Chief Executive Officer

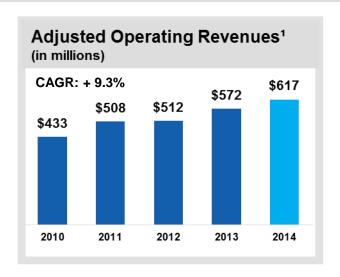

Forward-Looking Statements

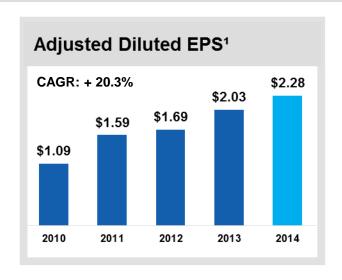

This press release may contain forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are those statements that reflect our expectations, assumptions or projections about the future and involve a number of risks and uncertainties. These statements are only predictions based on our current expectations and projections about future events. There are important factors that could cause actual results to differ materially from that expressed or implied by the forward-looking statements, including: the loss of our right to exclusively list certain index options and futures products; increasing price competition in our industry; compliance with legal and regulatory obligations and obligations under agreements with regulatory agencies; decreases in the amount of trading volumes or a shift in the mix of products traded on our exchanges; our ability to operate our business, monitor and maintain our systems or program them so that they operate correctly, including in response to increases in trading volume and order transaction traffic; the accuracy of our estimates and expectations; legislative or regulatory changes; increasing competition by foreign and domestic entities; our index providers ability to perform under our agreements; our ability to operate our business without violating the intellectual property rights of others and the costs associated with protecting our intellectual property rights; our ability to maintain access fee revenues; our ability to protect our systems and communication networks from security risks, including cyber-attacks; economic, political and market conditions; our ability to attract and retain skilled management and other personnel; our ability to maintain our growth effectively; our dependence on third party service providers; and the ability of our compliance and risk management methods to effectively monitor and manage our risks.

More detailed information about factors that may affect our performance may be found in our filings with the SEC, including in our Annual Report on Form 10-K for the year ended December 31, 2014 and other filings made from time to time with the SEC.

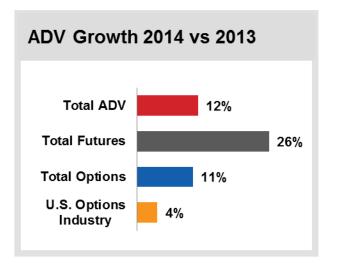

2014 Marks Fourth Consecutive Year of Record Results

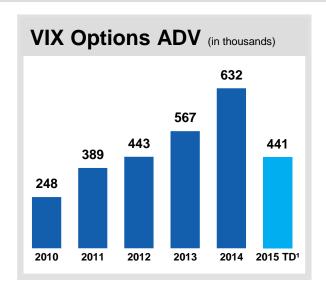

¹Adjusted to reflect the impact of certain items. See appendix for "Non-GAAP Information."

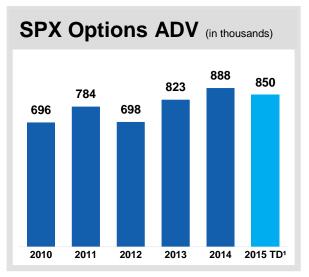

Continue to Lay the Foundation for Future Growth

Total trading volume down 14% YTD

- Volatility trades work especially well as a hedge against sharp market declines
- Absent real concerns about a sharp, sustained market pullback
 - Less utility for volatility products
 - Use other index products, such as SPX options, for directional exposure to stock prices
 - SPX options volume up 1% to date
- Users generally expect volume and open interest to pick up as conditions change

¹TD Through May 15, 2015

Advancing CBOE's Core Mission

Creating New Volatility Products

Product innovation is the cornerstone of our growth strategy

- Launched futures on the CBOE/CBOT 10-year Treasury Note Volatility Index (TYVIX) in November 2014
 - Interest rates represent the largest asset class in the OTC market
 - First exchange-traded volatility benchmark in interest rate space
- Plan to introduce Weekly VIX options and futures
 - Futures to launch in July, with options to follow¹
 - Creates more trading opportunities

10

¹Pending regulatory approval

Collaborate

Growing roster of CBOE indexes

Collaborate With New Index Providers

Forging collaborative partnerships to expand index complex

- December 2014 licensing agreement with MSCI
- CBOE exclusive U.S. exchange for trading MSCI Index options
- First CBOE MSCI options launched April 21:
 - MSCI EAFE Index (Europe, Australasia, Far East)
 - MSCI Emerging Markets Index
- Adds global dimension to CBOE's index options franchise

Collaborate With New Index Providers

CBOE entered into an exclusive licensing agreement with London Stock Exchange Group

- > CBOE is the exclusive provider for cash-settled listed options to trade in the U.S. on more than 24 FTSE and Russell Indexes
- On April 1, became sole provider of listed Russell 2000 (RUT) options
- Plan to launch FTSE 100 index options and other Russell and FTSE products later this year
- Expands our product line across new asset classes and markets

Creating More Trading Opportunities and Synergies

CBOE's expanding suite of index products will allow market participants to hedge and trade:

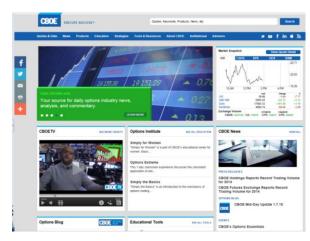

Connecting With An Expanding Customer Base

Leveraging CBOE's ability to connect with customers globally across a range of efficient channels

- The Options Institute
- CBOE TV
- > CBOE.com
- CBOE's social media platform
- CBOE's Risk Management Conferences (RMC)
 - Expanding annual RMC beyond the U.S. and Europe to include Asia

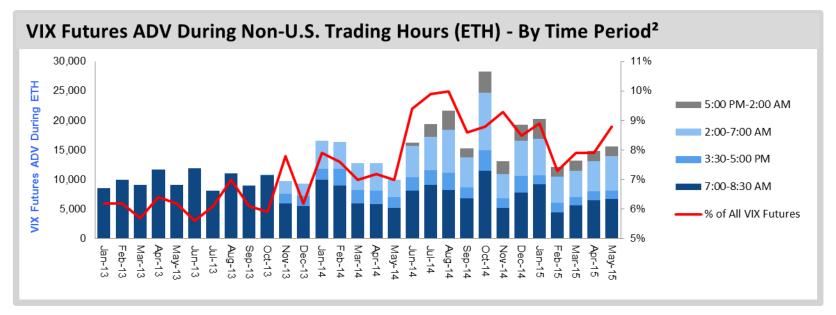

16

Connect: Broadening Access to Our Premium Products

More than 8% of VIX futures trading during non-U.S. hours YTD¹

- In June 2014, expanded trading in VIX futures to nearly 24X5
- In March 2015, extended trading hours in VIX and SPX options
 - New session runs from 2:00 a.m. to 8:15 a.m. CT, Monday through Friday

¹Through May 15, 2015

²Extended hours to nearly 24X5 on June 22, 2014

Create New Trading Platform – CBOE Vector™

Systems development is deeply embedded in CBOE's value proposition

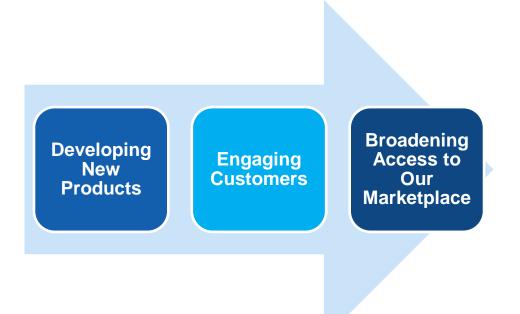

- Development of next generation of trading technology is underway
- Leveraging our in-house trading and technology expertise
- Building a customized, state-of-the-art platform
 - Responds to the trading needs of our customers
 - Best supports CBOE's unique product set
- Continue to drive optimal performance of our current system
- Build out and implement new systems for CFE first
 - CFE projected for the second half of 2016, with CBOE and C2 to follow

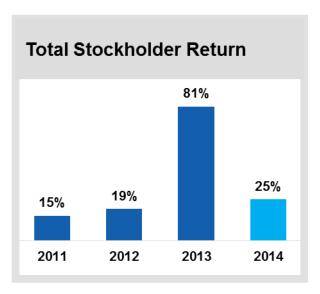

Creating Value for Stockholders

Consistent track record of growth

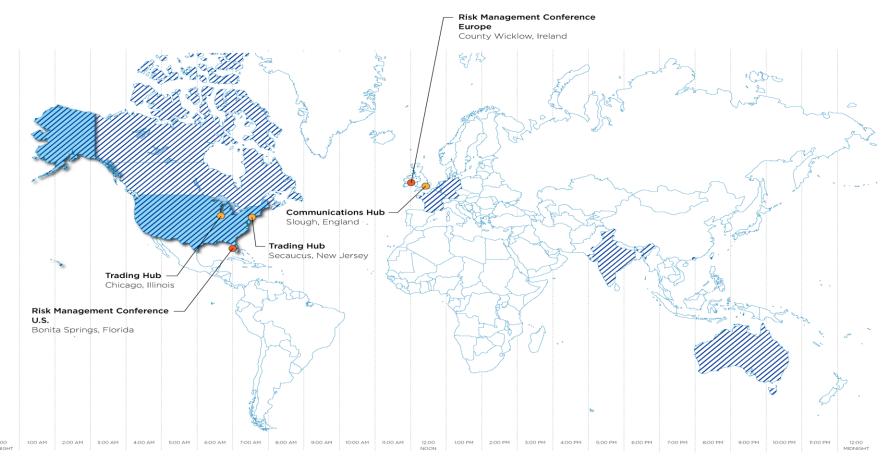

Returned more than \$1 billion in capital since IPO

2014 Opportunities

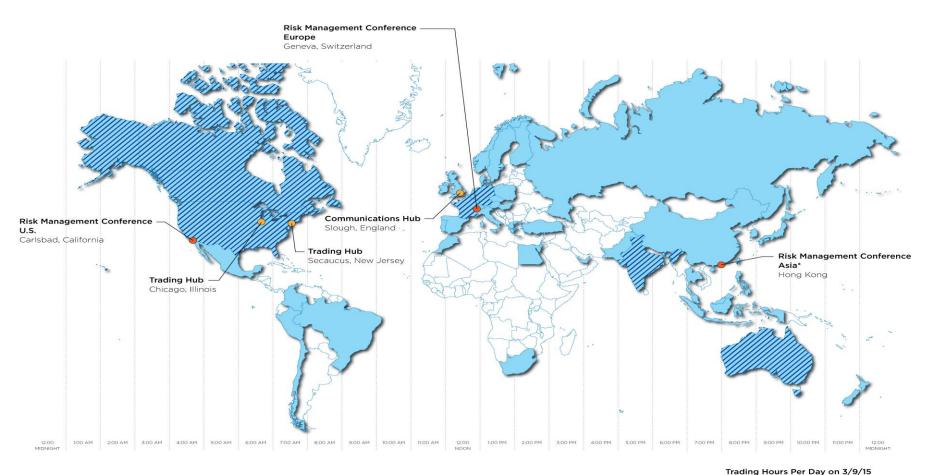

Regions covered by CBOE index options products

VIX Network - exchanges licensing use of CBOE Volatility Index® (VIX® Index) methodology

2015 – Creating New Opportunities

Regions to be covered by existing and new CBOE index options products (pending regulatory approval) VIX Network - exchanges licensing use of CBOE Volatility Index® (VIX® Index) methodology

^{*}Pending Hong Kong regulatory approval

Non-GAAP Information

- In addition to disclosing results determined in accordance with GAAP, CBOE Holdings has disclosed certain non-GAAP measures of operating performance. The non-GAAP measures provided in this presentation include core operating expenses, adjusted operating revenue, adjusted operating expenses, adjusted operating income, adjusted operating margin, adjusted effective tax rate, adjusted net income, adjusted net income allocated to common stockholders and adjusted diluted earnings per share.
- Management believes that the non-GAAP financial measures presented in this presentation, including adjusted net income and core operating expenses, provide useful and comparative information to assess trends in our core operations and a means to evaluate period-to-period comparisons. Non-GAAP financial measures disclosed by management, including adjusted diluted EPS, are provided as additional information to investors in order to provide them with an alternative method for assessing our financial condition and operating results. These measures are not in accordance with, or a substitute for, GAAP, and may be different from or inconsistent with non-GAAP financial measures used by other companies.
- Core operating expenses is the company's operating expenses after excluding (i) volume-based expenses, (ii) depreciation and amortization expense, (iii) accelerated stock-based compensation expense and (iv) other unusual or one-time expenses.
