NOTE 3 – GOING CONCERN

The consolidated financial statements are presented under the assumption of a going concern, in alignment with U.S. GAAP, indicating the expectation that the Company will continue to meet its obligations and sustain operations into the foreseeable future. Historically, the Company has experienced recurring operating losses, and as of December 31, 2023, it faces constraints in financial resources essential for reaching its strategic goals, achieving profitability, and maintaining positive cash flow. The financial challenges are evident from the accumulated and working capital deficits reflected in the balance sheets and statements of operations. The Company's strategy to overcome these financial hurdles includes seeking additional funding through partnerships, investor financing, and revenue generation from its current and future business endeavors. Notwithstanding these plans, the persistent financial challenges raise uncertainty about the Company's capability to continue as a going concern.

NOTE 4 – EARNINGS PER SHARE (EPS)

Basic Earnings Per Share (EPS) is calculated by dividing the net loss available to common stockholders by the weighted average number of common shares outstanding during the year. Diluted EPS includes the impact of all potential dilutive common shares, such as those arising from stock options and warrants, to provide a more comprehensive earnings measurement.

For the fiscal year ending December 31, 2023, the Company reported a net loss of \$5,803,980. The weighted average number of common shares outstanding was 129,039,068. Given the absence of convertible securities, options, or warrants that would impact the calculation, the basic and diluted EPS are the same and were calculated as follows:

$$\text{EPS} = \frac{\text{Net Loss}}{\text{Weighted Average Shares}} = \frac{-5,803,980}{129,039,068} \approx -0.04 \text{ per share}$$

This EPS calculation reflects the Company's operational challenges during the year, with a focus on financial restructuring and cost management to mitigate losses. The identical values for basic and diluted EPS indicate no potential dilution from equity-like securities during the period, emphasizing the current composition of equity instruments exclusively as common shares.

For the year ending December 31, 2023, there were no warrants or other potential dilutive securities outstanding that would have affected the computation of diluted EPS. Consequently, basic and diluted EPS are identical for the current reporting period.

NOTE 5 – PROPERTY AND EQUIPMENT

As of December 31, 2023, the Company's property and equipment, net of accumulated depreciation, are detailed in the financial statements. Depreciation expense is systematically allocated over the assets' useful lives and was \$21,256 for the year ended December 31, 2023.
