

## FIRST QUARTER 2021 RESULTS

## FORWARD LOOKING STATEMENTS

In this presentation, all statements that are not purely historical facts are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements in this presentation include. but are not limited to our expectations for improving industry dynamics and our expectations for pricing and input costs. Forward-looking statements may be identified by the words "believe," "expect," "anticipate," "project," "plan," "estimate," "intend," "potential" and other similar expressions. They include, for example, statements relating to our industry and operating outlook for 2021 and our strategies for 2021. Forward-looking statements are based on currently available business, economic, financial, and other information and reflect management's current beliefs, expectations, and views with respect to future developments and their potential effects on Verso. Actual results could vary materially depending on risks and uncertainties that may affect Verso and its business. Verso's actual actions and results may differ materially from what is expressed or implied by these statements due to a variety of factors, including: the adverse impact of idling production, shutting down machines or facilities, restructuring our operations and selling non-core assets; changes in the costs of raw materials and purchased energy; security breaches and other disruption to our information technology infrastructure; uncertainties regarding the impact, duration and severity of the COVID-19 pandemic and measures intended to reduce its spread; the long-term structural decline and general softening of demand facing the paper industry; adverse developments in general business and economic conditions; developments in alternative media, which are expected to adversely affect the demand for some of Verso's key products, and the effectiveness of Verso's responses to these developments; intense competition in the paper manu facturing industry; Verso's limited ability to control the pricing of its products or pass through increases in its costs to its customers; Verso's business being less diversified because of the Pixelle Sale, closure of the Luke Mill, the Duluth Mill and the No. 14 paper machine and certain other long-lived assets at the Wisconsin Rapid Mill; Verso's dependence on a small number of customers for a significant portion of its business; Verso's ability to compete with respect to certain specialty paper products for a period of two years after the closing of the Pixelle Sale; any failure to comply with environmental or other laws or regulations; legal proceedings or disputes; any labor disputes; and the potential risks and un certainties described under the caption "Risk Factors" in Verso's Form 10-K for the fiscal year ended December 31, 2020 and from time to time in Verso's other filings with the Securities and Exchange Commission. Verso assumes no obligation to update any forward-looking statement made in this presentation to reflect subsequent events or circumstances or actual outcomes.

## NON-GAAP FINANCIAL INFORMATION

This presentation contains certain non-GAAP financial information relating to Verso, including EBITDA, Adjusted EBITDA, Adjusted SG\&A, Gross profit (excl. D\&A), Mill Adjusted Net Sales and Mill Adjusted Gross Profit and related margins. Definitions and reconciliations of these non-GAAP measures are included in this presentation. Because EBITDA, Adjusted EBITDA, Operational cash, Adjusted SG\&A and Gross profit (excl. D\&A) are not measurements determined in accordance with GAAP and are susceptible to varying calculations, EBITDA, Adjusted EBITDA, Adj usted SG\&A and Gross profit (excl. D\&A) as presented, may not be comparable to similarly titled measures of other companies. You should consider our EBITDA, Adjusted EBITDA, Adjusted SG\&A and Gross profit (excl. D\&A) in addition to, and not as a substitute for, or superior to, our operating or net income or cash flows from operating activities, which are determined in accordance with GAAP. See the Appendix in this presentation for additional information on EBITDA, Adjusted EBITDA, Adjusted SG\&A and Gross profit (excl. D\&A) and reconciliations to the most comparable GAAP measures.

Q\&A

## APPENDIX

## EBITDA, Adjusted EBITDA, Adjusted SG\&A, Mill Adjusted Net Sales and Mill Adjusted EBITDA Definitions

EBITDA consists of earnings before interest, taxes, depreciation and amortization. Adjusted EBITDA reflects adjustments to EBITDA to eliminate the impact of certain items that we do not consider to be indicative of our ongoing performance. Mill Adjusted Net Sales excludes sales from the Androscoggin and Stevens Point mills. Mill Adjusted EBITDA excludes adjustments from the Androscoggin and Stevens Point mills. We use EBITDA, Adjusted EBITDA, Adjusted EBITDA Margin, Mill Adjusted Net Sales, Mill Adjusted EBITDA, Adjusted SG\&A and Gross Profit (excl. D\&A) as a way of evaluating our performance relative to that of our peers and to assess compliance with our credit facilities. We believe that EBITDA, Adjusted EBITDA and Adjusted EBITDA Margin, Adjusted SG\&A and Gross Profit (excl. D\&A) are non-GAAP operating performance measures commonly used in our industry that provide investors and analysts with measures of ongoing operating results, unaffected by differences in capital structures, capital investment cycles and ages of related assets among otherwise comparable companies.

We believe that the supplemental adjustments applied in calculating Adjusted EBITDA , Adjusted EBITDA Margin, Mill Adjusted Net Sales, Mill Adjusted EBITDA, Adjusted SG\&A and Gross Profit (excl D\&A) are reasonable and appropriate to provide additional information to investors.
