

## Mettler-Toledo International Inc.

 Q4 2023 Financial ResultsMETTLER TOLEDO

Statements in this presentation which are not historical facts constitute "forward looking statements" within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934. These statements involve known and unknown risks, uncertainties and other factors that may cause our or our businesses, actual results, levels of activity, performance or achievements to be materially different from those expressed or implied by any forward-looking statements. For a discussion of these risks and uncertainties, please see "Factors Affecting Our Future Operating Results" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the most recently completed fiscal year and other reports filed with the SEC from time to time.

## Fourth Quarter 2023 Highlights

| Local Currency <br> Sales | Adj Operating <br> Margin | Adjusted <br> EPS |
| :---: | :---: | :---: |
| nnn | $30.1 \%$ | $\$ 9.40$ <br> (13\%) |
|  | down $(380 \mathrm{bp})$ |  |
| down $(22 \%)$ |  |  |

- Our sales and Adjusted EPS were negatively impacted by the previously disclosed shipping delays of approximately $\$ 58 \mathrm{~m}$ from a new external European logistics provider, which we expect to largely recover in Q1 2024. Excluding these delays, our results came in as we had expected as we continued to face challenging market conditions in the fourth quarter.
- Our team executed very well on our cost control initiatives, and cash flow generation for the quarter and the year was strong.
- We have continued to invest strongly in next-generation products and solutions and have also enhanced our best-inclass corporate programs by launching the next waves of Spinnaker and SternDrive. This will help us further increase our competitiveness and put us in an even more favorable position, especially once our markets pick up again.

Above: XPR microbalances deliver highest precision ( $0.1 \mu \mathrm{~g}$ ) at lowest minimum weights ( $30 \mu \mathrm{~g}$ ), for fully traceable results, even under challenging conditions. Space-saving design and second terminal are ideal for use in a safety cabinet. Touch-free operation and easy cleaning enable safer weighing. User guidance, built-in results notepad, customized method library and direct data transfer via LabX save time and provide process security.

Q4 local currency sales growth
