

UNITED STATES SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549
FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2021

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____
Commission file number **001-34018**

GRAN TIERRA ENERGY INC.

(Exact name of registrant as specified in its charter)

Delaware

98-0479924

(State or other jurisdiction of incorporation or organization)

(I.R.S. Employer Identification No.)

900, 520 - 3 Avenue SW

Calgary, Alberta Canada T2P 0R3

(Address of principal executive offices, including zip code)

(403) 265-3221

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, par value \$0.001 per share	GTE	NYSE American
		Toronto Stock Exchange
		London Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files).

Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of large accelerated filer, accelerated filer, smaller reporting company, and emerging growth company in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes ☐ No ☒

On July 30, 2021, 366,991,788 shares of the registrant's Common Stock, \$0.001 par value, were issued.

CAUTIONARY LANGUAGE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). All statements other than statements of historical facts included in this Quarterly Report on Form 10-Q regarding our financial position, estimated quantities and net present values of reserves, business strategy, plans and objectives of our management for future operations, covenant compliance, capital spending plans and benefits of the changes in our capital program or expenditures, our liquidity, the impacts of the coronavirus (COVID-19) pandemic and those statements preceded by, followed by or that otherwise include the words "believe", "expect", "anticipate", "intend", "estimate", "project", "target", "goal", "plan", "budget", "objective", "could", "should", or similar expressions or variations on these expressions are forward-looking statements. We can give no assurances that the assumptions upon which the forward-looking statements are based will prove to be correct or that, even if correct, intervening circumstances will not occur to cause actual results to be different than expected. Because forward-looking statements are subject to risks and uncertainties, actual results may differ materially from those expressed or implied by the forward-looking statements. There are a number of risks, uncertainties and other important factors that could cause our actual results to differ materially from the forward-looking statements, including, but not limited to, our ability to comply with covenants in our credit agreement and indentures and make borrowings under our credit agreement; our ability to obtain amendments to the covenants in our credit agreement so as to avoid an event of default under our credit agreement and senior notes; a reduction in our borrowing base and our ability to repay any excess borrowings; sustained or future declines in commodity prices and the demand for oil; sustained or future excess supply of oil and natural gas; potential future impairments and reductions in proved reserve quantities and value; continuation of the COVID-19 pandemic and responses thereto, including possible future restrictions against oil and gas activity in Colombia and Ecuador; our current operations are located in South America, and unexpected problems can arise due to guerilla activity and other local conditions; technical difficulties and operational difficulties may arise which impact the production, transport or sale of our products; geographic, political and weather conditions can impact the production, transport or sale of our products; our ability to raise capital; our ability to identify and complete successful acquisitions, including in new countries and basins from our current operations; our ability to execute business plans; unexpected delays and difficulties in developing currently owned properties may occur; the timely receipt of regulatory or other required approvals for our operating activities; the failure of exploratory drilling to result in commercial wells; unexpected delays due to the limited availability of drilling equipment and personnel; current global economic and credit market conditions and the regulatory environment may impact oil prices and oil consumption differently than we currently predict, which could cause us to further modify our strategy and capital spending program; volatility or declines in the trading price of our common stock and the continued listing of our shares on a national stock exchange; and those factors set out in Part II, Item 1A "Risk Factors" in this Quarterly Report on Form 10-Q and Part I, Item 1A "Risk Factors" in our 2020 Annual Report on Form 10-K (the "2020 Annual Report on Form 10-K"), and in our other filings with the Securities and Exchange Commission ("SEC"). The unprecedented nature of the COVID-19 pandemic and volatility in the worldwide economy and oil and gas industry makes, including the unpredictable nature of the resurgence of cases, possible variants and governmental responses, it more difficult to predict the accuracy of forward-looking statements. The information included herein is given as of the filing date of this Quarterly Report on Form 10-Q with the SEC and, except as otherwise required by the federal securities laws, we disclaim any obligation or undertaking to publicly release any updates or revisions to, or to withdraw, any forward-looking statement contained in this Quarterly Report on Form 10-Q to reflect any change in our expectations with regard thereto or any change in events, conditions or circumstances on which any forward-looking statement is based.

GLOSSARY OF OIL AND GAS TERMS

In this document, the abbreviations set forth below have the following meanings:

bbl	barrel
BOPD	barrels of oil per day
NAR	net after royalty

Sales volumes represent production NAR adjusted for inventory changes. Our oil and gas reserves are reported NAR. Our production is also reported NAR, except as otherwise specifically noted as "working interest production before royalties."

Gran Tierra Energy Inc.**Notes to the Condensed Consolidated Financial Statements (Unaudited)****(Expressed in U.S. Dollars, unless otherwise indicated)****1. Description of Business**

Gran Tierra Energy Inc., a Delaware corporation (the "Company" or "Gran Tierra"), is a publicly traded company focused on international oil and natural gas exploration and production with assets currently in Colombia and Ecuador.

2. Significant Accounting Policies

These interim unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP"). The information furnished herein reflects all normal recurring adjustments that are, in the opinion of management, necessary for the fair presentation of results for the interim periods.

The note disclosure requirements of annual consolidated financial statements provide additional disclosures to that required for interim unaudited condensed consolidated financial statements. Accordingly, these interim unaudited condensed consolidated financial statements should be read in conjunction with the Company's consolidated financial statements as at and for the year ended December 31, 2020, included in the Company's 2020 Annual Report on Form 10-K.

The Company's significant accounting policies are described in Note 2 of the consolidated financial statements which are included in the Company's 2020 Annual Report on Form 10-K and are the same policies followed in these interim unaudited condensed consolidated financial statements. The Company has evaluated all subsequent events through to the date these interim unaudited condensed consolidated financial statements were issued.

3. Taxes Receivable

The table below shows the break-down of taxes receivable, which are comprised of value added tax ("VAT") and income tax receivables:

(Thousands of U.S. Dollars)	As at June 30, 2021	As at December 31, 2020
Current		
VAT Receivable	\$ 16,199	\$ 35,977
Income Tax Receivable	11,643	13,948
	27,842	49,925
Long-Term		
VAT Receivable	20,885	28,485
Income Tax Receivable	25,100	14,150
	45,985	42,635
Total Taxes Receivable	\$ 73,827	\$ 92,560

The following table shows the movement of VAT and income tax receivables for the period identified below:

(Thousands of U.S. Dollars)	VAT Receivable	Income Tax Receivable	Total Taxes Receivable
Balance, as at December 31, 2020	\$ 64,462	\$ 28,098	\$ 92,560
Collected through direct government refunds	(340)	-	(340)
Collected through sales contracts	(40,414)	-	(40,414)
Taxes paid ⁽¹⁾	17,368	11,947	29,315
Foreign exchange loss	(3,992)	(3,302)	(7,294)
Balance, as at June 30, 2021	\$ 37,084	\$ 36,743	\$ 73,827

⁽¹⁾VAT is paid on certain goods and services in Colombia at a rate of 19%

4. Property, Plant and Equipment

(Thousands of U.S. Dollars)	As at June 30, 2021	As at December 31, 2020
Oil and natural gas properties		
Proved	\$ 4,196,663	\$ 4,106,768
Unproved	159,021	161,763
	4,355,684	4,268,531
Other ⁽¹⁾	32,602	32,135
	4,388,286	4,300,666
Accumulated depletion and depreciation and impairment	(3,396,406)	(3,336,184)
	\$ 991,880	\$ 964,482

⁽¹⁾ The "other" category includes right-of-use assets for operating and finance leases of \$11.7 million, which had a net book value of \$3.2 million as at June 30, 2021 (December 31, 2020 - \$11.4 million which had a net book value of \$4.4 million).

5. Impairment

Asset impairment

(i) Oil and gas property impairment

For the three and six months ended June 30, 2021, Gran Tierra had no ceiling test impairment losses based on the ceiling test calculation results. For each of the three and six months ended June 30, 2020, Gran Tierra had \$398.3 million of ceiling test impairment losses. The Company used an average Brent price of \$52.74 and \$52.32 per bbl, for the purposes of the June 30, 2021 and 2020, respectively, ceiling test calculations.

(ii) Inventory impairment

For the three and six months ended June 30, 2021, the Company had no inventory impairment. For the three and six months ended June 30, 2020, the Company recorded \$0.2 million and \$4.1 million, respectively, of inventory impairment.

Goodwill impairment

The entire goodwill balance of \$102.6 million was impaired during the six months ended June 30, 2020 due to the carrying value of the reporting unit exceeding its fair value as a result of the impact of lower forecasted commodity prices.

6. Debt and Debt Issuance Costs

The Company's debt at June 30, 2021 and December 31, 2020 was as follows:

(Thousands of U.S. Dollars)	As at June 30, 2021	As at December 31, 2020
6.25% Senior Notes	\$ 300,000	\$ 300,000
7.75% Senior Notes	300,000	300,000
Revolving credit facility	175,000	190,000
Unamortized debt issuance costs	(16,474)	(18,124)
Long-term debt	758,526	771,876
Long-term lease obligation ⁽¹⁾	1,298	2,894
	\$ 759,824	\$ 774,770

⁽¹⁾ The current portion of the lease obligation has been included in accounts payable and accrued liabilities on the Company's balance sheet and totaled \$3.6 million as at June 30, 2021 (December 31, 2020 - \$3.3 million).

As at June 30, 2021 the borrowing base of the Company's Senior Secured Credit Facility (the "revolving credit facility") was \$215 million with the next re-determination to occur no later than November, 2021.

The Company is required to comply with various covenants, which have been modified in response to market conditions including the COVID-19 pandemic until October 1, 2021 ("the covenant relief period"). During the covenant relief period, the Company's ratio of total debt to Covenant EBITDAX ("EBITDAX") is permitted to be greater than 4.0 to 1.0, its Senior Secured Debt to EBITDAX ratio must not exceed 2.5 to 1.0, and its EBITDAX to interest expense ratio for the trailing four quarter periods measured as of the last day of the fiscal quarters ended (i) June 30, 2021 to September 30, 2021 must be at least 2.0 to 1.0, and (ii) at least 2.5 to 1.0 thereafter. As of June 30, 2021, the Company was in compliance with all applicable covenants in the revolving credit facility.

After the expiration of covenant relief period, the Company must maintain compliance with the following financial covenants: limitations on Company's ratio of debt to EBITDAX to a maximum of 4.0 to 1.0; limitations on Company's ratio of Senior Secured Debt to EBITDAX to a maximum of 3.0 to 1.0; and the maintenance of a ratio of EBITDAX to interest expense of at least 2.5 to 1.0. If the Company fails to comply with these financial covenants, it would result in a default under the terms of the credit agreement, which could result in an acceleration of repayment of all indebtedness under the Company's revolving credit facility.

Amounts drawn down under the revolving credit facility bear interest, at the Company's option, at the USD LIBOR rate plus a margin ranging from 2.90% to 4.90%, or an alternate base rate plus a margin ranging from 1.90% to 3.90%, in each case based on the borrowing base utilization percentage. The alternate base rate is currently the U.S. prime rate. Undrawn amounts under the revolving credit facility bear interest from 0.73% to 1.23% per annum, based on the average daily amount of unused commitments.

The Company's revolving credit facility is guaranteed by and secured against the assets of certain of the Company's subsidiaries (the "Credit Facility Group"). Under the terms of the credit facility, the Company is subject to certain restrictions on its ability to distribute funds to entities outside of the Credit Facility Group, including restrictions on the ability to pay dividends to shareholders of the Company.

Interest Expense

The following table presents total interest expense recognized in the accompanying interim unaudited condensed consolidated statements of operations:

(Thousands of U.S. Dollars)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Contractual interest and other financing expenses	\$ 13,041	\$ 12,273	\$ 25,972	\$ 24,239
Amortization of debt issuance costs	894	1,092	1,775	1,936
	<u>\$ 13,935</u>	<u>\$ 13,365</u>	<u>\$ 27,747</u>	<u>\$ 26,175</u>

7. Share Capital

	Shares of Common Stock
Balance, December 31, 2020	366,981,556
Shares issued on option exercise	10,232
Balance, June 30, 2021	<u>366,991,788</u>

Equity Compensation Awards

The following table provides information about performance stock units ("PSUs"), deferred share units ("DSUs"), and stock option activity for the six months ended June 30, 2021:

	PSUs	DSUs	Stock Options	
	Number of Outstanding Share Units	Number of Outstanding Share Units	Number of Outstanding Stock Options	Weighted Average Exercise Price/Stock Option (\$)
Balance, December 31, 2020	23,273,404	4,067,897	15,444,949	1.50
Granted	13,428,840	1,027,103	5,679,894	0.81
Exercised	(2,733,209)	-	(10,232)	0.77
Forfeited	(1,828,743)	-	(1,020,207)	0.90
Expired	-	-	(1,040,262)	3.27
Balance, June 30, 2021	32,140,292	5,095,000	19,054,142	1.23

For the three and six months ended June 30, 2021, stock-based compensation expense was \$1.9 million and \$5.5 million, respectively (three and six months ended June 30, 2020 - expense of \$1.3 million and recovery of \$0.8 million, respectively).

At June 30, 2021, there was \$17.4 million (December 31, 2020 - \$5.9 million) of unrecognized compensation cost related to unvested PSUs and stock options, which is expected to be recognized over a weighted average period of 2.0 years. During the six months ended June 30, 2021, the Company paid out \$0.6 million for PSUs which were vested on December 31, 2020 (six months ended June 30, 2020 - \$3.2 million for PSU's which were vested on December 31, 2019).

Net Loss per Share

Basic net loss per share is calculated by dividing net loss by the weighted average number of shares of Common Stock issued and outstanding during each period. Diluted net loss per share is calculated using the treasury stock method for share-based compensation arrangements. The treasury stock method assumes that any proceeds obtained on exercise of share-based compensation arrangements would be used to purchase common shares at the average market price during the period. The weighted average number of shares is then adjusted by the difference between the number of shares issued from the exercise of share-based compensation arrangements and shares repurchased from the related proceeds. Anti-dilutive shares represent potentially dilutive securities that are excluded from the computation of diluted income or loss per share as their impact would be anti-dilutive.

For the three and six months ended June 30, 2021 and 2020 all options on a weighted average basis, were excluded from the diluted loss per share calculation as the options were anti-dilutive.

8. Revenue

The Company's revenues are generated from oil sales at prices which reflect the blended prices received upon shipment by the purchaser at defined sales points or are defined by contract relative to ICE Brent and adjusted for Vasconia or Castilla crude differentials, quality, and transportation discounts each month. For the three and six months ended June 30, 2021, 100% (three and six months ended June 30, 2020 - 100%) of the Company's revenue resulted from oil sales. During the three and six months ended June 30, 2021, quality and transportation discounts were 17% and 16%, respectively, of the average ICE Brent price (three and six months ended June 30, 2020 - 42% and 29%, respectively). During the three and six months ended June 30, 2021, the Company's production was sold primarily to two major customers in Colombia (three and six months ended June 30, 2020 - two).

As at June 30, 2021, accounts receivable included \$0.2 million of accrued sales revenue related to June 2021 production (December 31, 2020 - \$0.1 million related to December 31, 2020 production).

9. COVID-19 Costs

The COVID-19 pandemic resulted in extra operating and transportation costs related to COVID-19 health and safety preventative measures including incremental sanitation requirements and enhanced procedures for trucking barrels and crew changes in the field. Below is a break-down of the costs:

(Thousands of U.S. Dollars)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Operating expenses	\$ 816	\$ 421	\$ 1,862	\$ 421
Transportation costs	81	-	174	-
Total COVID-19 costs	\$ 897	\$ 421	\$ 2,036	\$ 421

10. Taxes

The Company's effective tax rate was (48)% for the six months ended June 30, 2021, compared to 6% in the comparative period of 2020. Current income tax was in a recovery position for the six months ended June 30, 2021 and 2020, primarily as a result of changes in the previous estimation of presumptive minimum tax. The deferred income tax expense for the six months ended June 30, 2021, was the result of excess tax depreciation compared to accounting depreciation and the use of tax losses to offset taxable income in Colombia. The deferred income tax recovery in the comparative period of 2020 was mainly the result of a ceiling test impairment loss in Colombia; which was partially offset by losses incurred in Colombia that are now fully offset by a valuation allowance.

For the six months ended June 30, 2021, the difference between the effective tax rate of (48)% and the 31% Colombian tax rate was primarily due to an increase in the impact of foreign taxes, foreign translation adjustments, other permanent differences and stock based compensation; which was partially offset by a decrease in the valuation allowance.

For the six months ended June 30, 2020, the difference between the effective tax rate of 6% and the 32% Colombian tax rate was primarily due to an increase in the valuation allowance, the non-deductibility of goodwill impairment for tax purposes, foreign translation adjustments and the non-deductible portion (50%) of the unrealized loss on PetroTal Corp. ("PetroTal") shares.

11. Contingencies

Legal Proceedings

Gran Tierra has a number of lawsuits and claims pending, including a dispute with the Agencia Nacional de Hidrocarburos (National Hydrocarbons Agency) ("ANH") relating to the calculation of high price share royalties. Although the outcome of these lawsuits and disputes cannot be predicted with certainty, Gran Tierra believes the resolution of these matters would not have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows. Gran Tierra records costs as they are incurred or become probable and determinable.

Letters of credit and other credit support

At June 30, 2021, the Company had provided letters of credit and other credit support totaling \$103.5 million (December 31, 2020 - \$100.6 million) as security relating to work commitment guarantees in Colombia and Ecuador contained in exploration contracts and other capital or operating requirements.

12. Financial Instruments and Fair Value Measurement

Financial Instruments

At June 30, 2021, the Company's financial instruments recognized on the balance sheet consisted of: cash and cash equivalents, restricted cash and cash equivalents, accounts receivable, investment, other long-term assets, accounts payable and accrued liabilities, derivatives, equity compensation award liability, long-term debt and other long-term liabilities.

Fair Value Measurement

The fair value of investment, derivatives and equity compensation award liability is remeasured to the estimated fair value at the end of each reporting period.

Investment in PetroTal

The fair value of the Company's investment in PetroTal was estimated to be \$31.5 million at June 30, 2021 (\$48.3 million at December 31, 2020), based on the closing stock price of PetroTal of \$0.29 CAD (\$0.25 CAD at December 31, 2020) and the foreign exchange rate at that date. During the six months ended June 30, 2021, the Company sold 44% (109 million common shares) of its interest in PetroTal for cash proceeds net of transaction costs of \$14.6 million resulting in a loss on sale of \$5.1 million. PetroTal is a publicly-traded energy company incorporated and domiciled in Canada engaged in exploration, appraisal and development of crude oil and natural gas in Peru. PetroTal's shares are listed on the Toronto Stock Exchange Venture under the trading symbol 'TAL' and on the London Stock Exchange Alternative Investment Market under the trading symbol 'PTAL'. Gran Tierra holds approximately 137 million common shares representing approximately 17% of PetroTal's issued and outstanding common shares.

Commodity and Foreign Currency Derivatives

The fair value of commodity price and foreign currency derivatives is estimated based on various factors, including quoted market prices in active markets and quotes from third parties. The Company also performs an internal valuation to ensure the reasonableness of third party quotes. In consideration of counterparty credit risk, the Company assessed the possibility of whether the counterparty to the derivative would default by failing to make any contractually required payments. Additionally, the Company considers that it is of substantial credit quality and has the financial resources and willingness to meet its potential repayment obligations associated with the derivative transactions.

PSUs and DSUs

The fair value of the PSUs liability was estimated based on a pricing model using inputs such as quoted market prices in an active market, and PSUs performance factor. The fair value of DSUs liability is measured using quoted market prices in an active market.

The fair value of investment, derivatives and PSUs and DSUs liability at June 30, 2021, and December 31, 2020, was as follows:

(Thousands of U.S. Dollars)	As at June 30, 2021		As at December 31, 2020	
	\$		\$	
Investment	\$	31,525	\$	48,323
Derivative liability	\$	26,594	\$	12,050
PSUs and DSUs liability		11,753		4,760
	\$	38,347	\$	16,810

The following table presents gains or losses on derivative and other financial instruments recognized in the accompanying interim unaudited condensed consolidated statements of operations:

(Thousands of U.S. Dollars)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Commodity price derivatives loss (gain)	\$ 21,217	\$ 7,542	\$ 44,849	\$ (10,777)
Foreign currency derivatives loss (gain)	22	(1,919)	88	3,533
Derivative instruments loss (gain)	\$ 21,239	\$ 5,623	\$ 44,937	\$ (7,244)
Unrealized PetroTal investment loss (gain)	\$ 2,614	\$ (6,216)	\$ (3,861)	\$ 59,069
Loss on sale of PetroTal shares	-	-	5,070	-
Financial instruments loss	\$ -	\$ 757	-	757
Other financial instruments loss (gain)	\$ 2,614	\$ (5,459)	\$ 1,209	\$ 59,826

Financial instruments not recorded at fair value include the Company's 6.25% Senior Notes due 2025 (the "6.25% Senior Notes") and 7.75% Senior Notes due 2027 (the "7.75% Senior Notes"). At June 30, 2021, the carrying amounts of the 6.25% Senior Notes and the 7.75% Senior Notes were \$293.1 million and \$291.4 million, respectively, which represented the aggregate principal amount less unamortized debt issuance costs, and the fair values were \$267.2 million and \$267.4 million, respectively. The fair value of long-term restricted cash and cash equivalents and the revolving credit facility approximated their carrying value because interest rates are variable and reflective of market rates. The fair values of other financial instruments approximate their carrying amounts due to the short-term maturity of these instruments.

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level 1 inputs consist of quoted prices (unadjusted) in active markets for identical assets and liabilities and have the highest priority. Level 2 and 3 inputs are based on significant other observable inputs and significant unobservable inputs, respectively, and have lower priorities. The Company uses appropriate valuation techniques based on the available inputs to measure the fair values of assets and liabilities.

At June 30, 2021, the fair value of the investment and DSUs liability was determined using Level 1 inputs, and the fair value of the derivative and PSUs liability was determined using Level 2 inputs.

The Company uses available market data and valuation methodologies to estimate the fair value of debt. The fair value of debt is the estimated amount the Company would have to pay a third party to assume the debt, including a credit spread for the difference between the issue rate and the period-end market rate. The credit spread is the Company's default or repayment risk. The credit spread (premium or discount) is determined by comparing the Company's Senior Notes and revolving credit facility to new issuances (secured and unsecured) and secondary trades of similar size and credit statistics for both public and private debt. The disclosure in the paragraph above regarding the fair value of cash and restricted cash and cash equivalents and Senior Notes was based on Level 1 inputs and the fair value of credit facility was based on Level 2 inputs.

The Company's non-recurring fair value measurements include asset retirement obligations. The fair value of an asset retirement obligation is measured by reference to the expected future cash outflows required to satisfy the retirement obligation discounted at the Company's credit-adjusted risk-free interest rate.

Commodity Price Derivatives

The Company utilizes commodity price derivatives to manage the variability in cash flows associated with the forecasted sale of its oil production, reduce commodity price risk and provide a base level of cash flows in order to assure it can execute at least a portion of its planned capital spending.

At June 30, 2021, the Company had outstanding commodity price derivative positions as follows:

Period and type of instrument	Volume, bopd	Reference	Sold Put (\$/bbl, Weighted Average)	Purchased Put (\$/bbl, Weighted Average)	Sold Call (\$/bbl, Weighted Average)	Swap Price (\$/bbl, Weighted Average)
Three-way Collars: July 1, to December 31, 2021	7,000	ICE Brent	47.14	57.14	68.95	n/a
Swaps: July 1, to December 31, 2021	3,000	ICE Brent	n/a	n/a	n/a	56.75

Foreign Currency Derivatives

The Company utilizes foreign currency derivatives to manage the variability in cash flows associated with the Company's forecasted Colombian peso ("COP") denominated expenses. At June 30, 2021, the Company had outstanding foreign currency derivative positions as follows:

Period and type of instrument	Amount Hedged (Millions of COP)	U.S. Dollar Equivalent of Amount Hedged (Thousands of U.S. Dollars) ⁽¹⁾	Reference	Floor Price (COP, Weighted Average)	Cap Price (COP, Weighted Average)
Collars: July 1, to December 31, 2021	6,000	1,597	COP	3,500	3,630

⁽¹⁾ At June 30, 2021 foreign exchange rate.

13. Supplemental Cash Flow Information

The following table provides a reconciliation of cash and cash equivalents and restricted cash and cash equivalents shown as a sum of these amounts in the interim unaudited condensed consolidated statements of cash flows:

(Thousands of U.S. Dollars)	As at June 30,		As at December 31,	
	2021	2020	2020	2019
Cash and cash equivalents	\$ 19,965	\$ 17,599	\$ 14,114	\$ 8,817
Restricted cash and cash equivalents - long-term	3,590	2,186	3,409	2,258
	<u>\$ 23,555</u>	<u>\$ 19,785</u>	<u>\$ 17,523</u>	<u>\$ 11,075</u>

Net changes in assets and liabilities from operating activities were as follows:

(Thousands of U.S. Dollars)	Six Months Ended June 30,	
	2021	2020
Accounts receivable and other long-term assets	\$ 28	\$ 15,475
Derivatives	6,264	(2,310)
Inventory	(1,934)	(1,533)
Prepays	(631)	(750)
Accounts payable and accrued and other long-term liabilities	11,991	(41,487)
Taxes receivable and payable	11,439	9,350
Net changes in assets and liabilities from operating activities	<u>\$ 27,157</u>	<u>\$ (21,255)</u>

Changes in non-cash investing working capital for the six months ended June 30, 2021 are comprised of an increase in accounts payable and accrued liabilities of \$3.7 million and an increase in accounts receivable of \$0.5 million (six months ended June 30, 2020, a decrease in accounts payable and accrued liabilities of \$38.7 million and a decrease in accounts receivable of \$0.1 million).

The following table provides additional supplemental cash flow disclosures:

(Thousands of U.S. Dollars)	Six Months Ended June 30,	
	2021	2020
Cash paid for income taxes	\$ 7,139	\$ 8,524
Cash paid for interest	\$ 25,659	\$ 23,540
Non-cash investing activities:		
Net liabilities related to property, plant and equipment, end of period	\$ 31,887	\$ 38,708

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion of our financial condition and results of operations should be read in conjunction with the "Financial Statements" as set out in Part I, Item 1 of this Quarterly Report on Form 10-Q as well as the "Financial Statements and Supplementary Data" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in Part II, Items 7 and 8, respectively, of our 2020 Annual Report on Form 10-K. Please see the cautionary language at the beginning of this Quarterly Report on Form 10-Q regarding the identification of and risks relating to forward-looking statements and the risk factors described in Part II, Item 1A "Risk Factors" of this Quarterly Report on Form 10-Q, as well as Part I, Item 1A "Risk Factors" in our 2020 Annual Report on Form 10-K.

Financial and Operational Highlights

Key Highlights for the second quarter of 2021

- Net loss in the second quarter of 2021 was \$17.6 million or \$(0.05) per share basic and diluted, compared with a net loss of \$370.6 million or \$(1.01) per share basic and diluted in the second quarter of 2020
- Loss before income taxes in the second quarter of 2021 was \$8.4 million compared to loss before income taxes of \$447.2 million in the second quarter of 2020
- During the second quarter of 2021, we repaid \$5.0 million of the amount drawn under the revolving credit facility
- Our second quarter of 2021 average production NAR was 18,976 BOPD (sales volumes - 18,454 BOPD), 3% increase (sales volumes - 4% decrease) from 18,408 BOPD (sales volumes - 19,266 BOPD) in the second quarter of 2020, and 8% decrease (sales volumes - 9% decrease) from the first quarter of 2021 as a result of national blockades in Colombia, which were resolved by the end of the second quarter of 2021. There were approximately 597,000 bbls deferred as a result of blockades
- Oil sales were \$96.6 million, 186% higher compared to the second quarter of 2020 as a result of an increase in Brent price and lower quality and transportation discounts and were consistent with first quarter of 2021 oil sales of \$95.5 million
- Operating expenses increased by 31% (increased by 37% on a per bbl basis) compared to the second quarter of 2020, due to higher operating activities in the Acordionero and Surorienté fields and decreased by 14% (decreased by 7% on a per bbl basis) compared to the first quarter of 2021 due to lower operating activities in the Costayaco and Surorienté fields for a portion of the current quarter as a result of national blockades in Colombia and lower power generation costs in the Acordionero field
- Transportation expenses decreased by 9% compared to the second quarter of 2020 and increased 17% compared to the first quarter of 2021
- Operating netback⁽²⁾ increased by 508% and 8%, respectively, to \$68.3 million compared to \$11.2 million in the second quarter of 2020 and \$63.4 million in the first quarter of 2021
- Adjusted EBITDA⁽²⁾ increased by 103% to \$36.3 million compared to \$17.9 million in the second quarter of 2020 and decreased 13% from \$41.9 million in the first quarter of 2021
- Funds flow from operations⁽²⁾ increased by 290% to \$23.3 million compared to the second quarter of 2020 and decreased 20% from the first quarter of 2021
- Quality and transportation discounts for the second quarter of 2021 decreased to \$11.54 per bbl compared to \$14.10 in the second quarter of 2020 as a result of lower differentials and increased from \$8.98 per bbl in the first quarter of 2021 as a result of higher differentials and the use of different transportation routes during current quarter due to national blockades in Colombia
- General and administrative ("G&A") before stock-based compensation increased by 36% compared to the second quarter of 2020, consistent with the increase of operating activities in the current period. When compared to the first quarter of 2021, G&A before stock-based compensation increased by 21% due to the timing of certain corporate costs
- Capital additions for the second quarter of 2021 were \$37.4 million, an increase of \$32.6 million compared to the second quarter of 2020 and were comparable to the first quarter of 2021 which had capital additions of \$37.4 million

⁽²⁾ Non-GAAP measures

Operating netback, EBITDA, adjusted EBITDA and funds flow from operations are non-GAAP measures which do not have any standardized meaning prescribed under GAAP. Management views these measures as financial performance measures. Investors are cautioned that these measures should not be construed as alternatives to net loss or other measures of financial performance as determined in accordance with GAAP. Our method of calculating these measures may differ from other companies and, accordingly, may not be comparable to similar measures used by other companies. Each non-GAAP financial measure is presented along with the corresponding GAAP measure so as not to imply that more emphasis should be placed on the non-GAAP measure.

Operating netback, as presented, is defined as oil sales less operating and transportation expenses. Management believes that operating netback is a useful supplemental measure for management and investors to analyze financial performance and provides an indication of the results generated by our principal business activities prior to the consideration of other income and expenses. A reconciliation from oil sales to operating netback is provided in the table above.

EBITDA, as presented, is defined as net loss adjusted for depletion, depreciation and accretion ("DD&A") expenses, interest expense and income tax expense or recovery. Adjusted EBITDA, as presented, is defined as EBITDA adjusted for goodwill impairment, asset impairment, non-cash lease expense, lease payments, unrealized foreign exchange gain or loss, stock based compensation expense or recovery, unrealized derivative instruments gain or loss and other financial instruments gain or loss. Management uses this supplemental measure to analyze performance and income generated by our principal business activities prior to the consideration of how non-cash items affect that income, and believes that this financial measure is useful supplemental information for investors to analyze our performance and our financial results. A reconciliation from net loss to EBITDA and adjusted EBITDA is as follows:

(Thousands of U.S. Dollars)	Three Months Ended June 30,		Three Months Ended March 31,	Six Months Ended June 30,	
	2021	2020	2021	2021	2020
Net loss	\$ (17,627)	\$ (370,649)	\$ (37,422)	\$ (55,049)	\$ (622,275)
Adjustments to reconcile net loss to EBITDA and Adjusted EBITDA					
DD&A expenses	28,927	42,484	31,318	60,245	99,778
Interest expense	13,935	13,365	13,812	27,747	26,175
Income tax expense (recovery)	9,189	(76,575)	8,651	17,840	(41,671)
EBITDA (non-GAAP)	\$ 34,424	\$ (391,375)	\$ 16,359	\$ 50,783	\$ (537,993)
Goodwill impairment	-	-	-	-	102,581
Asset impairment	-	398,458	-	-	402,362
Non-cash lease expense	370	481	444	814	971
Lease payments	(393)	(460)	(462)	(855)	(975)
Unrealized foreign exchange loss (gain)	477	(1,544)	13,003	13,480	19,255
Stock-based compensation expense (recovery)	1,873	1,292	3,671	5,544	(763)
Unrealized derivative instruments (gain) loss	(3,066)	17,236	10,294	7,228	7,856
Other financial instruments loss (gain)	2,614	(6,216)	(1,405)	1,209	59,069
Adjusted EBITDA (non-GAAP)	\$ 36,299	\$ 17,872	\$ 41,904	\$ 78,203	\$ 52,363

Funds flow from operations, as presented, is defined as net loss adjusted for DD&A expenses, goodwill and asset impairment, deferred tax expense or recovery, stock-based compensation expense or recovery, amortization of debt issuance costs, non-cash lease expense, lease payments, unrealized foreign exchange gain or loss, derivative instruments gain or loss, cash settlement on derivative instruments and other financial instruments loss or gain. Management uses this financial measure to analyze performance and income generated by our principal business activities prior to the consideration of how non-cash items affect that income, and believes that this financial measure is also useful supplemental information for investors to analyze performance and our financial results. A reconciliation from net loss to funds flow from operations is as follows:

(Thousands of U.S. Dollars)	Three Months Ended June 30,		Three Months Ended March 31,	Six Months Ended June 30,	
	2021	2020	2021	2021	2020
Net loss	\$ (17,627)	\$ (370,649)	\$ (37,422)	\$ (55,049)	\$ (622,275)
Adjustments to reconcile net loss to funds flow from operations					
DD&A expenses	28,927	42,484	31,318	60,245	99,778
Goodwill impairment	-	-	-	-	102,581
Asset impairment	-	398,458	-	-	402,362
Deferred tax expense (recovery)	9,203	(76,200)	8,651	17,854	(41,594)
Stock-based compensation expense (recovery)	1,873	1,292	3,671	5,544	(763)

Oil Production and Sales Volumes, BOPD

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Average Daily Volumes (BOPD)				
WI Production Before Royalties	23,035	20,165	23,745	24,846
Royalties	(4,059)	(1,757)	(3,995)	(2,957)
Production NAR	18,976	18,408	19,750	21,889
Increase in Inventory	(522)	858	(393)	169
Sales	18,454	19,266	19,357	22,058
Royalties, % of WI Production Before Royalties	18%	9%	17%	12%

Oil production NAR for the three months ended June 30, 2021, increased by 3% compared to the corresponding period of 2020 due to higher production in the Acordionero and Surorient fields partially offset by lower production in the Costayaco and Moqueta fields which were affected by the national blockades in the area. During the quarter, approximately 597,000 barrels were deferred as a result of the national blockades. Oil production NAR for the six months ended June 30, 2021, decreased by 10% compared to the corresponding period of 2020, as a result of national blockades in Colombia during the second quarter of 2021 affecting production from major fields. The national blockades were resolved by the end of the second quarter of 2021.

Royalties as a percentage of production for the three and six months ended June 30, 2021, increased compared with the corresponding periods of 2020 and the prior quarter commensurate with the increase in benchmark oil prices and the price sensitive royalty regime in Colombia.

The Midas block includes Acordionero, Mochuelo and Ayombero fields and the Chaza block includes Costayaco and Moqueta fields

Quality and Transportation Discounts & Transportation Expenses

Oil sales for the three and six months ended June 30, 2021 increased by 186% and 60% to \$96.6 million and \$192.1 million, respectively, as a result of a 107% and 55%, respectively, increase in Brent price and lower quality and transportation discounts, partially offset by lower sales volumes when compared to the corresponding periods of 2020. Compared with the prior quarter, oil sales increased 1% as a result of a 13% increase in Brent price offset by higher quality and transportation discounts and lower sales volumes.

The following table shows the effect of changes in realized price and sales volumes on our oil sales for the three and six months ended June 30, 2021 compared to the prior quarter and the corresponding periods of 2020:

(Thousands of U.S. Dollars)	Second Quarter 2021 Compared with First Quarter 2021	Second Quarter 2021 Compared with Second Quarter 2020	Six Months Ended June 30, 2021 Compared with Six Months Ended June 30, 2020
Oil sales for the comparative period	\$ 95,493	\$ 33,824	\$ 119,903
Realized sales price increase effect	8,723	64,225	87,471
Sales volumes decrease effect	(7,593)	(1,426)	(15,258)
Oil sales for the three and six months ended June 30, 2021	\$ 96,623	\$ 96,623	\$ 192,116

Average realized price for the three and six months ended June 30, 2021 increased 198% and 84%, respectively, compared to the corresponding periods of 2020. The increases were commensurate with the increases in benchmark oil prices in addition to lower differentials. Compared to the prior quarter, the average realized price increased 10% due to higher benchmark oil prices offset by higher differentials.

Operating expenses for the three months ended June 30, 2021, increased by 31% or \$4.09 per bbl to \$25.4 million or \$15.14 per bbl due to higher operating activities in the Acordionero and Surorienté fields compared to the corresponding period of 2020. Lower operating activities during the second quarter of 2020 were attributed to shut-in of higher cost wells in response to the COVID-19 pandemic. Operating expenses for the six months ended June 30, 2021 decreased by 14% or \$0.22 per bbl to \$55.1 million or \$15.71 per bbl compared to the corresponding period of 2020 as a result of structural improvements made to our operations. Compared to the prior quarter, operating expenses decreased by 14% or \$1.10 per bbl from \$29.6 million or \$16.24 per bbl due to lower operating activities in the Costayaco and Surorienté fields as a result of national blockades in Colombia and lower power generation costs in the Acordionero field.

We have options to sell our oil through multiple pipelines and trucking routes. Each option has varying effects on realized sales price and transportation expenses. The following table shows the percentage of oil volumes we sold in Colombia using each option for the three and six months ended June 30, 2021 and 2020, and the prior quarter:

	Three Months Ended June 30,		Three Months Ended March 31,		Six Months Ended June 30,	
	2021	2020	2021	2020	2021	2020
Volume transported through pipeline	9%	15%	-%	5%	7%	
Volume sold at wellhead	67%	49%	52%	58%	50%	
Volume transported via truck to sales point	24%	36%	48%	37%	43%	
	100%	100%	100%	100%	100%	100%

Volumes transported through pipeline or via truck receive higher realized price, but incur higher transportation expenses. Volumes sold at the wellhead have the opposite effect of lower realized price, offset by lower transportation expenses.

Transportation expenses for the three and six months ended June 30, 2021 decreased by 9% and 25% to \$2.9 million and \$5.4 million, respectively, compared to the corresponding periods of 2020, as a result of lower sales volumes during current periods. On a per bbl basis, transportation expenses decreased by 5% and 14% to \$1.74 and \$1.55 for the three and six months ended June 30, 2021, respectively, due to higher volumes sold at wellhead during current periods, which resulted in lower transportation expenses per bbl compared to the corresponding periods of 2020.

For the three months ended June 30, 2021, transportation expenses increased by 17% compared to \$2.5 million in the prior quarter. On a per bbl basis, transportation expenses increased by 27% from \$1.37 in the prior quarter due to change in the delivery points in response to national blockades in Colombia which had higher transportation costs per bbl.

COVID-19 Costs

The COVID-19 pandemic resulted in extra operating and transportation costs related to COVID-19 health and safety preventative measures including incremental sanitation requirements and enhanced procedures for trucking barrels and crew changes in the field. For the three and six months ended June 30, 2021, COVID-19 costs were \$0.9 million and \$2.0 million,

respectively, comprised of \$0.8 million and \$1.9 million related to operating and \$0.1 million and \$0.2 million related to transportation activities, respectively. There were \$0.4 million COVID-19 costs for the three and six months ended June 30, 2020, all of which related to operating activities. For the prior quarter, COVID-19 costs were \$1.1 million comprised of \$1.0 million related to operating and \$0.1 million to transportation activities.

DD&A Expenses

	Three Months Ended June 30,		Three Months Ended March 31,		Six Months Ended June 30,	
	2021	2020	2021	2020	2021	2020
DD&A Expenses, thousands of U.S. Dollars \$	28,927	42,484	31,318	99,778	60,245	99,778
DD&A Expenses, U.S. Dollars per bbl	17.23	24.23	17.17	24.85	17.20	24.85

DD&A expenses for the three and six months ended June 30, 2021, decreased 32% and 40% and decreased by \$7.00 and \$7.65 per bbl, respectively, due to lower costs in the depletable base compared to the corresponding periods of 2020, as a result of ceiling test impairment losses recorded over the last three quarters of 2020.

For the three months ended June 30, 2021, DD&A expenses decreased 8% when compared to the prior quarter, due to lower production during current quarter. On a per bbl basis DD&A expenses were comparable to prior quarter.

Impairment

Asset impairment

(i) Oil and gas property impairment

For the three and six months ended June 30, 2021, we had no ceiling test impairment losses based on the ceiling test calculation results. For each of the three and six months ended June 30, 2020 we had \$398.3 million of ceiling test impairment losses. We used an average Brent price of \$52.74 and \$52.32 per bbl for the purpose of the June 30, 2021 and 2020, respectively, ceiling test calculations.

(ii) Inventory impairment

For the three and six months ended June 30, 2021, we had no inventory impairment. For the three and six months ended June 30, 2020, we recorded \$0.2 million and \$4.1 million, respectively, of inventory impairment.

Goodwill impairment

The entire goodwill balance of \$102.6 million was impaired during the six months ended June 30, 2020 due to the carrying value of the unit exceeding its fair value as a result of the impact of lower forecasted commodity prices.

G&A Expenses

(Thousands of U.S. Dollars)	Three Months Ended June 30,		Three Months Ended March 31,		Six Months Ended June 30,	
	2021	2020	2021		2021	2020
G&A Expenses Before Stock-Based Compensation	\$ 7,133	\$ 5,237	\$ 5,898	\$	13,031	12,677
G&A Stock-Based Compensation Expense (Recovery)	1,873	1,292	3,671		5,544	(763)
G&A Expenses, Including Stock-Based Compensation	\$ 9,006	\$ 6,529	\$ 9,569	\$	18,575	11,914
(U.S. Dollars Per bbl Sales Volumes NAR)						
G&A Expenses Before Stock-Based Compensation	\$ 4.25	\$ 2.99	\$ 3.23	\$	3.72	3.16
G&A Stock-Based Compensation Expense (Recovery)	1.12	0.74	2.01		1.58	(0.19)
G&A Expenses, Including Stock-Based Compensation	\$ 5.37	\$ 3.73	\$ 5.24	\$	5.30	2.97

For the three and six months ended June 30, 2021, G&A expenses before stock-based compensation increased by 36% and 3%, respectively, from the corresponding periods of 2020, consistent with an increase of operating activities in 2021. On a per bbl basis, for the three and six months ended June 30, 2021, G&A expenses before stock-based compensation increased by 42% and 18% to \$4.25 and \$3.72, respectively compared to the corresponding periods of 2020, due to increase in operating activities and lower sales volumes. For the three months ended June 30, 2021, G&A expenses before stock-based compensation increased 21% or \$1.02 per bbl when compared to the prior quarter due to timing of certain costs.

G&A expenses after stock-based compensation for the three and six months ended June 30, 2021, increased by 38% and 56% (44% and 78% per bbl), respectively, compared to the corresponding periods of 2020, mainly due to higher stock-based compensation resulting from a higher share price. G&A expenses after stock-based compensation for the three months ended June 30, 2021, decreased by 6%, compared with the prior quarter, primarily due to a lower stock-based compensation resulting from lower share price in the current period and increased by 2% on a per bbl basis as a result of lower sales volumes.

Foreign Exchange Gains and Losses

For the three and six months ended June 30, 2021, we had a \$0.1 million and \$13.2 million, respectively, loss on foreign exchange compared to a \$3.0 million gain and a \$15.8 million loss, respectively, on foreign exchange for the corresponding periods of 2020. Accounts receivable, taxes receivable, deferred income taxes, accounts payable and investment are considered monetary items, and require translation from local currency to U.S. dollar functional currency at each balance sheet date. This translation was the main source of the foreign exchange gains and losses in the periods.

The following table presents the change in the U.S. dollar against the Colombian peso and Canadian dollar for the three and six months ended June 30, 2021 and 2020:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Change in the U.S. dollar against the Colombian peso	strengthened by	weakened by	strengthened by	strengthened by
	1 %	8%	9 %	15%
Change in the U.S. dollar against the Canadian dollar	weakened by	weakened by	weakened by	strengthened by
	1 %	4%	3 %	5%

Financial Instrument Gains and Losses

The following table presents the nature of our derivative and other financial instruments gains and losses for the three and six months ended June 30, 2021, and 2020:

(Thousands of U.S. Dollars)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Commodity price derivatives loss (gain)	\$ 21,217	\$ 7,542	\$ 44,849	\$ (10,777)
Foreign currency derivatives loss (gain)	22	(1,919)	88	3,533
Derivative instruments loss (gain)	\$ 21,239	\$ 5,623	\$ 44,937	\$ (7,244)
Unrealized PetroTal investment loss (gain)	\$ 2,614	\$ (6,216)	\$ (3,861)	\$ 59,069
Loss on sale of PetroTal shares	-	-	5,070	-
Financial instruments loss	-	757	-	757
Other financial instruments loss (gain)	\$ 2,614	\$ (5,459)	\$ 1,209	\$ 59,826

Income Tax Expense

(Thousands of U.S. Dollars)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Loss before income tax	\$ (8,438)	\$ (447,224)	\$ (37,209)	\$ (663,946)
Current income tax recovery	\$ (14)	\$ (375)	\$ (14)	\$ (77)
Deferred income tax expense (recovery)	9,203	(76,200)	17,854	(41,594)
Total income tax expense (recovery)	\$ 9,189	\$ (76,575)	\$ 17,840	\$ (41,671)
Effective tax rate	(109)%	17%	(48)%	6%

Current income tax was in a recovery position for each of the six months ended June 30, 2021 and 2020, primarily as a result of changes in the previous estimation of presumptive minimum tax. The deferred income tax expense for the six months ended June 30, 2021, was the result of excess tax depreciation compared with accounting depreciation and the use of tax losses to offset taxable income in Colombia. The deferred income tax recovery in the comparative period of 2020, was mainly the result of a ceiling test impairment loss in Colombia; which was partially offset by losses incurred in Colombia that are now fully offset by a valuation allowance.

For the six months ended June 30, 2021, the difference between the effective tax rate of (48)% and the 31% Colombian tax rate was primarily due to an increase in the impact of foreign taxes, foreign translation adjustments, other permanent differences and stock based compensation; which was partially offset by a decrease in valuation allowance.

For the six months ended June 30, 2020, the difference between the effective tax rate of 6% and the 32% Colombian tax rate was primarily due to an increase in the valuation allowance, the non-deductibility of goodwill impairment for tax purposes, foreign translation adjustments and the non-deductible portion (50%) of the unrealized loss on PetroTal Corp. ("PetroTal") shares.

⁽¹⁾Funds flow from operations is a non-GAAP measure which does not have any standardized meaning prescribed under GAAP. Refer to "Financial and Operational Highlights-non-GAAP measures" for a definition and reconciliation of this measure.

Capital expenditures during the three months ended June 30, 2021 were \$37.4 million:

(Millions of U.S. Dollars)

Colombia:	
Exploration	\$ 2.4
Development:	
Drilling and Completions	17.2
Facilities	4.9
Other	12.5
	37.0
Corporate & Ecuador	0.4
	\$ 37.4

During the three months ended June 30, 2021, we commenced drilling the following wells in Colombia:

	Number of wells (Gross and Net)
Development	5.0

We spud three development wells in the Midas Block and two development wells in the Chaza Block. Of the wells spud during the quarter, three wells were completed as of June 30, 2021.

Liquidity and Capital Resources

(Thousands of U.S. Dollars)	As at		
	June 30, 2021	% Change	December 31, 2020
Cash and Cash Equivalents	\$ 19,965	41	\$ 14,114
Revolving Credit Facility	\$ 175,000	(8)	\$ 190,000
6.25% Senior Notes	\$ 300,000	-	\$ 300,000
7.75% Senior Notes	\$ 300,000	-	\$ 300,000

The outbreak of the COVID-19 virus, which was declared a pandemic by the World Health Organization in March 2020, spread across the globe and impacted worldwide economic activity. In 2020, global commodity prices declined significantly during the first half of 2020 due to disputes between major oil producing countries combined with the impact of the COVID-19 pandemic and associated reductions in global demand for oil. Governments worldwide, including those in Colombia and Ecuador, the countries where we operate, enacted emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused, and may continue to cause, material disruption to businesses globally resulting in an economic slowdown. While global commodity prices have improved since historic lows during the first half of 2020, the current challenging economic climate had and may continue to have significant adverse impacts on our Company including, but not exclusively:

- material declines in revenue and cash flows as a result of the decline in commodity prices;
- declines in revenue and operating activities due to reduced capital programs and the shut-in of production;
- impairment charges;
- inability to comply with covenants and restrictions in debt agreements;
- inability to access financing sources;
- increased risk of non-performance by our customers and suppliers;
- interruptions in operations as we adjust personnel to the dynamic environment; and

•inability to operate or delay in operations as a result COVID-19 restrictions in the countries in which we operate

Based on current forecasted Brent pricing and production levels, which can change materially in very short time frames, we forecasted to be in compliance with the amended financial covenants contained in the revolving credit facility for at least the next year from the date of these financial statements. The amount available under our senior secured credit facility is based on the lenders determination of the borrowing base. The borrowing base is determined, by the lenders, based on our reserves and commodity prices. The next renewal of the borrowing base is scheduled for November 2021 and there is risk that the borrowing base may be reduced by the lenders. In addition, our ability to borrow under the credit facility may be limited by the terms of the indentures for the 6.25% Senior Notes and 7.75% Senior Notes.

The risk of non-compliance with the covenants in the lending agreements and the risk associated with maintaining the borrowing base is heightened in the current period of volatility coupled with the unprecedented disruption caused by the COVID-19 pandemic. We currently expect that we will continue to meet the terms of the credit facility or obtain further amendments or waivers if and when required. We also expect to be able to maintain the borrowing base at a level in excess of the amount borrowed. However, there can be no assurances that our liquidity can be maintained at or above current levels during this period of volatility and global economic uncertainty.

The situation is dynamic and the ultimate duration and magnitude of the impact on the economy and the financial effect on our Company is not known at this time.

As at June 30, 2021 the borrowing base of our Senior Secured Credit Facility (the "revolving credit facility") was \$215 million with the next re-determination to occur no later than November, 2021. We are required to comply with various covenants, which have been modified in response to the recent market conditions and the COVID-19 pandemic. We have obtained a relief from compliance with certain financial covenants until October 1, 2021 ("the covenant relief period"). During the covenant relief period, our ratio of total debt to EBITDAX is permitted to be greater than 4.0 to 1.0, our Senior Secured Debt to EBITDAX ratio must not exceed 2.5 to 1.0, and our EBITDAX to interest expense ratio for the trailing four quarter periods measured as of the last day of the fiscal quarters ending as of the last day of the fiscal quarters ended June 30, 2021 and September 30, 2021 must be at least 2.0 to 1.0 and be at least 2.5 to 1.0 thereafter. We are required to comply with various covenants, which as disclosed above, have been modified in response to the current market conditions and the COVID-19 pandemic. As of June 30, 2021, we were in compliance with all applicable covenants in the revolving credit facility.

After the expiration of covenant relief period, we must maintain compliance with the following financial covenants: limitations on our ratio of debt to EBITDAX to a maximum of 4.0 to 1.0; limitations on our ratio of Senior Secured Debt to EBITDAX to a maximum of 3.0 to 1.0; and the maintenance of a ratio of EBITDAX to interest expense of at least 2.5 to 1.0. If we fail to comply with these financial covenants, it would result in a default under the terms of the credit agreement, which could result in an acceleration of repayment of all indebtedness under the Company's revolving credit facility.

Amounts drawn under the revolving credit facility bear interest, at the borrower's option, USD LIBOR plus a margin ranging from 2.90% to 4.90%, or base rate plus a margin ranging from 1.90% to 3.90%, in each case based on the borrowing base utilization percentage. The alternate base rate is currently the U.S. prime rate. Undrawn amounts under the revolving credit facility bear interest from 0.73% to 1.23% per annum, based on the average daily amount of unused commitments.

At June 30, 2021, we had \$175.0 million drawn under the revolving credit facility. As of July 30, 2021, outstanding borrowings under our credit facility remained at \$175.0 million. During the second quarter of 2021, we repaid \$5.0 million of the amount drawn under the revolving credit facility. Accordingly, we had \$40.0 million of availability under the revolving credit facility as of June 30, 2021.

At June 30, 2021, we had \$300.0 million aggregate principal amount of 6.25% Senior Notes due 2025, and \$300.0 million aggregate principal amount of 7.75% Senior Notes due 2027 outstanding. An event of default under the revolving credit facility would result in a default under the indentures governing the senior notes, which could allow the note holders to require us to repurchase all of the outstanding Senior Notes.

In accordance with our investment policy, available cash balances are held in our primary cash management banks or may be invested in U.S. or Canadian government-backed federal, provincial or state securities or other money market instruments with high credit ratings and short-term liquidity.

Derivative Positions

At June 30, 2021, we had outstanding commodity price derivative positions as follows:

Period and type of instrument	Volume, bopd	Reference	Sold Put (\$/bbl, Weighted Average)	Purchased Put (\$/bbl, Weighted Average)	Sold Call (\$/bbl, Weighted Average)	Swap Price (\$/bbl, Weighted Average)
Three-way Collars: July 1, to December 31, 2021	7,000	ICE Brent	47.14	57.14	68.95	n/a
Swaps: July 1, to December 31, 2021	3,000	ICE Brent	n/a	n/a	n/a	56.75

Foreign Currency Derivatives

At June 30, 2021, we had outstanding foreign currency derivative positions as follows:

Period and type of instrument	Amount Hedged (Millions COP)	U.S. Dollar Equivalent of Amount Hedged (Thousands of U.S. Dollars)	Reference	Floor Price (COP, Weighted Average)	Cap Price (COP, Weighted Average)
Collars: July 1, to December 31, 2021	6,000	1,597	COP	3,500	3,630

⁽¹⁾ At June 30, 2021 foreign exchange rate.

At June 30, 2021, our balance sheet included \$26.6 million of current liabilities related to the above outstanding commodity price and foreign currency derivative positions.

Cash Flows

The following table presents our primary sources and uses of cash and cash equivalents for the periods presented:

(Thousands of U.S. Dollars)	Six Months Ended June 30,	
	2021	2020
Sources of cash and cash equivalents:		
Net loss	\$ (55,049)	\$ (622,275)
Adjustments to reconcile net loss to Adjusted EBITDA ⁽¹⁾ and funds flow from operations ⁽¹⁾		
DD&A expenses	60,245	99,778
Interest expense	27,747	26,175
Income tax expense (recovery)	17,840	(41,671)
Goodwill impairment	-	102,581
Asset impairment	-	402,362
Non-cash lease expenses	814	971
Lease payments	(855)	(975)
Unrealized foreign exchange loss	13,480	19,255
Stock-based compensation expense (recovery)	5,544	(763)
Unrealized derivative instruments loss	7,228	7,856
Other financial instruments loss	1,209	59,069
Adjusted EBITDA ⁽¹⁾	78,203	52,363
Current income tax expense	14	77
Contractual interest and other financing expenses	(25,972)	(24,239)
Funds flow from operations ⁽¹⁾	52,245	28,201
Proceeds from debt, net of issuance costs	-	90,505
Proceeds from issuance of exercise of stock options	8	-
Proceeds from disposition of investment, net of transaction costs	14,632	-
Net changes in assets and liabilities from operating activities	27,157	-
Changes in non-cash investing working capital	3,176	-
	97,218	118,706
Uses of cash and cash equivalents:		
Additions to property, plant and equipment	(74,811)	(49,024)
Repayment of debt	(15,001)	-
Debt issuance costs	(125)	-
Net changes in assets and liabilities from operating activities	-	(21,255)
Changes in non-cash investing working capital	-	(38,645)
Settlement of asset retirement obligations	(248)	(27)
Lease payments	(513)	(307)
Foreign exchange loss on cash, cash equivalents and restricted cash and cash equivalents	(488)	(738)
	(91,186)	(109,996)
Net increase in cash and cash equivalents and restricted cash and cash equivalents	\$ 6,032	\$ 8,710

(1) Adjusted EBITDA and funds flow from operations are a non-GAAP measures which do not have any standardized meaning prescribed under GAAP. Refer to "Financial and Operational Highlights - non-GAAP measures" for a definition and reconciliation of this measure.

One of the primary sources of variability in our cash flows from operating activities is the fluctuation in oil prices, the impact of which we partially mitigate by entering into commodity price derivatives. Sales volume changes and costs related to operations and debt service also impact cash flows. Our cash flows from operating activities are also impacted by foreign currency exchange rate changes, the impact of which we partially mitigate by entering into foreign currency derivatives. During the six months ended June 30, 2021, funds flow from operations increased by 85% compared to the corresponding period of 2020 primarily due to an increase in Brent price and decrease in operating and transportation expenses, offset by cash settlements on derivative instruments.

Off-Balance Sheet Arrangements

As at June 30, 2021, we had no off-balance sheet arrangements.

Contractual Obligations

At June 30, 2021, we had \$175.0 million drawn under our revolving credit facility.

Except for noted above, as at June 30, 2021, there were no other material changes to our contractual obligations outside of the ordinary course of business from those as at December 31, 2020.

Critical Accounting Policies and Estimates

Our critical accounting policies and estimates are disclosed in Item 7 of our 2020 Annual Report on Form 10-K, and have not changed materially since the filing of that document.

Item 3. *Quantitative and Qualitative Disclosures About Market Risk*

As a Smaller Reporting Company, we are not required to provide information under this Item 3.

Item 4. *Controls and Procedures*

Disclosure Controls and Procedures

We have established disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, or Exchange Act). Our disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed by Gran Tierra in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report, as required by Rule 13a-15(b) of the Exchange Act. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that Gran Tierra's disclosure controls and procedures were effective as of June 30, 2021.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended June 30, 2021, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - Other Information

Item 1. *Legal Proceedings*

See Note 11 in the Notes to the Condensed Consolidated Financial Statements (Unaudited) in Part I, Item 1 of this Quarterly Report on Form 10-Q, which is incorporated herein by reference, for any material developments with respect to matters previously reported in our Annual Report on Form 10-K for the year ended December 31, 2020, and any material matters that have arisen since the filing of such report.

Item 1A. *Risk Factors*

There are numerous factors that affect our business and results of operations, many of which are beyond our control. In addition to information set forth in this quarterly report on Form 10-Q, including in Part I, Item 2 “Management’s Discussion and Analysis of Financial Condition and Results of Operations”, you should carefully read and consider the factors set out in Part I, Item 1A “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2020. These risk factors could materially affect our business, financial condition and results of operations. The unprecedented nature of the current pandemic and downturn in the worldwide economy and oil and gas industry may make it more difficult to identify all the risks to our business, results of operations and financial condition and the ultimate impact of identified risks.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 6. Exhibits

Exhibit No.	Description	Reference
3.1	<u>Certificate of Incorporation.</u>	Incorporated by reference to Exhibit 3.3 to the Current Report on Form 8-K, filed with the SEC on November 4, 2016 (SEC File No. 001-34018).
