# 2022 Second Quarter Earnings

# Cautionary Statements

This presentation contains forward-looking statements within the meaning of securities legislation in the United States and Canada, including statements involving strategic priorities and company strategies, expectations regarding environmental, social and governance ("ESG") initiatives, goals and targets, growth, anticipated production, costs and expenses, exploration and development efforts, health and safety protocols, operations, expectations and initiatives at Palmarejo, Rochester, Kensington, Wharf and Silvertip including the POA 11 expansion project and the potential expansion and restart of Silvertip and timing thereof, inflation and other cost pressures, employee training and development, capital allocation and estimates, liquidity sources, free cash flow, mineral reserve and resource estimates, growth, results and hedging strategies. Such forward-looking statements involve known and unknown risks, uncertainties, and other factors which may cause Coeur's actual results, performance, or achievements to be materially different from any future results, performance, or achievements expressed or implied by the forward-looking statements. Such factors include, among others, the risk that the strategies, initiatives and expectations described in this presentation are not achieved on a timely basis or at all, the risks and hazards inherent in the mining business (including risks inherent in developing large-scale mining projects, environmental hazards, industrial accidents, weather, or geologically related conditions), changes in the market prices of gold, silver, zinc, and lead, and a sustained lower price or higher treatment and refining charge environment, the uncertainties inherent in Coeur's production, exploratory and developmental activities, including risks relating to permitting and regulatory delays (including the impact of government shutdowns), ground conditions, grade and recovery variability, any future labor disputes, or work stoppages, the uncertainties inherent in the estimation of mineral reserves and resources, changes that could result from Coeur's future acquisition of new mining properties or businesses, the loss or insolvency of any third-party smelter to which Coeur markets its production, the potential effects of the COVID-19 pandemic, including impacts to workforce, equipment and materials availability, inflationary pressures, continued access to financing sources, government orders that may require temporary suspension of operations at one or more of our sites and effects on our suppliers or the refiners and smelters to whom the Company markets its production and the communities where the Company operates, the effects of environmental and other governmental regulations and government shut-downs, the risks inherent in the ownership or operation of or investment in mining properties or businesses in foreign countries, Coeur's ability to raise additional financing necessary to conduct its business, make payments or refinance its debt as well as other uncertainties and risk factors set out in filings made from time to time with the United States Securities and Exchange Commission, and the Canadian securities regulators, including, without limitation, Coeur's most recent reports on Form 10-K and Form 10-Q. Actual results, developments, and timetables could vary significantly from the estimates presented. Readers are cautioned not to put undue reliance on forward looking statements. Coeur disclaims any intent or obligation to update publicly such forward-looking statements, whether as a result of new information, future events, or otherwise. Additionally, Coeur undertakes no obligation to comment on analyses, expectations, or statements made by third parties in respect of Coeur, its financial or operating results or its securities.

The scientific and technical information concerning our mineral projects in this presentation have been reviewed and approved by a "qualified person" under Item 1300 of SEC Regulation S-K, namely our Senior Director, Technical Services, Christopher Pascoe. For a description of the key assumptions, parameters and methods used to estimate mineral reserves and mineral resources included in this presentation, as well as data verification procedures and a general discussion of the extent to which the estimates may be affected by any known environmental, permitting, legal, title, taxation, sociopolitical, marketing or other relevant factors, please review the Technical Report Summaries for each of the Company's material properties which are available at <a href="https://www.sec.gov">www.sec.gov</a>. 2021 reserves and resources were determined in accordance with Item 1300 of SEC Regulation S-K. Reserves and resources for prior periods were determined in accordance with Canadian National Instrument 43-101. Both sets of reporting standards have similar goals in terms of conveying an appropriate level of confidence in the disclosures being reported, but the standards embody slightly different approaches and definitions.

Non-U.S. GAAP Measures - We supplement the reporting of our financial information determined under United States generally accepted accounting principles (U.S. GAAP) with certain non-U.S. GAAP financial measures, including adjusted net income (loss), operating cash flow before changes in working capital, adjusted EBITDA, adjusted EBITDA margin, total leverage, net leverage, free cash flow, adjusted costs applicable to sales per ounce/pound and adjusted liquidity. We believe that these adjusted measures provide meaningful information to assist management, investors and analysts in understanding our financial results and assessing our prospects for future performance. We believe these adjusted financial measures are important indicators of our recurring operations because they exclude items that may not be indicative of, or are unrelated to our core operating results, and provide a better baseline for analyzing trends in our underlying businesses. We believe adjusted net income (loss), adjusted EBITDA margin, total leverage, net leverage, free cash flow, adjusted costs applicable to sales per ounce/pound and adjusted liquidity are important measures in assessing the Company's overall financial performance. This presentation does not represent an offer of any securities for sale.

# Second Quarter 2022 Highlights

Solid production growth driving reaffirmation of 2022 production guidance

Cost guidance updated to reflect inflationary pressures driven by diesel

Rochester expansion remains on-track versus estimated schedule and cost

Exploration results point to mine life extension potential

Appointment of Jeane Hull to Board of Directors

# Financial Summary

(\$M, except metal sales, adj. EBITDA margin and per share amounts)	2Q 2022	1Q 2022	QoQ $\Delta$	2Q 2021	YoY $\Delta$
Metal Sales					
Gold ounces sold (oz)	84,786	75,211	13%	88,501	(4%)

TOTAL	\$73M	\$143	\$330M - \$395M	39%	\$187M - \$252M	

Note: Capital expenditures includes capitalized exploration. Percentage may differ due to rounding.

<sup>(1)</sup> Percentage based on midpoint of guidance as published by Coeur on August 3, 2022.

<sup>(2)</sup> Sustaining capital expenditures exclude capital leases.

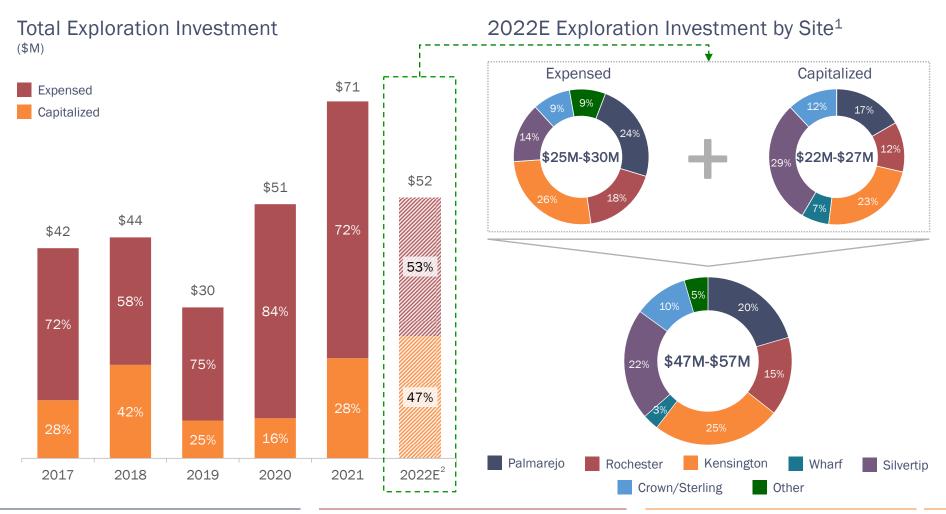

<sup>(3)</sup> Guidance as published by Coeur on August 3, 2022.

<sup>(4)</sup> Percentage progress figures based on midpoint of guidance ranges.

# Sustaining a Higher Level of Exploration Investment

The Company increased its full-year 2022 exploration guidance to \$47 - \$57 million<sup>1</sup>. The increase in exploration investment reflects additional planned expansion and infill drilling at Silvertip, Palmarejo and Kensington

<sup>(1)</sup> Guidance as published by Coeur on August 3, 2022.

# Rochester Expansion Update<sup>1</sup>

The expansion of Rochester is expected to drive an anticipated step change in Coeur's production and cash flow, helping to reposition the Company and unlock meaningful long-term value for our stockholders

### **Project Hallmarks**

\$348 million NAV<sub>5%</sub> and 17% IRR based on P&P reserves

+2x increase in planned throughput rates

One of the top mining jurisdictions in the world<sup>2</sup>

Average <u>8 million</u> ounces Ag and <u>76,000</u> ounces of Au

~13-year initial mine <u>life</u> with multiple growth opportunities

~\$90 million in expected average annual FCF<sup>3,4</sup>

### **Project Timeline**

### **Construction Completion Date**

Stage VI Leach Pad	2H-2022
Merrill-Crowe Process Plant	1H-2023
Crushing Circuit	Mid-2023

### Funding Strategy & Capital Overview

Cash on Hand	🕜 Cash on balance sheet
Internally Generated Cash Flow	<ul> <li>Operating cash flow from Rochester</li> <li>Free cash flow<sup>4</sup> from other operations</li> </ul>
Existing Debt Capacity	<ul><li>Revolving credit facility</li><li>Equipment and finance leases</li></ul>
Opportunistic Hedging	Utilizing forward sales on gold for up to 70% of expected gold production through 2022 and 38% through 2023

- Total estimated project capital remained approximately \$600 million
  - ~\$217 \$257 million expected in 2022
  - ~\$131 \$171 million expected in 2023
- Incurred ~\$350 million toward the expansion
- ~\$523 million of estimated capital committed

#### <u>Key Updates</u>

- All major concrete foundations complete and steel, piping and equipment erection in progress
- Secondary crusher steel & mechanical equipment erection underway
- Tertiary Crusher concrete foundations complete

<sup>(1)</sup> For additional information on the expansion of Rochester, please refer to the technical report summary for Rochester available at www.sec.gov.

<sup>(2)</sup> Fraser Institute Annual Survey of Mining Companies (2021).

<sup>(3)</sup> Reflects expected annual average free cash flow for 2024 - 2034.

<sup>(4)</sup> Free cash flow is defined as cash flow from operating activities less capital expenditures.

# Nochester: Expansion Construction Update<sup>1</sup>

Major construction for the expansion of Rochester continues to advance with solid ongoing environmental and safety performance

# > Rochester: Expansion Construction Update (cont.)<sup>1</sup>

### Crusher corridor area

# Balance Sheet and Hedging Summary

# Liquidity Profile<sup>1</sup> (\$M)

# Debt and Leverage Summary<sup>1,2,3</sup>

		Jui	22	
	Dec. 31, 2021	Reported	Δ	As Adjusted
5.125% senior notes due 2029	\$368.3	\$368.7	-	368.7

Total debt / LTM adjusted EBITDA	2.3x	3.4x	_	3.4x
Net debt / LTM adjusted EBITDA	2.0x	2.9x	-	2.7x

### Recent Balance Sheet Enhancements

- Sold \$40 million of Victoria Gold investment with proceeds received July 5th
- Completed \$100 million ATM Program in 1Q 2022
- Opportunistically entered into attractive gold hedges for remainder of 2022 and first half of 2023
- Expanded RCF capacity to \$390 million from \$300 million

### Snapshot of Gold Sales Hedges

	3Q 2022	4Q 2022	Total 2022	Total 2023
Ounces Hedged	54,000	54,500	108,500	112,500
Avg. Forward (\$/oz)	\$1,936	\$1,994	\$1,965	\$1,982

<sup>(1)</sup> Adjusted figures reflect proceeds from the sale of \$40 million of Victoria Gold shares received on July 5, 2022.

<sup>(2)</sup> See non-GAAP reconciliation tables in the appendix to this presentation.

<sup>(3)</sup> Net debt equals total debt less cash and cash equivalents.

# Looking Ahead: Key Deliverables for 2022

- Continue to bolster Coeur's best-in-class ESG initiatives
- Remain on-track with POA 11 expansion project
- Continue incorporating operational and technical enhancements at Rochester into POA 11
- Deliver consistent operating and financial results across portfolio while mitigating inflationary cost pressures
- Accelerate incremental, high-return exploration investments at targets with recent positive results at Kensington, Palmarejo and Silvertip
- Establish timetable and framework for a potentially larger-scale, economically attractive Silvertip expansion and restart

# > 2022 Guidance<sup>1</sup>

### **Production Outlook**

	Gold (oz)	Silver (K oz)
Palmarejo	100,000 - 110,000	6,000 - 7,000
Rochester	35,000 - 43,000	3,000 - 4,000
Kensington	110,000 - 120,000	-
Wharf	70,000 - 80,000	-
Consolidated	315,000 - 353,000	9,000 - 11,000

### CAS Outlook<sup>2</sup>

	Prev	ious <sup>3</sup>	Updated		
	Gold (\$/oz)	Silver (\$/oz)	Gold (\$/oz)	Silver (\$/oz)	
Palmarejo (co-product)	\$750 - \$850	\$13.50 - \$14.50	\$825 - \$925	\$12.75 - \$13.75	
Rochester (co-product)	\$1,490 - \$1,590	\$20.75 - \$22.75	\$1,650 - \$1,850	\$20.00 - \$26.00	
Kensington	\$1,150 - \$1,250	-	\$1,300 - \$1,400	-	
Wharf (by-product)	\$1,225 - \$1,325	-	\$1,250 - \$1,350	-	

## Capital, Exploration and G&A

(\$M)	Previous <sup>3</sup>	Updated
Capital Expenditures, Sustaining <sup>3</sup>	\$115 - \$140	\$110 - \$135
Capital Expenditures, Growth	\$205 - \$250	\$220 - \$260
Exploration, Expensed	\$18 - \$23	\$25 - \$30
Exploration, Capitalized	\$18 - \$23	\$22 - \$27
General & Administrative Expenses	\$42 - \$46	\$42 - \$46

Note: The Company's previous guidance figures assume estimated prices of \$1,800/oz gold and \$24.00/oz silver as well as CAD of 1.25 and MXN of 20.00. The Company's updated guidance figures assume estimated prices of \$1,800/oz gold and \$22.00/oz silver as well as CAD of 1.25 and MXN of 20.00. Guidance figures exclude the impact of any metal sales or foreign exchange hedges.

<sup>(4)</sup> Sustaining capital expenditures exclude capital leases.

**ESG** Highlights

# What Matters to Coeur

Coeur strives to be an industry leader in ESG, integrating factors into each aspect of its operations, activities and strategic decision making as the Company looks to the future. The following list includes material environmental, social and governance issues that matter to Coeur

### Governance

- Anti-Bribery & Anti-Corruption
- Board Diversity
- Board ESG Oversight
- Ethics & Compliance
- Sustainability
   Integral to Company
   Strategy

# People

- Diversity, Equity & Inclusion
- Employee Training & Development
- Living Wage
- Workforce Health and Safety

# **Environment**

- Climate Change
- Greenhouse Gas Emissions
- Site Expansion, Reclamation & Closure
- Tailings
- Water

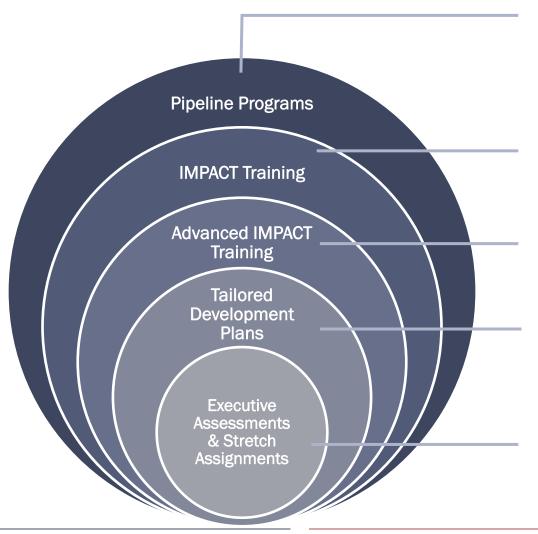

### Communities

- Human Rights
- Local Supply & Hiring
- Local Community
   Development &
   Engagement

# Employee Training and Development

Employee development is critical to the success and well-being of each employee and the Company. Each level of the organization has programs aimed at further development of the employee

### **Expansion Program**

- Local scholarships and apprentice programs
- Summer student intern programs: technical and skilled trades
- Coeur Development Program: 2-year program focused on business improvement activities

### **IMPACT Training**

Leadership training for frontline supervisors focused on safety and mining as a business; mentorship component

### Advanced IMPACT Training (AIT)

Leadership training for senior managers and directors focused on leadership and business acumen

### **Tailored Development Programs**

- Annual achievement process with development goals
- Opportunities beyond courses and classes
- Coaching to align development plans with career aspirations

### **Executive Assessments & Stretch Assignments**

360 Assessment identifies development areas, emphasizing feedback on leadership principles

# Employee Training and Development (cont.)

### **Pipeline Programs**

- Technical Intern Program
  - 14 interns across
     U.S. locations
  - 64% ethnically or gender diverse
- Skilled Trades Program
  - 7 interns
  - Partnership with local college
  - 71% ethnically or gender diverse
- 147 local scholarships granted across locations in 2021

### **IMPACT Training**

- 18,542 total hours invested in IMPACT training for frontline supervisors
- 138 graduates since 2018
- 50 promotions of graduates

# Tailored Development Plans

- Tailored development plans established for each Coeur employee
- Formal annual and mid-year check-points with managers
- 117 promotions, including 30 women in 2021
- 9 internal transfers in 2021

# Executive Assessments & Stretch Assignments

- 360 assessments with external coaches
- Completed for all executives in 2021
- 29 employees, including the executive team, participated in assessment

# Industry-Leading Safety Performance

Coeur has been certified in the National Mining Association's CORESafety program since 2017 and completed its recertification in July 2021

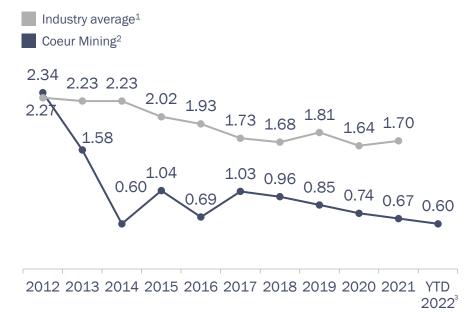

Coeur's injury frequency rate remains significantly below industry averages, achieving a Company record-low lost-time injury frequency rate in 2021

### Lost-Time Injury Frequency Rate

2012 2013 2014 2015 2016 2017 2018 2019 2020 2021 YTD

### Total Reportable Injury Frequency Rate

<sup>(1)</sup> Source(s): U.S. Department of Labor Mine Safety and Health Administration (MSHA): Metal Operators Mine Safety and Health Statistics. Injuries per 200,000 employee-hours worked. (2) Includes both Coeur employees and contract workers.

2022

NYSE: CDE

# Precious Metals Are Coeur to Everyday Life

Coeur is an important part of the supply chains for gold and silver. Due to their unique properties, gold and silver have numerous innovative uses that shape the way we live today and enable a more sustainable, healthier tomorrow

Au

Coeur's Palmarejo, Rochester, Kensington and Wharf mines produce gold, which is a critical component of:

#### **Medical Devices**

COVID-19 diagnostic test kits, pacemakers, CAT scan equipment and others

#### **Electronics**

Nanotechnology and touch screen monitors

#### **Electrification Devices**

Batteries and solar panels

#### **Transportation**

GPS technology and catalytic converters in motor vehicles & electric vehicle circuit boards

Ag

Coeur's Palmarejo and Rochester mines produce silver, which is a critical component of:

#### **Medical Devices**

Bandages, pharmaceuticals and anti-microbial coating for equipment

### Renewable Energy

Photovoltaic cells in solar panels

### **Household Items**

Mirrors, clothing and jewelry

#### **Public Health**

Water purification systems

Appendix

# Palmarejo

The Palmarejo gold-silver complex is located in the state of Chihuahua, Mexico, consisting of a legacy open pit mine, current underground mining and processing operations as well as several other deposits and exploration targets

### **Asset Overview**

Ownership	100%
Employees <sup>1</sup>	923
Claims	67,296 net acres
Туре	Underground
Processing	Crushing, grinding, flotation, CIL, Merrill- Crowe precipitation, refining
Metals	Silver and gold doré
Mine life	~8 years

<sup>(1)</sup> See applicable non-GAAP reconciliation tables in the appendix to this presentation.

<sup>(2)</sup> Excludes impact of prepayments.

<sup>(3)</sup> Excludes third-party smelting charges, which are reflected in average realized selling prices of concentrate production.

<sup>(4)</sup> Excludes management fee allocated from corporate.

# Wharf

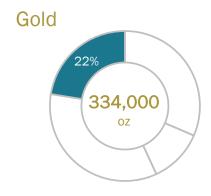

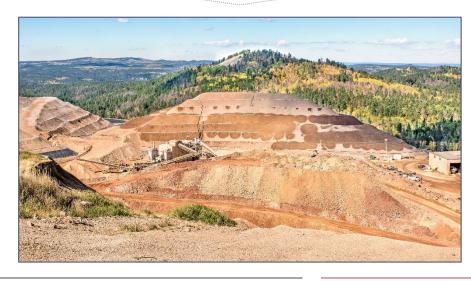

The Wharf mine is an open pit, heap leach gold operation located in western South Dakota. The property consists of several areas of adjoining gold mineralization, which have been mined as a series of open pits

### **Asset Overview**

Ownership	100%
Employees <sup>1</sup>	251
Claims	7,852 net acres
Туре	Open pit and heap leach
Processing	Crushing, "on-off" heap leaching, spent ore neutralization, carbon absorption/desorption
Metals	Electrolytic cathodic sludge
Mine life	~8 years

Share of Companywide 2022E<sup>2</sup> Production

<sup>(1)</sup> As of December 31, 2021.

<sup>(2)</sup> Based on midpoint of guidance as published by Coeur on August 3, 2022.

<sup>(3)</sup> See slides in appendix for additional information related to mineral reserves and resources.

<sup>(1)</sup> See applicable non-GAAP reconciliation tables in the appendix to this presentation.

<sup>(2)</sup> Excludes third-party refining charges.

<sup>(3)</sup> Excludes management fee allocated from corporate.

# Silvertip

The Silvertip development project is one of the highest-grade silver-zinc-lead operations in the world. The site is located in northern British Columbia, Canada and sits within a highly prospective land package

### **Asset Overview**

Ownership	100%
Employees <sup>1</sup>	101
Claims	98,834 net acres
Туре	Underground
Processing	Crushing, grinding, flotation processing, concentrate thickening
Metals	Lead concentrate, zinc concentrate
Mine life	~5 years

#### Notes to 2021 Mineral Reserves:

- (1) The Mineral Reserve estimates are current as of December 31, 2021 and are reported using the definitions in Item 1300 of Regulation S–K (17 CFR Part 229) (SK1300) and were prepared by the company's technical staff.
- (2) Assumed metal prices for 2021 Mineral Reserves were \$20.00 per ounce of silver, \$1,400 per ounce of gold, \$1.15 per pound of zinc, \$0.95 per pound of lead.
- (3) Palmarejo Mineral Reserve estimates use the following key input parameters: Assumption of conventional longhole underground mining; reported above a variable gold equivalent cut-off grade that ranges from 1.94–2.51 g/t AuEq and an incremental development cut-off grade of 1.08 g/t AuEq; metallurgical recovery assumption of 93.1% for gold and 81.9% for silver; mining dilution assumes 1 meter of hanging wall waste dilution; mining loss of 5% was applied; variable mining costs that range from US\$36.01–US\$41.75/tonne, surface haulage costs of US\$3.52/t, process costs of US\$27.29/tonne, general and administrative costs of US\$11.00/tonne, and surface/auxiliary support costs of US\$3.19/tonne. Excludes the impact of the Franco-Nevada gold stream agreement at Palmarejo in calculation of Mineral Reserves.
- (4) Rochester Mineral Reserve estimates are tabulated within a confining pit shell and use the following input parameters: Rochester oxide recovery Au = 85% and Ag = 59%; Nevada Packard oxide recovery Au = 95% and Ag = 61%; with a net smelter return cutoff of \$2.55/st oxide and US\$2.65/st sulfide, where the NSR is calculated as resource net smelter return (NSR) = silver grade (oz/ton) \* silver recovery (%) \* silver price (\$/oz) refining cost (\$/oz) + gold grade (oz/ton) \* gold recovery (%) \* gold price (\$/oz) refining cost (\$/oz); variable pit slope angles that approximately average 43° over the life-of-mine.
- (5) Kensington Mineral Reserve estimates use the following key input parameters: assumption of conventional underground mining; gold price of \$1400/oz; reported above a gold cut-off grade of 0.143-0.201 oz/st Au; metallurgical recovery assumption of 95%; gold payability of 97.5%; mining dilution varies from 15-23%; mining loss of 5% was applied; variable mining costs that range from US\$90.91–150.73/ton mined; process costs of US\$46.93/ton processed; general and administrative costs of US\$38.83/ton processed; and concentrate refining and shipping costs of US\$60.00/oz sold.
- Wharf Mineral Reserve estimate uses the following key input parameters: assumption of conventional open pit mining; reported above a gold cut-off grade of 0.010 oz/ton Au; metallurgical recovery assumption of 80%; royalty burden of US\$56/oz Au; pit slope angles that vary from 34–50°; mining costs of US\$2.15/ton mined, rehandle costs of US\$1.65/ton rehandled, process costs of US\$10.34/ton processed (includes general and administrative costs).
- (7) Silvertip Underground Mineral Resource estimates are reported using a net smelter return ("NSR") cutoff of US\$130-160/tonne. Mineral Resources are reported insitu using the following assumptions: The estimate use the following key input parameters: lead recovery of 87-88%, zinc recovery of 81-82% and silver recovery of 88-89 %. Lead concentrate grade of 51-53%; zinc concentrate grade of 48-50%; mining dilution varies from 5-25%; mining loss of 5% was applied; mining costs of US\$68.77/tonne; processing costs of US\$58.20/tonne and US\$46.49/tonne, where the NSR (\$/tonne) = tonnes x grade x metal prices x metallurgical recoveries royalties TCRCs transport costs over the life of the mine.
- (8) Rounding of short tons, grades, and troy ounces, as required by reporting guidelines, may result in apparent differences between tons, grades, and contained metal contents.

#### Notes to 2021 Mineral Resources:

- (1) Mineral Resource estimates are reported exclusive of Mineral Reserves, are current as of December 31, 2021, and are reported using definitions in SK1300 on a 100% ownership basis. Mineral Resource estimates were prepared by the Company's technical staff.
- (2) Assumed metal prices for 2021 estimated Mineral Resources were \$22.00 per ounce of silver, \$1,700 per ounce of gold, \$1.30 per pound of zinc, \$1.00 per pound of lead, unless otherwise noted.
- Palmarejo Mineral Resource estimates use the following key input parameters: Assumption of conventional longhole underground mining; reported above a variable gold equivalent cut-off grade that ranges from 1.59-2.21 g/t AuEq; metallurgical recovery assumption of 93.1% for gold and 81.9% for silver; variable mining costs that range from US\$36.01–US\$41.75/t, surface haulage costs of US\$3.52/tonne, process costs of US\$27.29/tonne, general and administrative costs of US\$11.00/tonne, and surface/auxiliary support costs of US\$3.19/tonne. Excludes the impact of the Franco-Nevada gold stream agreement at Palmarejo in calculation of Mineral Resources.
- (4) Kensington Mineral Resource estimates use the following key input parameters: assumption of conventional longhole underground mining; reported above a variable gold cut-off grade that ranges from 0.116–0.164 oz/ton Au; metallurgical recovery assumption of 95%; gold payability of 97.5%, variable mining costs that range from US\$90.91–150.73/ton mined, process costs of US\$46.93/ton processed, general and administrative costs of US\$38.83/ton processed. and concentrate refining and shipping costs of US\$60.00/oz sold.
- Wharf Mineral Resource estimate uses the following key input parameters: assumption of conventional open pit mining; reported above a gold cut-off grade of 0.010 oz/ton Au; metallurgical recovery assumption of 78.7% across all rock types; royalty burden of US\$56/oz Au; pit slope angles that vary from 34–50°; mining costs of \$2.15/ton mined, rehandle costs of US\$1.65/ton rehandled, process costs of US\$10.34/ton processed (includes general and administrative costs).
- Rochester Mineral Resource estimates are tabulated within confining pit shells that uses the following input parameters: oxide gold recovery of 77.7%-93.7% and silver recovery with range of 59%-61%; sulfide gold recovery range of 15.2%-77.7% and silver recovery with range of 0.0%-59% with a net smelter return cutoff of US\$2.55-US\$3.70/ton oxide and US\$2.65/ton sulfide, where the NSR is calculated as resource net smelter return (NSR) = silver grade (oz/ton) \* silver recovery (%) \* silver price (\$/oz) refining cost (\$/oz) + gold grade (oz/ton) \* gold recovery (%) \* gold price (\$/oz) refining cost (\$/oz); and variable pit slope angles that approximately average 43° over the life-of-mine.
- (7) Silvertip Underground Mineral Resource estimates are reported using a net smelter return ("NSR") cutoff of US\$130/tonne. Mineral Resources are reported insitu using the following assumptions: The estimate use the following key input parameters: lead recovery of 87-88%, zinc recovery of 81-82% and silver recovery of 88-89 %. Lead concentrate grade of 51-53%; zinc concentrate grade of 48-50%; mining costs of US\$68.77/tonne; processing costs of US\$58.20/tonne and US\$46.49/tonne, where the NSR (\$/tonne) = tonnes x grade x metal prices x metallurgical recoveries royalties TCRCs transport costs over the life of the mine.
- (8) Sterling Open Pit Mineral Resource estimates are reported in-situ and are contained within a confining pit shell and use the following key input parameters: reported above a gold cutoff of 0.007 ounces per ton; gold recoveries of 75-80%; mining costs of US\$2.16/ton; process costs of US\$2.70/ton; G&A costs of \$1.00/ton; variable pit slope angles of 39-52° over the life-of-mine.

Notes to 2021 Mineral Resources (cont.):

- (9) Lincoln Hill Open Pit Mineral Resource estimate is reported in-situ and are contained within a confining pit shell and use the following key input parameters: reported above an oxide gold equivalent cutoff of 0.15 ounces per ton and 0.20 oz ounces per ton assuming a silver to gold ratio of 60:1; gold recoveries of 64%; silver recoveries of 59%; mining costs of US\$3.10/ton; process costs of US\$3.60/ton; general and administrative costs of \$1.50/ton processed; average pit slope angles of 45° over the life-of-mine. The technical and economic parameters are those that were used in the 2018 Resource Estimation. Based on the QPs review of the estimate, there would be no material change to the Mineral Resource if a gold price of US\$1,700/oz, a silver price of US\$22/oz or economic parameters were updated. Therefore the 2018 Mineral Resource is considered current and is presented unchanged.
- (10) Wilco Open Pit Mineral Resource estimates are reported using an equivalent gold cutoff of 0.20 ounces per ton assuming a silver to gold ratio of 60:1. Resources are reported in-situ and contained withed a conceptual measured, indicated and inferred optimized pit shell. Silver price of US\$20/oz, gold price of US\$1,400/oz. Average oxide and sulfide gold recovery is 70%, average carbonaceous gold recovery is 50%. Average oxide and sulfide gold recovery is 60%. Average carbonaceous silver recovery is 50%. Open pit mining cost is US\$1.50/ton, processing and processing and G&A cost is US\$5.46/ton; average pit slope angles of 50°. The technical and economic parameters are those that were used in the 2018 Resource Estimation. Based on the QPs review of the estimate, there would be no material change to the Mineral Resource if a gold price of US\$1,700/oz, a silver price of US\$22/oz or economic parameters were updated. Therefore the 2018 Mineral Resource report is considered current and is presented unchanged.
- (11) Rounding of short tons, grades, and troy ounces, as required by reporting guidelines, may result in apparent differences between tons, grades, and contained metal contents.

#### Notes to 2020 mineral reserves and resources:

- (1) Effective December 31, 2020.
- (2) Assumed metal prices for Mineral Reserves were \$17.00 per ounce of silver, \$1,400 per ounce of gold, \$1.15 per pound zinc, \$0.95 per pound lead.
- (3) Assumed metal prices for estimated Mineral Resources were \$20.00 per ounce of silver, \$1,600 per ounce of gold, \$1.30 per pound zinc, \$1.00 per pound lead, except Lincoln Hill and Wilco at \$1,350 per ounce gold and \$22.00 per ounce silver.
- (4) Mineral Resources are in addition to Mineral Reserves and do not have demonstrated economic viability. Inferred Mineral Resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of Mineral Reserves, and there is no certainty that the Inferred Mineral Resources will be realized. The preliminary economic assessment for the re-scoped mine plan at Kensington is preliminary in nature and includes Inferred Mineral Resources, and does not have as high a level of certainty as a plan that was based solely on proven and probable reserves and there is no certainty that the results from the preliminary economic assessment will be realized.
- (5) Rounding of tons and ounces, as required by reporting guidelines, may result in apparent differences between tons, grade, and contained metal content.
- (6) Excludes the impact of the gold stream agreement at Palmarejo.
- (7) For details on the estimation of mineral resources and reserves, including the key assumptions, parameters and methods used to estimate the Mineral Resources and Mineral Reserves, Canadian investors should refer to the NI 43-101 Technical Reports for Coeur's properties on file at www.sedar.com.

Notes to 2016 mineral reserves and resources:

- (1) Effective December 31, 2016.
- (2) Assumed metal prices for Mineral Reserves were \$17.50 per ounce of silver and \$1,250 per ounce of gold.
- (3) Assumed metal prices for estimated Mineral Resources were \$19.00 per ounce of silver and \$1,275 per ounce of gold.
- (4) Mineral resources are in addition to mineral reserves and do not have demonstrated economic viability. Inferred mineral resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be considered for estimation of mineral reserves, and there is no certainty that the inferred mineral resources will be realized.
- (5) Rounding of tons and ounces, as required by reporting guidelines, may result in apparent differences between tons, grade, and contained metal content.
- (6) For details on the estimation of mineral resources and reserves, including the key assumptions, parameters and methods used to estimate the Mineral Resources and Mineral Reserves, Canadian investors should refer to the NI 43-101 Technical Reports for Coeur's properties on file at <a href="https://www.sedar.com">www.sedar.com</a>.

#### Executive Leadership

Mitchell J. Krebs – President and Chief Executive Officer. During his twenty-year tenure with Coeur, Mr. Krebs has led nearly \$2 billion in capital raising and debt restructuring activities and has facilitated over \$2 billion of acquisitions and divestitures. Mr. Krebs was previously Coeur's Chief Financial Officer and held various positions in the corporate development department, including Senior Vice President of Corporate Development. Mr. Krebs is a Director of Kansas City Southern Railway Company and the National Mining Association, is on the Board of World Business Chicago, and was formerly President of the Silver Institute.

Thomas S. Whelan – Senior Vice President and Chief Financial Officer. Prior to joining Coeur, Mr. Whelan served as CFO of Arizona Mining Inc. from September 2017 to August 2018, when the company was acquired from South32 Limited. Previously, Mr. Whelan served as CFO for Nevsun Resources Ltd. from January 2014 to August 2017. He is a chartered professional accountant and was previously a partner with the international accounting firm Ernst & Young ("EY") LLP where he was the EY Global Mining & Metals Assurance sector leader, the leader of the EY Assurance practice in Vancouver and previously EY's Canadian Mining & Metals sector leader. Mr. Whelan graduated with a Bachelor of Commerce from Queen's University.

Michael "Mick" Routledge – Senior Vice President and Chief Operating Officer. Mr. Routledge has over 25 years' experience with Rio Tinto in various roles beginning in 1987, including as the Chief Operating Officer (2011-2012) and Vice President HSE, Projects & Operational Value (2012-2014) of the Kennecott Utah Copper mine business and served as the Chief Operating Officer of Asahi Refining from 2015 to 2017. As the Senior Director of Operational Excellence at Anagold Madencilik from 2017 to 2020, Mr. Routledge designed and implemented an operational excellence program for the Copler District in Turkey. Most recently, Mr. Routledge served as the Vice President of Major Projects and Studies of Alacer Gold Corp. since February 2020. Mr. Routledge currently chairs the Health & Safety Division Executive Committee for the Society for Mining, Metallurgy & Exploration board. He received an undergraduate degree from the University of Sunderland, England in Electrical and Control Engineering and received his MBA with a focus on business and strategic transformation from Henley Management College in England.

Casey M. Nault – Senior Vice President, General Counsel, and Chief ESG Officer. Mr. Nault has approximately 25 years of experience as a corporate and securities lawyer, including prior in-house positions with Starbucks Corporation and Washington Mutual, Inc. and law firm experience with Gibson, Dunn & Crutcher. His legal experience includes securities compliance and SEC reporting, corporate governance and compliance, mergers and acquisitions, public and private securities offerings, other strategic transactions, general regulatory compliance, cross-border issues, land use and environmental issues, and overseeing complex litigation. In addition to leading the legal function, since 2018 Mr. Nault has overseen the Company's ESG initiatives, and he also has executive responsibility for several other corporate functions including compliance, internal audit, cybersecurity and IT infrastructure, government affairs and land management.

Aoife M. McGrath – Senior Vice President, Exploration. Ms. McGrath has over 20 years of mining industry experience, spanning all stages of exploration from greenfield works to continental-scale exploration programs. Most recently, Ms. McGrath served as Vice President Exploration, Africa and Middle East at Barrick Gold Corp. Prior to that time, she served as head of Exploration and Geology for Beadell Resources Limited as well as serving in various roles at Alamos Gold Inc., including Director, Exploration and Corporate Development and Vice President, Exploration. She holds a Master of Science in Mineral Exploration from the University of Leicester as well as a Master of Science in Engineering Geology from the Imperial College London.

Emilie C. Schouten – Senior Vice President, Human Resources. Ms. Schouten has 15 years of experience in Human Resources, starting her career in General Electric, where she graduated from GE's Human Resources Leadership Program. After 6 years as an HR Manager with GE, her division was acquired by the world's largest electrical distribution company, Rexel, and Ms. Schouten went on to become the Director of Training and Development. Ms. Schouten has her B.A. in Sociology from Michigan State University and her M.S. in Industrial Labor Relations from University of Wisconsin-Madison.

#### > Board of Directors

Robert E. Mellor – Independent Chairman of the board of Monro, Inc. (auto service provider) since June 2017, and appointed Interim Chief Executive Officer from August 2020 to April 2021. Previously Mr. Mellor was lead independent director from April 2011 to June 2017 and a member of the board of directors since August 2010; Former Chairman, Chief Executive Officer and President of Building Materials Holding Corporation (distribution, manufacturing and sales of building materials and component products) from 1997 to January 2010, director from 1991 to January 2010; former member of the board of directors of CalAtlantic Group, Inc. (national residential home builder) from October 2015 to February 2018, when CalAtlantic was acquired by Lennar Corporation; former member of the board of directors of the Ryland Group (national home builder, merged with another builder to form CalAtlantic) from 1999 to October 2015; and former member of the board of directors of Stock Building Supply Holdings, Inc. (lumber and building materials distributor) from March 2010 until December 2015 when it merged with another company. He was recently named a 2020 National Association of Corporate Directors Directorship 100 honoree.

Mitchell J. Krebs – President and Chief Executive Officer. See prior slide.

Linda L. Adamany – Member of the board of directors of Jefferies Financial Group (formerly known as Leucadia National Corporation), a diversified holding company engaged in a variety of businesses, since March 2014, and a member of the board of directors of Jefferies Group LLC and Jefferies International Limited, wholly-owned subsidiaries of Jefferies Financial Group Inc., since November 2018 and March 2021, respectively; non-executive director of BlackRock Institutional Trust Company since March 2018; non-executive director of the Wood plc from October 2017 to May 2019; non-executive director of Amec Foster Wheeler plc, an engineering, project management, and consultancy company, from October 2012 until the Company was acquired by Wood plc in October 2017; member of the board of directors of National Grid plc, an electricity and gas generation, transmission, and distribution company, from November 2006 to November 2012. Served at BP plc in several capacities from July 1980 until her retirement in August 2007, most recently from April 2005 to August 2007 as a member of the five-person Refining & Marketing Executive Committee responsible for overseeing the day-to-day operations and human resource management of BP plc's Refining & Marketing segment, a \$45 billion business at the time. She was recently selected as one of Women Inc. Magazine's 2018 Most Influential Corporate Directors.

Sebastian Edwards – Henry Ford II Professor of International Business Economics at the Anderson Graduate School of Management at the University of California, Los Angeles (UCLA) from 1996 to present; Co-Director of the National Bureau of Economic Research's Africa Project from 2009 to present; taught at IAE Universidad Austral in Argentina and at the Kiel Institute from 2000 to 2004; Chief Economist for Latin America at the World Bank Group from 1993 to 1996. Currently a Member of the Board of Moneda Asset Management, an investment management firm in Chile, and Centro de Estudios Públicos, Chile.

Randolph E. Gress – Retired Chairman (November 2006 until January 2016 and director from August 2004 until January 2016) and Chief Executive Officer (from 2004 until December 2015) of Innophos Holdings, Inc., a leading international producer of performance-critical and nutritional specialty ingredients for the food, beverage, dietary supplements, pharmaceutical, and industrial end markets. Mr. Gress was with Innophos since its formation in 2004, when Bain Capital purchased Rhodia SA's North American specialty phosphate business. Prior to his time at Innophos, Mr. Gress was with Rhodia since 1997 and held various positions including Global President of Specialty Phosphates (with two years based in the U.K.) and Vice-President and General Manager of the NA Sulfuric Acid and Regeneration businesses. From 1982 to 1997, Mr. Gress served in various roles at FMC Corporation including Corporate Strategy and various manufacturing, marketing, and supply chain positions.

Jeane Hull – Ms. Hull has over 35 years of mining operational leadership and engineering experience, most notably holding the positions of Chief Operating Officer for Rio Tinto plc at the Kennecott Utah Copper Mine and Executive Vice President and Chief Technical Officer of Peabody Energy Corporation. She also held numerous management engineering and operations positions with Rio Tinto affiliates. Prior to joining Rio Tinto, she held positions with Mobil Mining and Minerals and has additional environmental engineering and regulatory affairs experience in the public and private sectors. Ms. Hull currently serves as a member of the Board of Directors of Copper Mountain Mining Corporation, Trevali Mining Corporation, Eprioc AB and Interfor Corporation. She previously served on the boards of Pretium Resources Inc. and Cloud Peak Energy Inc. Ms. Hull also serves on the Advisory Board for South Dakota School of Mines and Technology.

## Board of Directors (cont.)

Eduardo Luna – Chairman of the Board of Rochester Resources Ltd., Mr. Luna has spent over forty years in the precious metals mining industry and has held prior senior executive and board positions at several companies including Industrial Peñoles, Goldcorp Inc., Luismin SA de CV, Wheaton River Minerals Ltd., Alamos Gold Inc., Dyna Resource, Inc. and Primero Mining Corp. He is currently the Chairman of the board of directors of Rochester Resources Ltd., a junior natural resources company with assets in Mexico. He is also a member of the Board of Directors of Wheaton Precious Metals Corp. Mr. Luna is the former President of the Mexican Mining Chamber and a former President of the Silver Institute. He was recently inducted into the Mexico Mining Hall of Fame and serves as Chairman of the Advisory Board of the Faculty of Mines at the University of Guanajuato where he received a degree in Mining Engineering.

Jessica L. McDonald – Ms. McDonald has extensive leadership experience in both the public and private sectors and currently serves as a member of the Boards of Directors of GFL Environmental Inc. and Hydro One Limited. She served as the President and Chief Executive Officer of BC Hydro and Power Authority, a clean energy utility with over \$5.5 billion in annual revenues and more than 5,000 employees, from May 2014 to July 2017. She was the Chair of Canada Post Corporation from December 2017 to July 2020 and was interim President and Chief Executive Officer from April 2018 until March 2019. From October 2017 to March 2020, she was a member of the Board of Directors of Trevali Mining Corporation and served as Chair from March 2019 to March 2020. Since 1991, Ms. McDonald has held many senior positions in the British Columbia provincial government, including Deputy Minister to the Premier, Cabinet Secretary and Head of the BC Public Service. She has been selected as a Mentor at the Trudeau Foundation and named to Canada's Top 100 Most Powerful Women Hall of Fame. She also has been a visiting fellow at Stanford University's Center for Energy Policy and Finance and Serves on the Boards of the Greater Vancouver Board of Trade and Sustainable Development Technology Canada.

John H. Robinson – Chairman of Hamilton Ventures LLC since founding the firm in 2006. Chief Executive Officer of Nowa Technology, Inc. (development and marketing of environmentally sustainable wastewater treatment technology) from 2013 to 2014. Chairman of EPC Global, Ltd. (engineering staffing company) from 2003 to 2004. Executive Director of Amey plc (British business process outsourcing company) from 2000 to 2002. Vice Chairman of Black & Veatch Inc. (engineering and construction) from 1998 to 2000. Mr. Robinson began his career at Black & Veatch and was Managing Partner prior to becoming Vice Chairman. He is a member of the Board of Directors of Alliance Resource Partners, L.P. (coal mining) and Olsson Associates (engineering consulting). He was a member of the Board of Directors of Federal Home Loan Bank of Des Moines (financial Services) from 2007 to 2019.

J. Kenneth Thompson – Chairman of Pioneer Natural Resources Company (oil and gas) and member of the board of directors of Alaska Air Group, Inc. (parent company of Alaska Airlines, Virgin America Airlines and Horizon Air), presiding (Lead) Director of Tetra Tech, Inc. (engineering consulting). President and Chief Executive Officer of Pacific Star Energy LLC (private energy investment firm in Alaska) from September 2000 to present, with a principal holding in Alaska Venture Capital Group LLC (private oil and gas exploration company) from December 2004 to present; Executive Vice President of ARCO's Asia Pacific oil and gas operating companies in Alaska, California, Indonesia, China, and Singapore from 1998 to 2000.
