Investor Information

- The new Technology Centre (STC) is fully integrated, with the ability to take an idea from concept all the way through to first batch production under one roof.
- The ultimate goal is for STC to rapidly conceptualise, design, prototype, test and validate new products that become the next cornerstone product line of the company.
- Initial businesses won and orders expected on the aforementioned products, and others, are in excess of Rs. 100 crores/year on an annualised basis.
- Further businesses are being negotiated with various customers.
- STC is expected to have significant impact on future growth plans of the Company.
- Suprajit will be in a unique position as an extremely lean and frugal manufacturing outfit that is complimented by a highly effective new product design capability, executing the complete cycle for the customer from concept to commercialisation.

Thank You
