

Debt investor update – first quarter 2021

Agenda

01.	<i>Financial update</i>	2
02.	<i>Capital and funding</i>	10
03.	<i>Covered bond universe and ratings</i>	16
04.	<i>Appendix</i>	19

We are a Nordic universal bank with strong regional roots

Summary – Good customer activity drives total income up; significant decline in impairment charges and progress towards cost-income ratio ambition

Continued lending growth driven by Nordic franchise, lockdown in Denmark resulting in low credit demand

Diversified business model; capital markets platform delivering in current environment

Positive impact from retail deposit repricing in Denmark; margin pressure on lending. Further deposit initiatives launched in April

Credit quality remained strong; low impairments in Q1 and solid buffers

Steady progress with cost initiatives; costs further down in line with expectations

We confirm our net profit guidance for the year as a whole

Profit development Q1-21 vs Q1-20 (DKK m)

Lending and deposit growth

Cost-income ratio*

*Excl. impairment charges on intangible assets

Solid trading and fee performance combined with more normalised impairment levels resulting in net profit of DKK 3,139 m

Income statement and key figures (DKK m)					
	Q1-21	Q1-20	Index	Q4-20	Index
Net interest income	5,450	5,560	98	5,447	100

Tax	914	-374	-	609	150
Net profit	3,139	-1,289	-	1,450	216

RoE (%)		C/I *(%)		CET1 (%)		REA (DKK bn)		EPS	
Q1-21	7.5	Q1-21	58.1	Q1-21	18.1	Q1-21	798	Q1-21	3.5
Q4-20	3.4	Q4-20	69.1	Q4-20	18.3	Q4-20	784	Q4-20	1.6
Q1-20	-3.8	Q1-20	69.2	Q3-20	18.2	Q3-20	766	Q1-20	-1.7

Key points, Q1-21 vs Q1-20

- Total income up 17%, driven by the rebound in trading income and net income from insurance business, off-set by slightly lower NII
- Cost-income ratio closer to longterm ambition; down 11 pp due to a combination of higher total income and results from cost management initiatives
- Profit before tax further up due to a significant decrease in impairment levels of 88%, in line with expectations

Key points, Q1-21 vs. Q4-20

- Total income stable from Q4, despite record-high performance fee bookings in Q4 of 628 m
- Cost-income ratio further down from Q4, due mainly to run-off of transformation cost and costs related to AML/Estonia
- Impairments further down from the level in Q4, driven primarily by positive trend in LC&I oil-related exposure

NII: NII slightly down as increase in deposits and repricing partly mitigates negative effects from lending; Q1 stable due to deposit repricing effect, days and FX

Net interest income, Q1-21/Q1-20 (DKK m)

Net interest income, Q1-21/Q4-20 (DKK m)

Lending volume; Q1-21/Q4-20 (DKK bn)

Margin development (bps)

Fee: Increase in fee driven by capital markets performance and AuM; Q1 impact from mortgage-related fees

Trading: Rebound in trading income from difficult Q1 last year; strong underlying trading income Q/Q driven by customer activity and favourable market conditions

Highlights

Trading income improved significantly from an extraordinarily turbulent Q1-20

Trading income in Q1 positively affected by one-off of DKK 227 m from sale of Visa shares booked in Group Functions (Q4: one off of DKK +106 m)

Solid trading income at LC&I driven by seasonally high customer activity in Q1, positive value adjustments and benign market conditions

Expenses: Downwards trajectory according to plan, including lower costs for AML/Estonia and transformation

Expenses, Q1-21/Q1-20 (DKKm)

Expenses, Q1-21/Q4-20 (DKKm)

Highlights

Expenses adjusted for one-offs down 6% vs Q1-20 and 18% vs Q4-20

One-off of DKK 150 m related to provision for upcoming changes in the VAT setup following the ECJ ruling, and booking of DKK 122 m for Group-wide initiative to enable employees to work more effective, from home

Transformation costs significantly down from Q4-20, when most of 2020's transformation costs were booked, including provision for '21

AML and Estonia case costs trending down according to plan

Underlying staff cost down as the layoff round at the end 2020 gathered effect.

FTEs down 398 from Q4-20 and 604 from Q3-20

Impairments: Strong credit quality and low level of actual credit deterioration; individual exposures affected by pandemic accounted for most of the impairments in Q1

Impairment charges by category (DKK bn)

Loan loss ratio by business unit

Highlights

- P&BC accounted for the main part of impairment charges due to individual credit exposures affected by the corona crisis, for instance in the hotel, restaurants, and leisure segment. New charges were in line with expectations, and with limited spillover to other sectors
- Impairments decreased notably at LC&I owing to lower impairment charges against oil-related exposure; limited charges outside this sector

Capital: Strong capital base; CET1 capital ratio of 18.1% (buffer of 4.9%)

Estimated capital buffer structure (%)

- Countercyclical capital buffer
- Capital conservation buffer
- Systemic risk buffer
- CET1 Pillar II req.
- CET1 min req.
- CET1 target (above 16%)
- CET1 Q1 2021 (18.1%)

The trigger point for MDA restrictions will be at the regulatory CET1 requirement (currently at 13.2%)

Highlights

- CET1 capital ratio** has decreased from 18.3% to 18.1% since Q4-20, due primarily to an increase in REA excl. FX of 0.3% points
- Total REA** increased by 14bn to 798bn, due mainly to the higher market risk (+11) and credit risk (+3)
- Of the DKK 25-35 bn expected REA ¹⁾ increase for H1-21 related to implementation of EBA guidelines, approx. 12 bn has been implemented in Q1-21 and expect the remainder to take effect in Q2-20. Further increases expected for H2-21 of a similar magnitude as H1
- The Group's **leverage ratio** under transitional rules and under fully phased-in rules has decreased 0.1% point to 4.4% since Q4-2020

* Based on fully phased-in rules including fully phased-in impact of IFRS 9. ** Pro forma fully phased-in min. CET1 req. in 2021 of 4.5%, capital conservation buffer of 2.5%, SIFI req. of 3%, countercyclical buffer of 0.1% and CET1 component of P-II requirement

Strong CET1 capital build-up since 2008; Available Distributable Items (ADI) well in excess of DKK 100 bn

Common Equity Tier 1, 2008 – Q1-21 (DKK bn)

REA, CET1, profit and distribution (DKK bn; %)

	2008	2009	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	Q1-21

Distribution to shareholders ³	0	0	0	0	0	2.0	10.5	17.1	18.9	16.3	7.6	0	1.7	N/A
Total assets	3,544	3,098	3,214	3,424	3,485	3,227	3,453	3,293	3,484	3,540	3,578	3,761	4,109	4,073

¹ The decline in CET1 capital in 2018 is due mainly to Danica Pension's acquisition of SEB Pension Danmark which led to a higher deduction in Group regulatory capital. ² Before goodwill impairment charges ³ Based on year-end communicated distributions. 2017 is adjusted for cancelled buy-back. 2019 is adjusted for cancelled dividend.

Fully compliant with MREL requirement; expect to cover MREL need with both preferred and non-preferred senior

Overview of MREL

The Group has to meet both an MREL requirement and a separate debt buffer requirement for Realkredit Danmark (RD)

MREL requirement:

- REA based (adjusted for RD): $2 \times (P1 + P2) + \text{CBR} - \text{CCyB} \Rightarrow$ DKK 207 bn
- CBR stacked on top of MREL requirement \Rightarrow DKK 38 bn
- De facto MREL requirement \Rightarrow DKK 245 bn
- M-MDA: CBR must be met in addition to MREL \Rightarrow Substantial headroom to M-MDA.

Adding

- RD capital and debt buffer \Rightarrow DKK 42 bn

\Rightarrow Total resolution requirement:

- Q1 2021 REA based (incl. CBR) + RD \Rightarrow 36.0% of Group REA / DKK 287 bn

Subordination requirement:

- As the higher of $2 \times (P1 + P2) + \text{CBR}$ or 8% TLOF \Rightarrow MREL subordination requirement 30.6% of adjusted REA (DKK 208 bn)
- Total subordination requirement including RD \Rightarrow 31.3 % (DKK 251 bn)
- \Rightarrow We expect to cover MREL need with new issues of both preferred senior and non-preferred senior

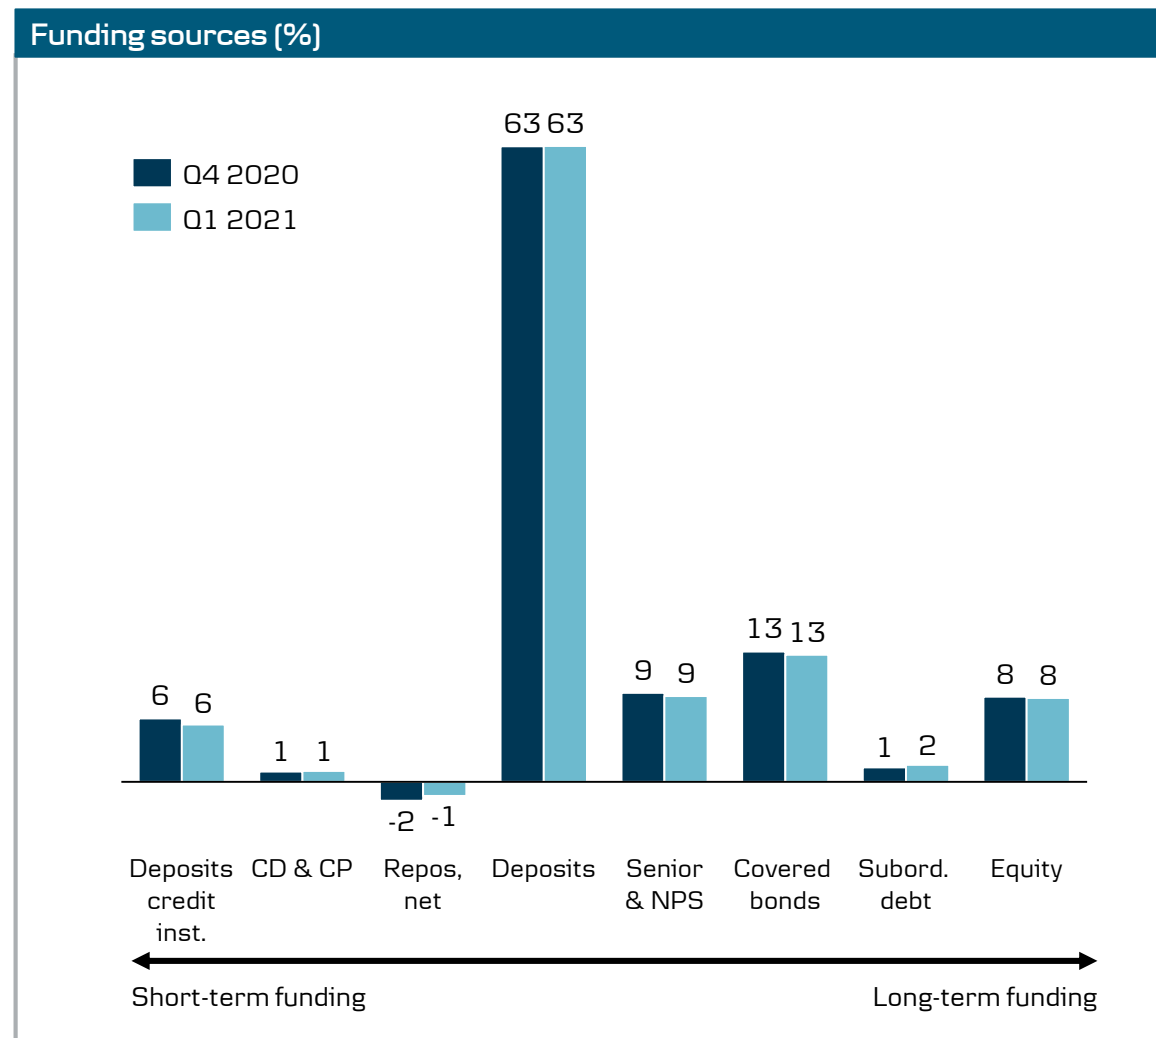

Overview of MREL

* RD is not included in the consolidation for the purpose of determining the MREL for the Group. The capital and debt buffer requirements that apply to RD are thus deducted from the liabilities used to fulfil the MREL. Consequently, the total resolution requirement and subordination requirement is the sum of Group's MREL requirement and RD's capital and debt buffer requirement.

** MREL resources include structured notes.

Funding structure and sources: Danish mortgage system is fully pass-through

Funding programmes and currencies

Covered bonds by currency, end-Q1 2021

No rating actions on Danske Bank in Q1 2021

Moody's affirmed its rating and Stable outlook on Danske Bank on 18 December 2020

Moody's cite asset quality and capitalisation as strengths and profitability pressures as a weakness

S&P affirmed its rating and Stable outlook on Danske Bank on 16 December 2020

S&P cite Danske's capitalisation as a relative strength, offsetting pressure on earnings and asset quality

Fitch retains Negative Outlook on Danske Bank's ratings

The Negative outlook reflects the economic uncertainties relating to the fallout from the coronavirus pandemic and the financial uncertainties relating to the Estonia case

Moody's and S&P have a stable outlook for Danske Bank, whereas Fitch retains its Negative outlook. The outlooks reflect the economic uncertainties relating to the fallout from the corona crisis and the financial uncertainties relating to the Estonia case

Strong footprint within retail lending

Lending by segment¹ Q1-21 (%)

- Personal Customers DK
- Personal Customer Nordic
- Business Customers
- Asset Finance
- Large Corporates & Institutions
- Northern Ireland
- Group Functions

Total lending
of DKK 1,828 bn

Credit exposure by industry Q1-21 (%)

Total credit exposure
of DKK 2,710 bn

¹ Total lending before loan impairment charges.

P&BC – Commercial momentum across Personal Customers Nordic; deposit repricing partly mitigated NII effect

Highlights

Personal Customers DK saw a positive NII development, as deposit repricing more than offset mortgage product mix effects and increased repayment of bank loans

Good traction in Personal Customers Nordic; continued inflow from partnership agreements, especially Norway, to counter continued margin pressure

Continued high inflow of low-margin deposits from business customers' liquidity management puts pressure on NII

Launched new green loans for all business customers and lowered threshold from DKK 100 m to DKK 30 DKK m for obtaining green loans offered through RD

Lending development across segments, index

NII as % of loans and deposits

P&BC – Profit before tax significantly up from diversified income streams in DK, lending growth in other Nordic countries and lower impairments

Key figures (DKK m)				
	Q1-21	Q1-21/ Q1-20 (%)	Q1-21/ Q4-20 (%)	
Total income	5,975	-2% ↓	+6% ↑	Q1-21 vs Q1-20 <ul style="list-style-type: none"> PBT significantly up due to considerably lower impairments than the very high model-driven impairments in Q1-20 related to the pandemic Total income slightly down against Q1-20: <ul style="list-style-type: none"> NII tailwind from deposit repricing in Denmark, whereas other Nordic countries' deposit margin trends drove NII slightly down Solid fee performance; high investment activity in Q1 almost fully offsetting the effect from the high remortgaging activity in same period last year Expenses up due to the significant spend on AML and compliance remediation throughout 2020
Operating expenses	3,638	+3% ↑	-16% ↓	
Loan impairments	435	-75% ↓	+685% ↑	
Profit before tax	1,903	+126% ↑	+36% ↑	Q1-21 vs Q4-20 <ul style="list-style-type: none"> PBT significantly up, driven by increasing total income and run-off of transformation costs Total income up against Q4 driven by <ul style="list-style-type: none"> NII tailwind from deposit repricing in DK combined with positive commercial momentum outside DK. However, lending effects in DK and continued margin pressure drove NII for P&BC slightly down positive development for investment activities in Q1 resulting in solid fee income for the quarter relative to Q4, even when excluding negative one-off in Q4 Operating expenses were lower than in Q4 mainly because Q4 saw high costs related to transformation and seasonal bookings related to year's end Impairments significantly up, as Q1 saw impairments against Corona related exposure, whereas Q4 saw net reversal, driven by macroeconomic model updates
Lending (DKK bn)	1,529	+4% ↑	0%	
Deposits (DKK bn)	696	+16% ↑	+2% ↑

Lending and deposit volumes by segment (DKK bn)

Realkredit Danmark portfolio overview: 71% of new retail lending in Q1 was fixed-rate vs 48% of stock

C&I lending volume (DKK bn)

Portfolio facts, Realkredit Danmark, Q1 2021

- Approx. 336,000 loans (residential and commercial)
- 849 loans in 3- and 6-month arrears (-10% since Q4 2020)
- 13 repossessed properties (-8 since Q4 2020)
- DKK 9 bn in loans with an LTV ratio > 100%, including DKK 7 bn covered by a public guarantee
- Average LTV ratio of 58%
- We comply with all five requirements of the supervisory diamond for Danish mortgage credit institutions

LTV ratio limit at origination (legal requirement)

- Residential: 80%
- Commercial: 60%

Retail loans, Realkredit Danmark, Q1 2021 (%)

Total RD loan portfolio of FlexLån® F1-F4 (DKK bn)

Retail mortgage margins, LTV of 80%, owner-occupied (bp)

¹ In addition, we charge 30 bp of the bond price for refinancing of 1- and 2-year floaters and 20 bp for floaters of 3 or more years (booked as net fee income).

LC&I – Strong activity in capital markets, supportive market conditions and good traction in Asset Management

Highlights

Capital Markets sustaining the positive trend; supported customers in a large number of transactions during the first quarter across loan, debt and equity capital markets

Customer activity was high across the financial markets, and with supportive market conditions, this resulted in high seasonal income from Markets

High level of green bond issuance in Q1, in which we maintained our position as a leading bank within sustainable finance in Europe

Good momentum in Asset Management; trend continued in Q1-21 with positive net sales, driven primarily by the retail segment

L&CI income breakdown

Asset Management AuM stock development

LC&I: Good start to the year with commercial momentum and low impairment levels

Asset under Management	465,520	16%	0%
Premiums, insurance	8,599	+6%	+12%

Q1-21 vs Q1-20

Net income from insurance business significantly up from low levels in Q1-20, primarily driven by a positive result on life insurance due to an increase in fees from higher AuM and positive investment results on life insurance

Q1-21 vs Q4-20

Net income from insurance business up, driven by an increase of 38% in the life insurance business result. Adjusted for one-offs** in Q1 and Q4, underlying income (in both quarters) saw positive effects from the increasing investment results

Northern Ireland, key figures (DKK m)			
	Q1 '21	Q1-21/Q1-20(%)	Q1-21/Q4-20(%)
Total income	374	-6%	-27%
Operating expenses	275	-10%	-8%
Loan impairments	-7	-104%	-108%
Profit before tax	106	+116%	+960%

Q1-21 vs Q1-20

Total income held up well; increasing lending and deposit volumes, but offset by lower interest rates, low economic activity and lower trading income
Expenses down 8% as a result of tight cost control

Q1-21 vs Q4-20

NII up 2 % from higher lending and deposits, however, other income lines drive total income down

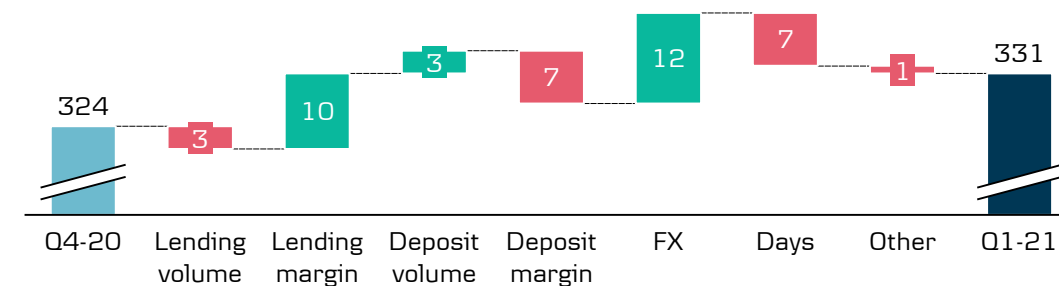

*Including 3 m which is booked in Group Treasury,

**Provision of -200 m related to pension yield tax in Q1, and Q4 one-offs of -418 m

Non-core

Non-core loan portfolio, Q1-21 (DKK bn)

Non-core, Q1-21 REA (DKK bn)

Credit quality: Low level of actual credit deterioration

Breakdown of core allowance account under IFRS 9 (DKK bn)

Allowance account by business unit (DKK bn)

Breakdown of stage 2 allowance account and exposure (DKK bn)

	Allowance account	Gross credit exposure	Allowance as % of gross exposure
Personal customers	2.2	1,029.1	0,21%
Agriculture	0.9	70.7	1,22%
Commercial property	1.1	318.7	0,34%
Shipping, oil and gas	0.4	47.2	0,86%
Services	0.2	6.7	0,26%
Other	2.2	1,199.0	0,18%
Total	6.9	2,732.0	0,25%

Gross non-performing loans* (DKK bn)

* Non-performing loans are loans in stage 3 against which significant impairments have been made.

Oil-related exposure: Q1 saw impairment charges at a lower level

Key points, Q1-21

- The offshore segment, in which we see credit deterioration, makes up 36% of the exposure and accounts for 75% of expected credit losses. Uncertainty continues in the oil & gas industry
- Looking at oil-related exposures, the main risk lies with exposures other than oil majors. Since the end of 2019, these net exposures have been actively brought down 45%
- Furthermore, of the remaining net credit exposure of DKK 8.3 billion, 72% is covered by collateral

Group gross credit exposure
(DKK 2,73 bn)

Oil-related gross credit exposure
(DKK 17.8 bn)

Development in oil-related net credit exposure (excl. oil majors)

Credit exposure: Limited agriculture and directly oil-related exposure

Agriculture exposure

- African Swine Fever (ASF), which spread to Germany in Q3 2020, continues to cause uncertainty for the industry. Therefore, the post-model adjustments applied remain in place. Milk and pork prices weakened slightly from levels of the preceding quarter
- Total accumulated impairments amounted to DKK 2.5 bn in Q1-21 against DKK 2.4 bn in Q4-20

Oil-related exposure

- Total oil-related exposure was more or less unchanged from the preceding quarter
- Accumulated impairments at LC&I decreased to DKK 2.2 bn, driven by write-offs. However, some additional impairments were still made in the quarter, mainly in the offshore segment.
- Most of the oil-related exposure is managed by specialist teams for customer relationship and credit management at LC&I

Agriculture by segment, Q1 2021 (DKK m)

	Gross credit exposure	Portion from RD	Expected credit loss	Net credit exposure	NPL coverage ratio
P&BC	56,794	36,475	2,360	54,434	95%

	0.6%	16.8%	2,390

* The credit exposure is reported as part of the shipping, oil and gas industry in our financial statements.

Credit exposure: Limited exposure to transportation, hotels, restaurants and leisure

Transportation exposure

- Total gross exposure* increased DKK 1 bn to DKK 16.6 bn from the Q4-20 level due mainly to increased exposure to a few A-rated customers in passenger transport
- Demand for cross-border passenger transport remains dramatically reduced. Danske Bank's spending monitor of 22 April shows that even though airline spending has increased it is only around 30% of the level 2019. At DKK 0.9 bn, our exposure to passenger air transport remains limited
- Accumulated impairments amounted to DKK 310 million in Q1, which is in line with Q4-20. Post-model adjustments for corona crisis high-risk industries remains in place

Hotels, restaurant and leisure exposure

- Total gross exposure was down slightly from the preceding quarter. While exposure to leisure and restaurants increased, exposure to hotels decreased DKK 0.5 bn
- Impairments increased to DKK 629 million from 552 million in Q4 2020

Transportation by segment, Q1-21(DKK m)

	Gross credit exposure	Expected credit loss	Net credit exposure
Freight transport	9,038	112	8,925
Passenger transport	6,589	178	6,411
- of which air transport	888	49	840
Postal services	993	20	974
Total	16,620	310	16,310
Share of Group net exposure 2021Q1	Share of Group net NPL 2021Q1	Expected credit loss 2020Q4	
0.6%	4.1%	325	

Hotels, restaurants and leisure by segment, Q1-21 (DKK m)

	Gross credit exposure	Expected credit loss	Net credit exposure
Hotels	6,832	228	6,604
Restaurants	4,800	184	4,616
Leisure	4,269	216	4,052
Total	15,902	629	15,272
Share of Group net exposure 2021Q1	Share of Group net NPL 2021Q1	Expected credit loss 2020Q4	
0.6%	5.2%	552	

* The numbers do not include exposure to businesses that are hit by a second wave impact, e.g. airports and service companies.

Credit exposure: Limited exposure to retailing and stable credit quality in commercial real estate

Retailing

- Total gross exposure stayed at DKK 27.1 bn while the Q/Q changes in two subsegments was single-name driven. The share of Group net exposure remained at 1.0%.
- In recent years, we have had a selective approach to this segment and have generally decreased exposure
- Accumulated impairments did not change significantly in Q1-21

Commercial real estate

- Gross exposure decreased to DKK 319 bn in Q1-21 from DKK 331 bn in Q4-20 - driven mainly by single-name exposure
- Overall, credit quality was stable
- Exposure is managed through the Group's credit risk appetite and includes a selective approach to sub-segments and markets
- Commercial property exposure is managed by a specialist team

Retailing by segment, Q1 2021 (DKK m)

	Gross credit exposure	Expected credit loss	Net credit exposure
Consumer discretionary	11,904	999	10,905
Consumer staples	15,235	79	15,157
Total	27,140	1,077	26,062

2021 outlook – We confirm our net profit guidance for the rest of the year

Total income

We expect total income to be slightly higher than the level in 2020, subject mainly to commercial momentum and broader economic developments

Expenses

Expenses are expected to be no more than DKK 24.5 bn, driven by ongoing cost initiatives and lower costs for transformation and remediation

Impairments

Loan impairments are expected to be no more than DKK 3.5bn, subject to a modest macroeconomic recovery based on a positive impact from COVID-19 vaccines

Net profit

We expect net profit to be in the range of DKK 9-11bn
