#### **INFORMATION ON FORD MOTOR CREDIT COMPANY:**

#### https://www.ford.com/finance/investor-center/

- 10-K Annual Reports
- 10-Q Quarterly Reports
- 8-K Current Reports

### Safe Harbor Statement And Disclosures

#### Forward-Looking Statements

This presentation includes forward-looking statements. Forward-looking statements are based on expectations, forecasts, and assumptions by our management and involve a number of risks, uncertainties, and other factors that could cause actual results to differ materially from those stated. For a discussion of these risks, uncertainties, and other factors, please see the "Cautionary Note on Forward-Looking Statements" in this presentation and "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2023, as updated by subsequent Quarterly Reports on Form 10-Q and Current Reports on Form 8-K.

#### **GAAP & Non-GAAP Financial Measures**

This presentation includes financial measures calculated in accordance with Generally Accepted Accounting Principles ("GAAP") and non-GAAP financial measures. The non-GAAP financial measures are intended to be considered supplemental information to their comparable GAAP financial measures. The non-GAAP financial measures are reconciled to the most comparable GAAP financial measures in the Appendix to this presentation.

#### Additional Information

Calculated results may not sum due to rounding. N/M denotes "Not Meaningful." All variances are year-over-year unless otherwise noted. Visit ford.com for vehicle information.

### Ford+ Investment Thesis

Disruptive technology allows us to leverage foundational strengths to build new capabilities enriching customer experiences and deepening loyalty

### **Customer experience**

# FOUNDATIONAL STRENGTHS

- Leading iconic nameplates
- Leading commercial vehicle portfolio
- + Industrial prowess

Drives strong margins and cash flow

## ENHANCED CAPABILITIES

- + Integrated hardware and software
- + Connectivity

+

Data analytics

Enables deep customer insight

# **EXPANDED TAM**& VALUE CREATION

- + Ford Blue
- + Ford Model e
- + Ford Pro

Unlocks new growth opportunities

### Q1 2024 Highlights

#### Growth

- + "Freedom of choice" global product portfolio drove \$43B of revenue ICE, Hybrids and EVs
- + Global hybrid sales up 36%, led by Escape, Maverick, F-150
- + America's best-selling truck and van, F-Series and Transit
- + #1 U.S. class 1-7 truck / van share
- + #1 commercial brand in Europe

#### **Profitability**

- + Strong start to 2024 Total Company adj. EBIT of \$2.8B
- + Ford Pro EBIT up 2X with margin of 16.7%
- + Total Company operations outside North America profitable

#### **Free Cash Flow & Liquidity**

- + Raised full-year adj. FCF guidance to \$6.5B to \$7.5B
- + Announced Q2 regular dividend of \$0.15 per share
- + Targeting a consistent return of 40% 50% of adj. FCF to shareholders
- + Strong balance sheet \$25B in cash and ~\$43B in liquidity

#### **Software & Physical Services**

- + Paid software subscriptions ~700K, up 47% growth across all 3 customer segments
  - Gross margins >50%
- + Last 12 months, ~13% of Ford Pro's EBIT
- + Delivered >1M remote experiences in Q1; 4.5M by year end

#### **Product News**

- + Launched all-new F-150, Ranger, Kuga
- + Ford Blue launching more all-new updates in 2024: Puma, Explorer, Aviator, etc.
- + Iconic Ford Mustang celebrated its 60th anniversary
- + Ford Pro ramping all-new 1T Transit production in Europe, including Hybrid and EV

Note: All comparisons are YoY unless noted otherwise

A Higher Growth, Higher Margin, More Capital Efficient, More Resilient Business Model

#### **VOLUME**

Heavily impacted by launch timing of all-new F-150

#### **NET PRICING**

Robust commercial demand and portfolio strength, offset partially by retail EV price adjustments

#### COST

Primarily growth-related cost in Ford Pro supporting higher revenue, EBIT and margin

# Ford Blue

- Volume and revenue down 11% and 13%, respectively
- EBIT down \$1.7B:
  - Volume / mix, primarily timing of F-150 launch
  - Material cost, new products
  - Higher warranty
  - + Lower structural costs
- Healthy profit outside of North America

Ford Everest XL

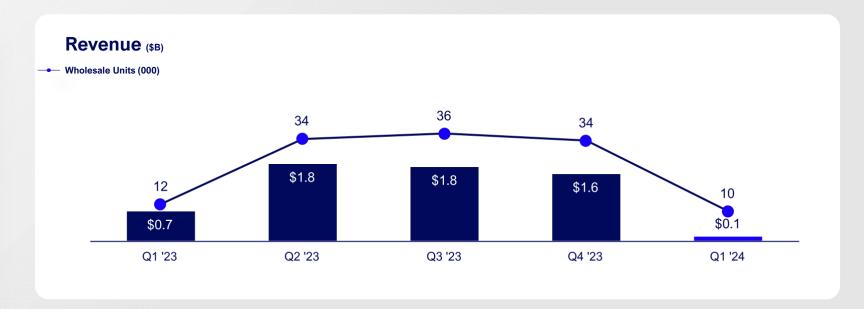

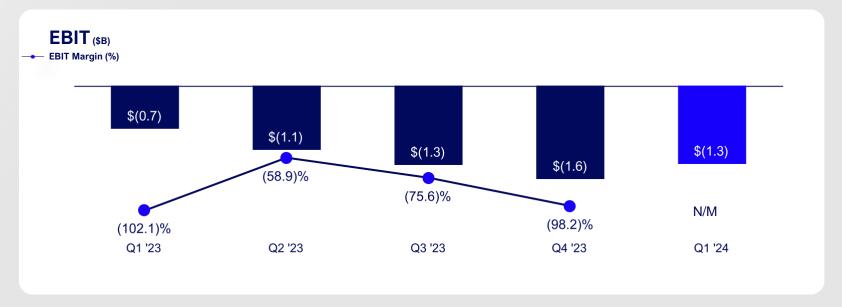

<sup>\*</sup> Includes Ford and Lincoln brand and Jiangling Motors Corporation (JMC) brand vehicles produced and sold in China by our unconsolidated affiliates

# Ford Model e ■ Volume down 20% ■ Revenue down 84%, due to industry-wide pricing pressure ■ EBIT loss increased \$0.6B: Lower pricing + Flat cost All-Electric Ford Explorer Available Late 2024

# Ford **Pro**

- Volume and revenue up 21% and 36%, respectively
- EBIT up 2X, margin of 16.7%:
  - + Strong operating leverage
  - + Super Duty and Transit
  - + Software and physical services growth
  - Growth-related costs
- Growth business with earnings power

<sup>\*</sup> Includes Ford brand vehicles produced and sold by our unconsolidated affiliate Ford Otosan in Türkiye

### Ford

### Ford Credit – A Strategic Asset

Over The Last 20 Years, Ford Credit Generated \$43 Billion In Earnings Before Taxes And \$36 Billion In Distributions

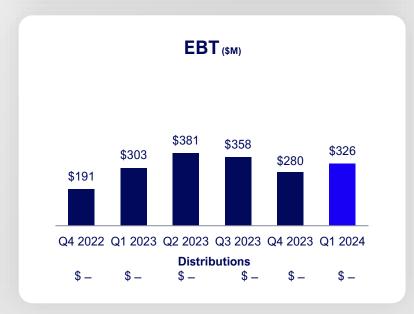

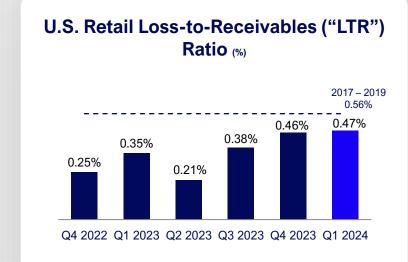

### **Key Metrics**

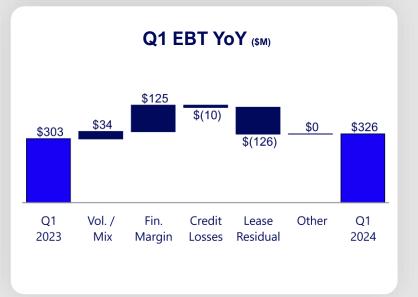

Best-in-class finance company

- EBT of \$326M:
  - + Increased revenue outpaced borrowing costs
  - Lower auction values driving unfavorable lease residual performance
- Expect auction values to decline in 2024

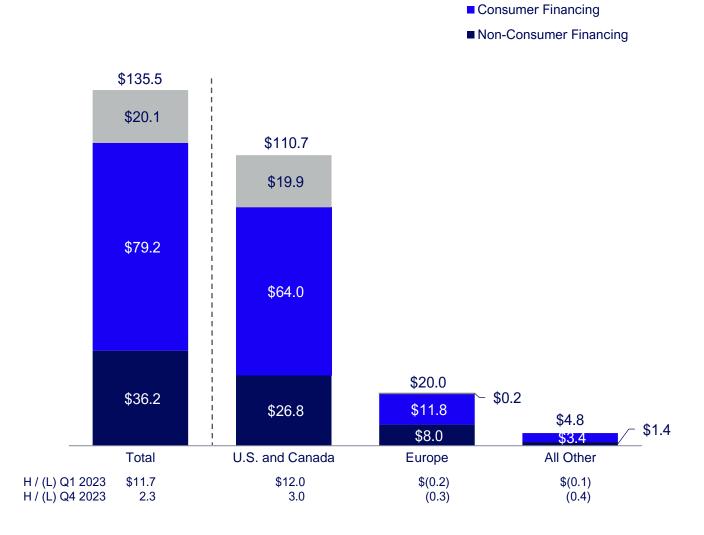

<sup>\*</sup> U.S. 36-month off-lease auction values at Q1 2024 mix

■ Operating Leases

### Q1 2024 Net Receivables Mix (\$B)

- Total Net Receivables increased \$11.7B YoY and \$2.3B sequentially
- Consumer Financing increased \$7.2B YoY and Non-Consumer Financing increased \$5.5B YoY
- Operating lease portfolio was 15% of Total Net Receivables, down
   2 Ppts. YoY and flat sequentially

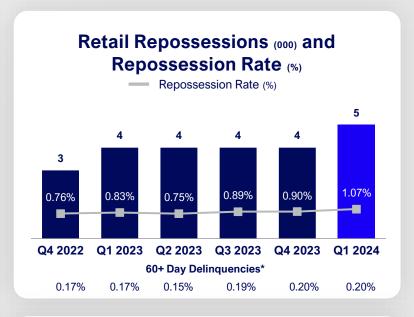

# U.S. Origination Metrics And Credit Loss Drivers

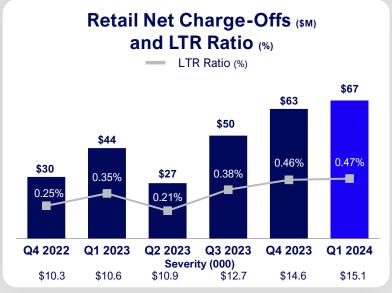

- Disciplined and consistent underwriting practices
- Portfolio quality evidenced by FICO scores and consistent risk mix
- Retail Net Charge-Offs and LTR Ratio increased, reflecting higher severity and increased repossessions

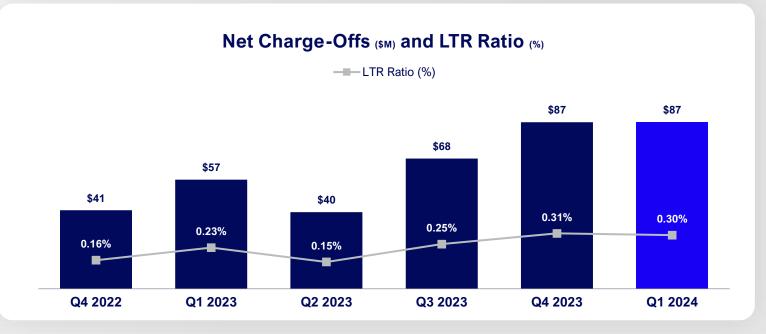

### Worldwide Credit Loss Metrics

- Worldwide credit loss metrics remain strong
- Credit Loss Reserve remains about flat compared to prior quarter, reflecting the impact of improved U.S. economic outlook, partially offset by higher receivables

# U.S. Lease Metrics

- Aligned with expectations, lease return rates have begun to increase from historical lows, reflecting the impact of declining auction values
- Q1 auction values decreased 10% YoY and increased 2% sequentially, reflecting normal seasonality

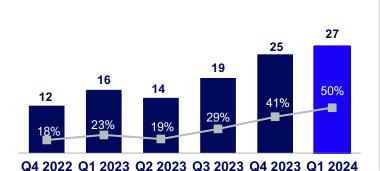

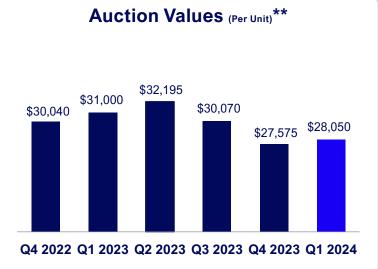

and Return Rates (%)
———Return Rates (%)

Lease Return Volume (000)

<sup>\*</sup> Source: J.D. Power PIN

<sup>\*\*</sup> U.S. 36-month off-lease auction values at Q1 2024 mix

# Funding Structure (\$B)

- Well capitalized with a strong balance sheet; funding diversified across platforms and markets
- Net liquidity strong at \$27B
- Leverage is within the target range of 9:1 to 10:1

|   | 2023<br>ec. 31 | _  | 2024<br>ar. 31 |
|---|----------------|----|----------------|

### Cautionary Note On Forward-Looking Statements

Statements included or incorporated by reference herein may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on expectations, forecasts, and assumptions by our management and involve a number of risks, uncertainties, and other factors that could cause actual results to differ materially from those stated, including, without limitation:

- Ford is highly dependent on its suppliers to deliver components in accordance with Ford's production schedule and specifications, and a shortage of or inability to acquire key components or raw materials, such as lithium, cobalt, nickel, graphite, and manganese, can disrupt Ford's production of vehicles;
- To facilitate access to the raw materials and other components necessary for the production of electric vehicles, Ford has entered into and may, in the future, enter into multi-year commitments to raw material and other suppliers that subject Ford to risks associated with lower future demand for such items as well as costs that fluctuate and are difficult to accurately forecast;
- Ford's long-term competitiveness depends on the successful execution of Ford+;
- Ford's vehicles could be affected by defects that result in recall campaigns, increased warranty costs, or delays in new model launches, and the time it takes to improve the quality of our vehicles and services could continue to have an adverse effect on our business;
- Ford may not realize the anticipated benefits of existing or pending strategic alliances, joint ventures, acquisitions, divestitures, or business strategies;
- Ford may not realize the anticipated benefits of restructuring actions and such actions may cause Ford to incur significant charges, disrupt our operations, or harm our reputation;
- Operational information systems, security systems, vehicles, and services could be affected by cybersecurity incidents, ransomware attacks, and other disruptions and impact Ford and Ford Credit as well as their suppliers and dealers;
- Ford's production, as well as Ford's suppliers' production, and/or the ability to deliver products to consumers could be disrupted by labor issues, public health issues, natural or man-made disasters, adverse effects of climate change, financial distress, production difficulties, capacity limitations, or other factors;
- Failure to develop and deploy secure digital services that appeal to customers could have a negative impact on Ford's business;
- Ford's ability to maintain a competitive cost structure could be affected by labor or other constraints;
- · Ford's ability to attract, develop, grow, and reward talent is critical to its success and competitiveness;
- Ford's new and existing products and digital, software, and physical services are subject to market acceptance and face significant competition from existing and new entrants in the automotive and digital and software services industries, and its reputation may be harmed if it is unable to achieve the initiatives it has announced;
- Ford's results are dependent on sales of larger, more profitable vehicles, particularly in the United States;
- With a global footprint and supply chain, Ford's results and operations could be adversely affected by economic or geopolitical developments, including protectionist trade policies such as tariffs, or other events;
- Industry sales volume can be volatile and could decline if there is a financial crisis, recession, public health emergency, or significant geopolitical event;
- Ford may face increased price competition or a reduction in demand for its products resulting from industry excess capacity, currency fluctuations, competitive actions, or other factors, particularly for electric vehicles;
- Inflationary pressure and fluctuations in commodity and energy prices, foreign currency exchange rates, interest rates, and market value of Ford or Ford Credit's investments, including marketable securities, can have a significant effect on results;
- Ford and Ford Credit's access to debt, securitization, or derivative markets around the world at competitive rates or in sufficient amounts could be affected by credit rating downgrades, market volatility, market disruption, regulatory requirements, or other factors;
- The impact of government incentives on Ford's business could be significant, and Ford's receipt of government incentives could be subject to reduction, termination, or clawback;
- Ford Credit could experience higher-than-expected credit losses, lower-than-anticipated residual values, or higher-than-expected return volumes for leased vehicles;
- Economic and demographic experience for pension and OPEB plans (e.g., discount rates or investment returns) could be worse than Ford has assumed;
- · Pension and other postretirement liabilities could adversely affect Ford's liquidity and financial condition;
- Ford and Ford Credit could experience unusual or significant litigation, governmental investigations, or adverse publicity arising out of alleged defects in products, services, perceived environmental impacts, or otherwise;
- Ford may need to substantially modify its product plans and facilities to comply with safety, emissions, fuel economy, autonomous driving technology, environmental, and other regulations;
- Ford and Ford Credit could be affected by the continued development of more stringent privacy, data use, data protection, and artificial intelligence laws and regulations as well as consumers' heightened expectations to safeguard their personal information; and
- Ford Credit could be subject to new or increased credit regulations, consumer protection regulations, or other regulations.

We cannot be certain that any expectation, forecast, or assumption made in preparing forward-looking statements will prove accurate, or that any projection will be realized. It is to be expected that there may be differences between projected and actual results. Our forward-looking statements speak only as of the date of their initial issuance, and we do not undertake any obligation to update or revise publicly any forward-looking statement, whether as a result of new information, future events, or otherwise. For additional discussion, see "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2023, as updated by our subsequent Quarterly Reports on Form 10-Q and Current Reports on Form 8-K.

### Non-GAAP Financial Measures That Supplement GAAP Measures

We use both GAAP and non-GAAP financial measures for operational and financial decision making, and to assess Company and segment business performance. The non-GAAP measures listed below are intended to be considered by users as supplemental information to their equivalent GAAP measures, to aid investors in better understanding our financial results. We believe that these non-GAAP measures provide useful perspective on underlying operating results and trends, and a means to compare our period-over-period results. These non-GAAP measures should not be considered as a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP. These non-GAAP measures may not be the same as similarly titled measures used by other companies due to possible differences in method and in items or events being adjusted.

- + Company Adjusted EBIT (Most Comparable GAAP Measure: Net income / (Loss) attributable to Ford) Earnings Before Interest and Taxes (EBIT) excludes interest on debt (excl. Ford Credit Debt), taxes and pre-tax special items. This non-GAAP measure is useful to management and investors because it focuses on underlying operating results and trends, and improves comparability of our period-over-period results. Our management ordinarily excludes special items from its review of the results of the operating segments for purposes of measuring segment profitability and allocating resources. Pre-tax special items consist of (i) pension and OPEB remeasurement gains and losses, (ii) gains and losses on investments in equity securities, (iii) significant personnel expenses, supplier- and dealer-related costs, and facility-related charges stemming from our efforts to match production capacity and cost structure to market demand and changing model mix, and (iv) other items that we do not necessarily consider to be indicative of earnings from ongoing operating activities. When we provide guidance for adjusted EBIT, we do not provide guidance on a net income basis because the GAAP measure will include potentially significant special items that have not yet occurred and are difficult to predict with reasonable certainty, including gains and losses on pension and OPEB remeasurements and on investments in equity securities.
- + Company Adjusted EBIT Margin (Most Comparable GAAP Measure: Company Net Income / (Loss) Margin) Company Adjusted EBIT Margin is Company Adjusted EBIT divided by Company revenue. This non-GAAP measure is useful to management and investors because it allows users to evaluate our operating results aligned with industry reporting.
- + Adjusted Earnings / (Loss) Per Share (Most Comparable GAAP Measure: Earnings / (Loss) Per Share) Measure of Company's diluted net earnings / (loss) per share adjusted for impact of pre-tax special items (described above), tax special items and restructuring impacts in noncontrolling interests. The measure provides investors with useful information to evaluate performance of our business excluding items not indicative of earnings from ongoing operating activities. When we provide guidance for adjusted earnings / (loss) per share, we do not provide guidance on an earnings / (loss) per share basis because the GAAP measure will include potentially significant special items that have not yet occurred and are difficult to predict with reasonable certainty prior to year-end, including pension and OPEB remeasurement gains and losses.
- + Adjusted Effective Tax Rate (Most Comparable GAAP Measure: Effective Tax Rate) Measure of Company's tax rate excluding pre-tax special items (described above) and tax special items. The measure provides an ongoing effective rate which investors find useful for historical comparisons and for forecasting. When we provide guidance for adjusted effective tax rate, we do not provide guidance on an effective tax rate basis because the GAAP measure will include potentially significant special items that have not yet occurred and are difficult to predict with reasonable certainty prior to year-end, including pension and OPEB remeasurement gains and losses.

### Non-GAAP Financial Measures That Supplement GAAP Measures

- + Company Adjusted Free Cash Flow (FCF) (Most Comparable GAAP Measure: Net Cash Provided By / (Used In) Operating Activities) Measure of Company's operating cash flow excluding Ford Credit's operating cash flows. The measure contains elements management considers operating activities, including Company excluding Ford Credit capital spending, Ford Credit distributions to its parent, and settlement of derivatives. The measure excludes cash outflows for funded pension contributions, restructuring actions, and other items that are considered operating cash flows under GAAP. This measure is useful to management and investors because it is consistent with management's assessment of the Company's operating cash flow performance. When we provide guidance for Company Adjusted FCF, we do not provide guidance for net cash provided by / (used in) operating activities because the GAAP measure will include items that are difficult to quantify or predict with reasonable certainty, including cash flows related to the Company's exposures to foreign currency exchange rates and certain commodity prices (separate from any related hedges), Ford Credit's operating cash flows, and cash flows related to special items, including separation payments, each of which individually or in the aggregate could have a significant impact to our net cash provided by / (used in) our operating activities.
- + Adjusted ROIC Calculated as the sum of adjusted net operating profit / (loss) after-cash tax from the last four quarters, divided by the average invested capital over the last four quarters. This calculation provides management and investors with useful information to evaluate the Company's after-cash tax operating return on its invested capital for the period presented.

  Adjusted net operating profit / (loss) after-cash tax measures operating results less special items, interest on debt (excl. Ford Credit Debt), and certain pension / OPEB costs. Average invested capital is the sum of average balance sheet equity, debt (excl. Ford Credit Debt), and net pension / OPEB liability.

### **Definitions And Calculations**

#### Wholesale Units and Revenue

• Wholesale unit volumes include all Ford and Lincoln badged units (whether produced by Ford or by an unconsolidated affiliate) that are sold to dealerships or others, units manufactured by Ford that are sold to other manufacturers, units distributed by Ford for other manufacturers, and local brand units produced by our China joint venture, Jiangling Motors Corporation, Ltd. ("JMC"), that are sold to dealerships or others. Vehicles sold to daily rental car companies that are subject to a guaranteed repurchase option (i.e., rental repurchase), as well as other sales of finished vehicles for which the recognition of revenue is deferred (e.g., consignments), also are included in wholesale unit volumes. Revenue from certain vehicles in wholesale unit volumes (specifically, Ford badged vehicles produced and distributed by our unconsolidated affiliates, as well as JMC brand vehicles) are not included in our revenue. Excludes transactions between Ford Blue, Ford Model e, and Ford Pro segments

#### **Industry Volume and Market Share**

· Industry volume and market share are based, in part, on estimated vehicle registrations; includes medium and heavy duty trucks

#### **SAAR**

SAAR means seasonally adjusted annual rate

#### **Company Cash**

• Company cash includes cash, cash equivalents, marketable securities and restricted cash (including cash held for sale); excludes Ford Credit's cash, cash equivalents, marketable securities and restricted cash

#### **Market Factors**

- Volume and Mix primarily measures EBIT variance from changes in wholesale unit volumes (at prior-year average contribution margin per unit) driven by changes in industry volume, market share, and dealer stocks, as well as the EBIT variance resulting from changes in product mix, including mix among vehicle lines and mix of trim levels and options within a vehicle line
- Net Pricing primarily measures EBIT variance driven by changes in wholesale unit prices to dealers and marketing incentive programs such as rebate programs, low-rate financing offers, special lease offers and stock adjustments on dealer inventory
- · Market Factors exclude the impact of unconsolidated affiliate wholesale units

#### **Earnings Before Taxes (EBT)**

· Reflects Income before income taxes

#### **Software and Physical Services**

Includes software, extended service contracts, parts and accessories, and other services

### **Definitions And Calculations**

#### Assets (as shown on the Cumulative Maturities chart)

• Includes gross finance receivables less the allowance for credit losses, investment in operating leases net of accumulated depreciation, cash and cash equivalents, and marketable securities (excluding amounts related to insurance activities). Amounts shown include the impact of expected prepayments

#### Cash (as shown in the Funding Structure and Liquidity Sources tables)

· Cash and cash equivalents, Marketable securities, and Restricted cash reported on Ford Credit's consolidated balance sheet, excluding amounts related to insurance activities

#### **Debt** (as used in the Leverage calculation)

• Debt on Ford Credit's balance sheet. Includes debt issued in securitizations and payable only out of collections on the underlying securitized assets and related enhancements. Ford Credit holds the right to receive the excess cash flows not needed to pay the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions

#### Committed Asset-Backed Security ("ABS") Facilities (as shown in the Liquidity Sources table)

• Committed ABS facilities are subject to availability of sufficient assets, ability to obtain derivatives to manage interest rate risk, and exclude FCE Bank plc ("FCE") access to the Bank of England's Discount Window Facility

#### **Earnings Before Taxes ("EBT")**

· Reflects Income before income taxes as reported on Ford Credit's income statement

#### Leverage, Financial Statement Leverage (as shown in the Funding Structure table)

• We use leverage, or the debt-to-equity ratio, to make various business decisions, including evaluating and establishing pricing for finance receivable and operating lease financing, and assessing our capital structure. We refer to our shareholder's interest as equity

#### Loss-To-Receivables ("LTR") Ratio (as shown in credit loss tables)

· LTR ratio is calculated using net charge-offs divided by average finance receivables, excluding unearned interest supplements and the allowance for credit losses

#### **Net Charge-Offs**

· Net charge-off changes are primarily driven by the number of repossessions, severity per repossession, and recoveries

#### Other adjustments (as shown in the Liquidity Sources table)

Includes asset-backed capacity in excess of eligible receivables; cash related to the Ford Credit Revolving Extended Variable-utilization program ("FordREV"), which can be accessed through future sales of receivables

#### Reserve as a % of EOP Receivables Ratio (as shown in the credit loss tables)

• The reserve as a % of EOP receivables ratio is calculated as the credit loss reserve amount, divided by end of period ("EOP") finance receivables, excluding unearned interest supplements and the allowance for credit losses

### **Definitions And Calculations**

#### Securitization & restricted cash (as shown in the Liquidity Sources table)

• Securitization cash is cash held for the benefit of the securitization investors (for example, a reserve fund). Restricted cash is primarily held to meet certain local government and regulatory reserve requirements and cash held under the terms of certain contractual agreements

#### **Securitizations** (as shown in the Public Term Funding Plan table)

Public securitization transactions, Rule 144A offerings sponsored by Ford Credit, and widely distributed offerings by Ford Credit Canada

#### Term Asset-Backed Securities (as shown in the Funding Structure table)

· Obligations issued in securitization transactions that are payable only out of collections on the underlying securitized assets and related enhancements

#### Total Net Receivables (as shown in the Funding Structure table)

• Includes finance receivables (retail financing and wholesale) sold for legal purposes and net investment in operating leases included in securitization transactions that do not satisfy the requirements for accounting sale treatment. These receivables and operating leases are reported on Ford Credit's balance sheet and are available only for payment of the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions; they are not available to pay the other obligations of Ford Credit's other creditors

#### Unallocated other (as shown on the EBT By Segment chart)

• Items excluded in assessing segment performance because they are managed at the corporate level, including market valuation adjustments to derivatives and exchange-rate fluctuations on foreign currency-denominated transactions
