NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United Stated of America ("U.S. GAAP") for interim unaudited financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. The unaudited financial statements include all adjustments (consisting of normal recurring adjustments) which are, in the opinion of management, necessary in order to make the condensed financial statements not misleading. Notes to the financial statements which would substantially duplicate the disclosures contained in the annual financial statements for the most recent fiscal period, as reported in the Annual Report, have been omitted.

Recently Adopted Accounting Pronouncements

The Company has implemented all new accounting pronouncements that are in effect and that may impact its financial statements and does not believe that there are any other new pronouncements that have been issued that might have a material impact on its financial position or results of operations.

NOTE 3 - GOING CONCERN

The accompanying financial statements have been prepared on a going concern basis which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. As shown in the financial statements, the Company has incurred recurring net losses since its inception and has raised limited capital. These factors raise substantial doubt regarding the Company's ability to continue as a going concern. The financial statements do not include any adjustment relating to the recoverability and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. The Company is taking certain steps to provide the necessary capital to continue its operations. These steps include but are not limited to: 1) focus on our new business model and 2) raising equity or debt financing.

NOTE 4 - PREFERRED STOCK

The Corporation is authorized to issue 1,000,000 shares of Preferred Stock. We have authorized One Hundred (100) Shares of Series A Preferred Stock and Two Thousand Shares of Series B Preferred Stock, respectively, both with a par value of \$0.10.

NOTE 5 – DERIVATIVE FINANCIAL INSTRUMENTS

The Company evaluates all of its agreements to determine if such instruments have derivatives or contain features that qualify as embedded derivatives. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported in the statements of operations. For stock-based derivative financial instruments, the Company uses the Black-Scholes Option Pricing model to value the derivative instruments at inception and on subsequent valuation dates. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period. Derivative instrument liabilities are classified in the balance sheet as current or non-current based on whether or not net-cash settlement of the derivative instrument could be required within 12 months of the balance sheet date. As of December 31, 2021, the Company's only derivative financial instruments were embedded conversion features associated with long-term convertible notes payable which contain certain provisions that allow for a variable number of shares on conversion.

NOTE 6 - RELATED PARTY TRANSACTIONS

Management has evaluated related party transactions pursuant to the requirements of ASC Topic 850 and has determined that no material related party transactions exist through the date of this filing apart from the following:

None noted.
