SEC. 13_. REPORT ON AZERBAIJAN.

(a) SENSE OF CONGRESS ON AZERBAIJAN'S ILLEGAL DETENTION
OF ARMENIAN PRISONERS OF WAR.—

(1) FINDINGS.—Congress makes the following findings:

(A) On September 27, 2020, Azerbaijan, with support from Turkey and foreign militia groups, launched a military assault on Nagorno-Karabakh, also known as Artsakh, resulting in the deaths of thousands and displacing tens of thousands of ethnic Armenian residents.

(B) On November 9, 2020, Azerbaijan, Armenia, and Russia signed a tripartite statement to end the conflict.

(C) In signing the November 9 statement, all parties agreed that the “exchange of prisoners of war, hostages and other detainees as well as the remains of the fatalities shall be carried out.”

(D) The Third Geneva Convention, of which Azerbaijan is a signatory, and customary international law require the release of prisoners of war and captured civilians upon the cessation of hostilities and require that all detainees be treated humanely.

(E) Despite Azerbaijan's obligations under the Geneva Conventions and their commitments in signing the November 9 statement, long after the end of the conflict, the Government of Azerbaijan continues to detain an estimated 200 Armenian prisoners of war, hostages, and detained persons, misrepresenting their status in an attempt to justify their continued captivity.

(F) Human Rights Watch reported in December 2020, that Azerbaijani military forces had mistreated ethnic Armenian prisoners of war and subjected them to “physical abuse and humiliation”.

(G) Columbia University's Institute for the Study of Human Rights issued a report on the conflict that “document[s] crimes against humanity and other atrocities committed by Azerbaijani armed forces and Turkish-backed Islamist fighters against Armenians”, including beheadings, summary executions, and the desecration of human remains.

(H) There is limited reliable information about the condition or treatment of prisoners of war and captured civilians, and there is significant concern that female detainees in particular could be subject to sexual assaults and other mistreatment.

(I) The continued detainment of prisoners of war and captured civilians by Azerbaijan calls into serious question their commitment to human rights and negotiating an equitable, lasting peace settlement.

(J) Armenia has fulfilled its obligations under the November 9 statement and international law by returning Azerbaijani prisoners of war.

(K) The United States is a co-chair, along with France and Russia, of the Organization for Security and Co-operation in Europe Minsk Group, which was created to seek a durable and peaceful solution to the Nagorno-Karabakh conflict.

(2) SENSE OF CONGRESS.—It is the sense of Congress that—

(A) Azerbaijan must immediately and unconditionally return all Armenian prisoners of war and captured civilians; and

(B) the Biden Administration should engage at all levels with Azerbaijani authorities, including through the Organization for Security and Co-operation in Europe Minsk Group process, to make clear the importance of adhering to their obligations, under the November 9 statement and international law, to immediately release all prisoners of war and captured civilians.

(b) REPORT.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense, in consultation with the Secretary of State, shall submit to the relevant congressional committees a report on the following:

(1) United States-origin parts and technology discovered in Turkish Bayraktar unmanned aerial vehicles deployed by Azerbaijan against Nagorno Karabakh between September 27, 2020 and November 9, 2020, including an assessment of any potential violations of violations of the Arms Export Control Act or other applicable laws, sanctions policies, or other provisions of United States law related to the discovery of such parts and technology.

(2) Azerbaijan's use of white phosphorous, cluster bombs, and prohibited munitions deployed by Azerbaijan against civilians and civilian infrastructure in Nagorno Karabakh between September 27, 2020, and November 9, 2020, including an assessment of any potential violations of United States or international law related to the use of such munitions.

(3) Turkey's and Azerbaijan's recruitment of foreign terrorist fighters to participate in Azerbaijan's offensive military operations against Nagorno Karabakh between September 27, 2020, and November 9, 2020, including an assessment of any related potential violations of United States law, the International Convention against the Recruitment, Use, Financing and Training of Mercenaries, or other international or multilateral treaties.

(c) RELEVANT CONGRESSIONAL COMMITTEES.—In this section, the term “relevant congressional committees” means the Committee on Foreign Affairs and Committee on Armed Services of the House of Representatives and the Committee on Foreign Relations and Committee on Armed Services of the Senate.

(1) Azerbaijan must immediately and unconditionally return all Armenian prisoners of war and captured civilians; and

(2) the Biden Administration should engage at all levels with Azerbaijani authorities, including through the Organization for Security and Co-operation in Europe Minsk Group process, to make clear the importance of adhering to their obligations, under the November 9 statement and international law, to immediately release all prisoners of war and captured civilians.

Subtitle F—Ballistic Missiles

SEC. 1661. FINDINGS.

Congress finds the following:

(1) According to the Congressional Budget Office, the projected cost to sustain and modernize the United States nuclear arsenal, as of 2017, “is \$1.2 trillion in 2017 dollars over the 2017–2046 period: more than \$800 billion to operate and sustain (that is, incrementally upgrade) nuclear forces and about \$400 billion to modernize them”. With inflation, the cost rises to \$1,700,000,000,000 and does not include the cost of the additional nuclear capabilities proposed in the 2018 Nuclear Posture Review.

(2) The Government Accountability Office found in July 2020 that the Department of Defense and the National Nuclear Security Administration have still not taken meaningful steps to address affordability concerns or heeded the Government Accountability Office’s recommendation to consider “deferring the start of or cancelling specific modernization programs”, including the W87–1 warhead modification program, to address increases in the weapons activities budget requests of the National Nuclear Security Administration.

(3) The ground-based strategic deterrent program is expected to cost between \$93,100,000,000 and \$95,800,000,000 which does not include the cost of the W87–1 warhead modification program or the cost to produce new plutonium pits for the warhead. The total estimated life cycle cost of the ground based strategic deterrent program is \$264,000,000,000, and the program is intended to replace 400 deployed Minuteman III missiles with more than 600 new missiles, to allow for test flights and spares.

(4) The Air Force awarded a sole-source contract to Northrop Grumman for the engineering and manufacturing component of the ground-based strategic deterrent program in September 2020, raising concerns that the absence of competition for the award may result in higher than projected costs to United States taxpayers.

(5) The National Nuclear Security Administration is also in the early stages of developing a replacement intercontinental ballistic missile warhead, the W87–1, and expanding plutonium pit production to build new warhead cores, costing at least \$12,000,000,000 and \$9,000,000,000, respectively, to meet the modernization needs of the ground-based strategic deterrent program.

(6) Maintaining and updating the current Minuteman III missiles is possible for multiple decades and, according to the Congressional Budget Office, through 2036 this would cost \$37,000,000,000 less in 2017 dollars than developing and deploying the ground-based strategic deterrent program.

(7) On April 3, 2019, Lieutenant General Richard M. Clark, then-Air Force Deputy Chief of Staff for Strategic Deterrence and Nuclear Integration, noted in testimony before the Committee on Armed Services of the House of Representatives that we have “one more opportunity” to conduct life extension on the Minuteman III intercontinental ballistic missile, indicating the technical feasibility of extending the Minuteman

III missile despite his stated preference for the ground-based strategic deterrent.

(8) Even in the absence of an intercontinental ballistic missile leg of the triad, the 2018 Nuclear Posture Review signaled that the United States would have an assured retaliatory capability in the form of ballistic missile submarines, which are, “at present, virtually undetectable, and there are no known, near-term credible threats to the survivability of the [ballistic missile submarine] force”, a benefit that will be enhanced as the Department of Defense moves to replace the Ohio class ballistic submarine fleet with the new Columbia class ballistic missile fleet.

(9) While intercontinental ballistic missiles had historically been the most responsive leg of the United States nuclear triad, advances in ballistic missile submarine communications now provide immediate dissemination of information during wartime.

(10) Intercontinental ballistic missiles cannot be recalled, leaving decision-makers with mere minutes to decide whether to launch the missiles before they are destroyed, known as a posture of “launch on warning” or “launch under attack” in the face of a perceived nuclear attack, greatly increasing the risk of a national leader initiating a nuclear war by mistake.

(11) In 1983, Stanislav Petrov, a former lieutenant colonel of the Soviet Air Defense Forces correctly identified a false warning in an early warning system that showed several United States incoming nuclear missiles, preventing Soviet leaders from launching a retaliatory response, earning Colonel Petrov the nickname “the man who saved the world”.

(12) Former Secretary of Defense William Perry, who once briefed President Bill Clinton on a suspected Russian first nuclear strike, wrote that the ground-based leg of the nuclear triad is “destabilizing because it invites an attack” and intercontinental ballistic missiles are “some of the most dangerous weapons in the world” and “could even trigger an accidental nuclear war”.

(13) General James Cartwright, former vice chair of the Joint Chiefs of Staff and former Commander of the United States Strategic Command, wrote, with Secretary Perry, “[T]he greatest danger is not a Russian bolt but a US blunder—that we might accidentally stumble into nuclear war. As we make decisions about which weapons to buy, we should use this simple rule: If a nuclear weapon increases the risk of accidental war and is not needed to deter an intentional attack, we should not build it. . . . Certain nuclear weapons, such as...the [intercontinental ballistic missile], carry higher risks of accidental war that, fortunately, we no longer need to bear. We are safer without these expensive weapons, and it would be foolish to replace them.”.

(14) General George Lee Butler, the former Commander-in-Chief of the Strategic Air Command and subsequently Commander-in-Chief of the United States Strategic Command, said, “I would have removed land-based missiles from our arsenal a long time ago. I’d be happy to put that mission on the submarines. So, with a significant fraction of bombers having a nuclear weapons capability that can be restored to alert very quickly, and with even a small component of Trident submarines—with all those missiles and all those warheads on patrol—it’s hard to imagine we couldn’t get by.”.

(15) While a sudden “bolt from the blue” first strike from a near-peer nuclear adversary is a highly unlikely scenario, extending the Minuteman III would maintain the purported role of the intercontinental ballistic missile leg of the triad to absorb such an attack.

It is the policy of the United States that—

(1) the operational life of the Minuteman III intercontinental ballistic missiles shall be safely extended until at least 2040; and

(2) the research, development, testing, and evaluation of the ground-based strategic deterrent program shall be paused until 2031.

SEC. 1663. PROHIBITION ON USE OF FUNDS FOR GROUND BASED STRATEGIC DETERRENT PROGRAM AND W87-1 WARHEAD MODIFICATION PROGRAM.

None of the funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2022 for the Department or Defense or the National Nuclear Security Administration may be obligated or expended for the ground-based strategic deterrent program (including with respect to supporting infrastructure) or the W87-1 warhead modification program.

SEC. 1664. LIFE EXTENSION OF MINUTEMAN III INTERCONTINENTAL BALLISTIC MISSILES.

(a) **LIFE EXTENSION PROGRAM.**—Beginning not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall commence efforts for a life extension program of Minuteman III intercontinental ballistic missiles to extend the life of such missiles to 2040.

(b) **ELEMENTS OF PROGRAM.**—In carrying out the life extension program under subsection (a), the Secretary shall ensure the following:

(1) The program will incorporate new and necessary technologies that could also be incorporated in the future ground-based strategic deterrent program, including with respect to technologies that—

(A) increase the resilience against adversary missile defenses; and

(B) incorporate new nuclear command, control, and communications systems.

(2) The program will use nondestructive testing methods and technologies similar to the testing methods used by the Navy for Trident II D5 submarine launched ballistic missiles to reduce destructive testing.

Page 481, after line 2, insert the following new section:

SEC. 576. JUSTICE FOR WOMEN VETERANS.

(a) **FINDINGS.**—Congress finds the following:

(1) In June 1948, Congress enacted the Women’s Armed Services Integration Act of 1948, which formally authorized the appointment and enlistment of women in the regular components of the Armed Forces.

(2) With the expansion of the Armed Forces to include women, the possibility arose for the first time that members of the regular components of the Armed Forces could become pregnant.

(3) The response to such possibilities and actualities was Executive Order 10240, signed by President Harry S. Truman in 1951, which granted the Armed Forces the authority to involuntarily separate or discharge a woman if she became pregnant, gave birth to a child, or became a parent by adoption or a stepparent.

(4) The Armed Forces responded to the Executive order by systematically discharging any woman in the Armed Forces who became pregnant, regardless of whether the pregnancy was planned, unplanned, or the result of sexual abuse.

(5) Although the Armed Forces were required to offer women who were involuntarily separated or discharged due to pregnancy the opportunity to request retention in the military, many such women were not offered such opportunity.

(6) The Armed Forces did not provide required separation benefits, counseling, or assistance to the members of the Armed Forces who were separated or discharged due to pregnancy.

(7) Thousands of members of the Armed Forces were involuntarily separated or discharged from the Armed Forces as a result of pregnancy.

(8) There are reports that the practice of the Armed Forces to systematically separate or discharge pregnant members caused some such members to seek an unsafe or inaccessible abortion, which was not legal at the time, or to put their children up for adoption, and that, in some cases, some women died by suicide following their involuntary separation or discharge from the Armed Forces.

(9) Such involuntary separation or discharge from the Armed Forces on the basis of pregnancy was challenged in Federal district court by Stephanie Crawford in 1975, whose legal argument stated that this practice violated her constitutional right to due process of law.

(10) The Court of Appeals for the Second Circuit ruled in Stephanie Crawford’s favor in 1976 and found that Executive Order 10240 and any regulations relating to the Armed Forces that made separation or discharge mandatory due to pregnancy were unconstitutional.

(11) By 1976, all regulations that permitted involuntary separation or discharge of a member of the Armed Forces because of pregnancy or any form of parenthood were rescinded.

(12) Today, women comprise 17 percent of the Armed Forces, and many are parents, including 12 percent of whom are single parents.

(13) While military parents face many hardships, today’s Armed Forces provides various lengths of paid family leave for mothers and fathers. for both birth and adoption of children.

(b) **SENSE OF CONGRESS.**—

(1) SENSE OF CONGRESS.—It is the sense of Congress that women who served in the Armed Forces before February 23, 1976 should not have been involuntarily separated or discharged due to pregnancy or parenthood.

(2) EXPRESSION OF REMORSE.—Congress hereby expresses deep remorse for the women who patriotically served in the Armed Forces, but were forced, by official United States policy, to endure unnecessary and discriminatory actions, including the violation of their constitutional right to due process of law, simply because they became pregnant or became a parent while a member of the Armed Forces.

(c) GAO STUDY OF WOMEN INVOLUNTARILY SEPARATED OR DISCHARGED DUE TO PREGNANCY OR PARENTHOOD.—

(1) STUDY REQUIRED.—The Comptroller General of the United States shall conduct a study regarding women involuntarily separated or discharged from the Armed Forces due to pregnancy or parenthood during the period of 1951 through 1976. The study shall identify—

(A) the number of such women, disaggregated by—

- (i) Armed Force;
- (ii) grade;
- (iii) race; and
- (iv) ethnicity;

(B) the characters of such discharges or separations;

(C) discrepancies in uniformity of such discharges or separations;

(D) how such discharges or separations affected access of such women to health care and benefits through the Department of Veterans Affairs; and

(E) recommendations for improving access of such women to resources through the Department of Veterans Affairs.

(2) BRIEFING AND REPORT.—

(A) BRIEFING.—Not later than 6 months after the date of enactment of this Act, the Comptroller General shall brief the Committees on Armed Services and the Committees on Veterans' Affairs of the Senate and the House of Representatives on the study.

(B) REPORT.—Not later than 18 months after the date of the enactment of this Act, the Comptroller General shall submit a report to the Committees on Armed Services and the Committees on Veterans' Affairs of the Senate and the House of Representatives on the results of the study conducted under paragraph (1).

(1) The people of the United States celebrate cultural and linguistic diversity and seek to prepare students with skills to succeed in the 21st century.

(2) It is fitting to commend the dedication of students who have achieved proficiency in multiple languages and to encourage their peers to follow in their footsteps.

(3) The congressionally requested Commission on Language Learning, in its 2017 report “America’s Languages: Investing in Language Education for the 21st Century”, notes the pressing national need for more people of the United States who are proficient in two or more languages for national security, economic growth, and the fulfillment of the potential of all people of the United States.

(4) The Commission on Language Learning also notes the extensive cognitive, educational, and employment benefits deriving from biliteracy.

(5) Biliteracy in general correlates with higher graduation rates, higher grade point averages, higher rates of matriculation into higher education, and higher earnings for all students, regardless of background.

(6) The study of America’s languages in elementary and secondary schools should be encouraged because it contributes to a student’s cognitive development and to the national economy and security.

(7) Recognition of student achievement in language proficiency will enable institutions of higher education and employers to readily recognize and acknowledge the valuable expertise of bilingual students in academia and the workplace.

(8) States such as Utah, Arizona, Washington, and New Mexico have developed innovative testing methods for languages, including Native American languages, where no formal proficiency test currently exists.

(9) The use of proficiency in a government-recognized official Native American language as the base language for a Seal of Biliteracy, with proficiency in any additional partner language demonstrated through tested proficiency, has been successfully demonstrated in Hawaii.

SEC. 28. ANNUAL REPORT ON RENEWAL OF DEPARTMENT OF DEFENSE
EASEMENTS AND LEASES OF LAND IN HAWAII.

(a) FINDINGS.—Congress finds the following:

(1) Lands throughout the State of Hawai'i, which are currently owned and leased by the Department of Defense or in which the Department of Defense otherwise has a real property interest, are critical to maintaining the readiness of the Armed Forces now stationed or to be stationed in Hawai'i and throughout the Indo-Pacific region and elsewhere.

(2) Securing long-term continued utilization of those lands by the Armed Forces is thus critical to the national defense.

(3) As a result of various factors, including complex land ownership and utilization issues and competing actual and potential uses, the interdependency of the various military components, and the necessity of maintaining public support for the presence and operations of the Armed Forces in Hawai'i, the realization of the congressional and Department of Defense goals of ensuring the continuity of critical land and facilities infrastructure requires a sustained, dedicated, funded, top-level effort to coordinate realization of these goals across the Armed Forces, between the Department of Defense and other agencies of the Federal Government, and between the Department of Defense and the State of Hawai'i and its civilian sector.

(4) The end result of this effort must account for military and civilian concerns and for the changing missions and needs of all components of the Armed Forces stationed or otherwise operating out of the State of Hawai'i as the Department of Defense adjusts to meet the objectives outlined in the National Defense Strategy.

(b) ANNUAL REPORT.—

(1) The continued availability and use of the Red Hill Bulk Fuel Storage Facility in Honolulu, Hawai'i is a matter of national security. (2) The Red Hill Bulk Fuel Facility is constructed in basalt rock that overlays a key aquifer serving as one of the major ground water resources for the fresh water needs of the City of Honolulu, including key military installations and associated facilities. Past leaks from the tanks and other infrastructure of the Red Hill Bulk Fuel Storage Facility, while not resulting in any appreciable effect to the aquifer, raise significant questions whether the facility is being operated and maintained to the highest standard possible and whether the facility presents a material risk to the aquifer and to Honolulu water resources.

(3) Safety inspections of the Red Hill Bulk Fuel Storage Facility at 10-year intervals, as required by the American Petroleum Institute 570 standards, set the upper boundaries for inspections.

(b) **SENSE OF CONGRESS.**—In order to fully effectuate national security, assure the maximum safe utilization of the Red Hill Bulk Fuel Storage Facility, and fully address concerns as to potential impacts of the facility on public health, it is the sense of Congress that the Secretary of the Navy and the Defense Logistics Agency should—

(1) operate and maintain the Red Hill Bulk Fuel Storage Facility to the highest standard possible; and

(2) require safety inspections to be conducted more frequently based on the corrosion rate of the piping and overall condition of the pipeline system and support equipment at the facility.

(c) **INSPECTION REQUIREMENT.**—

(1) **INSPECTION REQUIRED.**—The Secretary of the Navy shall direct the Naval Facilities Engineering Command to conduct an inspection of the pipeline system, supporting infrastructure, and appurtenances, including valves and any other corrosion prone equipment, at the Red Hill Bulk Fuel Storage Facility.

(A) by an independent American Petroleum Institute certified inspector who will present findings of the inspection and options to the Secretary of the Navy for improving the integrity of the Red Hill Bulk Fuel Storage Facility and its appurtenances; and

(e) SUBMISSION OF RESULTS AND PLAN.—Not later than one year after the date of the enactment of this Act, the Secretary of the Navy shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report containing—

- (1) the results of the inspection conducted under subsection (c);
 - (2) the life-cycle sustainment plan prepared under subsection (d);

(3) The Armed Forces and Department of Defense presence in Hawai'i is extensive and significant despite the limited geography of the State.

(b) **SENSE OF CONGRESS.**—Given the extent and significance of the Armed Forces and Department of Defense presence in Hawai'i and the limited geography of the State, it is the sense of Congress that the Secretary of Defense should—

“(A) CONSIDERATIONS.—In accordance with subparagraph (B), in determining which types of incidents are covered cybersecurity incidents for purposes of this section, the Director shall consider—

“(i) the sophistication or novelty of the tactics used to perpetrate such an incident, as well as the type, volume, and sensitivity of the data at issue;

“(ii) the number of individuals directly or indirectly affected or potentially affected by such an incident; and

“(iii) potential impacts on industrial control systems, such as supervisory control and data acquisition systems, distributed control systems, and programmable logic controllers.

“(B) MINIMUM THRESHOLDS.—For a cybersecurity incident to be considered a covered cybersecurity incident a cybersecurity incident shall, at a minimum, include at least one of the following:

“(i) Unauthorized access to an information system or network that leads to loss of confidentiality, integrity, or availability of such information system or network, or has a serious impact on the safety and resiliency of operational systems and processes.

“(ii) Disruption of business or industrial operations due to a denial of service attack, a ransomware attack, or exploitation of a zero-day vulnerability, against—

“(I) an information system or network; or

“(II) an operational technology system or process.

“(iii) Unauthorized access or disruption of business or industrial operations due to loss of service facilitated through, or

caused by a compromise of, a cloud service provider, managed service provider, other third-party data hosting provider, or supply chain attack.

“(5) REPORTS.—

“(A) TIMING.—

“(i) IN GENERAL.—The Director, in consultation with Sector Risk Management Agencies and the heads of other Federal departments and agencies, as appropriate, shall establish reporting timelines for covered entities to submit promptly to the Office covered cybersecurity incident reports, as the Director determines reasonable and appropriate based on relevant factors, such as the nature, severity, and complexity of the covered cybersecurity incident at issue and the time required for investigation, but in no case may the Director require reporting by a covered entity earlier than 72 hours after confirmation that a covered cybersecurity incident has occurred.

“(ii) CONSIDERATIONS.—In determining reporting timelines under clause (i), the Director shall—

“(I) consider any existing regulatory reporting requirements, similar in scope purpose, and timing to the reporting requirements under this section, to which a covered entity may also be subject, and make efforts to harmonize the timing and contents of any such reports to the maximum extent practicable; and

“(II) balance the Agency’s need for situational awareness with a covered entity’s ability to conduct incident response and investigations.

“(B) THIRD PARTY REPORTING.—

“(i) IN GENERAL.—A covered entity may submit a covered cybersecurity incident report through a third party entity or Information Sharing and Analysis Organization.

“(ii) DUTY TO ENSURE COMPLIANCE.—Third party reporting under this subparagraph does not relieve a covered entity of the duty to ensure compliance with the requirements of this paragraph.

“(C) SUPPLEMENTAL REPORTING.—A covered entity shall submit promptly to the Office, until such date that such covered entity notifies the Office that the cybersecurity incident investigation at issue has concluded and the associated covered cybersecurity incident has been fully mitigated and resolved, periodic updates or supplements to a previously submitted covered cybersecurity incident report if new or different information becomes available that would otherwise have been required to have been included in such previously submitted report. In determining reporting timelines, the Director may choose to establish a flexible, phased reporting timeline for covered entities to report information in a manner that aligns with investigative timelines and allows covered entities to prioritize incident response efforts over compliance.

“(D) CONTENTS.—Covered cybersecurity incident reports submitted pursuant to this section shall contain such information as the Director prescribes, including the following information, to the extent applicable and available, with respect to a covered cybersecurity incident:

“(i) A description of the covered cybersecurity incident, including identification of the affected information systems, networks, or devices that were, or are reasonably believed to have been, affected by such incident, and the estimated date range of such incident.

“(ii) Where applicable, a description of the vulnerabilities exploited and the security defenses that were in place, as well as

the tactics, techniques, and procedures relevant to such incident.

“(iii) Where applicable, any identifying information related to the actor reasonably believed to be responsible for such incident.

“(iv) Where applicable, identification of the category or categories of information that was, or is reasonably believed to have been, accessed or acquired by an unauthorized person.

“(v) Contact information, such as telephone number or electronic mail address, that the Office may use to contact the covered entity or, where applicable, an authorized agent of such covered entity, or, where applicable, the service provider, acting with the express permission, and at the direction, of such covered entity, to assist with compliance with the requirements of this section.

“(6) RESPONSIBILITIES OF COVERED ENTITIES.—Covered entities that experience a covered cybersecurity incident shall coordinate with the Office to the extent necessary to comply with this section, and, to the extent practicable, cooperate with the Office in a manner that supports enhancing the Agency’s situational awareness of cybersecurity threats across critical infrastructure sectors.

“(7) HARMONIZING REPORTING REQUIREMENTS.—In establishing the reporting requirements and procedures under paragraph (1), the Director shall, to the maximum extent practicable—

“(A) review existing regulatory requirements, including the information required in such reports, to report cybersecurity incidents that may apply to covered entities, and ensure that any such reporting requirements and procedures avoid conflicting, duplicative, or burdensome requirements; and

“(B) coordinate with other regulatory authorities that receive reports relating to cybersecurity incidents to identify opportunities to streamline reporting processes, and where feasible, enter into agreements with such authorities to permit the sharing of such reports with the Office, consistent with applicable law and policy, without impacting the Office’s ability to gain timely situational awareness of a covered cybersecurity incident or significant cyber incident.

“(e) DISCLOSURE, RETENTION, AND USE OF INCIDENT REPORTS.—

“(1) AUTHORIZED ACTIVITIES.—No information provided to the Office in accordance with subsections (d) or (h) may be disclosed to, retained by, or used by any Federal department or agency, or any component, officer, employee, or agent of the Federal Government, except if the Director determines such disclosure, retention, or use is necessary for—

“(2) EXCEPTIONS.—

“(A) RAPID, CONFIDENTIAL, BI-DIRECTIONAL SHARING OF CYBER THREAT INDICATORS.—Upon receiving a covered cybersecurity incident report submitted pursuant to this section, the Office shall immediately review such report to determine whether the incident that is the subject of such report is connected to an ongoing cybersecurity threat or security vulnerability and where applicable, use such report to identify, develop, and rapidly disseminate to appropriate stakeholders actionable, anonymized cyber threat indicators and defensive measures.

“(B) PRINCIPLES FOR SHARING SECURITY VULNERABILITIES.—With respect to information in a covered cybersecurity incident report regarding a security vulnerability referred to in paragraph (1)(B)(ii), the Director shall develop principles that govern the timing and manner in which information relating to security vulnerabilities may be shared, consistent with common industry best practices and United States and international standards.

“(3) PRIVACY AND CIVIL LIBERTIES.—Information contained in reports submitted to the Office pursuant to subsections (d) and (h) shall be retained, used, and disseminated, where permissible and appropriate, by the Federal Government in a manner consistent with processes for the protection of personal information adopted pursuant to section 105 of the Cybersecurity Act of 2015 (enacted as division N of the Consolidated Appropriations Act, 2016 (Public Law 114–113; 6 U.S.C. 1504)).

“(2) exempt from disclosure under section 552 of title 5, United States Code, as well as any provision of State, Tribal, or local freedom of information law, open government law, open meetings law, open records law, sunshine law, or similar law requiring disclosure of information or records; and

“(g) NONCOMPLIANCE WITH REQUIRED REPORTING.—

“(1) PURPOSE.—In the event a covered entity experiences a cybersecurity incident but does not comply with the reporting requirements under this section, the Director may obtain information about such incident by engaging directly such covered entity in accordance with paragraph (2) to request information about such incident, or, if the Director is unable to obtain such information through such engagement, by issuing a subpoena to such covered entity, subject to paragraph (3), to gather information sufficient to determine whether such incident is a covered cybersecurity incident, and if so, whether additional action is warranted pursuant to paragraph (4).

“(2) INITIAL REQUEST FOR INFORMATION.—

“(A) IN GENERAL.—If the Director has reason to believe, whether through public reporting, intelligence gathering, or other information in the Federal Government’s possession, that a covered entity has experienced a cybersecurity incident that may be a covered cybersecurity incident but did not submit pursuant to subsection (d) to the Office a covered cybersecurity incident report relating thereto, the Director may request information from such covered entity to confirm whether the cybersecurity incident at issue is a covered cybersecurity incident, and determine whether further examination into the details surrounding such incident are warranted pursuant to paragraph (4).

“(B) TREATMENT.—Information provided to the Office in response to a request under subparagraph (A) shall be treated as if such information was submitted pursuant to the reporting procedures established in accordance with subsection (d).

“(3) AUTHORITY TO ISSUE SUBPOENAS.—

“(A) IN GENERAL.—If, after the date that is seven days from the date on which the Director made a request for information in paragraph (2), the Director has received no response from the entity from which such information was requested, or received an inadequate response, the Director may issue to such entity a subpoena to compel disclosure of information the Director considers necessary to determine whether a covered cybersecurity incident has occurred and assess potential impacts to national security, economic security, or public health and safety, determine whether further examination into the details surrounding such incident are warranted pursuant to paragraph (4), and if so, compel disclosure of such information as is necessary to carry out activities described in subsection (c).

“(B) CIVIL ACTION.—If a covered entity does not comply with a subpoena, the Director may bring a civil action in a district court of the United States to enforce such subpoena. An action under this paragraph may be brought in the judicial district in which the entity against which the action is brought resides, is found, or does business. The court may punish a failure to obey an order of the court to comply with the subpoena as a contempt of court.

the Agency's situational awareness of cybersecurity threats across critical infrastructure sectors, in a manner consistent with privacy and civil liberties protections under applicable law.

“(B) PROVISION OF CERTAIN INFORMATION TO ATTORNEY GENERAL.—Notwithstanding subsection (e)(4) and paragraph (2)(B), if the Director determines, based on the information provided in response to a subpoena issued pursuant to paragraph (3) or identified in the course of an examination under subparagraph (A), that the facts relating to the cybersecurity incident at issue may constitute grounds for a regulatory enforcement action or criminal prosecution, the Director may provide such information to the Attorney General or the appropriate regulator, who may use such information for a regulatory enforcement action or criminal prosecution.

“(h) VOLUNTARY REPORTING OF CYBER INCIDENTS.—The Agency shall receive cybersecurity incident reports submitted voluntarily by entities that are not covered entities, or concerning cybersecurity incidents that do not satisfy the definition of covered cybersecurity incidents but may nevertheless enhance the Agency's situational awareness of cybersecurity threats across critical infrastructure sectors. The protections under this section applicable to covered cybersecurity incident reports shall apply in the same manner and to the same extent to voluntarily-submitted cybersecurity incident reports under this subsection.

“(i) NOTIFICATION TO IMPACTED COVERED ENTITIES.—If the Director receives information regarding a cybersecurity incident impacting a Federal agency relating to unauthorized access to data provided to such Federal agency by a covered entity, and with respect to which such incident is likely to undermine the security of such covered entity or cause operational or reputational damage to such covered entity, the Director shall, to the extent practicable, notify such covered entity and provide to such covered entity such information regarding such incident as is necessary to enable such covered entity to address any such security risk or operational or reputational damage arising from such incident.

“(j) EXEMPTION.—Subchapter I of chapter 35 of title 44, United States Code, does not apply to any action to carry out this section.

Notices, Diffusions, or other INTERPOL communication against the same individual based on the same set of claims or facts;

Add at the end of subtitle A of title XVI the following new section:

SEC. 16_. LEVERAGING COMMERCIAL ON-ORBIT SATELLITE SERVICING.

(a) **FINDINGS.**—Congress finds the following:

(1) National security depends on reliable access to, and safe operations in, space. Modern society is reliant on space operations, but most spacecraft today are designed to be discarded at end-of-mission, leaving potential gaps in mission continuity and contributing to risk in the space domain.

(2) Existing and future critical Department of Defense missions operating in space and providing multidomain support would benefit from the application of commercial On-orbit Servicing, Assembly, and Manufacturing (in this section referred to as “OSAM”) capabilities, which extend the longevity and operability of national security space systems through inspection, repair, refueling, and mitigation of debris.

(3) Because the domain in which space systems operate is increasingly congested, the risk of collisions and orbital debris generation has increased, a risk that is exacerbated by a lack of utilization of OSAM services. A secure, stable, and accessible space domain is paramount to the unimpeded and resilient operations of civil, military, intelligence, and commercial space assets by the United States and its allies. OSAM technologies support Department of Defense strategy by improving the adaptability and efficiency of existing and future military space architectures.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) Congress strongly encourages the Secretary of Defense to invest in developing technologies to support the advancement of debris remediation, such as rendezvous, proximity operations, and debris removal as an element of OSAM;

(2) because of the importance of the space domain, the Secretary should seek ways to collaborate with United States industry partners and allied nations;

(3) beyond technology development, the Secretary and the intelligence community should consider satellite servicing and active disposal as a viable operational trade-off—in this way, in the future, a back-up disposal plan using direct retrieval should be a preferred and viable method for relevant or off-nominal missions.

(c) **REPORT.**—Not later than December 3, 2021, the Secretary of Defense, in consultation with the Director of National Intelligence and the Administrator of the National Aeronautics and Space Administration, shall submit to the appropriate congressional committees a report that—

(1) identifies critical investment areas for the further development and usage of commercial OSAM technologies and capabilities to meet emerging and changing government space mission needs on-orbit; and

(2) includes a plan for interagency engagement in the standardization and adoption of commercial OSAM interfaces for government space systems.

(d) **APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.**—In this section, the term “appropriate congressional committees” means—

(1) the congressional defense committees;

(2) the Committee on Science, Space, and Technology and the Permanent Select Committee on Intelligence of the House of

Representatives; and

(3) the Committee on Commerce, Science, and Transportation and the Select Committee on Intelligence of the Senate.

“(4) an assessment of the criticality of each vulnerability identified pursuant to paragraph (3);

“(5) a list of critical technologies studied by each center, including an explanation by the Under Secretary for any deviations from the list of technologies provided by the Director before the distribution of funding to the center; and

“(6) a list of tools, techniques, and procedures used by each such center.

Add at the end of subtitle E of title XII the following:

SEC. 12_. STATEMENT OF CONGRESS REGARDING ONGOING ABUSES AGAINST
UYGHURS.

(a) FINDINGS.—Congress finds the following:

(1) On December 9, 1948, the United Nations General Assembly unanimously adopted the Convention on the Prevention and Punishment of the Crime of Genocide (the Genocide Convention) signifying a commitment in response to the Holocaust and other crimes against humanity committed in the first half of the twentieth century.

(2) The Genocide Convention entered into force on January 12, 1951, and declares that all state parties “confirm that genocide, whether committed in time of peace or in time of war, is a crime under international law which they undertake to prevent and to punish”.

(3) The Genocide Convention defines genocide as “any of the following acts committed with intent to destroy, in whole or in part, a national, ethnical, racial or religious group, as such: (a) Killing members of the group; (b) Causing serious bodily or mental harm to members of the group; (c) Deliberately inflicting on the group conditions of life calculated to bring about its physical destruction in whole or in part; (d) Imposing measures intended to prevent births within the group; (e) Forcibly transferring children of the group to another group”.

(4) The United States ratified the Genocide Convention with the understanding that the commission of genocide requires “the specific intent to destroy, in whole or in substantial part, a [protected] group as such”.

(5) The People’s Republic of China (PRC) is a state party to the Genocide Convention.

(6) Since 2017, the PRC Government, under the direction and control of the Chinese Communist Party (CCP), has detained and sought to indoctrinate more than one million Uyghurs and members of other ethnic and religious minority groups.

(7) Recent data indicate a significant drop in birth rates among Uyghurs due to enforced sterilization, enforced abortion, and more onerous birth quotas for Uyghurs compared to Han.

(8) There are credible reports of PRC Government campaigns to promote marriages between Uyghurs and Han and to reduce birth rates among Uyghurs and other Turkic Muslims.

(9) Many Uyghurs reportedly have been assigned to factory employment under conditions that indicate forced labor, and some former detainees have reported food deprivation, beatings, suppression of religious practices, family separation, and sexual abuse.

(10) This is indicative of a systematic effort to eradicate the ethnic and cultural identity and religious beliefs, and prevent the births of, Uyghurs, ethnic Kazakhs and Kyrgyz, and members of religious minority groups.

(11) The birth rate in the Xinjiang region fell by 24 percent in 2019 compared to a 4.2 percent decline nationwide.

(12) On January 19, 2021, the Department of State determined the PRC Government, under the direction and control of the CCP, has committed crimes against humanity and genocide against Uyghurs and other ethnic and religious minority groups in Xinjiang.

(13) Secretary of State Antony Blinken and Former Secretary of State Michael Pompeo have both stated that what has taken place in Xinjiang is genocide and constitutes crimes against humanity.

(14) Article VIII of the Genocide Convention provides, “Any Contracting Party may call upon the competent organs of the United Nations to take such action under the Charter of the United Nations as they consider appropriate for the prevention and suppression of acts of genocide”.

(15) The International Court of Justice has stated that it is the obligation of all state parties to the Genocide Convention to “employ all means reasonably available to them, so as to prevent genocide so far as possible”.

(16) The United States is a Permanent Member of the United Nations Security Council.

(b) STATEMENT OF CONGRESS.—Congress—

(1) finds that the ongoing abuses against Uyghurs and members of other ethnic and religious minority groups constitute genocide as defined in the Genocide Convention and crimes against humanity as understood under customary international law;

(2) attributes these atrocity crimes against Uyghurs and members of other ethnic and religious minority groups to the People’s Republic of China, under the direction and control of the Chinese Communist Party;

(3) condemns this genocide and these crimes against humanity in the strongest terms; and

(4) calls upon the President to direct the United States Permanent Representative to the United Nations to use the voice, vote, and influence of the United States to—

(A) refer the People’s Republic of China’s genocide and crimes against humanity against Uyghurs and members of other ethnic and religious minority groups to the competent organs of the United Nations for investigation;

(B) seize the United Nations Security Council of the circumstances of this genocide and crimes against humanity and lead efforts to invoke multilateral sanctions in response to these ongoing atrocities; and

(C) take all possible actions to bring this genocide and these crimes against humanity to an end and hold the perpetrators of these atrocities accountable under international law.

Schultz National Foreign Affairs Training Center, the Foreign Service Institute, the Foreign Affairs Security Training Center, and other facilities or programs operated by the Department of State. The strategy shall identify which types of training would be prioritized, the extent (if any) to which such training is already being provided to Civil and Foreign Service officers by the Department of State, any factors incentivizing or disincentivizing such training, and why such training cannot be achieved without Civil and Foreign Service officers leaving the workforce. In addition to training opportunities provided by the Department, the strategy shall consider training that could be provided by the other United States Government training institutions, as well as non-governmental educational institutions. The strategy shall consider approaches to overcome disincentives to pursuing long-term training.

(c) PRIORITIZATION.—In order to provide the Civil and Foreign Service with the level of education and training needed to effectively advance United States interests across the globe, the Department of State should—

SEC. 7004. FINDINGS.

Congress makes the following findings:

(1) The majority of recent emerging infectious diseases have originated in wildlife.

(2) There is a rise in the frequency of zoonotic spillover events and outbreaks of such diseases.

(3) This rise in such spillover events and outbreaks relates to the increased interaction between humans and wildlife.

(4) There is a progressive and increasing rise in interaction between human populations and wildlife related to deforestation, habitat degradation, and expansion of human activity into the habitat of such wildlife.

(5) The increase in such interactions due to these factors, particularly in forested regions of tropical countries where there is high mammalian diversity, is a serious risk factor for spillover events.

(6) A serious risk factor for spillover events also relates to the collection, production, commercial trade, and sale for human consumption of wildlife that may transmit to zoonotic pathogens to humans that may then replicate and be transmitted within the human population.

(7) Such a risk factor is increased if it involves wildlife that—

(A) does not ordinarily interact with humans; or

(B) lives under a stressful condition, as such condition exacerbates the shedding of zoonotic pathogens.

(8) Markets for such wildlife to be sold for human consumption are found in many countries.

(9) In some communities, such wildlife may be the only accessible source of high quality nutrition.

(10) The public health emergency has resulted in—

(A) trillions of dollars in economic damage to the United States; and

(B) the deaths of hundreds of thousands of American citizens.

SEC. 7005. UNITED STATES POLICY TOWARD ASSISTING COUNTRIES IN PREVENTING ZOOONOTIC SPOILOVER EVENTS.

(1) prevent commercial trade in live wildlife and raw or unprocessed wildlife parts and derivatives for human consumption that risks contributing to zoonotic spillover, placing a priority focus on tropical countries or countries with significant markets for live wildlife for human consumption, which includes such wildlife trade activities as—

(A) high volume commercial trade and associated markets;

(B) trade in and across well connected urban centers;

(C) trade for luxury consumption or where there is no dietary necessity by—

(i) working through existing treaties, conventions, and agreements to develop a new protocol, or to amend existing protocols or agreements; and

(ii) expanding combating wildlife trafficking programs to support enforcement of the closure of such markets and new illegal markets in response to closures, and the prevention of such trade, including—

(I) providing assistance to improve law enforcement;

(II) detecting and deterring the illegal import, transit, sale and export of wildlife;

(III) strengthening such programs to assist countries through legal reform;

(E) building local agricultural capacity by leveraging expertise from the Department of Agriculture, U.S. Fish and Wildlife, and institutions of higher education with agricultural expertise;

(2) prevent the degradation and fragmentation of forests and other intact ecosystems, particularly in tropical countries, to minimize interactions between wildlife and human and livestock populations that could contribute to spillover events and zoonotic disease transmission, including by providing assistance or supporting policies to—

(A) conserve, protect, and restore the integrity of such ecosystems;

(B) support the rights of indigenous peoples and local communities and their abilities to continue their effective

stewardships of their traditional lands and territories;

(A) ensure that their rights are respected and their authority to exercise such rights is protected;

(B) provide education and awareness on animal handling, sanitation, and disease transmission, as well as sustainable wildlife management and support to develop village-level alternative sources of protein and nutrition;

In title LX, add at the end the following:

**SEC. 6013. SENSE OF CONGRESS ON THE USE OF THE DEFENSE PRODUCTION
ACT OF 1950 FOR GLOBAL VACCINE PRODUCTION.**

(a) **FINDINGS.**—The Congress finds the following:

(1) As President Biden has stated, “We know America will never be fully safe until the pandemic that is raging globally is under control. No ocean is wide enough, no wall is high enough to keep us safe.”.

(2) More than 600,000 Americans have already died from COVID-19. Already, more Americans have died from COVID-19 than from World War I, World War II, the Vietnam War, and 9/11 combined. The continued replication of SARS-CoV-2 abroad increases the likelihood of a harmful mutation that renders current vaccines ineffective. A new variant could be more transmissible and cause more severe disease, posing a higher risk to the millions of Americans who have not been vaccinated, like the Delta variant.

(3) Approximately 11 billion doses are needed to vaccinate the world’s population, but to date, the US government has donated just 40 million doses. More recent promises by the G7 would only deliver an additional one billion doses by the end of 2022.

(4) Sharing manufacturing know-how and expertise is critical to quickly ramping up production. Expanding the world’s manufacturing capacity is critical because donations and bilateral agreements to increase vaccine doses in low- and middle-income countries cannot quickly meet the global demand.

(5) The U.S. Government, as the largest coronavirus research and development funder in the world, is uniquely positioned to push companies to share the knowledge required to end the pandemic.

(6) Manufacturers around the world have affirmed that they can help ramp up production if they have access to technology. According to the World Health Organization, 19 manufacturers from more than a dozen countries in Africa, Asia, and Latin America have expressed interest in ramping up mRNA vaccine production. The Biden administration has also urged companies to share technology. But vaccine originator corporations have been reluctant to share technology.

(7) The Defense Production Act of 1950 provides the President with broad authority to support the nation’s defense. The Defense Production Act of 1950’s definition of “national defense” includes “military or critical infrastructure assistance to any foreign nation”.

(8) The Defense Production Act of 1950 empowers the President to directly “allocate materials, services, and facilities” to promote national defense needs. The Act defines “materials” to include “any technical information or services ancillary to the use of any such materials”.

(9) The Defense Production Act of 1950 has been used repeatedly to prioritize contracts and orders from U.S. companies to foreign nations.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that the President should make full use of the President’s authority under the Defense Production Act of 1950 to scale vaccine production and deployment globally, which will save millions of lives and protect Americans from the risk of emerging viral threats.

TITLE LIV—PREVENTING FUTURE PANDEMICS

SEC. 5401. WILDLIFE MARKET DEFINED.

In this Act, the term “wildlife market”—

(1) means a commercial market that—

(A) sells or slaughters terrestrial, including avian, wildlife for human consumption as food or medicine, whether the animals originated in the wild or in a captive environment; and

(B) delivers a product in communities where alternative nutritional or protein sources are available; and

(2) does not include markets in areas where no other practical alternative sources of protein or meat exists, such as wildlife markets in rural areas on which indigenous people rely to feed themselves and their families.

SEC. 5402. INTERNATIONAL COOPERATION.

(a) **SENSE OF CONGRESS.**—It is the sense of Congress that global institutions, including the Food and Agriculture Organization of the United Nations (FAO), the World Organisation for Animal Health (OIE), and the World Health Organization (WHO), together with leading nongovernmental organizations, veterinary colleges, and the United States Agency for International Development (USAID), should promote the paradigm of One Health—the integration of human health, animal health, agriculture, ecosystems, and the environment as an effective and integrated way to address the complexity of emerging disease threats.

(b) **STATEMENT OF POLICY.**—It is the policy of the United States to facilitate international cooperation by working with international partners and through intergovernmental, international, and nongovernmental organizations such as the United Nations to—

(1) lead a resolution at the United Nations Security Council or General Assembly and World Health Assembly outlining the danger to human and animal health from emerging zoonotic infectious diseases, with recommendations for implementing the worldwide closure of wildlife markets and the ending of the associated commercial trade of terrestrial wildlife that feed and supply those markets, except for in such countries or regions where the consumption of wildlife is necessary for local food security or where such actions would significantly disrupt a readily available and irreplaceable food supply;

(2) work with governments through existing treaties and the United Nations to develop a new protocol or agreement, and amend existing protocols or agreements, regarding stopping deforestation and other ecosystem destruction, closing commercial wildlife markets for human consumption, and end the associated commercial trade of terrestrial wildlife that feed and supply those markets while ensuring full consideration to the needs and rights of indigenous peoples and local communities that are dependent on wildlife for their food security, national sovereignty, and local laws and customs;

(3) disrupt and ultimately end the commercial international trade in terrestrial wildlife associated with wildlife markets and eliminate

commercial wildlife markets;

(4) disrupt and ultimately eliminate wildlife trafficking associated with the operation of wildlife markets;

(5) raise awareness on the dangerous potential of wildlife markets as a source of zoonotic diseases such as the novel coronavirus that causes the disease COVID-19 and reduce demand for the consumption of wildlife through evidence-based behavior change programs while ensuring that existing wildlife habitat is not encroached upon or destroyed as part of this process;

(6) encourage and support alternate forms of food production, farming, and shifts to domestic animal- or plant-source foods instead of terrestrial wildlife where able and appropriate, and reduce consumer demand for terrestrial wildlife through enhanced local and national food systems, especially in areas where wildlife markets play a significant role in meeting subsistence needs while ensuring that existing wildlife habitat is not encroached upon or destroyed as part of this process; and

(7) strive to increase hygienic standards implemented in markets around the globe, especially those specializing in the sale of products intended for human consumption.

(c) ACTIVITIES.—

(1) GLOBAL PROHIBITIONS AND ENFORCEMENT.—The United States Government, working through the United Nations and its components, as well as international organization such as Interpol and the World Organisation for Animal Health, and in furtherance of the policies described in subsection (b), shall—

(A) collaboratively with other member states, issue declarations, statements, and communiques urging a global ban on commercial wildlife markets and trade for human consumption; and

(B) urge increased enforcement of existing laws to end wildlife trafficking.

(2) INTERNATIONAL COALITIONS.—The Secretary of State shall seek to build international coalitions focused on ending commercial wildlife markets for human consumption and associated wildlife trade which feeds and supplies said markets, with a focus on the following efforts:

(A) Providing assistance and advice to other governments in the adoption of legislation and regulations to close wildlife markets and trade for human consumption.

(B) Creating economic pressure on wildlife markets and their supply chains to prevent their operation.

(C) Providing assistance and guidance to other governments to prohibit the import, export, and domestic trade of live terrestrial wildlife for the purpose of human consumption.

(D) Engaging and receiving guidance from key stakeholders at the ministerial, local government, and civil society level in countries that will be impacted by this Act and where wildlife markets and associated wildlife trafficking is the predominant source of meat or protein, in order to mitigate the impact of any international efforts on local customs, conservation methods, or cultural norms.

(d) UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT.—

(1) SUSTAINABLE FOOD SYSTEMS FUNDING.—

(A) AUTHORIZATION OF APPROPRIATIONS.—In addition to any other amounts provided for such purposes, there is authorized to be appropriated \$300,000,000 for each fiscal year from 2021 through 2030 to the United States Agency for International Development to reduce demand for consumption of wildlife from wildlife markets and support shifts to diversified alternative sources of food and protein in communities that rely upon the consumption of wildlife for food security while ensuring that existing wildlife habitat is not encroached upon or destroyed as part of this process.

(B) ACTIVITIES.—The Bureau for Economic Growth, Education, and Environment, the Bureau for Resilience and Food Security, and the Bureau for Global Health of the United States Agency for International Development shall, in partnership with United States institutions of higher education and nongovernmental organizations, co-develop approaches focused on safe, sustainable food systems that support and incentivize the replacement of terrestrial wildlife in diets while ensuring that existing wildlife habitat is not encroached upon or destroyed as part of this process.

(2) ADDRESSING THREATS AND CAUSES OF ZOOONOTIC DISEASE OUTBREAKS.—The Administrator of the United States Agency for International Development shall increase activities in USAID programs related to biodiversity, wildlife trafficking, sustainable landscape, global health, food security, and resilience in order to address the threats and causes of zoonotic disease outbreaks, including through—

(A) education;

(B) capacity building;

(C) strengthening human health surveillance systems for emergence of zoonotic disease, and strengthening cross-sectoral collaboration to align risk reduction approaches;

(D) improved domestic and wild animal disease surveillance and control at production and market levels;

(E) development of alternative livelihood opportunities where possible;

(F) conservation of intact ecosystems and reduction of fragmentation and conversion of natural habitats to prevent the creation of new pathways for zoonotic disease transmission;

(G) minimizing interactions between domestic livestock and wild animals in markets and captive production; and

(H) supporting shifts from wildlife markets to diversified, safe, affordable, and accessible protein such as domestic animal- and plant-source foods through enhanced local and national food systems while ensuring that existing wildlife habitat is not encroached upon or destroyed as part of this process.

(3) IMMEDIATE RELIEF FUNDING TO STABILIZE PROTECTED AREAS.—The Administrator of the United States Agency for International Development shall administer immediate relief funding to stabilize protected areas and conservancies.

(e) STAFFING REQUIREMENTS.—

(1) OFFICE OF TERRORISM AND FINANCIAL INTELLIGENCE.—The Under Secretary of the Treasury for Terrorism and Financial Intelligence is encouraged to hire additional investigators to bolster capacity for investigations focused on individuals engaged in the activities described in subsection (c).

(2) UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT.—The Administrator of the United States Agency for International Development, in collaboration with the United States Fish and Wildlife Service, the United States Department of Agriculture Animal and Plant Health Inspection Service, and other Federal entities as appropriate, is authorized to hire additional personnel—

(C) to award funding to on-the-ground projects;

(D) to provide project oversight to ensure accountability and transparency in all phases of the award process; and
