NIM 3.33\% for the month of March 2024

- NII (TE) of $\$ 269.0$ million, compared to $\$ 272.3$ million prior quarter

Decrease in NII driven by lower average earning assets (AEA) and one less day in the quarter; partially offset by more attractive mix of earning assets, stabilization in deposit costs, and lower shortterm borrowings

## Cash Flow (CF) Hedges

- Receive 215 bps versus paying 1 month SOFR on $\$ 1.6$ billion
- No new CF hedges were executed and no CF hedges were terminated in 1Q24
- Total termination value on remaining active CF hedges is approximately (\$94) million as of 3/31/24
- Future maturities of existing CF hedges range from December 2025 through March 2028

## Fair Value (FV) Hedges

- $\$ 514$ million in securities are hedged with $\$ 478$ million of FV hedges
- Duration (Market price risk) reduced from approximately 6.6 years to 2.3 years on hedged securities
- During 1Q24, no FV hedges were terminated
- Current termination value of FV hedges is approximately $\$ 31$ million at 3/31/2024
- FV hedges become fully effective beginning January 2025 through July 2026; at that point we pay fixed $1.98 \%$ and receive the FF effective rate (resulting in these bonds being a variable rate of FF plus 48 bps )
- When FV hedges are terminated, the value of each hedge is an adjustment to the book value of the underlying security, thereby changing its current book yield and extending its duration

## Hancock Whitney reports first quarter 2024 EPS of \$1.24

GULFPORT, Miss. (April 16, 2024) - Hancock Whitney Corporation (Nasdaq: HWC) today announced its financial results for the first quarter of 2024. Net income for the first quarter of 2024 totaled $\$ 108.6$ million, or $\$ 1.24$ per diluted common share (EPS), compared to $\$ 50.6$ million, or $\$ 0.58$ per diluted common share, in the fourth quarter of 2023. The first quarter of 2024 included a $\$ 3.8$ million charge, or $\$ 0.04$ per diluted common share, of a supplemental disclosure item, related to a revision to the FDIC Special Assessment. The fourth quarter of 2023 included a net charge of $\$ 75.4$ million, or $\$ 0.68$ per diluted share after-tax, of supplemental disclosure items, related to a loss on the securities portfolio restructuring, gain on sale of a parking facility, and FDIC Special Assessment. Excluding the impact of these supplemental disclosure items, EPS would be $\$ 1.28$, up $\$ 0.02$ linkedquarter. The company reported net income for the first quarter of 2023 of $\$ 126.5$ million, or $\$ 1.45$ per diluted common share. There were no supplemental disclosure items in the first quarter of 2023.

## First Quarter 2024 Highlights

- Net income totaled $\$ 108.6$ million, compared to $\$ 50.6$ million in prior quarter
- Adjusted pre-provision net revenue (PPNR) totaled $\$ 152.9$ million, down $\$ 4.6$ million, or 3\% linkedquarter
- Loans increased $\$ 49.0$ million, or $1 \%$ LQA
- Deposits increased $\$ 85.8$ million, or 1\% LQA
- Criticized commercial loans and nonaccrual loans continued to normalize
- ACL coverage remained solid at $1.42 \%$, up 1 bp, compared to prior quarter
- NIM 3.32\%, up 5 bps compared to 4Q23
- CET1 ratio estimated at 12.67\%, up 34 bps linked-quarter; TCE ratio 8.61\%, up 24 bps linked-quarter
- Efficiency ratio 56.44\%
"The first quarter’s results reflect a very positive start to 2024," said John M. Hairston, President \& CEO. "Our efforts to reposition our balance sheet and create opportunities for NIM expansion continued this quarter. NIM expansion was supported primarily by the impact of last quarter's bond portfolio restructure and good control of deposit costs. We were also pleased with the quarter's performance in fees and expense management. Credit metrics continued to normalize, but we do not see any broad signs of weakening in any portfolio or geographic segment. We maintained a robust ACL to loans of $1.42 \%$ and we continued to grow capital this quarter. As we look forward to celebrating our 125th year and beyond, we believe we continue to position ourselves to effectively navigate any operating environment."

## Loans

Total loans were $\$ 24.0$ billion at March 31, 2024, up $\$ 49.0$ million, or less than 1\%, from December 31, 2023. One-time close products drove the increase in mortgage loans, which convert from construction to mortgages upon construction completion.

Average loans totaled $\$ 23.8$ billion for the first quarter of 2024, virtually unchanged linked-quarter. Management expects 2024 period-end loan growth to be low single digits from year-end 2023 , mostly in the second half of 2024.

## Deposits

Total deposits at March 31, 2024 were $\$ 29.8$ billion, up $\$ 85.8$ million, or less than $1 \%$, from December 31, 2023. The linked-quarter increase in deposits was driven primarily by an increase in interest-bearing transaction and saving and retail time deposits due to a shift from DDA deposits, offset by decreases in brokered deposits, noninterest-bearing DDAs, and interest-bearing public funds due to seasonality.

DDAs totaled \$10.8 billion at March 31, 2024, down \$228.4 million, or 2\%, from December 312023 and comprised $36 \%$ of total period-end deposits. Interest-bearing transaction and savings deposits totaled \$11.0 billion at the end of the first quarter of 2024 , up $\$ 294.3$ million, or $3 \%$, linked-quarter. Compared to December 31, 2023, retail time deposits of $\$ 4.6$ billion were up $\$ 291.7$ million, or $7 \%$, and brokered deposits were $\$ 394.8$ million, down $\$ 195.0$ million, or $33 \%$, compared to the prior quarter. ## Non-GAAP Financial Measures

This news release includes non-GAAP financial measures to describe Hancock Whitney's performance. These non-GAAP financial measures should not be considered alternatives to GAAP-basis financial statements and other bank holding companies may define or calculate these non-GAAP measures or similar measures differently. The reconciliations of those measures to GAAP measures are provided either in the financial tables or in Appendix A thereto.

Consistent with the provisions of subpart 229.1400 of the Securities and Exchange Commission's Regulation SK, "Disclosures by Bank and Savings and Loan Registrants," the company presents net interest income, net interest margin and efficiency ratios on a fully taxable equivalent ("TE") basis. The TE basis adjusts for the taxfavored status of net interest income from certain loans and investments using the statutory federal tax rate to increase tax-exempt interest income to a taxable equivalent basis. The company believes this measure to be the preferred industry measurement of net interest income and it enhances comparability of net interest income arising from taxable and tax-exempt sources.

The company presents certain additional non-GAAP financial measures to assist the reader with a better understanding of the Company's performance period over period, as well as to provide investors with assistance in understanding the success management has experienced in executing its strategic initiatives. The Company highlights certain items that are outside of our principal business and/or are not indicative of forward-looking trends in supplemental disclosures items below our GAAP financial data and presents certain "Adjusted" ratios that exclude these disclosed items. These adjusted ratios provide management or the reader with a measure that may be more indicative of forward-looking trends in our business, as well as demonstrates the effects of significant gains or losses and changes.

We define Adjusted Pre-Provision Net Revenue as net income excluding provision expense and income tax expense, plus the taxable equivalent adjustment (as defined above), less supplemental disclosure items (as defined above). Management believes that adjusted pre-provision net revenue is a useful financial measure because it enables investors and others to assess the Company's ability to generate capital to cover credit losses through a credit cycle. We define Adjusted Revenue as net interest income (te) and noninterest income less supplemental disclosure items. We define Adjusted Noninterest Expense as noninterest expense less supplemental disclosure items. We define our Efficiency Ratio as noninterest expense to total net interest income (te) and noninterest income, excluding amortization of purchased intangibles and supplemental disclosure items, if applicable. Management believes adjusted revenue, adjusted noninterest expense and the efficiency ratio are useful measures as they provide a greater understanding of ongoing operations and enhance comparability with prior periods.
