NOTES TO FINANCIAL STATEMENTS

(Unaudited)

Note 1- ORGANIZATION AND BUSINESS BACKGROUND

World Mobile Holdings, Inc. ("WMHI" or the "Company") was incorporated as in the State of Nevada on May 5, 2006 with a name of Microscints, Inc. On October 26, 2009 the Company's name was changed from Microscints, Inc. to World Mobile Holdings, Inc. On March 19, 2020, the Company redomiciled from the State of Nevada to the State of Wyoming. On September 10, 2021, the Company's name was changed from World Mobile Holdings, Inc. to Alpha One Inc.

The Company had been engaged in the various business since its incorporation. The Company was not successful and discontinued the majority of its operation by December 31, 2016. Beginning from January 2017, the Company plans on providing business services and financing to emerging growth entities.

Note 2- CONTROL BY PRINCIPAL OWNERS

The directors, executive officers, their affiliates, and related parties own, directly or indirectly, beneficially and in the aggregate, the majority of the voting power of the outstanding capital of the Company. Accordingly, directors, executive officers and their affiliates, if they voted their shares uniformly, would have the ability to control the approval of most corporate actions, including approving significant expenses, increasing the authorized capital and the dissolution, merger or sale of the Company's assets.

Note 3- GOING CONCERN

The financial statements have been prepared assuming that the Company will continue as a going concern. The Company incurred a net loss of \$17,512 in the six months ended June 30, 2022. In addition, the Company had accumulated deficit of \$173,035 as of June 30, 2022. These factors raise substantial doubt about the Company's ability to continue as a going concern.

There can be no assurance that sufficient funds required during the next 12 months or thereafter will be generated from operations or that funds will be available from external sources such as debt or equity financings or other potential sources. The lack of additional capital resulting from the inability to generate cash flow from operations or to raise capital from external sources would force the Company to substantially curtail or cease operations and would, therefore, have a material adverse effect on its business. Furthermore, there can be no assurance that any such required funds, if available, will be available on attractive terms or that they will not have a significant dilutive effect on the Company's existing stockholders.

The accompanying financial statements do not include any adjustments related to the recoverability or classification of asset-carrying amounts or the amounts and classification of liabilities that may result should the Company be unable to continue as a going concern.

Note 4- SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements were prepared pursuant to the accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and with the rules and regulations of the U.S. Securities and Exchange Commission ("SEC"), and with the instructions to OTC Markets Alternative Reporting Standard. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations. Management of the Company ("Management") believes that the following disclosures are adequate to make the information presented not misleading. These financial statements should be read in conjunction with the annual financial statements.

The financial statements reflect all adjustments, consisting only of normal recurring adjustments that, in the opinion of Management, are necessary to present fairly the financial position, results of operations, and cash flows of the Company for the periods presented. Operating results for the six months ended June 30, 2022 are not necessarily indicative of the results that may be expected for the years ending December 31, 2022.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results when ultimately realized could differ from those estimates.

Concentrations of Credit Risk

Financial instruments that subject the Company to concentrations of credit risk consist primarily of cash and cash equivalents. The Company maintains its cash and cash equivalents with high-quality institutions. Deposits held with banks may not be insured or exceed the amount of insurance provided on such deposits. Generally, these deposits may be redeemed upon demand and therefore bear minimal risk.

Fair Value of Financial Instruments

The carrying value of financial instruments including cash and cash equivalents, receivables, prepaid expenses, accounts payable, and accrued expenses, approximates their fair value due to the relatively short- term nature of these instruments.

Revenue Recognition

The Company adopted ASU 201409, Topic 606 on January 1, 2018, using the modified retrospective method. ASC 606 requires the use of a new five-step model to recognize revenue from customer contracts. The five-step model requires that the Company (i) identify the contract with the customer, (ii) identify the performance obligations in the contract, (iii) determine the transaction price, including variable consideration to the extent that it is probable that a significant future reversal will not occur, (iv) allocate the transaction price to the respective performance obligations in the contract, and (v) recognize revenue when (or as) the Company satisfies the performance obligation.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits in banks with maturities of three months or less, and all highly liquid investments that are unrestricted as to withdrawal or use, and which have original maturities of three months or less.

Property, Plant and Equipment

Property, plant and equipment are carried at cost. The cost of repairs and maintenance is expensed as incurred; major replacements and improvements are capitalized.

When assets are retired or disposed of, the cost and accumulated depreciation are removed from the accounts, and any resulting gains or losses are included in income in the year of disposition.

Depreciation is calculated on a straight-line basis over the estimated useful life of the assets without residual value. The percentages or depreciable life applied are:

Office equipment and furniture	5 years
--------------------------------	---------

Valuation of Long-Lived assets

Long-lived assets and certain identifiable intangibles are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.

Related Parties

A party is considered to be related to the Company if the party directly or indirectly or through one or more intermediaries, controls, is controlled by, or is under common control with the Company. Related parties also include principal owners of the Company, its management, members of the immediate families of principal owners of the Company and its management and other parties with which the Company may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests. A party which can significantly influence the management or operating policies of the transacting parties or if it has an ownership interest in one of the transacting parties and can significantly influence the other to an extent that one or more of the transacting parties might be prevented from fully pursuing its own separate interests is also a related party.

Income Taxes

The Company accounts for income tax in accordance with FASB ASC 740-10-25, which requires the asset and liability approach for financial accounting and reporting for income taxes. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance related to deferred tax assets is recorded when it is more likely than not that some portion or all of the deferred tax assets will not be realized.

The Company has accumulated deficit in its operation. Because there is no certainty that we will realize taxable income in the future, we did not record any deferred tax benefit as a result of these losses.

Effective January 1, 2007, the Company adopted a new FASB guidance, which clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements. The new FASB guidance prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The new FASB guidance also provides guidance on de-recognition of tax benefits, classification on the balance sheet, interest and penalties, accounting in interim periods, disclosure, and transition. In accordance with the new FASB guidance, the Company performed a self-assessment and concluded that there were no significant uncertain tax positions requiring recognition in its consolidated financial statements.

The Company accounts for income taxes in interim periods in accordance with FASB ASC 740-270, "Interim Reporting". The Company has determined an estimated annual effective tax rate. The rate will be revised, if necessary, as of the end of each successive interim period during the Company's fiscal year to its best current estimate. The estimated annual effective tax rate is applied to the year-to-date ordinary income (or loss) at the end of the interim period.

Comprehensive Income

FASB ASC 220, "Comprehensive Income", establishes standards for reporting and display of comprehensive income, its components and accumulated balances. Comprehensive income as defined includes all changes in equity during a period from non-owner sources. Accumulated comprehensive income, as presented in the accompanying statements of changes in owners' equity consists of changes in unrealized gains and losses on foreign currency translation. This comprehensive income is not included in the computation of income tax expense or benefit.

Earnings (Loss) Per Share

The Company reports earnings per share in accordance with FASB ASC 260, "Earnings Per Share", which requires presentation of basic and diluted earnings per share in conjunction with the disclosure of the methodology used in computing such earnings per share. Basic earnings (loss) per share is computed by dividing income (loss) available to common shareholders by the weighted-average number of common shares outstanding during the period. Diluted earnings per share is computed similar to basic earnings per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. There are no potentially dilutive securities outstanding (options and warrants) for the six months ended June 30, 2022.

Subsequent Events

The Company evaluated subsequent events through the date of issuance of these financial statements. We are not aware of any significant events that occurred subsequent to the balance sheet date but prior to the filing of this report that would have a material impact on our consolidated financial statements.

Fair Value of Measurements

Accounting principles generally accepted in the United States define fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Additionally, the inputs used to measure fair value are prioritized based on a three-level hierarchy. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Input other than quoted market prices that are observable, either directly or indirectly, and reasonably available.

Observable inputs reflect the assumptions market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the Company.

Level 3: Input other than quoted market prices that are observable, either directly or indirectly, and reasonably available.

Observable inputs reflect the assumptions market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the Company.

Unobservable inputs. Unobservable inputs reflect the assumptions that the Company develops based on available information about what market participants would use in valuing the asset or liability.

An asset or liability's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Availability of observable inputs can vary and is affected by a variety of factors. The Company uses judgment in determining fair value of assets and liabilities and Level 3 assets and liabilities involve greater judgment than Level 1 and Level 2 assets or liabilities.

Recent Accounting Pronouncements

The Company does not expect the adoption of recently issued accounting pronouncements to have a significant impact on the Company's results of operations, financial position, or cash flow.

Note 5- DUE TO A RELATED PARTY

The Company does not have cash resource or bank account. The Company's major shareholder pays the expenses for the company's operations. For the six months ended June 30, 2022, the major shareholder paid expense of \$17,512. As of June 30, 2022, the balances due to the major shareholder were \$36,755. These advances from the major shareholder are unsecured, non-interest bearing and payable on demand. There are no written agreements for these advances.

Note 6- OFFICE RENTAL EXPENSE

From time to time, our officers provide office space to us for free. However, we have not reached a formal lease agreement with any officer as of the date of this filing. The office rental expense was \$0 for the six months ended June 30, 2022.

Note 7- COMMITMENTS AND CONTINGENCIES

The Company adopted ASC 450-20, Loss Contingencies, to report accounting for contingencies. Liabilities for loss contingencies arising from claims, assessments, litigation, fines and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount of the assessment can be reasonably estimated.

Contingent Liability from Prior Operation

The Company had been engaged in the various business since its incorporation on May 5, 2006. The Company was not successful and discontinued the majority of its operation by December 31, 2016. Management believes that there are no valid outstanding liabilities from prior operations. If a creditor were to come forward and claim a liability, the Company has committed to contest such claim to the fullest extent of the law. No amount has been accrued in the financial statements for this contingent liability.
