continued)

(a) Market Risk (continued)

(ii) Foreign exchange risk (continued)

For SPDR S&P World ex Australia Carbon Control Fund, the Fund invests in an underlying AUD priced Trust which holds foreign securities and cash. The foreign exchange risk disclosures have been prepared on the basis of the Fund's direct investment and not on a look-through basis for foreign investments held indirectly through and AU\$ priced unit trust.

The tables below summarises the Funds' assets and liabilities that are denominated in a currency other than the Australian dollar.

The Fund uses foreign exchange contracts to hedge foreign currency risk exposures. These foreign currency contracts are used for hedging purposes and not used for trading or other speculative purposes. The Fund has a written policy which sets out the parameters for the Fund's hedging policy. The policy states the Fund is required to hedge the foreign exchange exposure arising from foreign investment against the Australian dollar. The Fund may use proxy currencies where this is effective and efficient for the purposes of hedging against minor foreign exchange exposures.

As of 30 June 2022, the fair value of the hedged item is \$99,342,305 (2021: \$133,990,027), with the fair value notional of the hedging instruments (foreign exchange contracts) of \$(101,632,160) (2021: \$(131,392,811)), which represents the net sell position of the AUD foreign currency contracts at 30 June 2022. The net unrealized loss of the foreign currency contracts at 30 June 2022 is \$(4,086,390) (2021: \$(3,150,805)).

Hedging is performed based on the portfolio of investments and currencies held by the underlying unit trust and consequently realized gains and losses on hedged items do not necessarily match the realized gains and losses on hedging instruments. Monitoring of the hedged item and the foreign exchange contracts occurs daily to ensure the hedge remains effective.

3 Financial risk management (continued)

(a) Market Risk (continued)

(iii) Foreign exchange risk (continued)

The table on page 44 summarises the sensitivities of the Fund's monetary assets and liabilities to foreign exchange risk. The analysis is based on the assumption that the Australian dollar weakened/strengthened by 14% (2021: 12%) against other currencies to which the Fund is exposed. The impact arises mainly from exposure to forward foreign exchange contracts.

(iii) Interest rate risk

Interest rate risk is the risk that interest rate movements will have a negative impact on investment value or returns. Interest rate risk is managed in accordance with the underlying investment strategy of the Funds.

3 Financial risk management (continued)

(a) Market Risk (continued)

(iii) Interest rate risk (continued)

The Funds' policies are to maintain derivative adjusted exposure to cash instruments, at any point in time of no more than 5% of the Funds' value.

Compliance with the value of cash investments held is monitored daily and reported to the Board and Compliance Committee on a regular basis.

The tables below summarise the Funds' direct exposure to interest rate risks.

An analysis of financial liabilities by maturities is provided in note 3 paragraph (d).

The tables in note 3 paragraph (b) summarise the impact of an increase/decrease of interest rates on the Funds' operating profit and net assets attributable to unitholders through changes in future cash flows. The analysis is based on the assumption that interest rates changed by +/- 100 basis points (2021: +/- 200 basis points) from the year end rates with all other variables held constant. The impact mainly arises from changes in the fair value of cash and cash equivalents.

3 Financial risk management (continued)

(b) Summarised sensitivity analysis

The following tables summarise the sensitivity of the Funds' operating profit and net assets attributable to unitholders to the various market risks. The reasonably possible movements in the risk variables have been determined based on management's best estimate, having regard to a number of factors, including historical correlation of the Funds' investments with the relevant benchmark and market volatility. However, actual movements in the risk variables may be greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance of the economies, markets and securities in which the Funds invest. As a result, historic variations in risk variables are not a definitive indicator of future variations in the risk variables.

SPDR S&P Emerging Markets Carbon Control Fund

SPDR S&P Emerging Markets Carbon Control Fund	Price risk		Interest rate risk	
	Impact on operating profit/Net assets attributable to unitholders			
	-17%	+17%	-100bps	+100bps

The sensitivity factors for 30 June 2021 were +/- 19% for price risk, +/- 200bps for interest rate risk and +/- 12% for foreign exchange risk.

SPDR Dow Jones Global Real Estate ESG Fund	Price risk		Interest rate risk	
	Impact on operating profit/Net assets attributable to unitholders			
	-19%	+19%	-100bps	+100bps
	\$	\$	\$	\$
30 June 2022	(74,883,984)	74,883,984	(204,520)	204,520
30 June 2021	(102,905,291)	102,905,291	(146,935)	146,935

The sensitivity factors for 30 June 2021 were +/- 23% for price risk and +/- 200bps for interest rate risk.

In determining the impact of an increase/decrease in net assets attributable to unitholders arising from market risk, the Responsible Entity has considered prior period and expected future movements of the portfolio based on market information in order to determine a reasonably possible shift in assumptions.

(c) Credit risk

Credit risk primarily arises from investments in derivative financial instruments. Other credit risk arises from cash and cash equivalents, deposits with banks and other financial institutions and amounts due from brokers. None of these assets are impaired nor past due but not impaired.

Credit risk is the risk that a counterparty will fail to perform contractual obligations, either in whole or part. Credit risk is managed primarily by:

- Ensuring counterparties, together with the respective credit limits, are approved in accordance with the Investment Manager's criteria; and
- Ensuring that transactions are undertaken with a range of counterparties.

For derivative financial instruments, the Investment Manager has established limits such that, at any time, the maximum exposure of the Funds to derivative instruments shall be limited to 10% for SPDR S&P Emerging Markets Carbon Control Fund, SPDR MSCI World Quality Mix Fund and SPDR Dow Jones Global Real Estate ESG Fund, 15% for SPDR S&P

3 Financial risk management (continued)

(c) Credit risk (continued)

Global Dividend Fund and SPDR S&P World ex Australia Carbon Control (Hedged) Fund and for SPDR S&P World ex Australia Carbon Control Fund the maximum exposure of the Fund to derivative instruments shall be limited to 10% for three business days immediately prior to and three business days immediately after a distribution the maximum exposure of the Fund to derivative instruments shall be 15%.

Compliance with the Funds' mandate is monitored on a daily basis and reported to the Board and Compliance Committee on a regular basis.

The clearing and depositary operations of the Funds' security transactions are mainly concentrated with one counterparty namely State Street Australia Limited. At 30 June 2022, State Street Australia Limited had a credit rating of A (2021: A). As at 30 June 2022, substantially all cash and investments are held in custody by State Street Australia Limited.

The maximum exposure to credit risk at the end of each reporting period is the carrying amount of the financial assets. An analysis of debt securities by rating is set out in the tables below.

(d) Liquidity risk

The Funds invests in listed securities of companies that operate in global markets, each with different market risks.

The Funds may, from time to time, invest in derivative contracts traded over the counter, which are not traded in an organised market and may be illiquid. As a result, the Funds may not be able to quickly liquidate their investments in these instruments at an amount close to their fair value to meet their liquidity requirements or to respond to specific events such as deterioration in the creditworthiness of any particular issuer or counterparty. No such investments were held at year end.

3 Financial risk management (continued)

(d) Liquidity risk (continued)

(i) Maturities of non-derivative financial liabilities

The tables below analyse the Funds' non-derivative financial liabilities into relevant maturity groupings based on the remaining period to the earliest possible contractual maturity date at the year end date. The amounts in the tables are contractual undiscounted cash flows.

Units are redeemed on demand at the unitholder's option. It is not expected that the contractual maturity disclosed in the tables below will be representative of the actual cash outflows.

4 Offsetting financial assets and financial liabilities

Financial assets and liabilities are offset and the net amount reported in the Statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The gross and net positions of financial assets and liabilities that have been offset in the Statement of financial position are disclosed in the first three columns of the tables below.

4 Offsetting financial assets and financial liabilities (continued)

(i) *Master netting arrangement – not currently enforceable*

Agreements with derivative counterparties are based on the ISDA Master Agreement. Under the terms of these arrangements, only where certain credit events occur (such as default), the net position owing/receivable to a single counterparty in the same currency will be taken as owing and all the relevant arrangements terminated. As the Funds do not presently have a legally enforceable right of set-off, these amounts have not been offset in the Statements of financial position, but have been presented separately in the above tables.

5 Fair value measurement

The Funds measure and recognise Financial assets / liabilities at fair value through profit or loss (see note 7 and note 8) on a recurring basis.

The Funds have no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

AASB 13 requires disclosure of fair value measurements by level of the following fair value hierarchy:

- (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- (b) inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2); and
- (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

(i) *Fair value in an active market (level 1)*

The fair value of financial assets and liabilities traded in active markets is based on their last traded prices at the end of the reporting period without any deduction for estimated future selling costs.

The Funds value their investments in accordance with the accounting policies set out in note 2 to the financial statements.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

(ii) *Valuation techniques used to derive level 2 and level 3 fair value*

The fair value of financial assets and liabilities that are not exchange-traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions.

For other pricing models, inputs are based on market data at the end of the reporting period. Fair values for unquoted equity investments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

The fair value of derivatives that are not exchange traded is estimated at the amount that the Funds would receive or pay to terminate the contract at the end of the reporting period taking into account current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties. The fair value of a forward contract is determined as a net present value of estimated future cash flows, discounted at appropriate market rates as at the valuation date.

Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

5 Fair value measurement (continued)

(ii) Valuation techniques used to derive level 2 and level 3 fair value (continued)

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Funds hold. Valuations are therefore adjusted, where appropriate, to allow for additional factors including liquidity risk and counterparty risk.

Recognised fair value measurement

The tables below set out the Funds' financial assets and liabilities (by class) measured at fair value according to the fair value hierarchy at 30 June 2022 and 30 June 2021.

The Funds' policies are to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

(i) Transfers between levels

Except for SPDR S&P Emerging Markets Carbon Control Fund, there were no transfers between the levels for the fair value hierarchy for the year ended 30 June 2022 and 30 June 2021. There were also no changes made to any of the valuation techniques applied as of 30 June 2022.

The following table presents the transfers between levels for SPDR S&P Emerging Markets Carbon Control Fund for the year ended 30 June 2021.

SPDR S&P Emerging Markets Carbon Control Fund	Level 1 \$	Level 2 \$	Level 3 \$
As at 30 June 2021			
Transfers between levels 1 and 3:			
Equity securities	(10,017)	-	10,017

(ii) Fair value measurements using significant unobservable inputs (level 3)

Except for SPDR S&P Emerging Markets Carbon Control Fund, the Funds did not hold any financial instruments with fair value measurements using significant unobservable inputs during the year ended 30 June 2022 or year ended 30 June 2021.

5 Fair value measurement (continued)

5 Fair value measurement (continued)

Recognised fair value measurement (continued)

(iii) Valuation inputs and relationships to fair value

With the exception of financial instruments which have been valued at nil, the Fund has measured financial instruments with fair value measurements using significant unobservable inputs by applying a discount to the last traded price of securities which were suspended from trading status as at 30 June 2022 and 30 June 2021. In determining the discount applied, the Responsible Entity takes into consideration a number of qualitative and quantitative factors including, but not limited to, valuation multiples and industry and company specific information. The favourable and unfavourable effects of using reasonably possible alternative assumptions for the valuation of equity securities has been calculated by using unobservable inputs based on positive and negative outcomes. The most significant unobservable input is the discount for stale share prices.

(iv) Valuation processes

Portfolio reviews are undertaken regularly by management to identify securities that potentially may not be actively traded or have stale security pricing. This process identifies securities which possibly could be regarded as being level 3 securities. Further analysis, should it be required, is undertaken to determine the accounting significance of the identification. For certain security types, in selecting the most appropriate valuation model, management performs back testing and considers actual market transactions. Changes in allocation to or from level 3 are analysed at the end of each reporting period.

(v) Fair values of other financial instruments

The Funds did not hold any financial instruments which were not measured at fair value in the Statements of financial position. Due to their short-term nature, the carrying amounts of receivables and payables are assumed to approximate fair value.

6 Net gains/(losses) on financial instruments at fair value through profit or loss

9 Derivative financial instruments

In the normal course of business the Funds enter into transactions in various derivative financial instruments with certain risks. A derivative is a financial instrument or other contract which is settled at a future date and whose value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index or other variable.

Derivative financial instruments require no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.

Derivative transactions include many different instruments, such as forwards, futures, options and swaps. Derivatives are considered to be part of the investment process and the use of derivatives is an essential part of the Funds' portfolio management. Derivatives are not managed in isolation. Consequently, the use of derivatives is multifaceted and may include:

- hedging to protect an asset or liability of the Funds against a fluctuation in market values or to reduce volatility;
- a substitution for trading of physical securities; and
- adjusting asset exposures within the parameters set in the investment strategy, and adjusting the duration of fixed interest portfolios or the weighted average maturity of cash portfolios.

9 Derivative financial instruments (continued)

While derivatives are used for trading purposes, they are not used to gear (leverage) a portfolio. Gearing a portfolio would occur if the level of exposure to the markets exceeds the underlying value of the Funds.

The SPDR S&P World ex Australia Carbon Control (Hedged) Fund designates certain derivatives as hedges in a hedging relationship. Refer to the Hedge accounting policy note for further information.

The Funds hold the following derivative instruments:

(a) Futures

Futures are contractual obligations to buy or sell financial instruments on a future date at a specified price established in an organised market. The futures contracts are collateralised by cash or marketable securities. Changes in futures contracts' values are settled daily with the exchange. Index futures are contractual obligations to receive or pay a net amount based on changes in indices at a future date at a specified price, established in an organised financial market.

(b) Foreign currency contracts

Foreign currency contracts are primarily used by the Funds to hedge against foreign currency exchange rate risks on their non-Australian dollar denominated trading securities. The Funds agree to receive or deliver a fixed quantity of foreign currency for an agreed upon price on an agreed future date. Currency contracts are valued at the prevailing bid price at the end of each reporting period. The Funds recognise a gain or loss equal to the change in fair value at the end of each reporting period.

(c) Warrants

Warrants are an option to purchase additional securities from the issuer at a specified price during a specified period. Warrants are valued at the prevailing market price at the end of each reporting period. The Funds recognise a gain or loss equal to the change in fair value at the end of each reporting period.

The Funds' derivative financial instruments at year end are detailed below:

SPDR S&P Emerging Markets Carbon Control Fund

As at the reporting date, SPDR S&P World ex Australia Carbon Control (Hedged) Fund hedged transactions or positions by holding foreign currency contracts with a gross notional value of \$173,045,094 (2021: \$152,596,953) comprising of buy \$35,706,467 (2021: \$10,602,071) and sale \$137,338,627 (2021: \$141,994,882) resulting in net exposure of \$(101,632,160) (2021: \$(131,392,811)).

Risk exposures and fair value measurements

Information about the Funds' exposure to credit risk, foreign exchange risk, interest rate risk and about the methods and assumptions used in determining fair values is provided in note 3 and note 5 to the financial statements. The maximum exposure to credit risk at the end of the reporting period is the carrying amount of each class of derivative financial instruments disclosed above.

10 Structured entities

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity and the relevant activities are directed by means of contractual arrangements.

The Funds consider all investments in managed investment schemes (funds) to be structured entities. The Funds invest in related managed funds for the purpose of capital appreciation and or earning investment income.

The exposure to investments in related investee funds at fair value, and any related gains/losses recognised in the statement of comprehensive income is disclosed at note 18.

The exposure to investments in related investment funds are summarised in note 18.

The Funds have exposures to structured entities through its trading activities. The Funds typically have no other involvement with the structured entity other than the securities it holds as part of trading activities and its maximum exposure to loss is restricted to the carrying value of the asset.

Exposure to trading assets are managed in accordance with financial risk management practices as set out in note 3(b).

11 Net assets attributable to unitholders

Movements in number of units and net assets attributable to unitholders during the year were as follows:

11 Net assets attributable to unitholders (continued)

As stipulated within the Funds' Constitutions, a unit confers an equal undivided, vested, and inalienable interest in the assets as a whole, subject to the liabilities. There are no separate classes of units within each Fund and each unit has the same rights attaching to it as all other units of that Fund.

Capital risk management

The Funds manage their net assets attributable to unitholders as equity. The amount of net assets attributable to unitholders can change significantly on a daily basis as the Funds are exposed to cash applications and redemptions of redeemable units by unitholders.

Liquid assets include cash and cash equivalents, listed equities, listed trusts, and any other securities that are readily convertible to cash under normal market conditions.

In accordance with the Funds' investment policy, the Funds hold a certain portion of the net assets attributable to unitholders in liquid assets.

Refer to Note 3 Financial Risk Management for further details.

Unaudited information on capital gains/losses

SPDR S&P Emerging Markets Carbon Control Fund

(a) Unrealised capital gains/losses

At the end of the reporting period, the Fund had unrealised capital losses of \$1,329,972 (2021: capital gains: \$1,520,253), which if realised, would be available to offset against any realised capital gains.

(b) Realised capital gains/losses

At the end of the reporting period, the Fund had realised capital gains of \$49,229 (2021: capital gains: \$1,841,229) which were attributed to the unitholders.

(c) Realised capital gains distributed in specie

The Fund had realised capital gains of \$49,229 (2021: \$1,766,057), which were attributed to redeeming unitholders by way of in specie asset redemptions.

SPDR MSCI World Quality Mix Fund

(a) Unrealised capital gains/losses

At the end of the reporting period, the Fund had unrealised capital gains of \$573,494 (2021: capital gains: \$1,645,518), which if realised, and after any offset of realised capital losses, would be assessable.

(b) Realised capital gains/losses

At the end of the reporting period, the Fund had realised capital gains of \$692,054 (2021: capital gains: \$1,784,561) which were attributed to the unitholders.

(c) Realised capital gains distributed in specie

The Fund had realised capital gains of \$0 (2021: \$1,402,944), which were attributed to redeeming unitholders by way of in specie asset redemptions.

19 Segment information

The Funds are organised into one main segment which operates solely in the business of investment management within Australia.

The Funds operates in Australia and holds investments in Australia and globally for SPDR MSCI World Quality Mix Fund, SPDR S&P Emerging Markets Carbon Control Fund, SPDR S&P Global Dividend Fund, SPDR Dow Jones Global Real Estate ESG Fund.

The Fund operates in Australia and holds investments globally for SPDR S&P World ex Australia Carbon Control Fund.

The Fund operates in Australia and holds investments in an Australian fund which has global exposure for SPDR S&P World ex Australia Carbon Control (Hedged) Fund.

20 Events occurring after the reporting period

No significant events have occurred since the end of the reporting period which would impact the financial position of the Funds disclosed in the Statements of financial position as at 30 June 2022 or the results and cash flows of the Funds for the year ended on that date.

21 Contingent assets and liabilities and commitments

There are no outstanding contingent assets, liabilities or commitments as at 30 June 2022 (or 30 June 2021).

Directors' declaration

In the opinion of the directors of the Responsible Entity:

- (a) the financial statements and notes set out on pages 9 to 95 are in accordance with the *Corporations Act 2001*, including:
 - (i) complying with Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
 - (ii) giving a true and fair view of the Funds' financial position as at 30 June 2022 and of their performance for the financial year ended on that date.
- (b) there are reasonable grounds to believe that the Funds will be able to pay their debts as and when they become due and payable; and
- (c) Note 2(a) confirms that the financial statements comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

This declaration is made in accordance with a resolution of the directors.

Independent Auditor's Report

To the unitholders of:

- ▶ SPDR S&P Emerging Markets Carbon Control Fund
- ▶ SPDR MSCI World Quality Mix Fund
- ▶ SPDR S&P World ex Australia Carbon Control Fund
- ▶ SPDR S&P Global Dividend Fund
- ▶ SPDR S&P World ex Australia Carbon Control (Hedged) Fund
- ▶ SPDR Dow Jones Global Real Estate ESG Fund

referred to collectively as SPDR International Equity ETFs.

Opinion

We have audited the financial report of SPDR International Equity ETFs (the "Funds"), which comprises the statements of financial position as at 30 June 2022, the statements of comprehensive income, statements of changes in equity and statements of cash flows for the year then ended, notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report is in accordance with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the Funds' financial position as at 30 June 2022 and of their financial performance for the year ended on that date; and
- b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Funds in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial report of the current year. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, but we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial report. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial report.

Why significant

Investment existence and valuation

The Funds have a significant investment portfolio consisting primarily of globally listed securities, unit trusts and derivatives.

As disclosed in the Funds' accounting policy, described in Note 2 of the financial statements, these financial assets are recognised at fair value through profit or loss in accordance with the relevant Australian Accounting Standards.

Pricing, exchange rates and other market drivers can have a significant impact on the value of these financial assets and relevant disclosures in the financial report. Accordingly, valuation of the investment portfolio was considered a key audit matter.

How our audit addressed the matter

Our audit procedures included:

- ▶ Assessing the effectiveness of the controls relating to the existence, completeness and valuation of investments;
- ▶ Obtaining and considering the assurance reports on the controls of the Funds' custodian and administrator in relation to investment management services and the auditor's credentials, their objectivity and results of their procedures;
- ▶ Agreeing all investment holdings, including cash accounts, to third party confirmations at 30 June 2022;
- ▶ Agreeing the fair value of all investments in the investment portfolio held at 30 June 2022 to independent pricing sources for listed securities; and
- ▶ Assessing the adequacy of the disclosures in Note 5 to the financial statements in accordance with Australian Accounting Standards.

Information Other than the Financial Report and Auditor's Report Thereon

The Directors of the Responsible Entity of the Funds are responsible for the other information. The other information comprises the information included in the Annual Report other than the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The Directors of the Responsible Entity are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the Directors of the Responsible Entity determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Directors of the Responsible Entity are responsible for assessing the Funds' ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the Directors of the Responsible Entity either intend to liquidate the Funds or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors of the Responsible Entity.
- ▶ Conclude on the appropriateness of the Directors of the Responsible Entity of the Funds' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Funds to cease to continue as a going concern.

- ▶ Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Directors of the Responsible Entity regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Directors of the Responsible Entity with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated to the Directors of the Responsible Entity, we determine those matters that were of most significance in the audit of the financial report of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.
