4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. (Please ensure that these descriptions are updated on the Company's Profile on www.otcm Markets.com).

- A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

Metro, Inc. a Nevada corporation is a publicly quoted shell company seeking to create value for its shareholders by merging with another entity with experienced management and opportunities for growth in return for shares of our common stock.

No potential merger candidate has been identified at this time.

We do not propose to restrict our search for a business opportunity to any particular industry or geographical area and may, therefore, engage in essentially any business in any industry. We have unrestricted discretion in seeking and participating in a business opportunity, subject to the availability of such opportunities, economic conditions, and other factors.

The selection of a business opportunity in which to participate is complex and risky. Additionally, we have only limited resources and may find it difficult to locate good opportunities. There can be no assurance that we will be able to identify and acquire any business opportunity which will ultimately prove to be beneficial to us and our shareholders. We will select any potential business opportunity based on our management's best business judgment.

Our activities are subject to several significant risks, which arise primarily as a result of the fact that we have no specific business, and may acquire or participate in a business opportunity based on the decision of management, which potentially could act without the consent, vote, or approval of our shareholders. The risks faced by us are further increased as a result of its lack of resources and our inability to provide a prospective business opportunity with significant capital.

- B. List any subsidiaries, parents, or affiliated companies.

None

- C. Describe the issuers' principal products or services.

None

5) Issuer's Facilities

The goal of this section is to provide a potential investor with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer, give the location of the principal plants and other property of the issuer and describe the condition of the properties. If the issuer does not have complete ownership or control of the property (for example, if others also own the property or if there is a mortgage on the property), describe the limitations on the ownership.

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.

The company leases a 500 sq ft office and no rental needs to be paid.

6) Officers, Directors, and Control Persons

Using the table below, please provide information, as of the period end date of this report, regarding any officers, or directors of the company, individuals or entities controlling more than 5% of any class of the issuer's securities, or any person that performs a similar function, regardless of the number of shares they own. **If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity in the note section.**

Include Company Insiders who own any outstanding units or shares of any class of any equity security of the issuer.

The goal of this section is to provide an investor with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial shareholders.

ZhongMin Mei-Hao Holding Co. Ltd.
Notes to the Financial Statements

NOTE 1 - NATURE OF BUSINESS ORGANIZATION

Metro, Inc. (the Company) is a corporation duly organized under the state of Nevada which commenced on October 25, 2004. The Company is a public holding company, which had one subsidiary, Bullzi LLC. The Company had operations in North Carolina.

The Company is a publicly traded company. The Company received its public stock symbol from NASDAQ on December 15, 2006. In addition, the Company received its Depository Trust Company (DTC) eligibility in January 2007.

In February 2019, all shares outstanding were acquired by one purchaser. Before ownership change, the former shareholders assumed all assets and liabilities, and the subsidiary Bullzi Security LLC was spun off.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES

Accounts Receivable – Accounts receivable are customer obligations due under normal trade terms. The Company evaluates the collectability of its accounts receivable based on a combination of factors. In circumstances where it is aware of a specific customer’s inability to meet its financial obligations, it records a specific allowance to reduce the amounts recorded to what it believes will be collected. The Company may also record an additional reserve which is determined based on historical experience and assessment to the general financial conditions affecting its customer base. After all attempts to collect a receivable have failed, the receivable is written off against the allowance. There was no amounts receivable as of December 31, 2022 and 2021.

Property and Equipment – Property and equipment are recorded at cost. Depreciation is computed using straight-line method over the estimated useful lives of the assets. Major additions and improvements that extend the useful lives of the equipment are capitalized. Maintenance and repairs are charged to expense as incurred.

Revenue Recognition. The Company adopted Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 606, which requires the use of a new five-step model to recognize revenue from customer contracts. The five-step model requires that the Company (i) identify the contract with the customer, (ii) identify the performance obligations in the contract, (iii) determine the transaction price, including variable consideration to the extent that it is probable that a significant future reversal will not occur, (iv) allocate the transaction price to the respective performance obligations in the contract, and (v) recognize revenue when (or as) the Company satisfies the performance obligation.

Income Taxes – The Company accounts for income taxes under ASC 740, *Income Taxes*. Under the asset and liability method of ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period the enactment occurs. A valuation allowance is provided for certain deferred tax assets if it is more

likely than not that the Company will not realize tax assets through future operations. Deferred tax assets or liabilities were off-set by a 100% valuation allowance; therefore there has been no recognized benefit as of December 31, 2022 and 2021.

Use of Estimates. The preparation of financial statements in conformity with U.S. general accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

RECENT ACCOUNTING PRONOUNCEMENTS

We have reviewed all the recently issued, but not yet effective, accounting pronouncements and we do not believe any of these pronouncements will have a material impact on the Company.

In January 2020, the FASB issued ASU 2020-01 to clarify the interaction of the accounting for equity securities under ASC 321 and investments accounted for under the equity method of accounting in ASC 323 and the accounting for certain forward contracts and purchased options accounted for under ASC 815. With respect to the interactions between ASC 321 and ASC 323, the amendments clarify that an entity should consider observable transactions that require it to either apply or discontinue the equity method of accounting when applying the measurement alternative in ASC 321, immediately before applying or upon discontinuing the equity method of accounting. With respect to forward contracts or purchased options to purchase securities, the amendments clarify that when applying the guidance in ASC 815-10-15-141(a), an entity should not consider whether upon the settlement of the forward contract or exercise of the purchased option, individually or with existing investments, the underlying securities would be accounted for under the equity method in ASC 323 or the fair value option in accordance with ASC 825. The ASU is effective for interim and annual reporting periods beginning after December 15, 2020. Early adoption is permitted, including adoption in any interim period. The adoption of this standard did not have a material impact on the Company's financial statements.

Management believes that other recent accounting pronouncements issued by the FASB, including its Emerging Issues Task Force, the American Institute of Certified Public Accountants, and the Securities and Exchange Commission do not have a material impact on the Company's present or near future financial statements.

NOTE 3 – INCOME TAXES

H.R. 1 (The "Tax Reform Law") Effective for the tax years beginning on or after January 1, 2018, except for certain provisions, resulting in significant changes to existing United States tax including various provisions that are expected to impact the Company. The Tax Reform Law reduced the federal corporate tax rate from 34% to 21% effective January 1, 2018 for the Company.

At December 31, 2023 and 2022, the Company had net operating losses ("NOL") for income tax purposes. The Company has NOL carry-forwards for the federal income tax purposes of \$1.31 million and \$1.25 million at December 31, 2023 and 2022, respectively. No tax benefit was reported with respect to these NOL carry-forwards in the accompanying financial statements because the Company believes the realization of the Company's deferred taxes approximately \$275,063 as of December 31, 2023, was not considered more likely than not realizable and accordingly, the potential tax benefits of the loss carry-forwards are fully offset by the full valuation allowance.

Components of deferred tax assets as of December 31, 2023 and 2022 are as follows:

Net deferred tax assets – Non-current:	2023	2022
Expected income tax benefit from NOL carry-forwards	\$ 275,063	\$ 263,735
Less: valuation allowance	(275,063)	(263,735)
Deferred tax assets, net of valuation allowance	\$ —	\$ —

Income Tax Provision in the Statements of Operations

A reconciliation of the federal statutory income tax rate and effective income tax rate⁴ as a percentage of income before income taxes for the years ended December 31, 2023 and 2022 is as follows:

	2023	2022
Federal statutory income tax expense (benefit) rate	(21.00)%	(21.00)%
State statutory income tax (benefit) rate, net of effect of state income tax deductible to federal income tax (No state operations)	- %	-%
Change in valuation allowance on net operating loss carry-forwards	21.00 %	21.00 %
Effective income tax rate	0.00 %	0.00 %

NOTE 4 - COMMITMENTS AND CONTINGENCIES

2

The Company follows ASC 450-20, "Loss Contingencies," to report accounting for contingencies. Liabilities for loss contingencies arising from claims, assessments, litigation, fines and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount of the assessment can be reasonably estimated.

Risks and Uncertainties

The Company's operations are subject to significant risks and uncertainties including financial, operational and regulatory risks, including the potential risk of business failure.
