Site Visit by Mr Lawrence Wong, Deputy Prime Minister of the Republic of Singapore

Chiyoda Corporation (Chiyoda) had the privilege of welcoming Mr Lawrence Wong, Deputy Prime Minister of the Republic of Singapore, and other delegates to our hydrogen demonstration plant at Koyasu Office & Research Park.

Discussion topics included how Chiyoda utilizes its hydrogen storage and transportation technology using methylcyclohexane^{*1}, and the ongoing hydrogen supply chain development with Mitsubishi Corporation in Singapore.

Chiyoda continues to accelerate the expansion of its hydrogen supply chain business, contributing to the energy transition towards a sustainable future and decarbonization through the reduction of CO₂ emissions in Singapore and around the world.

Mr Lawrence Wong, Deputy Prime Minister (fifth from left), pictured with delegates from Singapore and senior managers from Mitsubishi / Chiyoda

*1 Methylcyclohexane (MCH)

A liquid at ambient temperature and pressure produced from toluene and hydrogen. Widely used as a pharmaceutical agent, as a solvent for agricultural production, an admixture for jet-fuel and a solvent for correction liquid etc.
