BEER GROUP PRESIDENT AND ANADOLU EFES CEO ONUR ALTÜRK COMMENTED:

It is my pleasure to close out 2023 leaving behind remarkable accomplishments despite encountering so many challenges throughout the year. We navigated a challenging landscape marked by declining trends in certain operating markets, a persistent inflationary environment necessitating aggressive pricing strategies, and the unfortunate natural disasters in Türkiye and Pakistan, all of which put significant pressure on our business. Yet, we were able to strengthen our positions in most of the operating markets. Our solid topline, coupled with robust profitability, has once again resulted in an outstanding level of Free Cash Flow. These achievements are the testimony to the amazing organization that the team have built. As we move forward, I am committed to ensuring that we emerge even stronger, building upon this success.

In the beer group, our strong performance since the beginning of the year has resulted in a remarkable volume growth, significantly outpacing our initial expectations. This success can be attributed to our enhanced positions in the operating markets, driven by new brand introductions and strong core brand focus.

In 2023, the Russian beer market stabilized, marking a slight increase compared to the previous year. Despite ongoing pricing challenges, we maintained our commitment to a balanced profitability and volume strategy. This allowed us to close another year in line with our longstanding focus on value generation. In Türkiye, building upon the outstanding performance achieved in 2022, we witnessed further growth in volumes, consistently impressing us in each quarter of the year. This growth is particularly important given the challenging operating environment, primarily driven by decreasing purchasing power in the country. Our success can be attributed to a strategic blend of the right product mix, pricing strategies, and excellence in execution.

Our soft drinks operation has just completed the acquisition of Coca-Cola Bangladesh Beverages Limited from The Coca-Cola Company. Bangladesh is a vast geography promising immense potential for growth, which we believe will not only enhance CCI's robust position in the region but will also add substantial value.

Also, I am very pleased to share that our Board of Directors proposed TL 1.4 billion dividends for 2023. Looking into 2024, I am confident that our persistent commitment to winning portfolio, operational excellence, financial discipline coupled with our digitalization strategies and solid teamwork, will result in even greater successes. I am excited to continue building a future of growth, opportunity, and achievements in order to create value for our shareholders this year and beyond.

Anadolu Efes' **consolidated sales volume** reached 122.9 mhl in FY2023 staying flattish compared to the previous year. The beer group notably recorded a robust 5.0% growth, driven by strong performances in both Türkiye and international beer operations. However, the volume performance of the soft drinks segment was relatively softer, impacted by the challenges faced in Türkiye and Pakistan.

Consolidated net sales revenue was recorded at TL 159,877.2 million in FY2023; marking a 3.1% year-on-year increase, mainly attributed to the price adjustments made during the year. Excluding the impact of TAS 29, the revenue growth was realized at 62.7% in FY2023 with constant currency increase of 39.4%. This performance exceeded our guidance of low-thirties growth in constant currency basis.

Consolidated EBITDA (BNRI) grew by 5.7% to TL 28,573.1 million in FY2023. The EBITDA margin in FY2023 was realized at 17.9%; showing an improvement of 45 bps compared to last year. Despite a slight increase in the ratio of operational expenses to revenue, particularly in the beer group due to the low base of last year, our effective management of cost resulted in superior performance in gross profitability, which was reflected on the EBITDA performance. Excluding the impact of TAS 29, EBITDA (BNRI) expanded by 75.4% to TL 30,555.5 million while EBITDA (BNRI) margin reached 20.8%; marking a substantial increase of 150 bps; significantly surpassing the guidance of flat margin.

Consolidated net profit increased from TL 15,384.2 million in FY2022 to TL 22,128.9 million in FY2023; increasing by 43.8%. This robust bottomline is mainly driven by the net monetary gain recorded due to TAS 29 accounting. Excluding the impact of TAS 29, net income was recorded as TL 7,779.9 million; representing the highest level of net profit ever achieved.

Anadolu Efes' **Free Cash Flow** generation amounted to TL 9,262.0 million in FY2023 representing a significant increase compared to TL 3,052.3 million generated in FY2022. Both the beer group and soft drinks contributed positively to this result. This increase in Free Cash Flow can be primarily attributable to better working capital management and the application of TAS 29. Thus, **Consolidated Net Debt to EBITDA (BNRI)** was at 0.7x as of December 31, 2023.

Beer group consolidated volume reached 35.7 mhl in FY2023, marking a 5.0% year-on-year increase. The growth in volumes came particularly from Türkiye and Russia while Georgia also contributed. The consolidated sales volume of the **International Beer Operations** increased by 4.3% and was reported at 29.5 mhl in FY2023. **Russian** beer operations recorded full-year growth of low-single digit percentages. The competitive landscape remained challenging particularly in terms of pricing, however our long-standing focus on maintaining a balance between profitability and volume performance remained consistent throughout the year. In **Ukraine**, the production continued in two breweries. However, Ukrainian beer market continued to be under pressure. Across **CIS countries**, volume was down by low-single digit percentage on average. On the other hand, it was a highly successful year for **Türkiye beer** operations achieving a full-year growth of 9.1%; totaling 6.2 mhl.

Beer Group concluded the year with a **consolidated revenue** of TL 58,003.5 million, 6.3% below previous year. **The revenue from international beer operations** declined by 14.7% year-on-year to TL 41,906.0 million in FY2023; due to mismatch between the inflation rate and the devaluation/appreciation rate of international operation's reporting currencies against TL. **The sales revenue from Türkiye beer operations** was recorded at 15,959.3 million in FY2023; implying a growth of 27.8%.

Excluding the impact of TAS 29, beer group revenue was recorded at 55,501.2 million in FY2023, marking a strong yearly growth of 50.2% while international beer operations' revenue displayed a strong growth of 40.5%. Türkiye beer revenue was at 13,403.4 million registering a growth of 92.3%; thanks to strong volume momentum throughout the year together with timely and effective implementation of pricing.

Beer Group gross profit expanded by 3.7% to 26,022.9 million in FY2023, yielding a margin improvement of 429 bps to 44.9% as a result of effective pricing strategies and efficient cost management. Excluding the impact of TAS 29, gross margin expansion was 488 bps.

Beer group EBITDA (BNRI) declined by 3.6% to TL 10,671.1 million while the margin expansion was recorded at 50 bps; reaching 18.4%. Excluding the impact of TAS 29, EBITDA (BNRI) expansion was 126 bps; significantly beating guidance of flat margin; attributable to the robust profitability margin achieved both in Türkiye and Russia.

Beer Group net income was reported at TL 12,293.4 million versus TL 9,095.8 million. The increase is mainly due to higher monetary gain recorded as a result of implementation of TAS 29 while the net financial expenses were lower; positively affecting net profitability. Excluding the impact of TAS 29, beer group net income was reported as TL 3,698.3 million.

OPERATIONAL PERFORMANCE - SOFT DRINKS GROUP

COCA-COLA İÇECEK CEO KARIM YAHİ COMMENTED:

We are proud to have exceeded the \$4 billion mark in consolidated revenue for the first time. As always, we remained committed to delivering quality value by growing our operating profit ahead of revenue, leading the way to a 201 bps EBIT margin expansion. Our EBIT margin expansion before implementation of inflation accounting was 300 bps, significantly beating our guidance at the beginning of the year.

In 2023, we faced difficulties in our operations due to natural disasters, economic challenges, and political unrest in neighboring countries. These issues affected how much consumers could spend, which in turn impacted our business. Therefore, our sales volume was softer than our initial expectations with a 2.6% decline on a consolidated basis. This was mostly mitigated by our revenue growth management strategy, which includes dynamic pricing and discount management as well as effective mix management. Accordingly, our NSR/uc before implementation of inflation accounting grew by 21.7% in USD terms and reached \$2.5, the highest mark in the last 10 years. The pre-inflation accounting FX Neutral NSR growth was 44.7%, meeting our guidance.

As an important milestone, we recently completed the acquisition of Coca-Cola Bangladesh Beverages Limited from The Coca-Cola Company. Together with Bangladesh, the 12th country in our operating geography, we have solidified our position as one of the leading bottlers in the Coca-Cola system with more than 10,000 people across 31 bottling plants, offering a diverse portfolio of beverages to 600 million people. This acquisition makes CCI's operating region the third-largest population served by a Coke bottler. Bangladesh has a bright future ahead, and we are looking forward to capturing growth and creating value by deploying our capabilities.

Our operating model's strength allows us to navigate many challenging environments. We remain committed to balancing volume growth and value generation in 2024 as well, while continuing to generate sustainable returns for our shareholders.

I am proud of the commitment of our team and humbled by the support of our business partners, and shareholders who are standing by us in this journey. As a result of this amazing collaboration, CCI has reached \$1.4 EPS without TAS29, which is the highest level in the last 10 years. The strength and resilience of our business and our people are also clear. We are excited about building on our momentum going forward, delivering another year of profitable growth.
