

Campbell Soup Company Political Accountability Guidelines

Campbell Soup Company seeks to participate actively in discussion of and debate on public policy issues that affect the Company, its employees, and its business operations. The Company also seeks to share its views on the implications of proposals relating to such issues with relevant policy makers at all levels of government. Campbell executives and employees are encouraged to work with the Company's Government Affairs Department in the development of Campbell's positions on public policy matters. The positions that are adopted by the Company and the reasons for its involvement in these issues should be shared with Campbell's employees. Campbell's policies including the [Code of Business Conduct and Ethics](#) encourages its employees to be engaged in the political process, on a voluntary basis, whether through engagement with the Government Affairs Department or of their own volition.

No funds or assets of Campbell Soup Company may be used for political contributions outside of the United States. Within the United States, the Company makes a limited number of political contributions as part of its engagement in public policy matters. Any political contribution is made to promote the interest of the company and without regard to any private political preferences of any individual employee or executive. The Company does not support Federal political candidates or parties other than through political contributions made by the Campbell Soup Company Political Action Committee ("Campbell PAC"). All political contributions made by the Company must be authorized by the Deputy General Counsel, as part of the political programs approved by the Chief Executive Officer or the General Counsel.

Where permitted by state law, Company funds may be used to participate in campaigns for the election of state officials and for state and local ballot measures that are likely to affect the Company or the quality of life in communities in which Campbell has business facilities or otherwise does business. In rare instances, the Company will consider contributions to state political organizations, state and local political action committees, and local candidates, subject to the approval of the General Counsel. Contributions to state political organizations and candidates are publicly disclosed as prescribed by state law.

On a limited basis, and with the approval of the General Counsel, the Company may also make contributions to policy-based, nonpartisan organizations, state nonpartisan organizations, and trade association political committees and coalitions, to further its public policy and business interests. In-kind contributions of equipment or employee time are considered to be political contributions and must be approved by the General Counsel or the Deputy General Counsel. The Company does not engage in electioneering communications, i.e., expending corporate funds specifically to advocate the election or defeat of political candidates.

Campbell's Government Affairs Department manages all of the Company's political programs and contributions and works with Company employees in support of the Company's constructive

involvement in political and public policy activities. The Company does not make financial contributions to “527” organizations that are not principal campaign committees or political parties. We are not members of any tax-exempt organizations that write and endorse model legislation, nor do we make any payments to such organizations.

The Deputy General Counsel prepares an annual report, for review by the Board of Directors, on all political spending by the Company, including but not limited to:

- Total amount of funds received and disbursed by Campbell PAC;
- Criteria for political contributions; and
- An itemized total of all corporate political spending, including all contributions made to political candidates, political action committees, and trade associations.

Campbell supports trade associations through the payment of annual dues based primarily on its net sales of applicable products sold in the United States. In some instances, the Company makes additional payments in the form of contributions and special assessments to support special projects and coalition activities, including lobbying projects at the federal and state levels. In addition, Campbell PAC made PAC-to-PAC transfers to major industry trade association PACs. Campbell exercises no authority over decisions made by trade associations regarding the direction of their political contributions and related spending.
