

Mexico City, April 25, 2024

### Grupo Mexico, S.A.B de C.V. (“Grupo Mexico”– BMV: GMEXICO)

During the first quarter of 2024, as a result of a continued focus on cost improvement and sustained growth, the Mining Division grew again in terms of copper production and was able to materialize the first volumes of the Buenavista Zinc project despite an uncertain environment. Likewise, our Transportation and Infrastructure divisions continue to show good results and growth in most financial metrics. Along the same line, Grupo Mexico obtained double-digit growth on a consolidated level across its financial metrics versus the previous quarter.

**First quarter 2024 revenues totaled US\$3.80 billion, 1.6% lower than in 1Q23 and 11.3% higher than in 4Q23.** The Mining Division reported revenues of US\$2.82 billion in 1Q24, 7.4% lower than in 1Q23, mainly due to the decrease in Copper (–5.6% Comex), Molybdenum (–39.5%), and Zinc (–21.8%) prices, partially mitigated by higher sales volumes of copper and molybdenum during the quarter. Revenues were 11.5% higher than in 4Q23. In the Transportation Division, revenues grew 16.1% during 1Q24 to US\$885 million due to a 5.9% increase in volumes in tons-km and were 11.7% higher than in 4Q23. The Infrastructure Division’s accrued net revenues totaled US\$190 million—a 22.0% increase during 1Q24 and 4.5% higher than in 4Q23.

**Consolidated copper production for 1Q24 showed a 5.9% recovery versus 1Q23, reaching 267,994 tons.** This was mainly due to an 18.7% increase in production in Peru and the 2,158 tons of copper produced by the new Buenavista Zinc concentrator in Mexico. Copper production grew 1.4% versus 4Q23. Molybdenum production increased 9.5% during 1Q24 due to the excellent results of Toquepala in Peru. Additionally, during 1Q24, Zinc production rose 10.6% as a result of the first production volumes from the new Zinc concentrator at Buenavista. In 4Q23 we reported that our Buenavista operation had experienced difficulties with its water supply. After taking action in 1Q24 to cover water requirements for this facility, we believe we have ensured sufficient supplies to operate our Mexican facilities as forecasted in our annual plan.

**We continue to have the best cash-cost in the copper industry worldwide. The cash-cost net of byproducts showed an improvement of 10.6% compared to 4Q23, going from US\$1.43 to US\$1.28—a US\$0.15 reduction—**due to an improvement in operating costs, higher byproduct credits, and the effect of the reduction in cost per unit given higher production as part of the company's continuous cost improvement strategy. Compared to 1Q23, net cash cost was up 29.0%, due to inflationary pressures worldwide.

**Consolidated EBITDA during 1Q24 totaled US\$1.97 billion, 6.6% below the same quarter of the previous year. However, it showed a 27.4% recovery versus 4Q23.** The Mining Division obtained US\$1.47 billion in EBITDA—11.5% lower than in 1Q23, but 33.0% higher than in 4Q23. The Transportation Division obtained an EBITDA of US\$397 million during the quarter—an increase of 8.6% compared to 1Q23 and 21.8% versus 4Q23. In the Infrastructure Division, EBITDA was US\$90 million during 1Q24—4.5% higher than in 1Q23 and 1.0% lower than in 4Q23.

**Dividend.** – On April 19, 2024, the Board of Directors declared **the payment of a cash dividend of \$1.00 peso per share outstanding**, to be made in a single installment as of May 25, 2024. This dividend implies an **annualized dividend yield of 3.9%**.

(Thousand US Dollars)	First Quarter		Variance	
	2024	2023	US\$000	%
Sales	3,799,097	3,861,917	(62,819)	(1.6)
Cost of Sales	1,756,891	1,674,697	82,194	4.9
Operating Income	1,543,628	1,729,038	(185,409)	(10.7)
EBITDA	1,966,469	2,105,729	(139,260)	(6.6)
<b>EBITDA Margin (%)</b>	<b>51.8%</b>	<b>54.5%</b>		
Net Income	864,536	933,253	(68,717)	(7.4)
<b>Profit Margin (%)</b>	<b>22.8%</b>	<b>24.2%</b>		
Investments / Capex	327,094	334,508	(7,414)	(2.2)

All figures are stated in dollars ("US\$"), currency of the United States of America, under U.S. GAAP, except where otherwise noted.  
Net profit includes the capital gain/loss of the shares, as well as their effect on deferred taxes.

## Relevant Events

### Grupo México

**Grupo Mexico** is one of the largest companies in the Mexican Stock Exchange in terms of market capitalization and marketability. It is also the second taxpayer in Mexico. In addition, it is number one in profit-sharing in Mexico and Peru. To date, Grupo México has nearly 31,000 direct employees and more than 110 thousand highly skilled and well-paid indirect employees. Grupo México is the fifth largest copper producer in the world, and has the lowest cash-cost and the largest copper reserves in the world.

**ESG. – Sustainability is a key pillar of Grupo México's business model.**

**Sustainable Development Report.** Recently, we published our sixteenth Sustainable Development Report<sup>1</sup>, reaffirming our commitment to transparency and continuous improvement. After receiving feedback from our stakeholders, we updated our materiality analysis. We continue to incorporate relevant elements from the structure of the General Requirements of the International Financial Reporting Standard related to sustainability (IFRS® S1).

**Performance in ESG evaluations by rating agencies.** Thanks to our performance in the Corporate Sustainability Assessment (CSA) evaluation by the rating agency S&P Global, for the third consecutive year we were included in the Sustainability Yearbook 2024 by said ratings agency. This means that we are within the top 15% of the best-rated companies in sustainability in the mining and metals sector. It is worth noting that, out of the 22 companies in the sector that were included, Grupo México is the only Mexican mining company, and one of only two mining companies in Latin America to be part of this distinguished group.

**Climate action.** In the first quarter of 2024, we received clean energy certificates from one of our electricity suppliers in Peru. With this, all the electricity we consumed in that country during 2023 came from renewable sources. As a result, renewable electricity consumption at Grupo Mexico increased from 19 to 32%, enabling the Mining Division to reach its 2027 target ahead of schedule by consuming at least 25% of its electricity supply from renewable sources. Additionally, Group's greenhouse gas emissions decreased by nearly 4% in 2023 compared to 2022.

---

<sup>1</sup> Sustainable Development Report published in its Spanish version. Please refer to its English version by April 26, 2024.

## Relevant Events

### Mining Division

#### Projects

Over the years, Grupo México has proven the ability to have an organic growth portfolio through various stages of the copper price cycle. It continues to focus on being a global industry cost leader and operating with financial efficiency and discipline. Grupo México's projects are a source of employment and wellbeing in the communities and countries where it operates.

Our current capital investment program for this decade exceeds \$15 billion and includes investments in the Tia Maria, Los Chancas and Michiquillay projects in Peru and in the Buenavista Zinc, Pilares, El Pilar and El Arco projects in Mexico. This capital forecast includes several infrastructure investments, including key investments to bolster the competitiveness of the El Arco project.

#### Mexican Projects

**Buenavista Zinc– Sonora:** This project is located in Cananea, Sonora within the Buenavista deposit, where we have built a new concentrator plant. This facility has a production capacity of 100,000 tons of zinc and 20,000 tons of copper per year. The concentrator will double the Company's zinc production capacity.

Project update: the capital budget for the project is \$439 million, of which \$382.9 million had been invested as of March 31, 2024. Concentrator operation began in 1Q24. We expect to produce 54,500 tons of zinc and 11,900 tons of copper in 2024 and an average of 90,200 tons of zinc and 20,000 tons of copper per year in the next five years.

#### Peruvian Projects

**Tia Maria – Arequipa:** This greenfield project, located in Arequipa, Peru, will use state of the art SX–EW technology with the highest international environmental standards to produce 120,000 tons of SX–EW copper cathodes per year. The estimated capital budget for the project is \$1.4 billion.

Southern Copper has been consistently working to promote the welfare of the population of the Islay province. As part of these efforts, we have implemented successful social programs in education, healthcare, and productive development to improve the quality of life in the region. We have also promoted agricultural and livestock activities in the Tambo Valley and supported growth in manufacturing, fishing, and tourism in Islay.

We reiterate our view that the initiation of construction activities at Tia Maria will generate significant economic opportunities for the Islay province and the Arequipa region. Given the current Peruvian economic situation, it is crucial to move ahead on projects that will stimulate a sustainable growth cycle. We expect to begin the construction phase of the project in the near future. We will make it a priority to hire local labor to fill the 9,000 jobs that we expect to generate during Tia Maria's construction. Additionally, from day one of our operations, we will generate significant contributions to revenues in the Arequipa region.

**Los Chancas – Apurímac:** This greenfield project, located in Apurímac, Peru, is a copper and molybdenum porphyry deposit. Current estimates of indicated copper mineral resources are 98 million tons of oxides with a copper content of 0.45% and 52 million tons of sulfides with a copper content of 0.59%. The Los Chancas project envisions an open-pit mine with a combined operation of concentrator and SX-EW processes to produce 130,000 tons of copper and 7,500 tons of molybdenum annually. The estimated capital investment is \$2,600 million and the project is expected to begin operating in 2031. We continue to engage in social and environmental improvements for the local communities and work on the project's environmental impact assessment.

Project update: The Company continues to engage in coordinated efforts with the Peruvian authorities to eradicate illegal mining activity. Once this process is completed, we will resume the environmental impact assessment and initiate hydrogeological as well as geotechnical studies. We also will conduct a diamond drilling campaign for 40,000 meters to gather additional information on the characteristics of the Los Chancas deposit.

**Michiquillay Project – Cajamarca:** In June 2018, Southern Copper signed a contract for the acquisition of the Michiquillay project in Cajamarca, Peru. Michiquillay is a world class mining project with inferred mineral resources of 2,288 million tons with an estimated copper grade of 0.43%. When developed, we expect Michiquillay to produce 225,000 tons of copper per year (along with by-products of molybdenum, gold and silver) at a competitive cash-cost for an initial mine life of more than 25 years. We estimate an investment of approximately \$2.5 billion will be required and expect production start-up by 2032. Michiquillay will become one of Peru's largest copper mines and will create significant business opportunities in the Cajamarca region; generate new jobs for the local communities; and contribute with taxes and royalties to the local, regional, and national governments.

Project update: As of March 31, 2024, we had drilled 80,000 meters (total program = 110,000 meters) and obtained 27,902 core samples for chemical analysis. Diamond drilling is underway, which will provide data for cross section interpretation, geological modeling, and resource evaluation. We expect to begin hydrogeological and geotechnical studies soon and will also assess the results of metallurgical testing at the deposit.

The Company continues to work with the Michiquillay and La Encañada communities based on the guidelines of corresponding social agreements.

## Relevant Events

### Transportation Division

In the **Transportation Division**, 1Q24 revenues totaled US\$885 million and EBITDA US\$397 million, increasing 16.1% and 8.6%, respectively.

**Volume.** – Transported volumes during 1Q24 grew 10.4% compared to the same period of 2023, reaching 518,760 carloads. Volume growth was led by the intermodal segment, with a 30% increase in carloads, followed by the Automotive segment, which grew 6% in carloads.

#### Segments with the highest revenue growth in peso terms in 1Q24:

**Growth in the Intermodal Segment.** – The segment showed 16% growth in revenues and 27% growth in tons–km as a result of the increase in volumes on Crossborder routes, due to the movement of auto parts and general cargo, as well as higher volumes in domestic freight, which gained market share over road transport.

**Growth in the Automotive Segment.** – The segment grew 15% in revenues and 6% in carloads, mainly due to an increase in market share, the release of inventory, and the resumption of imports through Veracruz.

**Growth in the Agriculture Segment.** – The segment showed growth of 12% in revenues and 13% in tons–km thanks to the increase in import Carousel Trains, especially in the *Bajío* and Northern regions of the country.

**Growth in the Chemicals Segment.** – The segment showed growth of 7% in revenues and 4% in tons–km due to the increase in volumes from the opening of a new chlorine plant, as well as an increase in resin imports.

## Relevant Events

### Infrastructure Division

**Infrastructure Division.** – At the end of 1Q24, net revenues accrued US\$190 million and EBITDA US\$89 million, with increases of 22.0% and 4.5%, respectively, compared to the same period of 2023. This is due to the increase in the daily quotas of Perforadora's 6 drilling rigs, lower pass-through gas costs in Energy, increased traffic in Highways, higher production in Constructora, and the integration of GM Inmobiliaria's operations (PlaniGrupo). The Division's EBITDA margin reached 47.0%.

**Power Generation.** – At the end of 1Q24, accrued revenues totaled US\$65 million and EBITDA US\$31 million, representing variations of 1.8% and 12.2%, respectively vs. 2023. This was mainly due to lower revenues at the "La Caridad" combined cycle plant as a result of a 21% decrease in gas costs. On the other hand, the "El Retiro" wind farm increased production by 27%, achieving a 14% increase in revenues.

**Perforadora Mexico (PEMSA).** – Accrued revenues at the end of 1Q24 were US\$58 million and EBITDA totaled US\$30 million, translating into decreases of 15.6% and 10.4%, respectively, vs. the previous year. This is due to the 14% increase in daily quotas, the operation of our 6 oil rigs with an average cumulative efficiency of 96.5%, and better results in cementing operations.

**México Compañía Constructora.** – At the end of 1Q24, accrued revenues totaled US\$22 million and EBITDA US\$5 million, representing increases of 38.0% and 3.0%, respectively vs. 2023. The variations in results are attributable to the difference in production, completion of works, and continuity of projects between periods.

**Engineering Services.** At the end of 1Q24, revenues accrued US\$7.7 million and EBITDA US\$1 million, representing decreases of 5.8% and 40.1%, respectively vs. the same period of the previous year. This is due to lower production and higher start-up costs for new projects. During this quarter, we started operations of the Engineering office in Peru, with which we kick off our expansion strategy to take advantage of a growing market, access local talent, and consolidate our position in a region with great potential for infrastructure innovation and development.

**Highways.** – At the end of 1Q24, accrued revenues totaled US\$18 million and EBITDA US\$12 million, representing increases of 19.0% and 15.4%, respectively, vs. the previous year, due to an average daily traffic equivalent of 21,599 units—3.4% higher compared to 2023.

**Real Estate.** – At the end of 1Q24, revenues totaled US\$19 million and EBITDA US\$12 million, representing operational increases of 14.3% and 29.8%, respectively, vs. the previous year; this was due to the hike in rents and fees, as well as a 0.9% improvement in venue occupancy, reaching 94.8%. The consolidation of GM Inmobiliaria (PlaniGrupo) into Infrastructure began on April 19, 2023, so for the Division, these results are 100% incremental vs. 2023.

**Copper.** – Copper production during 1Q24 totaled 267,994 tons—5.9% higher than the previous year—reporting higher production at our Peruvian, Caridad and IMMSA operations.

**Molybdenum.** – Molybdenum production during 1Q24 was 7,078 tons—9.5% above the previous year—due to higher production at Toquepala, Cuajone and Buenavista.

**Zinc.** – Zinc production in 1Q24 totaled 26,366 tons—74.9% higher than in 1Q23—due to the start-up of Buenavista Zinc and higher production at Santa Barbara, Charcas and San Martin.

**Silver.** – Silver production in 1Q24 was 3,093 thousand ounces—a decrease of 1.6% compared to 1Q23—due to lower production at Caridad and IMMSA, partially mitigated by an increase at ILO.

**Gold.** – Gold production during 1Q24 was 8,947 ounces, 26.3% lower than in 1Q23, mainly due to lower production in La Caridad and Ilo.

## Company Profile

**Grupo México** “Gmérico” is a controlling company whose main activities are: (i) mining, being one of the largest integrated producers of copper worldwide; (ii) the broadest railroad service in Mexico; and (iii) engineering, procurement, construction, and drilling services. These lines of business are grouped under the following subsidiaries:

GMérico's **Mining Division** is represented by its subsidiary Americas Mining Corporation (“AMC”), whose main subsidiaries are Southern Copper Corporation (“SCC”) in México and Peru, and Asarco in the USA. Both Companies together hold the largest copper reserves in the world. SCC trades on the New York and Lima stock exchanges. SCC's shareholders, directly or through subsidiaries, are: GMérico (88.9%) and other shareholders (11.1%). It has mines, metallurgical plants and exploration projects in Peru, México, the US, Spain, Chile, Argentina, and Ecuador. Asarco was reincorporated into GMérico on December 9, 2009. It has 3 mines and 1 smelting plant in Arizona, and 1 refinery in Texas.

GMérico's **Transportation Division** is represented by its subsidiary GMérico Transportes, S.A. de C.V. (“GMXT”). Its main subsidiaries are Grupo Ferroviario Mexicano, S.A. de C.V. (“GFM”), Ferrosur, S. A. de C. V. (“Ferrosur”), Intermodal México, S.A. de C.V., Texas Pacifico, LP, Inc., and Florida East Coast Railway Corp “FEC”. GMXT's shareholders are GMérico (70.27%), Grupo Carso Sinca Inbursa (17.12%), and others (12.61%). GFM Through its subsidiary Ferrocarril Mexicano, S.A. de C.V. (“Ferromex”) is the largest railway company and has the largest coverage in Mexico. Its network spans 8,111 km. of railways covering roughly 71% of the Mexican territory. Ferromex's lines connect at five border points with the USA, as well as at four ports on the Pacific Coast, and two on the Gulf of Mexico. Ferromex's shareholders are GMXT (74%) and Union Pacific (26%). Ferrosur's railway network spans 1,549 km. covering the center and southeast of the country. It serves the states of Tlaxcala, Puebla, Veracruz, and Oaxaca, mainly, and has access to the Veracruz and Coatzacoalcos ports in the Gulf of Mexico. Ferrosur is fully controlled by GMXT, which holds 100%. Headquartered in Jacksonville, Florida, FEC offers railway services along the east coast of Florida, and is the supplier of railway services to the ports in southern Florida: Miami, Everglades, and Palm Beach. FEC offers services along roughly 565 km of its own railways, with connections to CSX and Norfolk Southern in Jacksonville, Florida. FEC is controlled by GMXT (100%).

The **Infrastructure Division** is represented by México Proyectos y Desarrollos, S.A. de C.V. (“MPD”). Its main subsidiaries are México Compañía Constructora, S.A. de C.V. (“MCC”), Grupo México Servicios de Ingeniería, S.A. de C.V. (“GMSI”), Controladora de Infraestructura Petrolera Mexico, S.A. de C.V. (“PEMSA”), Controladora de Infraestructura Energética México, S.A. de C.V. (“CIEM”), and Concesionaria de Infraestructura del Bajío, S.A. de C.V. (“CIBSA”) and Grupo Inmobiliario UPAS, S.A. de C.V. (UPAS). MPD, MPD, PEMS, MCC, GMSI, and UPAS are controlled 100% by GMérico. MPD and MCC participate in engineering, procuring, and construction activities for infrastructure works. GMSI's business line is integrated project engineering. PEMS offers drilling services for oil and water exploration, and related added value services, such as cementation engineering, and directional drilling. CIEM's business line is energy generation through two combined cycle plants and a wind farm. CIBSA operates and maintains a highway concession joining Salamanca and Leon. UPAS develops real estate projects and also builds, operates and manages shopping centers.

---

This report includes certain estimates and future projections that are subject to risks and uncertainty of their real results, which could differ significantly from the figures expressed. A lot of these risks and uncertainty are related to risk factors that GMérico cannot control or estimate precisely, such as future market conditions, metal prices, the performance of other market participants, and the actions of government regulators, all of which are described in detail in the Company's annual report. GMérico is under no obligation to publish a revision of these future projections to reflect events or circumstances that may take place following the release of this report.

## Conference Call to Discuss the Results of the First Quarter 2024

**Grupo Mexico, S.A.B. de C.V. ("Grupo México" –BMV: GMEXICOB)** will hold its conference call to comment on the results of the first quarter 2024 results with the financial community on **April 26<sup>th</sup>, 2024, at 1:00 p.m.** (Mexico Time). A Q&A session for analysts and investors shall follow the call.

**To participate in the call**, it is necessary to register in the following link:

<https://register.vevent.com/register/Blce80fa4614a34c36b9925d349467f441>

- **At the registration time, a personal confirmation PIN will be generated to access the call.**

Once registered, please dial in 10 minutes before the start of the conference:

(844) 543-0451	(Participants from United States and Canada)
800-2832735	(From Mexico)

During the conference call, please join live presentation through **Webex at the following link:**

<https://grupomexico.webex.com/grupomexico-sp/j.php?MTID=m4de5024e22a15a603d721a3a3e83a036>

A replay of the call will be available through a link that will be published on the website

[www.grupomexico.com](http://www.grupomexico.com)
