In the Application, Mr. Arcaro alleged that he made several unsuccessful attempts to contact Mr. O’Connor and the Company by sending letters by certified mail return receipt requested via the U.S. Postal Service, demanding that Mr. O’Connor comply with Nevada law and keep the Company in good standing with the state of Nevada. Mr. Arcaro received no response from Mr. O’Connor or the Company.

On March 21, 2019, the Court appointed Mr. Arcaro as custodian of the Company and authorized Mr. Arcaro to take any and all actions on behalf of the Company that are reasonable and prudent, including appointing directors and officers, reinstating the Company with the state of Nevada, amending the Company’s articles of incorporation and holding a shareholders meeting. Mr. Arcaro never held a shareholder meeting. On March 18, 2019, under the custodianship of Mr. Arcaro, the Company filed a Certificate of Amendment by Custodian and obtained a business license valid until September 30, 2019.

On March 25, 2019, the Custodian filed a Certificate of Amendment by Custodian, a mostly administrative task.

On March 28, 2019, Mr. Arcaro, as custodian, appointed himself to serve as the sole officer and director of the Company.

The Board filed a Certificate of Designation on May 24, 2019, designating 1,000 shares of Series L Preferred Stock (“Series L Preferred”), which are entitled to vote with the common stock at a ratio of 1,000,000 votes per share of Series L Preferred, and which do not have rights to dividends, have a liquidation preference junior to the Series A Preferred but senior to the common stock, have no redemption rights and are not convertible into common stock. On May 30, 2019, the Company issued 1,000 shares of Series L Preferred to Algonquin.

On June 5, 2019, Mr. Arcaro appointed himself to serve as the sole officer and director of the Company. On June 10, 2019, the Company issued 2,500,000 shares of common stock to Algonquin Partners, Inc. (control person Mr. Arcaro) (“Algonquin”) in exchange for forgiveness of debt owed by the Company to Mr. Arcaro.

## **NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### *Basis of presentation*

The Company’s financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### *Principles of Consolidation*

The consolidated financial statements include the accounts of Holistic Asset Finance Group Co., Ltd. and its subsidiary, collectively referred to as “the Company”. All significant intercompany accounts and transactions have been eliminated in consolidation. Holistic Asset Finance Group Co., Ltd. is a holding company that holds 75% of Plural.

As such the consolidated financial statements are presented using the pooling of interest of accounting.

Under the pooling of interest method as applied in this situation the consolidated financial statements of Holistic Asset Finance Group Co., Ltd are effectively presented as follows:

- the consolidated balance sheet is issued under the name of the legal parent (Holistic Asset Finance Group Co., Ltd) but is a reflection of the financial statements of the subsidiary, Plural.

- the assets and liabilities of the combining entities are reflected at their carrying amounts. No adjustments are made to reflect fair values, or recognise any new assets or liabilities, including goodwill, as a result of the re-organisation; and
- the cost of investment held by the legal parent (Holistic Asset Finance Group Co., Ltd) in the legal subsidiary (Plural) is eliminated on consolidation. The consolidated share capital reflects the share capital of Holistic Asset Finance Group Co., Ltd, and to the extent that this is different to the subsidiary, Plural, then this is recognised in equity as a 'pooling of interest reserve.'

#### Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period.

Due to the limited level of operations, the Company has not had to make material assumptions or estimates other than the assumption that the Company is a going concern.

#### Cash and cash equivalents

The Company considers all highly liquid investments with a maturity of a year or less when purchased to be cash equivalents. At June 30, 2022, cash equivalents amounted to \$0.

#### Commitments and contingencies

The Company follows subtopic 450-20 of the FASB Accounting Standards Codification to report accounting for contingencies. Certain conditions may exist as of the date the financial statements are issued, which may result in a loss to the Company, but which will only be resolved when one or more future events occur or fail to occur. The Company assesses such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against the Company or un-asserted claims that may result in such proceedings, the Company evaluates the perceived merits of any legal proceedings or un-asserted claims as well as the perceived merits of the amount of relief sought or expected to be sought therein.

If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be estimated, then the estimated liability would be accrued in the Company's financial statements. If the assessment indicates that a potentially material loss contingency is not probable but is reasonably possible, or is probable but cannot be estimated, then the nature of the contingent liability, and an estimate of the range of possible losses, if determinable and material, would be disclosed.

Loss contingencies considered remote are generally not disclosed unless they involve guarantees, in which case the guarantees would be disclosed. Management does not believe, based upon information available at this time, that these matters will have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows. However, there is no assurance that such matters will not materially and adversely affect the Company's business, financial position, and results of operations or cash flows.

#### Revenue recognition

The Company adopts ASC606 "Revenue Recognition" and recognizes revenue when control of the promised goods or services is transferred to customers, in an amount that reflects the consideration we expect to be entitled to in exchange for those goods or services.

The Company applies the following five steps in order to determine the appropriate amount of revenue to be recognized as it fulfills its obligations under each of its agreements:

- identify the contract with a customer;
- identify the performance obligations in the contract;
- determine the transaction price;
- allocate the transaction price to performance obligations in the contract; and
- recognize revenue as the performance obligation is satisfied.

#### Income Tax Provisions

Income taxes are determined in accordance with the provisions of ASC 740, “Income Taxes”. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted income tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Any effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

ASC 740 prescribes a comprehensive model for how companies should recognize, measure, present, and disclose in their financial statements uncertain tax positions taken or expected to be taken on a tax return. Under ASC 740, tax positions must initially be recognized in the financial statements when it is more likely than not the position will be sustained upon examination by the tax authorities. Such tax positions must initially and subsequently be measured as the largest amount of tax benefit that has a greater than 50% likelihood of being realized upon ultimate settlement with the tax authority assuming full knowledge of the position and relevant facts.

For the Three Months ended June 30, 2022 and 2021, the Company did not have any interest and penalties associated with tax positions. As of June 30, 2022, and June 30, 2021, the Company did not have any significant unrecognized uncertain tax positions.

#### Related parties

Parties, which can be a corporation or individual, are considered to be related if the Company has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operational decisions. Companies are also considered to be related if they are subject to common control or common significant influence.

#### Net loss per common share

The Company calculates net loss per share in accordance with ASC Topic 260, “Earnings per Share.” Basic income per share is computed by dividing the net income by the weighted-average number of common shares outstanding during the period. Diluted income per share is computed similar to basic income per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common stock equivalents had been issued and if the additional common shares were dilutive. As of June 30, 2022 and June 30, 2021, the Company has no dilutive securities.

### Recently Adopted Accounting Standards

In February 2016, the FASB issued Accounting Standards Update (“ASU”) 2016-02, Leases (“ASC 842”). The guidance requires lessees to recognize almost all leases on their balance sheet as a right-of-use asset and a lease liability. For income statement purposes, the FASB retained a dual model, requiring leases to be classified as either operating or finance. Lessor accounting is similar to the current model, but updated to align with certain changes to the lessee model and the new revenue recognition standard. Existing sale-leaseback guidance, including guidance for real estate, is replaced with a new model applicable to both lessees and lessors. ASC 842 is effective for fiscal years beginning after December 15, 2018. The adoption of ASC 842, did not have a material effect on the Company’s consolidated financial statements.

Management has considered all recent accounting pronouncements issued. The Company’s management believes that these recent pronouncements will not have a material effect on the Company’s financial statements.

### **NOTE 3 – GOING CONCERN**

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates continuity of operations, realization of assets, and liquidation of liabilities in the normal course of business.

As reflected in the accompanying financial statements, the Company had an accumulated deficit on June 30, 2022 of \$69,689,742.

While the Company is attempting to commence operations and generate revenues, the Company’s cash position may not be significant enough to support the Company’s daily operations. Management intends to raise additional funds by way of a public or private offering. Management believes that the actions presently being taken to further implement its business plan and generate revenues provide the opportunity for the Company to continue as a going concern. While the Company believes in the viability of its strategy to generate revenues and in its ability to raise additional funds, there can be no assurances to that effect. The ability of the Company to continue as a going concern is dependent upon the Company’s ability to further implement its business plan and generate revenues.

The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.
