

LATAM group has transported 13.5 million passengers in the first two months of this year

The group transported more than 2 million additional passengers between January and February of this year, which represents an increase of 20.6% compared to the same period of 2023.

Operating statistics for February 2024

March 8, 2024 - LATAM group reported its operating statistics for February 2024, in which it notes transporting more than 13.5 million passengers between January and February 2024, an increase of 20.6% compared to the same period of 2023.

In February, LATAM group transported 6.4 million passengers, which represents a 23.1% increase compared to the same month in 2023. During this period, the group transported 33.5% more international passengers than February of the previous year, 30.8% more domestic passengers from the affiliates of Chile, Colombia, Ecuador, and Peru, and 12.4% more passengers from the Brazilian affiliate.

In the second month of the year, the increase in consolidated capacity measured in available seat - kilometers (ASK) was 21.3% compared to February 2023, explained by a 27.3% growth in the domestic capacity of the affiliates of Chile, Colombia, Peru, and Ecuador, a 27.0% increase in the international segment, and a 10.0% increase in the Brazilian affiliate's domestic capacity, surpassing the historically offered capacity by said affiliate in the same period in previous years.

Consolidated passenger traffic, measured in revenue - passenger kilometers (RPK), increased by 24.9% compared to February 2023, driven by an increase of 32.7% in international demand, a 27.7% increase in demand of the domestic markets of Chile, Colombia, Peru, and Ecuador, and an 11.6% increase in domestic demand of the Brazilian affiliate.

For the month, the group reported a consolidated passenger load factor of 84.4%, 2.5 percentage points higher than the same period of 2023, mainly explained by an increase in the international load factor of 3.7 percentage points, reaching 88.0%.

Finally, in February the cargo capacity, measured in available tons - kilometers (ATK), reached 617 million, which represents an increase of 15.5% of capacity compared to the same period of the previous year.

The following table summarizes the operating statistics for the month and the year to date figures as of February 2024 for the main LATAM business segments:

ABOUT LATAM GROUP

LATAM Airlines Group S.A. and its subsidiaries are the leading airline group in Latin America, with presence in five domestic markets in the region: Brazil, Chile, Colombia, Ecuador and Peru, in addition to international operations within Latin America and to Europe, Oceania, Africa, the United States and the Caribbean.

The group has a fleet of Boeing 767, 777, 787, Airbus A321, A321neo A320, A320neo and A319 aircraft. LATAM Cargo Chile, LATAM Cargo Colombia and LATAM Cargo Brazil are the LATAM group's cargo subsidiaries. In addition to having access to the bellies of the passenger affiliates' aircraft, they have a fleet of 20 freighters. These cargo subsidiaries have access to the group's passenger aircraft, and operate within the LATAM group network, as well as on exclusive international routes for cargo transportation. In addition, they offer a modern infrastructure and a wide variety of services and support options to meet the needs of its customers.
