I. MANAGEMENT REPORT ON THE ACTIVITIES OF THE COMPANY AND THE GROUP DURING THE FINANCIAL YEAR ENDING 31 DECEMBER 2022 - APPROPRIATION OF RESULTS - ALLOCATION OF LOSSES CARRIED FORWARD TO THE "SHARE PREMIUM" ACCOUNT – RELATED-PARTY AGREEMENT (first to fifth resolutions)

We invite you to refer to the management report and the report on the management of the group of the board of directors and to the reports of the auditors which have been made available to you in accordance with legal and regulatory requirements.

With regard to the progress of corporate affairs since the beginning of the current financial year, we invite you to refer to the management report of the Board of Directors.

Taking into account the allocation of the losses of the past fiscal year to the "retained earnings" account, the "retained earnings" account will be in debit in the amount of 123,795,863.50 euros at December 31, 2022. We also remind you that the « share premium » accounts amounts to 257,222,233 euros as of December 31, 2022.

We propose to charge all the losses recorded in the "retained earnings" account to the "share premium" account, which would thus be reduced to 133,426,369.50 euros. The "retained earnings" account would be completely cleared.

This allocation will enable the Company to improve the presentation of its balance sheet and will facilitate the obtaining of loans from credit institutions or grants from organizations subject to European regulations.

Indeed, given the debit amount of the "retained earnings" account and although the shareholders' equity is higher than half of the share capital, according to the criteria retained by these institutions, the Company has no capacity to obtain financing.

This proposal will therefore enable the Company to have an acceptable balance sheet according to the criteria retained by the entities subject to European law and to obtain financings.

Regarding agreements mentioned in Articles L. 225-38 and seq. of the French Commercial Code

In accordance with Article L. 255-38 of the French Commercial Code, the Company's general meeting is asked to vote on one related-party agreement signed by the Company during the year.

We entered into a transfer of receivables agreement with Bpifrance, to provide to Collectis financing of 80% of the tax receivables due to Collectis in connection with the research tax credit (Crédit Impôts Recherche). Pursuant to this agreement and according to market standards, Bpifrance advances 5,456,000 euros over the period from June 15, 2022 to June 15, 2023, with a fee to be charged to Collectis of 0.40%.

a. RENEWAL OF THE APPOINTMENT OF OUTGOING DIRECTORS (sixth to ninth resolutions)

We therefore propose to renew the appointments as director of Messrs. Jean-Pierre Garnier, our Chairman, Laurent Arthaud, Pierre Bastid and Rainer Boehm, for a term of three (3) years expiring at the end of the ordinary annual general meeting of shareholders convened to vote on the financial statements for the financial year ending December 31, 2025.

Given the current appointment of Mr. Jean-Pierre Garnier proposed above, the age limit applicable to the chairman of the board of directors is reached. In this context and in order to allow the Company to benefit from the experience of Mr. Garnier who deeply understands the Company, we suggest you modifying the age limit applicable to the chairman of the board of directors for an increase from 75 to 80 years (thirteenth resolution).

If this proposal is acceptable to you, Article 11.2 of the Company's articles of association would be amended accordingly.

b. APPOINTMENT OF NEW DIRECTOR (tenth resolution)

As indicated above, we propose to complete the Board of Directors and to appoint Mrs. Cécile Chartier as new director for a period of three (3) years expiring at the end of the annual ordinary general meeting of shareholders called to approve the accounts for the financial year ending 31 December 2025.

Prior to his tenure at Nextvivo, Inc., Dr. Chartier was vice president of research at Iovance Biotherapeutics, Inc. where she headed the research and translational research departments. Prior to Iovance Biotherapeutics, Inc., Dr. Chartier directed the target validation activities. She also worked at Shering (US Berlex) and Transgène (France), where she focused on gene therapy.

Dr. Chartier obtained her PhD in molecular biology from the Université Louis Pasteur de Strasbourg, France and pursued a post-doctoral training at Harvard Medical School.

III. AUTHORIZATION TO THE BOARD OF DIRECTORS TO BUY BACK SHARES OF THE COMPANY (eleventh and twelfth resolutions)

We propose that you renew the authorization granted to the Board of Directors for a period of eighteen (18) months by the General Meeting of June 28, 2022 to implement a share buyback program.

In the past, this share buyback program was used exclusively within the framework of a liquidity contract, meeting the objective of promoting the liquidity of the Company's shares by an investment services provider. The request we are submitting to you is to allow the implementation of such a liquidity contract, up to a limit of 10% of the share capital.

This year, the amount of funds for the share buy-back program would be a maximum of 10,000,000 euros. The maximum purchase price per share (excluding fees and commissions) would be set at 10 euros.

We also submit for your approval the authorization to cancel, if necessary, the Company's shares held by the Company in the context of the implementation of its share buyback program and to reduce the share capital accordingly.

IV. FINANCIAL DELEGATIONS TO BE GRANTED TO THE BOARD OF DIRECTORS (*fourteenth to twenty-fourth resolutions*)

We propose to renew in advance the financial delegations granted to the Board of Directors by the General Meeting of June 28, 2022 which have been expired, in order to avoid the subsequent convening of a new meeting for this sole purpose.

In this way your Board of Directors will have the widest possible range of delegations to respond to market opportunities which may arise without having to convene the shareholders.

We need external funding to carry out our activities and maintain our operations.

Based on the current operating plan, Collectis (excluding Calyxt) anticipates that the cash, cash equivalents, and restricted cash of \$88 million as of March 31, 2023 (restricted cash was \$5 million) will fund its operations into the third quarter of 2024.

We believe it is appropriate to seek additional capital if market conditions are favorable or in light of specific strategic considerations, striving to make these financial decisions with the utmost care and based on a rational process supported by clinical data.

Our capital-raising request is essential to create value for our shareholders. The funding would allow us to:

- accelerate the progress of clinical trials for our UCART product candidates (UCART22, UCART123, and UCART20x22) and expand to new sites (mainly in the US, in France and other countries);
- ensure our competitive advantage by continuing investment in manufacturing capabilities in Raleigh, North Carolina and Paris, France (raw materials, starting materials, clinical products, and preparation for planned marketing approval and commercialization);
- support the ongoing operating resources and infrastructure to advance the Company to the next stages of product development and commercialization;
- expand Collectis' gene editing technology.

These new delegations would terminate the delegations with the same purpose granted by the general meeting of June 28, 2022.

You will read the reports drawn up by the Auditors on these delegations and authorizations.

In this respect, we would like to point out that, except for the 14th resolution, reserved to the EIB warrants:

- **the overall maximum nominal amount of capital increases which may be carried out, immediately or in the future, by virtue of the delegations thus granted would be set at 833.756,52 euros (i.e. 30% of the share capital on the date of preparation of this report)**, to which amount would be added, where applicable, the nominal value of any additional shares or securities to be issued, to preserve, in accordance with the law, the rights of holders of securities giving access to the capital and other rights giving access to the share capital, and
- the maximum aggregate nominal amount of debt securities that may be issued pursuant to the delegations thus granted shall be set at 300,000,000 euros, it being specified that this ceiling shall not apply to the debt securities referred to in Articles L. 228-40, L. 228-36-A and L. 228-92 paragraph 3 of the Commercial Code, the issue of which would be decided or authorised by the Board of Directors under the conditions provided for by Article L. 228-40 of the Commercial Code, or in other

cases, under the conditions that the Company would determine in accordance with the provisions of Article L. 228-36-A of the Commercial Code,

it being specified :

(i) that these ceilings would not apply to the delegations of authority that it is proposed that you grant to your Board of Directors with a view to increasing the share capital

(a) with cancellation of preferential subscription rights, in favor of the European Investment Bank (14th resolution),

(b) with maintenance of the shareholders' preferential subscription rights (20th resolution) (for which the ceiling is set at 50% of the share capital at the date of preparation of this report) and

(c) by incorporation of premiums, reserves, profits or others (25th resolution) and

(ii) that in any event, (i) the maximum aggregate nominal amount of the capital increases that may be carried out pursuant to the delegations of authority granted under the 15th to 23rd resolutions above shall not exceed 1.389.594,20 euros, it being specified that the additional amount of shares to be issued to preserve, in accordance with the legal or regulatory provisions and, where applicable, the applicable contractual stipulations, the rights of the holders of securities and other rights giving access to shares shall be added to this ceiling and (ii) the maximum aggregate nominal amount of debt securities which may be issued pursuant to the delegations granted under the aforementioned resolutions is set at 300,000,000 euros (or the equivalent value at the date of issue of this amount in foreign currency or in a unit of account established by reference to several currencies), it being specified that this ceiling does not apply to the debt securities referred to in Articles L. 228-40, L. 228-36-A and L. 228-92 paragraph 3 of the Commercial Code, the issue of will be decided or authorized by the Board of Directors under the conditions provided for in Article L. 228-40 of the Commercial Code, or in other cases, under the conditions that the Company determines in accordance with the provisions of Article L. 228-36- A of the Commercial Code.

All of these delegations would be granted for a period of twenty-six (26) months, with the exception of the delegations referred to in the 14th to 19th resolutions (issues to EIB or to categories of persons meeting specific characteristics) which would be granted for a period of eighteen (18) months.

The Board of Directors shall have full powers, with the right to delegate and subdelegate, to implement the delegations thus granted and to carry out on one or more occasions in the proportions and at the times it shall determine, the issues referred to therein - as well as, where applicable, to postpone them - to enter into all agreements to successfully complete the planned issues, to record the completion thereof and to amend the Bylaws accordingly.

Should the Board of Directors use the delegation of authority thus granted to it, it will report thereon to the next ordinary general meeting in accordance with the law and regulations.

We therefore propose that you examine each of the delegations and authorizations which you are requested to grant to your Board of Directors.

- *Delegation of authority to be granted to the board of Directors to increase the capital by issuing ordinary shares or any other securities with cancellation of shareholders' preferential subscription rights in favor of the European Investment Bank (14th resolution)*

As previously disclosed, the Company entered into finance and warrant agreements with the European Investment Bank allowing a credit facility for up to €40 million, divided in three tranches (€20M for the first tranche ("Tranche A"), €15M for the second tranche ("Tranche B") and €5M for the third tranche ("Tranche C"). The Company plans to use the proceeds of this facility toward the development of its UCART pipeline.

Under these agreements, the Company agreed to issue warrants to EIB as a condition to the funding of each of the three tranches of the finance agreement. On April 2023, the Company announced the drawdown of the Tranche A, and issued 2,799,188 warrants to the benefit of the EIB, representing 5.0% of the Company's outstanding share capital, at an exercise price equal to €1.92.

In order for the Company to drawdown Tranche B and Tranche C, if and when the other conditions precedent are met, the number of warrants to be issued to the benefit of the EIB will be determined as follow:

- with respect to Tranche B:
 - (a) if the sum of cash injections through the issuance of new ordinary shares or other securities subordinated to the Finance Contract and upfront and milestone payments in connection with existing or new partnerships between October 31, 2022 and the Tranche B disbursement exceeds €42,500,000, an aggregate number of warrants equal to 15,000,000 divided by the product of the average price of the Company's ordinary shares over the five trading days before the issuance date (the "5-Day AP") multiplied by 4.0;
 - (b) otherwise, an aggregate number of warrants equal to 15,000,000 divided by the product of the 5-Day AP multiplied by 3.75.
- with respect to Tranche C:
 - (a) if the sum of cash injections through the issuance of new ordinary shares or other securities subordinated to the Finance Contract and upfront and milestone payments in connection with existing or new partnerships between October 31, 2022 and the Tranche C disbursement exceeds €70,000,000, an aggregate number of warrants equal to 5,000,000 divided by product of the 5-Day AP multiplied by 4.75;
 - (b) otherwise, an aggregate number of warrants equal to 5,000,000 divided by the product of the 5-Day AP multiplied by 4.25.

We request that you delegate to the Board of Directors the authority to decide to issue ordinary shares of the Company as well as any securities, with cancellation of the preferential subscription right, to the benefit of the European Investment Bank.

The overall nominal amount of the capital increases which may be carried out by virtue of this resolution is set at 155,000 euros or its equivalent in foreign currency, to which shall be added, if applicable, the nominal value of additional shares or securities to be issued, if any, in order to preserve, in accordance with the law and as the case may be to the applicable contractual provisions, the rights of holders of securities and other rights giving access to the capital.

The issue price of the new shares which may be issued pursuant to this delegation shall be at least equal to the average price of a share on the Euronext Growth market (or in the event of failure to list on this market, on any other market on which the Company's shares are then listed), weighted by volumes, during the last three trading sessions prior to the setting of the issue price, possibly reduced by a maximum discount of 20%, taking into account, if applicable, the date of dividend entitlement, it being specified that (i) in the event of the issue of securities giving access to the share capital, the issue price of the ordinary shares which may be issued as a result of their exercise, conversion or exchange of such securities may be set, at the Board's discretion, by reference to a calculation formula defined by the Board and applicable after the issue of such securities (e.g. upon their exercise, conversion or exchange), in which case the aforementioned maximum discount may be assessed, if the Board deems it appropriate, on the date of application of the said formula (and not on the date of setting the issue price) and (ii) the issue price of the securities giving access to the share capital, if any, issued pursuant to this resolution shall be such that the amount, if any, received immediately by the Company, plus the amount which may be received by the Company upon exercise or conversion of such securities, shall be, for each share issued as a result of the issue of such securities, at least equal to the minimum amount referred to above.

- *Delegation of authority to be granted to the Board of Directors to increase the capital by issuing ordinary shares or and/or, any other securities, with cancellation of shareholders' preferential subscription rights in favor of a category of persons meeting specified characteristics (investors with experience in the health or biotech sector) (15th resolution)*

We request that you delegate to the Board of Directors the authority to decide to issue ordinary shares of the Company as well as any securities, with cancellation of the preferential subscription right, to the benefit of categories of persons meeting specific characteristics.

The overall nominal amount of the capital increases which may be carried out immediately or in the future by virtue of this delegation is set at 833,756.52 euros or its equivalent in foreign currency, an amount to which will be added, where applicable, the nominal value of any additional shares or securities to be issued to preserve in accordance with the law and, where applicable the applicable contractual provisions, the rights of holders of securities and other rights giving access to capital, being specified that this amount will be deducted from the overall ceiling referred to above.

The total nominal amount of the issues of debt securities giving access to the capital which may be carried out in this way may not exceed 300,000,000 euros (or the equivalent value of this amount in the case of an issue in another currency).

Within the framework of this delegation, we ask you to cancel the shareholders' preferential subscription right on the shares and securities to be issued and to reserve the subscription of the shares and securities to the following category of persons:

- natural or legal persons (including any companies), trusts, and investment funds, or other investment vehicles of whatever form (including, without limitation, any investment fund or venture capital company, in particular any FPCI, FCPI or FIP), whether or not they are shareholders of the Company, who habitually invest or have invested at least 5 million euros over the last 36 months in the health or biotechnology sector,

The issue price of the new shares likely to be issued pursuant to this delegation shall be at least equal to the average price of a share on the Euronext Growth market (or, in the absence of a listing on this market, on any other market on which the Company's shares are then listed), weighted by volumes, during the last three trading sessions prior to the setting of the issue price, possibly reduced by a maximum discount of 20%, taking into account, if applicable, their vesting date, it being specified that (i) in the event of the issue of securities giving access to the share capital, the issue price of the ordinary shares likely to result from their exercise, conversion or exchange may be set, as the case may be, at the Board's discretion by reference to a calculation formula defined by the Board and applicable after the issue of said securities (for example, upon their exercise, conversion or exchange), in which case the maximum discount referred to above may be assessed, if the Board deems it appropriate, on the date of application of said formula (and not on the date of setting the issue price), and (ii) the issue price of the securities giving access to the share capital, if any, issued pursuant to this resolution shall be such that the amount, if any, received immediately by the Company, plus the amount likely to be received by the Company upon exercise or conversion of such securities, shall be, for each share issued as a result of the issue of such securities, at least equal to the minimum amount referred to above.

The proposed maximum discount allows the Company to have more flexibility in pricing according to market opportunities.

- *Delegation of authority to be granted to the Board of Directors to increase the share capital by issuing ordinary shares and/or any other securities with cancellation of shareholders' preferential subscription rights in favor of a category of persons meeting specified characteristics (credit institution, investment services provider or member of an investment pool guaranteeing the realization of the issue in question), including, as the case may be, within the framework of an equity financing program known as "At-the-market" or "ATM" (16th resolution)*

This delegation is identical in all respects to the delegation referred to in point (a) above, except for the category of beneficiaries:

- any credit institution, any investment services provider or member of an investment pool, whether French or foreign, undertaking to guarantee the completion of the capital increase or any issue which may lead to a capital increase in the future that may be carried out by virtue of this delegation.

- *Delegation of authority to be granted to the Board of Directors to increase the share capital by issuing ordinary shares and/or any other securities, with cancellation of shareholders' preferential subscription rights in favor of a category of persons meeting specified characteristics (industrial companies, institutions or entities active in the health or biotechnology sector) (17th resolution)*

This delegation is in all respects identical to the delegations referred to in (a) and (b) above, with the exception of:

(i) the category of beneficiaries:

- Industrial companies, institutions or entities of any kind, French or foreign, active in the health or biotechnology sector, directly or through a controlled company or a company over which they are controlled within the meaning of Article L. 233-3 I of the Commercial Code, where applicable, when entering into a commercial agreement or a partnership with the Company.

(ii) the proposed maximum discount of 15%.

- *Delegation of authority to be granted to the Board of Directors to increase the share capital by issuing ordinary shares or any other securities with cancellation of shareholders' preferential subscription rights in favor of a category of persons meeting specified characteristics in the framework of an equity or bond financing agreement (18th resolution).*

This delegation will allow the Board to increase the capital by issuing ordinary shares as well as any securities - without preferential subscription rights - to the benefit of a category of persons meeting specific characteristics within the framework of an equity or bond financing agreement.

Such delegation would allow the Company to increase its financial flexibility alongside the other financing tools it has in place.

The total nominal amount of the share capital increases which may be carried out immediately and/or in the future pursuant to this delegation may not exceed 833,756.52 euros or its equivalent in foreign currency, to which shall be added, where applicable, the additional amount of shares to be issued to preserve, in accordance with legal or regulatory provisions and, where applicable, applicable contractual stipulations, the rights of holders of securities and other rights giving access to shares,

The total amount of debt securities which may be issued under this delegation may not exceed 300,000,000 euros.

We therefore ask you to cancel the shareholders' preferential subscription rights to the ordinary shares of the Company and/or to any securities in favor of the following category of persons:

- any credit institution, investment services provider, investment fund or company undertaking to subscribe for or guarantee the completion of the capital increase or any issue of securities which may result in a future capital increase (including, in particular, through the exercise of share warrants) which may be carried out pursuant to this delegation of authority in connection with the implementation of an equity or bond financing contract.

The issue price of the new shares which may be issued by virtue of this delegation shall be at least equal to the average of the prices of a share on the Euronext Growth market (or in the absence of a listing on this market, on any other market on which the Company's shares would then be listed), weighted by volumes, for the last three trading sessions preceding the setting of the issue price, possibly reduced by a maximum discount of 20%, taking into account, if applicable, their date of entitlement, it being specified that (i) in the event of the issue of securities giving access to the share capital, the issue price of the ordinary shares likely to result from their exercise, conversion or exchange may be set, as the case may be, at the Board's discretion by reference to a calculation formula defined by the Board and applicable after the issue of said securities (for example, upon their exercise, conversion or exchange), in which case the maximum discount referred to above may be assessed, if the Board deems it appropriate, on the date of application of said formula (and not on the date of setting the issue price), and (ii) the issue price of the securities giving access to the share capital, if any, issued pursuant to this resolution shall be such that the amount, if any, received immediately by the Company, plus the amount likely to be received by the Company upon exercise or conversion of such securities, shall be, for each share issued as a result of the issue of such securities, at least equal to the minimum amount referred to above.

Again, the proposed maximum discount allows the Company to have greater flexibility in pricing according to market opportunities.

- *Delegation of authority to be granted to the Board of Directors to decide on the issuance of ordinary shares to be issued immediately or in the future by the Company, with cancellation of the shareholders' preferential subscription rights, to the benefit of a category of persons meeting specified characteristics within the framework of an equity financing program on the American Market, known as "At-the-market" or "ATM" (19th resolution)*

In the framework of this resolution, we ask you to delegate to the Board of Directors, with the right of sub-delegation under the conditions provided for by law, its authority to proceed, on one or more occasions, in France and/or abroad, in such proportions and at such times as it shall see fit, with the issue, in euros or in a foreign currency, or in any other monetary unit established by reference to several currencies, with the cancellation of the shareholders' preferential subscription right, of ordinary shares in the form of American Depositary Shares or American Depositary Receipts of the Company.

The nominal amount of any share capital increase decided upon by virtue of this delegation shall be deducted from the overall ceiling provided for above for increases without preferential subscription rights, to which shall be added, as the case may be, the additional amount of the shares or securities to be issued, if any, in order to preserve, in accordance with the law and, as the case may be, with the applicable contractual stipulations, the rights of the bearers of securities granting access to the share capital and other rights granting access to the share capital.

V. AUTHORIZATIONS TO BE GRANTED IN THE CONTEXT OF THE INCENTIVE POLICY FOR THE GROUP'S OFFICERS AND EMPLOYEES (26th and 27th resolutions)

We propose that you renew the delegations and authorizations granted to the Board of Directors in connection with the stock-based compensation policy implemented by the Company particularly in favor of the employees and senior executives of the Company and of companies in the Collectis Group and of the chairman of the Board of Directors.

These delegations and authorizations would allow your Board of Directors to have at its disposal the profit-sharing tools which the legislation makes available to companies.

Stock Options and Free Shares

Equity is an essential component of our compensation and reward structure. This is particularly true in the U.S. where new hire equity and annual equity awards are an integral aspect of total compensation within the biotech and pre-commercial marketplace.

As we compete for talent in this highly-competitive biopharmaceutical market, the ability to offer equity awards provides a critical lever in attracting and hiring new employees with the talent and capabilities necessary for our future success.

Our compensation philosophy is to reward, attract, motivate and retain our employees at the Market 50th % for total compensation, including equity.

As part of our regular compensation setting process, we analyze our executive and broad-based equity usage relative to our peers and the broader industry benchmarks

- The Board monitors its burn rate usage levels relative to peer companies to ensure that our granting practices are aligned with market norms
- Our historic burn rate is aligned with competitive market standards. Specifically, our 3-year average burn rate is 2.9 % conservative by US standards and within the typical market range of our European peer organizations
- However, French and European dilution and burn rate guidelines hinders our ability to grant competitive equity grants to a growing US based employee population

We went through a thorough analysis on our equity plan design and corporate governance

and the following shareholder friendly features have been added to our equity plans and will be confirmed for the 2023-2024 plans:

- Prohibit the setting of the exercise price at a discount from Fair Market Value;
- 3-year minimum vesting requirement for free share awards to CEO and all employees (including Executives);
- Implementation of Performance-based vesting conditions for CEO and Executives.
- Active Board monitoring of dilution and burn rate;
- No tax gross-ups;
- Broad-based equity incentive program with ~300 employees as eligible participants.

Annual Burn Rate

Collectis has averaged an annual burn rate spend of 2.9% over the past three years, which is conservative by US standards (below 25th percentile) and within the typical market range of our European peer organizations. However, considering high levels of employees turnover, Collectis' net burn rate (i.e. "real dilution") has been closer to 0.5% for the past year.

Current Overhang

Our current overhang is at 22.1%, due to significant portion of options that are underwater. High overhang levels are driven by significant grant activity in the first year post-Nasdaq IPO, and continued inability to exercise options that are underwater. 90% of the currently issued stock options are underwater at an exercise price of 1.86€.

These authorizations would be granted for a period of twelve (12) months.

We hereby inform you that the sum of the shares which may be issued by virtue of these authorizations and delegations may not exceed 2,779,188 shares with a nominal value of 0.05 euro each, representing approximately 5% of the capital on the date of this report, it being specified that the additional amount of shares to be issued to preserve, in accordance with the applicable contractual stipulations, the rights of the holders of securities and other rights giving access to shares, shall be added to this ceiling.

The Board would have full powers to implement the delegations and authorizations thus granted under the terms and limits described in the resolutions submitted for your approval.

For each of these proposals, the auditor's reports have been prepared and made available to you.

We therefore propose that you examine each of the authorizations which you are requested to grant to your Board of Directors.

a) Authorization to the Board of Directors to grant options to subscribe for or purchase shares of the Company (26th resolution)

We ask you to authorize the Board of Directors, within the framework of Articles L. 225-177 to L. 225-185 of the Commercial Code, to grant, during the periods authorised by law, on one or more occasions, to members of the salaried personnel and/or corporate officers (or some of them) of the Company and of the companies and economic interest groups linked to the Company under the conditions defined in Article L. 225-180-I of the said Code, options giving the right to subscribe to or purchase ordinary shares, it being specified that:

- the number of options granted under this authorization shall not entitle the holders to purchase or subscribe for more than 2,779,188 shares with a nominal value of 0.05 euro each,
- this number shall be deducted from the overall ceiling referred to above,
- the options granted to corporate officers and executives, members of the executive committee will be subject to performance conditions, (i.e. 1/3 if the Company reaches a certain level of cash flow, 1/3 if clinical and/or regulatory target is met and 1/3 if manufacturing target is met),

- the options will have an exercise schedule of at least three years (i.e. at least part of the options granted will not be exercisable until the third anniversary of their grant), the Board of Directors having the option, however, to provide for an acceleration of all or part of the exercise schedule in the event of a change of control of the Company,
- the total number of shares which may be subscribed upon exercise of the share subscription options granted and not yet exercised may never exceed one third of the share capital.

The purchase or subscription price per share shall be set by the Board of Directors on the day the option is granted in accordance with the provisions of Article L. 225-177 of the Commercial Code and shall be at least equal to the highest closing price of a share of the Company on Euronext Growth Paris and on Nasdaq or any other market on which the Company's shares are traded (including, as the case may be, in the form of American Depositary Shares) prior to the date of the decision of the Board of Directors to grant the options, without in any event being less than ninety-five percent (95%) of the average quoted price of a share of the Company on Euronext Growth Paris and on Nasdaq or any other market on which the shares of the Company would then be listed (including, if applicable, in the form of American Depositary Shares) during the twenty (20) stock market sessions preceding the date of the Board of Directors' decision to grant the options, it being specified that when an option allows its beneficiary to purchase shares that have already been purchased by the Company, its exercise price, without prejudice to the foregoing clauses and in accordance with the applicable legal provisions, may not be less than 80% of the average price paid by the Company for all of the shares that it has previously purchased,

We ask you to set the period of validity of the options at ten (10) years from the date of grant, it being specified, however, that this period may be reduced by the Board of Directors for beneficiaries resident in a given country to the extent necessary to comply with the law of that country.

b) Authorization to the Board of Directors to proceed with the free allocation of existing and/or new ordinary shares (27th resolution)

In accordance with the provisions of Articles L. 225-197-1 et seq. of the Commercial Code, we ask you to authorize the Board of Directors to proceed, on one or more occasions, with the free allocation of ordinary shares in existence and/or to be issued by the Company, to the benefit of members of the Company's salaried personnel, or certain categories of them, and/or its corporate officers who meet the conditions set out in Article L. 225-197-1, II of the Commercial Code, as well as to the benefit of members of the salaried personnel of companies or economic interest groups in which the Company holds, directly or indirectly, at least 10% of the share capital or voting rights on the date of allocation of the shares concerned.

We ask you to set the total number of shares that may be allocated free of charge by the Board of Directors under this authorization at 2,779,188 shares with a nominal unit value of 0.05 euro each, it being specified that:

- the total number of free shares granted by the Board of Directors may never exceed the overall limit of 10% of the Company's existing share capital on the date of the decision to grant them and that this number shall be deducted from the overall limit provided for above,
- the number of shares that can be granted free of charge to corporate officers and executives, members of the executive committee must be subject to performance conditions (i.e. 1/3 if the Company reaches a certain level of cash flow, 1/3 if clinical and/or regulatory target is met and 1/3 if manufacturing target is met).

The allocation of the shares to their beneficiaries shall be definitive, subject to the fulfilment of any conditions or criteria set by the Board of Directors, at the end of a period of at least three (3) years (the "Vesting Period") and that the beneficiaries of these shares shall, where applicable, retain them for a period set by the Board (the "Retention Period") which, together with the Vesting Period, may not be less than three (3) years, it being specified that the Board of Directors shall have the right to provide, if applicable, in the event of a change of control of the Company, for an acceleration of the Vesting Period

and the Retention Period, in whole or in part, without the latter being less than one (1) year and the Retention Period combined with that of the Vesting Period being less than two (2) years.

VI. Delegation of authority to be granted to the Board of Directors to increase the share capital by issuing shares and securities giving access to the Company's share capital for the benefit of employees participating in the group savings plan (29th resolution)

We request that, in accordance with the provisions of Articles L. 225-129 et seq. of the Commercial Code, in particular Articles L. 225-129-2, L. 225-129-6 and L. 225-138-1, and Articles L. 3332-18 et seq. of the Labor Code, to delegate to the Board of Directors the authority to increase the share capital, on one or more occasions, at its sole discretion, by issuing ordinary shares reserved, directly or through a company investment fund, for members of a savings plan as provided for in Articles L. 3332-1 et seq. of the Labor Code, which would be open to employees of the Company and of companies affiliated to it within the meaning of Article L. 225-180 of the French Commercial Code and Article L. 3344-1 of the Labor Code, and who also meet the conditions that may be set by the Board of Directors (hereinafter referred to as the "Group Employees").

We therefore ask you to cancel the preferential subscription right granted to shareholders by Article L. 225-132 of the Commercial Code and to reserve the subscription of the said ordinary shares for the Group's Employees.

We ask you to set the period of validity of this delegation at eighteen (18) months from the date of this General Meeting and to set the maximum nominal amount of shares that may be issued in this way at 56,818 euros

The issue price of a share shall be determined by the Board of Directors in accordance with the provisions set out in Article L. 3332-20 of the Labor Code.

However, your Board of Directors considers that such a proposal does not fall within the framework of the Company's policy of employee profit-sharing and therefore suggests that you do not adopt the resolution submitted for your approval to this effect.

Under these conditions, we ask you to vote on text of the resolutions is proposed to you by your Board of Directors.

The Board of Directors
