U.S. Auto Parts Network, Inc. Reports Third Quarter 2008 Results

- Net sales of \$36.6 million
- Adjusted EBITDA of \$0.9 million
- Acquisition of AutoMD

CARSON, Calif., Oct. 30 /PRNewswire-FirstCall/ -- U.S. Auto Parts Network, Inc. (Nasdaq: PRTS), a leading online provider of automotive aftermarket parts and accessories, today reported financial results for the third quarter ended September 30, 2008.

Net sales for the third quarter were \$36.6 million, a decrease of 3.2% from \$37.8 million in the prior year period and a decrease of 15.1% from \$43.1 million in the second quarter of 2008. Net loss for the third quarter of 2008 was \$0.5 million, or \$0.02 per diluted share, compared to net income of \$0.9 million, or \$0.03 per diluted share for the prior year period. Diluted EPS for the quarters ended September 30, 2008 and 2007 included amortization expense related to intangibles of \$0.4 million or \$0.01 per diluted share and \$2.1 million or \$0.07 per diluted share, respectively. The Company generated Adjusted EBITDA of \$0.9 million in the third quarter of 2008 compared to \$4.1 million in the prior year period. Adjusted EBITDA is a non-GAAP financial measure that further adjusts EBITDA to exclude share-based compensation expense of \$0.8 million in the third quarter of 2008 and \$0.5 million in the prior year period. For further information regarding Adjusted EBITDA, including a reconciliation of Adjusted EBITDA to net income (loss), see Non-GAAP Financial Measures below.

"We are disappointed we did not meet our own expectations this quarter and find a way to successfully fight through a very difficult economic environment as strongly as we would have liked," stated Shane Evangelist, Chief Executive Officer. "Because of our strong cash position and continued belief in the long-term opportunity, we will continue to execute our strategic plan. We expect to invest in key areas of our business that will allow us to emerge from this downward cycle stronger and better positioned to capture market share."

3Q 2008 Financial Highlights

-- Net sales for the third quarter ended September 30, 2008 were \$36.6 million, a decrease of 3.2% from \$37.8 million in the third quarter of 2007. The decrease was primarily attributable to a decrease in our offline sales of 26.6% or \$1.0 million.

-- Gross profit was \$12.1 million or 33.0% of net sales for the third quarter of 2008 compared to \$13.7 million or 36.2% of net sales for the third quarter of 2007. The decrease in gross margin was primarily due to higher freight costs, higher raw material costs and lower vendor rebates.

-- Online advertising expense was \$2.5 million or 6.8% of net sales for the third quarter of 2008 compared to \$2.9 million or 7.7% of net sales for the prior year period which excludes \$0.5 million of marketing co-op in the 2007 period to conform with current year presentation. The decrease in

advertising spend as a percent of sales is due to improvements in our ROI based spending model.

-- Marketing expense, excluding advertising expense, was \$2.7 million or 7.4% of net sales for the third quarter of 2008 compared to \$2.5 million or 6.6% of net sales in the prior year period. The increase was primarily due to higher depreciation expense.

-- General and administrative expense was \$4.2 million or 11.5% of net sales for the third quarter of 2008 compared to \$3.2 million or 8.5% of net sales in the prior year period. This increase was primarily due to \$0.4 million of higher payroll and related costs, an increase of \$0.3 million in amortization expense, a \$0.2 million increase in stock based compensation and an increase of \$0.1 million in professional fees compared to the prior year period.

-- Fulfillment expense was \$2.3 million or 6.3% of net sales in the third quarter of 2008 compared to \$1.9 million or 5.0% in the prior year period. The increase in fulfillment was primarily due to higher costs in our third party distribution center in Tennessee and increased depreciation expense.

-- Technology expense was \$1.0 million or 2.7% of net sales in the third quarter of 2008 compared to \$0.4 million or 1.1% of net sales in the prior year period. This increase was primarily related to increased headcount as well as a \$0.2 million impairment of capitalized software development costs.

-- Capital expenditures for the third quarter of 2008 were \$0.9 million which included \$0.3 million of internally developed software and website development costs.

-- Cash, cash equivalents and short term investments were \$33.1 million at September 30, 2008. The Company includes \$6.4 million of investments in auction rate preferred securities in long-term assets, which are not included in cash.

"While we are dissatisfied with our performance this quarter for both sales and profitability, we did execute in some areas well. We eliminated \$1.0 million per quarter in Marketing and G&A expenses that will reduce our fixed operating costs going forward," stated Michael McClane, Chief Financial Officer. "We expect to continue to be negatively impacted by macroeconomic conditions in the near term and plan to use this period to continue to build out a world-class enterprise. As many of our competitors are facing liquidity concerns, US Auto is well capitalized with over \$33 million in cash that will enable us to not only survive, but to continue to intelligently invest in our future."

3Q 2008 Operating Metrics

-- Conversion rate -- The conversion rate in the third quarter of 2008 was 1.26% compared to 1.22% during the corresponding period of 2007 and 1.39% for the second quarter of 2008.

-- Customer acquisition cost -- The customer acquisition cost in the third quarter of 2008 was \$6 per customer, compared to \$7 during the corresponding period of 2007 and \$6 for the

second quarter in 2008.

-- Unique visitors -- The number of monthly unique visitors in the third quarter of 2008 decreased 4.5% to 23.1 million compared to the third quarter of 2007, and a decrease of 4.1% over the second quarter of 2008.

-- Orders -- The number of orders placed through our e-commerce websites was approximately 291,000 orders in the third quarter of 2008 compared to 297,000 in the corresponding period of 2007 and 334,000 in the second quarter of 2008.

-- Average order value -- The average order value of purchases on our websites was \$121 during the third quarter of 2008, down from \$127 during the corresponding period of 2007, and down from \$128 for the second quarter of 2008.

Guidance

Due to the uncertain market conditions, US Auto Parts will not be providing guidance at this time.

Non-GAAP Financial Measures

Regulation G, "Conditions for Use of Non-GAAP Financial Measures," and other provisions of the Securities Exchange Act of 1934, as amended, define and prescribe the conditions for use of certain non-GAAP financial information. We provide "Adjusted EBITDA," which is a non-GAAP financial measure. Adjusted EBITDA consists of net income before (a) interest income (expense), net; (b) income tax provision (benefit); (c) amortization of intangibles and impairment loss; (d) depreciation and amortization; and (e) share-based compensation expense related to stock options.

The Company believes this non-GAAP financial measure provides important supplemental information to management and investors. This non-GAAP financial measure reflects an additional way of viewing aspects of the Company's operations that, when viewed with the GAAP results and the accompanying reconciliation to corresponding GAAP financial measures, provides a more complete understanding of factors and trends affecting the Company's business and results of operations.

Management uses Adjusted EBITDA as a measurement of the Company's operating performance because it assists in comparisons of the Company's operating performance on a consistent basis by removing the impact of items not directly resulting from core operations. Internally, this non-GAAP measure is also used by management for planning purposes, including the preparation of internal budgets; for allocating resources to enhance financial performance; for evaluating the effectiveness of operational strategies; and for evaluating the Company's capacity to fund capital expenditures and expand its business. The Company also believes that analysts and investors use Adjusted EBITDA as a supplemental measure to evaluate the overall operating performance of companies in our industry. Additionally, lenders or potential lenders use Adjusted EBITDA to evaluate the Company's ability to repay loans.

This non-GAAP financial measure is used in addition to and in conjunction with results presented in accordance with GAAP and should not be relied upon to the exclusion of GAAP

financial measures. Management strongly encourages investors to review the Company's consolidated financial statements in their entirety and to not rely on any single financial measure. Because non-GAAP financial measures are not standardized, it may not be possible to compare these financial measures with other companies' non-GAAP financial measures having the same or similar names. In addition, the Company expects to continue to incur expenses similar to the non-GAAP adjustments described above, and exclusion of these items from the Company's non-GAAP measures should not be construed as an inference that these costs are unusual, infrequent or non-recurring.

The table below reconciles net income (loss) to Adjusted EBITDA for the periods presented:

Safe Harbor Statement

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which are based on management's current expectations, estimates and projections about the Company's business and its industry, as well as certain assumptions made by the Company. Words such as "anticipates," "expects," "intends," "plans," "believes," "seeks," "estimates," "may," "will" and variations of these words or similar expressions are intended to identify forward-looking statements. These statements include, but are not limited to, the Company's expectations regarding its future operating results and financial condition, impact of changes in our key operating metrics, our potential growth, our liquidity requirements, and the status of our auction rate preferred securities. We undertake no obligation to revise or update publicly any forward-looking statements for any reason. These statements are not guarantees of future performance and are subject to certain risks, uncertainties and assumptions that are difficult to predict. Therefore, our actual results could differ materially and adversely from those expressed in any forward-looking statements as a result of various factors.

Important factors that may cause such a difference include, but are not limited to, marketplace illiquidity; demand for the Company's products; the potential economic downturn that could adversely impact retail sales; increases in commodity and component pricing that would increase the Company's per unit cost and reduce margins; the competitive and volatile environment in the Company's industry; the Company's ability to expand and price its product offerings, control costs and expenses, and provide superior customer service; the mix of products sold by the Company; the Company's need to assess impairment of intangible assets and goodwill; the effect and timing of technological changes and the Company's ability to integrate such changes and maintain, update and expand its infrastructure and improve its unified product catalog; the Company's ability to improve customer satisfaction and retain, recruit and hire key executives, technical personnel and other employees in the positions and numbers, with the experience and capabilities, and at the compensation levels needed to implement the Company's business plans both domestically and internationally; the Company's cash needs; any changes in the search algorithms by leading Internet search companies; and the Company's ability to comply with Section 404 of the Sarbanes-Oxley Act and maintain an adequate system of internal controls; any remediation costs or other factors discussed in the Company's filings with the Securities and Exchange Commission (the "SEC"), including the Risk Factors contained in the Company's Annual Report on Form 10-K and Quarterly Reports on Form 10-Q, which are available at <http://www.usautoparts.net> and the SEC's website at <http://www.sec.gov>. You are urged to consider these factors carefully in evaluating the forward-looking statements in this release and are cautioned not to place undue reliance on such forward-looking statements, which are qualified in their entirety by this cautionary statement. Unless otherwise required by law, the Company expressly disclaims any obligation to update publicly any forward-looking statements, whether as result of new information, future events or otherwise.
