4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. In answering this item, please include the following:

A. Summarize the issuer’s business operations (If the issuer does not have current operations, state “no operations”)

On July 21, 2017, the Company acquired Lithium IP Holdings in a transaction that included a management and business direction change. Randell Torno was named the new Altnet Systems Chairman and CEO. Edward Bollen, the President of Lithium IP Holdings, also joined the Altnet Systems management team. On June 23, 2017, Lithium IP Holdings executed an agreement to exclusively license ten U.S. Patented lithium battery technologies* with an option to acquire the ten U.S. Patents. The current business plan is to develop partnerships with prominent businesses and agencies to commercialize its portfolio of lithium technologies while at the same time continuing to expand the existing portfolio. Along those lines, the Company recently announced plans to start production of Electric Motorcycles.

Overcharge Protection Patents

The two patents (Patents H and J) here are of the chemical design within the cell category and specifically embody both liquid and gel electrolyte configurations. Patent H discloses a “shuttling” mechanism via the Boron salt to essentially return overcharge electrons in a closed loop cycle and limiting the voltage rise. Patent J discloses a chemical reaction of a polymeric material that becomes gelled or solid at a voltage just over the cell maximum voltage in a way that prohibits the flow of electrons thereby shutting the cell down.

Electrolyte Material Patents

The first two patents (A, B) claim invention of specific Boron salts to be used in the liquid electrolyte solution of a lithium ion cell. Patent D extends this general concept from just a liquid electrolyte solution to also include “gel” electrolyte configurations.

Electrolyte Process Patents

Specifically patent G provides for a process to synthesize the precursor for the Boron salts that are included in this patent portfolio. Patent I provides for four process methods to produce a purer Boron electrolyte salt and electrolyte salt solution. Specifically four purification processes are offered, three describe processes wherein the liquid electrolyte solution may be variously purified by passing it through sieves/columns or ion exchange columns. The fourth purification method is to vacuum dry the solid salt at 180 C to remove impurities.

Fuel Cell Patents

The fuel cell patents C and E in theory present a significant extension of the Boron electrolyte salt concepts to completely new market segments and multiple technologies

over a range of fuel cell configurations. Both patents list preparation methods of the Boron materials and are accompanied by a series of analytical benchtop laboratory tests indicating that they have the physical characteristics which may allow them to be utilized in a variety of fuel cell applications.

B. Please list any subsidiaries, parents, or affiliated companies.

5) Issuer's Facilities

The goal of this section is to provide a potential investor with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer, give the location of the principal plants and other property of the issuer and describe the condition of the properties. If the issuer does not have complete ownership or control of the property (for example, if others also own the property or if there is a mortgage on the property), describe the limitations on the ownership.

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.

The Company leases office space on a short-term basis at subject address listed herein.

6) Company Insiders (Officers, Directors, and Control Persons)

The goal of this section is to provide an investor with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial shareholders.

Using the tabular format below, please provide information, as of the period end date of this report, regarding any person or entity owning 5% or more of any class of the issuer's securities, as well as any officer, and any director of the company, or any person that performs a similar function, regardless of the number of shares they own. **If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity in the note section.**

Alternet Systems, Inc.
Notes To Consolidated Financial Statements
For the twelve months ended December 31, 2022
(Unaudited)

NOTE 1 - NATURE OF OPERATIONS

Alternet Systems Inc.'s (the "Company") focus has evolved into the digital payments and data analytics, micro segmentation and marketing intelligence. The target markets include the mass consumer goods, payments, financial services and telecommunications sectors. Its vision is to be the leading digital commerce solutions provider into global markets, and its mission is to provide innovative solutions that facilitate and expedite commerce, enriching our partners and their customers' experience, and improving efficiency.

Previously, the Company provided leading edge mobile financial solutions and mobile security and related solutions with the former being offered throughout the Western Hemisphere, but most actively in Central and South America and the Caribbean, and the latter being offered globally. As detailed in Note 5, Discontinued Operations, the Company, pursuant to a transaction in Alternet Transactions Systems ("ATS Transaction"), discontinued providing mobile financial solutions and mobile security. ATS is dormant.

The accompanying financial statements include the activities of Alternet Systems, Inc., Alternet Payment Solutions, LLC, Alternet Transactions Systems, Inc. and Lithium IP, LLC. **NOTE 2 - BASIS OF PRESENTATION**

a) Statement of Compliance

The Company's financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") as issued by the Financial Accounting Standards Board ("FASB").

b) Basis of Measurement

The Company's financial statements have been prepared on the historical cost basis.

c) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the financial statement date and the reported amounts of revenues and expenses during the reporting period. The Company regularly evaluates estimates and assumptions related to the useful life and recoverability of long-lived assets, fair value of convertible notes payable and derivative liabilities. The Company bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the Company may differ materially and adversely from the Company's estimates. To the extent there are material differences between estimates and the actual results, future results of operations will be affected.

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following summarize the more significant accounting and reporting policies and practices of the Company:

Alternet Systems, Inc.
Notes To Consolidated Financial Statements
For the twelve months ended December 31, 2022
(Unaudited)

a) Revenue recognition In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Codification (“ASC”) 606, Revenue from Contracts With Customers, effective for public business entities with annual reporting periods beginning after December 15, 2017. This new revenue recognition standard (new guidance) has a five-step process: a) Determine whether a contract exists; b) Identify the performance obligations; c) Determine the transaction price; d) Allocate the transaction price; and e) Recognize revenue when (or as) performance obligations are satisfied. The impact of the Company’s initial application of ASC 606 did not have a material impact on its financial statements and disclosures. The Company currently generates its revenues from providing consulting services, primarily consisting of project management on existing projects in Colombia and Peru, on a contract basis in regard to data analytics solutions.

b) Stock compensation for services rendered The Company may issue shares of common stock in exchange for services rendered. The cost of the services is valued according to generally accepted accounting principles and have been charged to operations.

c) Net income (loss) per share Basic loss per share is computed by dividing the net income (loss) by the weighted average number of common shares outstanding during the period.

d) Property and equipment All property and equipment are recorded at cost and depreciated over their estimated useful lives, using the straight-line method. Upon sale or retirement, the cost and related accumulated depreciation are eliminated from their respective accounts, and the resulting gain or loss is included in the results of operations. Repairs and maintenance charges, which do not increase the useful lives of the assets, are charged to operations as incurred.

e) Income Taxes Provisions for income taxes are based on taxes payable or refundable for the current year and deferred taxes on temporary differences between the amount of taxable income and pretax financial income, and between the tax bases of assets and liabilities and their reported amounts in the financial statements. Deferred tax assets and liabilities are included in the consolidated financial statements at currently enacted income tax rates applicable to the period in which the deferred tax assets and liabilities are expected to be realized or settled as prescribed in FASB ASC 740. As changes in tax laws or rates are enacted, deferred tax assets and liabilities are adjusted through the provision for income taxes.

Tax positions initially need to be recognized in the financial statements when it is more-likely-than-not the positions will be sustained upon examination by the tax authorities.

f) Cash and equivalents for purposes of the statement of cash flows, the Company considers all highly liquid investments with maturity of three months or less when purchased to be cash equivalents.

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Financial Instruments and Fair Value Measurements ASC 825-10 “Financial Instruments”, allows entities to voluntarily choose to measure certain financial assets and liabilities at fair value (fair value option). The fair value option may be elected on an instrument-by-instrument basis and is irrevocable, unless a new election date occurs. If the fair value option is elected for an instrument, unrealized gains and losses for that instrument should be

Alternet Systems, Inc.
Notes To Consolidated Financial Statements
For the twelve months ended December 31, 2022
(Unaudited)

reported in earnings at each subsequent reporting date. The Company did not elect to apply the fair value option to any outstanding instruments.

ASC 825 also requires disclosures of the fair value of financial instruments. The carrying value of the Company's current financial instruments, which include cash and cash equivalents, accounts payable and accrued liabilities approximates their fair values because of the short-term maturities of these instruments.

FASB ASC 820 "Fair Value Measurement" clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. It also requires disclosure about how fair value is determined for assets and liabilities and establishes a hierarchy for which these assets and liabilities must be grouped, based on significant levels of inputs as follows:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Quoted prices in active markets for similar assets and liabilities and inputs that are observable for the asset or liability.

Level 3: Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The determination of where assets and liabilities fall within this hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

h) Impairment of Long-Lived Assets A long-lived asset is tested for impairment whenever events or changes in circumstances indicate that its carrying value amount may not be recoverable. An impairment loss is recognized when the carrying amount of the asset exceeds the sum of the undiscounted cash flows resulting from its use and eventual disposition. The impairment loss is measured as the amount by which the carrying amount of the long-lived assets exceeds its fair value.

i) Related Party Transactions All transactions with related parties are in the normal course of operations and are measured at the exchange amount.

j) Intangible Assets The useful life of intangible assets is assessed as either finite or indefinite. Following the initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any. Intangible assets with finite useful lives are carried at cost less accumulated amortization. Amortization is calculated using the straight-line method over the estimated useful lives.

Intangible assets with indefinite useful lives are not amortized but are tested for impairment annually. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis. If impairment indicators are present, these assets are subject to an impairment review. Any loss resulting from impairment of intangible assets is expensed in the period the impairment is identified.

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

k) Digital Currency Transactions The Company can enter into transactions that are denominated in digital currency (Ven). These transactions result in digital currency denominated assets and liabilities that are revalued

Alternet Systems, Inc.
Notes To Consolidated Financial Statements
For the twelve months ended December 31, 2022
(Unaudited)

periodically. Upon revaluation, transaction gains and losses are generated and are reported as unrealized gains and losses in other items in the Consolidated Statements of Operations. The Company determines fair value as of the balance sheet date based on Level 1 inputs which consist of quoted prices in active markets. The value of the Company's digital currency is \$117,004. Due to the uncertainty regarding the current and future accounting treatment and tax, legal and regulatory requirements relating to digital currencies or transactions utilizing digital currencies, such accounting, legal, regulatory and tax developments or other requirements may adversely affect us. It was determined on September 30, 2022 that Digital currency held by the Company was impaired and was expensed.

l) Recent Accounting Pronouncements On January 1, 2019, the Company adopted ASU 2016-02, "Leases" which, for operating leases, requires a lessee to recognize a right-of-use asset and a lease liability, initially measured at the present value of the lease payments, in its balance sheet. The standard also requires a lessee to recognize a single lease cost, calculated so that the cost of the lease is allocated over the lease term, on a generally straight-line basis. The adoption of ASU 2016-02 had no effect on the Company's financial statements.

NOTE 4 - GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company's financial position and operating results raise substantial doubt about the Company's ability to continue as a going concern, as reflected by the net income of \$87,405 for the twelve months ended December 31, 2022, and \$577,721 negative working capital. The ability of the Company to continue as a going concern is dependent upon commencing operations, developing sales and obtaining additional capital and financing. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern. The Company is currently seeking additional capital.

NOTE 5 - FORMER RELATED PARTY TRANSACTIONS

As of June 30, 2022, a total of \$1,768,957 was payable to former directors and former officers of the Company, which is non-interest bearing and has no specific terms of repayment. On September 30, 2022, that amount was written off.

NOTE 6 – STOCKHOLDERS EQUITY

The Company is authorized to issue 3,500,000,000 shares of \$0.00001 par value common stock and 10,000,000 shares of \$0.00001 par value preferred stock. Rights and privileges of the preferred stock have not been established.
