5) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. In answering this item, please include the following:

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

SStarTrade Tech, Inc. is a holding company that invests in development stage exploration mining. The Company's primary investment purpose is to evaluate, acquire and explore mineral properties, which, hopefully, will contain gold, silver, copper and other economic minerals. The Company's strategy is to create value by identifying and acquiring high potential gold mining assets.

The Company holds a 74 percent controlling interest in the voting shares of the Swiss corporation, SStarTrade SA, whose business is developing gold deposits in the Russian Federation, one of the most gold rich asset areas in the world. SStarTrade SA has interests in the prospect of gold mining (through the ownership of 100% of the shares in two Russian gold mining companies – SStartrade Gold LLC, SwissStarGold LLC) and the steel business (through the possession of 100% of the shares in the Gaysky Steel Plant LLC located in Russia).

The Company is planning on exiting the steel production business to focus on financing the exploration and extraction of ore gold in the Trans-Baikal Territory of the Russian Federation (project "Kadara").

Also, it is worth to mention that SSTT (through its subsidiaries) had registered with Russian Ministry of Natural Resources

official claims to receive licenses for geological exploration (with aim to establish operating goldmines after successful allocation of proved reserves) for four perspective plots located in Trans-Baikal region, Russian Federation.

The newly claimed fields is the other part of the pack of licenses to be received by the Company through its subsidiary in order to substitute previously issue license.

The name and the current volume of inferred resources of the claimed gold fields are as follows:

Bagadginsky gold field – inferred resources are 50 tons of gold.

Davan Holodgikansky gold field – inferred resources are 10 tons of gold.

Kadarinsky plot № 1 – inferred resources are 21 tons of gold

Kadarinsky plot № 2 – inferred resources are 9 tons of gold

The area has been known as gold bearing since 1885. In the past, miners carried out mining operations in separate valleys.

The work area is located within the northeastern flank of the large gold-molybdenum belt. All known ore deposits and occurrences are formed in the Mesozoic metallogenetic stage.

Several manifestations of ore gold and numerous points of mineralization of the gold-carbon formation with ore bodies in

the form of vein-disseminated mineralization zones, as well as a catalase and quartz-sulfide-polymetallic mineralization

zone with gold grade from 2 to 10 g / t were found on the license territory during the geological mapping in the past.

The company plans to conduct geological exploration on the territory of the licenses, submit a report on the work performed to the state body, and then obtain licenses for the mining operations within deposits.

The company has opted to suspend all active action in Russia following the facts after February 24th between Russia and the neighbouring country of Ukraine.

The assets controlled will be assisted in order not to jeopardise possibilities of development.

The situation of sanctions deriving from the conflict does not impact our activities in Russia as these are not of strategic interest and of influence on the conflict.

B. Please list any subsidiaries, parents, or affiliated companies.

SSTT (the Issuer) owns 74% of: SStartrade SA, which owns 100% of: LLC Gaysky and LLC SStartrade Gold and LLC SwissStarGold (description of activities visible above) Bruno Horn, CEO of the Issuer, is the contact person for each of the above companies.

C. Describe the issuers' principal products or services.

See item 5A

6) Issuer's Facilities

The goal of this section is to provide a potential investor with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer, give the location of the principal plants and other property of the issuer and describe the condition of the properties. If the issuer does not have complete ownership or control of the property (for example, if others also own the property or if there is a mortgage on the property), describe the limitations on the ownership.

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.

Property and equipment principally relate to our steel manufacturing operation conducted through Gaysky Steel Plant LLC. Property and equipment includes a land plot with engineering systems and communications with a total area of 87 679 sq.m, transformers and power transmission lines, steel processing and manufacturing buildings with a total area of 49 834,7 sq.m, metalworking, metal-cutting machines and mechanisms, hydraulic press and other equipment (turning and milling equipment, forging and pressing equipment, grinding equipment, EDM equipment, heat treatment equipment, sheet processing equipment, gear processing equipment), freight and passenger vehicles, loaders.
