Snap-on Takes Workplace Eye Wellness Month Seriously With Unique Features and an Exclusive Design

KENOSHA, Wis. (March 15, 2024) – Snap-on products make work easier and safer for professionals performing critical tasks. When it comes to the American Academy of Ophthalmology Workplace Eye Wellness Month in March, Snap-on has products that provide eye protection year-round in the shop or wherever there's work (or play) to be done.

The Snap-on® SOSG04 Expedition Series Safety Glasses are an exclusive Snap-on design created to hold Rx-capable clear lenses for indoor use or photo-chromatic lenses that darken when exposed to sunlight. Interchangeable polycarbonate lenses provide 100 percent protection from harmful UV rays and have an impact resistant ANSI® Z87 rating. The lenses can be replaced individually if damaged so users can keep the frames that are tolerant to chemicals containing acetone such as carburetor cleaner and sunscreens. Made in the USA, these glasses are electrically non-conductive and heat resistant up to 160 °F (71 °C). Injection-molded hinges add an extra layer of protection since they're not electrically conductive. They are virtually maintenance free with no screws to worry about, plus they stay tight for the life of the frame.

The Snap-on® GLASS70BYEAR Safety Glasses with Built-in Ear Plugs offer amber-tinted eye protection lenses in ergonomic, comfort-fit black frames. The lenses are NPR 25 rated to absorb ultraviolet rays and are ANSI® impact rated, anti-fog, and anti-scratch for work or play. The added benefit of wearing these safety glasses is that ear protection is always at-the-ready with integrated ear plugs that easily retract into the temple pieces.

The Snap-on® SOSG6 Sledgehammer Safety Glasses come with adjustable length temples and in small, regular, and large sizes for a customizable fit. These made-in-the-USA safety glasses offer military-grade impact protection. Interchangeable lens shields and Rx-capable UPCL (Universal Prescription Lens) are designed for automotive work, military applications, hunting, shooting, driving, fishing, motorcycling, boating as well as other outdoor or work activities.

For more information about these safety glasses and other Snap-on tools and products, contact your participating Snap-on franchise or visit www.snapon.com.

About Snap-on Tools

Snap-on Tools is a subsidiary of Snap-on Incorporated, a leading global innovator, manufacturer, and marketer of tools, equipment, diagnostics, repair information and systems solutions for professional users performing critical tasks including those working in vehicle repair, aerospace, the military, natural resources, and manufacturing. From its founding in

1920, Snap-on has been recognized as the mark of the serious and the outward sign of the pride and dignity working men and women take in their professions. Products and services are sold through the company's network of widely recognized franchisee vans, as well as through direct and distributor channels, under a variety of notable brands. The company also provides financing programs to facilitate the sales of its products and to support its franchise business. Snap-on, an S&P 500 company, generated sales of \$4.7 billion in 2023, and is headquartered in Kenosha, Wisconsin.
