NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2023

NOTE 1 – NATURE OF BUSINESS AND OPERATIONS

Organization

The Company was incorporated on August 22, 1995 as a Nevada corporation under the name H. Herbig Land & Livestock Incorporated. From the date of incorporation to December 2, 1997 the Company had no significant operating activities. On December 2, 1997, the Company entered a purchase agreement with Mr. William E. Edwards to purchase the name Dermalay Industries, Inc., and inventory owned by Mr. Edwards in exchange for 2,550,000 shares of common stock. The Company is deemed to have entered the development stage effective December 2, 1997.

On May 12, 2023, the Company's Board of Directors approved a One for Three Hundred (1-for-300) Reverse Stock Split of the issued and outstanding shares of Common Stock. As of the date of filing the reverse split has not been approved by FINRA and as such the financial statements have not been retroactively restated to reflect the split.

On May 13, 2023, the Company filed Certificate of Change to its Articles of Incorporation, as amended, with the Secretary of Nevada to change the Company's corporate name to Maya Innovations Corp.

On March 20, 2023, the Company entered into an Asset Purchase Agreement ("Purchase Agreement"), by and among the Company, on the one hand, ("Buyer"), and Maya Innovations, LLC ("MILLC") and Maya Praveen Kumar, an individual ("Kumar") and the sole-officer, director, and shareholder of MILLC, on the other hand (collectively, MILLC and Kumar are hereinafter referred to as the "Seller") whereby the Company acquired various artificial intelligence related assets from the Seller for use in the healthcare industry. On September 15, 2023, the Company, and Maya Praveen Kumar, an individual ("Maya") entered into an Unwind Agreement and Mutual Release (the "Unwind Agreement"), for the purpose of unwinding, and rendering void, the Asset Purchase Agreement ("Original APA") executed by and between the Company and Maya on March 20, 2023. The Parties mutually and voluntarily agreed to unwind the transaction contemplated by the Original APA. Accordingly, the Company returned all the Assets acquired per the Original APA once Maya has cancelled, and returned to the Company's treasury, the 3,000,000 restricted shares of the Company's common stock and 1,000,000 shares of the Company's Series A Preferred Stock that were issued per the terms of the Original APA.

On the same day the Company entered into an Asset Purchase Agreement ("Purchase Agreement"), by and among the Company and Pure North Analytics, an unincorporated company based out of Dubai ("PNA") and Tejas Bansilal Parikh, an individual ("Parikh") (collectively, PNA and Parikh are hereinafter referred to as the "Seller") whereby the Company acquired various artificial intelligence related assets from the Seller relating to artificial intelligence tailored for financial markets. Specifically, PNA's expertise lies in predicting future share prices for Fortune 1000 companies that adhere to ESG (Environmental, Social, and Governance) standards, which significantly influence investor decisions. This tool can be offered by brokerages and financial

institutions to their clients via subscription, empowering them to make well-informed investment choices. Collectively, all intellectual property, proprietary and nonproprietary technology, know-how, and all other assets of the Seller that maybe, directly, or indirectly, applied to the artificial intelligence field insofar as the financial industry are referred to hereinafter as the “Acquired Assets.” In exchange for the Acquired Assets, the Company issued 6,000,000 restricted shares of its common stock (the “Common Shares”). Each of the Corporation and Seller shall make customary representations, warranties, covenants, and indemnities in connection with the Purchase Agreement Pursuant to the terms of the Purchase Agreement.

In connection with the foregoing, on September 26, 2023, the Company entered into an Executive Employment Agreement (the “Employment Agreement”) with Tejas Bansilal Parikh (the “Mr. Parikh”) whereby Mr. Parikh has agreed to serve as the Company’s Chief Executive Officer, President, Chief Financial Officer, Treasurer, Secretary, and as Chairman of the Company’s Board of Directors.

Additionally, the Company received notice of resignation from Andrew Gaudet (“Gaudet”) from the positions of President, Chief Executive Officer, Treasurer, Chief Financial Officer, and, Secretary of the Company (the “Resignation”). Gaudet shall retain his position as a member of the Company’s Board of Directors until his resignation or until a successor is duly appointed at a meeting of the Company’s Shareholders.

On September 21, 2023, the Company’s Board of Directors, approved changing the Company name from Maya Innovations Corp. to Pure North Analytics Corp.

BASIS OF PRESENTATION

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States. Management is of the opinion that all necessary adjustments have been made to make these interim consolidated financial statements not misleading.

NOTE 2 – GOING CONCERN

The accompanying financial statements have been prepared in US dollars and in accordance with accounting principles generally accepted in the United States (“GAAP”) on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities and commitments in the normal course of business. During the nine months ended December 31, 2023, the Company incurred net losses of \$582,428, and accumulated deficits of \$5,104,857. These conditions raise substantial doubt about the Company's ability to continue as a going concern.

We are entirely dependent on our ability to attract and receive funding from either the sale of securities or outside sources such as private investment or a strategic partner. We currently have no firm agreements or arrangements with respect to any such financing and there can be no assurance that any needed funds will be available to us on acceptable terms or at all. The inability

No assurance provided.

to obtain sufficient funding of our operations in the future will restrict our ability to grow and reduce our ability to continue to conduct business operations. Our failure to raise additional funds will adversely affect our business, and may require us to suspend our operations, which in turn may result in a loss to the purchasers of our common stock. If we are unable to obtain necessary financing, we will likely be required to curtail our development plans. Any additional equity financing may involve substantial dilution to our then existing stockholders.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ significantly from those estimates.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents to the extent the funds are not being held for investment purposes.

Intangible assets

The Company follows Financial Accounting Standard Board's (FASB) Codification Topic 350-10 ("ASC 350-10"), "Intangibles – Goodwill and Other". According to this statement, intangible assets with indefinite lives are no longer subject to amortization, but rather an annual assessment of impairment by applying a fair-value based test. Under ASC 350-10, the carrying value of assets are calculated at the lowest level for which there are identifiable cash flows.

Stock-based compensation

The Company follows ASC 718-10, "Stock Compensation", which addresses the accounting for transactions in which an entity exchanges its equity instruments for goods or services, with a primary focus on transactions in which an entity obtains employee services in share-based payment transactions. ASC 718-10 is a revision to SFAS No. 123, "Accounting for Stock-Based Compensation," and supersedes Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," and its related implementation guidance. ASC 718- 10 requires measurement of the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award (with limited exceptions). Incremental compensation costs arising from subsequent modifications of awards after the grant date must be recognized.

Concentration of Credit Risk

The Company has no off-balance-sheet concentrations of credit risk such as foreign exchange contracts, options contracts or other foreign hedging arrangements. The Company maintains all of its cash balances with two financial institutions in the form of demand deposits.

Loss per Share

The Company follows ASC Topic 260 to account for the earnings per share. Basic earnings per common share (“EPS”) calculations are determined by dividing net income by the weighted average number of shares of common stock outstanding during the year. Diluted earnings per common share calculations are determined by dividing net income by the weighted average number of common shares and dilutive common share equivalents outstanding. During periods when common stock equivalents, if any, are anti-dilutive they are not considered in the computation.

Income Taxes

The Company’s calculation of its tax liabilities involves dealing with uncertainties in the application of complex tax laws and regulations in various taxing jurisdictions. The Company recognizes tax liabilities for uncertain tax positions based on management’s estimate of whether it is more likely than not that additional taxes will be required. The Company had no uncertain tax positions as of December 31, 2023 and 2022.

Deferred income taxes are recognized in the consolidated financial statements for the tax consequences in future years of differences between the tax basis of assets and liabilities and their financial reporting amounts based on enacted tax laws and statutory tax rates. Temporary differences arise from net operating losses, differences in depreciation methods of archived images, and property and equipment, stock-based and other compensation, and other accrued expenses. A valuation allowance is established when it is determined that it is more likely than not that some or all of the deferred tax assets will not be realized.

The application of tax laws and regulations is subject to legal and factual interpretation, judgment and uncertainty. Tax laws and regulations themselves are subject to change as a result of changes in fiscal policy, changes in legislation, the evolution of regulations and court rulings. Therefore, the actual liability for U.S., or the various state jurisdictions, may be materially different from management’s estimates, which could result in the need to record additional tax liabilities or potentially reverse previously recorded tax liabilities. Interest and penalties are included in tax expense.

The Company includes interest and penalties arising from the underpayment of income taxes in the statements of operation in the provision for income taxes. As of December 31, 2023 and 2022, the Company had no accrued interest or penalties related to uncertain tax positions.

Revenue Recognition

The Company recognizes revenue from its contracts with customers in accordance with *ASC 606 – Revenue from Contracts with Customers*. The Company recognizes revenues when satisfying the performance obligation of the associated contract that reflects the consideration expected to be received based on the terms of the contract.

Revenue related to contracts with customers is evaluated utilizing the following steps: (i) Identify the contract, or contracts, with a customer; (ii) Identify the performance obligations in the contract; (iii) Determine the transaction price; (iv) Allocate the transaction price to the performance

obligations in the contract; (v) Recognize revenue when the Company satisfies a performance obligation.

Fair Value of Financial Instruments

The Company measures fair value in accordance with ASC 820 - Fair Value Measurements. ASC 820 defines fair value and establishes a three-level valuation hierarchy for disclosures of fair value measurements. ASC 820 establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. To increase consistency and comparability in fair value measurements and related disclosures, ASC 820 establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three (3) broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three (3) levels of fair value hierarchy defined by ASC 820 are:

Level 1 - Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date.

Level 2 - Inputs (other than quoted market prices included in Level 1) are either directly or indirectly observable for the asset or liability through correlation with market data at the measurement date and for the duration of the instrument's anticipated life.

Level 3 - Inputs reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date. Consideration is given to the risk inherent in the valuation technique and the risk inherent in the inputs to the model. Valuation of instruments includes unobservable inputs to the valuation methodology that are significant to the measurement of fair value of assets or liabilities.

As defined by ASC 820, the fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale, which was further clarified as the price that would be received to sell an asset or paid to transfer a liability ("an exit price") in an orderly transaction between market participants at the measurement date

The reported fair values for financial instruments that use Level 2 and Level 3 inputs to determine fair value are based on a variety of factors and assumptions. Accordingly, certain fair values may not represent actual values of the Company's financial instruments that could have been realized as of December 31, 2023 and December 31, 2022 or that will be recognized in the future, and do not include expenses that could be incurred in an actual settlement. The carrying amounts of the Company's financial assets and liabilities, such as cash, prepaid expenses and other, accounts payable, accrued liabilities, and related party and third party notes payables approximate fair value due to their relatively short maturities. The Company's notes payable approximates the fair value of such instrument based upon management's best estimate of terms that would be available to the Company for similar financial arrangements at December 31, 2023 and December 31, 2022.

Recent Accounting Pronouncements

Management has considered all recent accounting pronouncements issued. The Company's management believes that these recent pronouncements will not have a material effect on the Company's financial statements.

NOTE 4 – ASSET PURCHASE AGREEMENTS

On March 20, 2023, the Company entered into an Asset Purchase Agreement whereby the Company acquired various artificial intelligence related assets from the Seller for use in the healthcare industry. In exchange for the Acquired Assets, the Company issued 3,000,000 restricted shares of the Buyer's common stock and 1 million shares of the Buyer's Series A Preferred Stock valued at \$6,000,000. On September 15, 2023, the parties agreed to unwind the agreement and the Seller agreed to return the shares for the return of the purchased assets.

On September 15, 2023, the "Company entered into an Asset Purchase Agreement whereby the Company acquired various artificial intelligence financial based platform intangible assets from the aimed at assisting investors in their investment decision-making. In exchange for the Acquired Assets, the Company issued 6,000,000 restricted shares valued at \$81,600. The Company evaluated the Asset Purchase Agreement in accordance with ASC 805 – Business Combinations which notes the threshold requirements of a business combination that includes the expanded definition of a "business" and defines elements that are to be present to be determined whether an acquisition of a business occurred. No "activities" of the acquiree were acquired. Instead, the Company obtained control of a set of inputs (the acquired assets). Thus, the Company determined agreement is an acquisition of assets, not an acquisition of a business in accordance with ASC 805. The total purchase price of \$81,600 in connection with the assets acquired is included in intangible assets, in the balance sheets.
