Transmittal No. 22-59

Japan – Standard Missile 6 Block I (SM-6 Blk I) Missiles

WASHINGTON, October 20, 2022 - The State Department has made a determination approving a possible Foreign Military Sale to the Government of Japan of Standard Missile 6 (SM-6) Block I missiles and related equipment for an estimated cost of \$450 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Japan has requested to buy up to thirty-two (32) Standard Missile 6 (SM-6) Block I missiles (in two tranches of 16). Also included are MK 21 Vertical Launch System (VLS) canisters; obsolescence engineering, integration and test activity; canister handling equipment, spares, training and training equipment/aids; technical publications/data; U.S. Government and contractor engineering, technical and logistical support services; and other related elements of logistical and program support. The estimated total program cost is \$450 million.

This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a major ally that is a force for political stability and economic progress in the Asia-Pacific region.

The proposed sale will improve Japan's Air Defense and Ballistic Missile Defense capabilities against potential adversaries in the region. It will also provide the U.S.-Japan Security Alliance with the latest and most advanced capabilities, reducing Japan's reliance on U.S. Forces for the defense of Japan and further improving U.S.-Japan military interoperability. Japan will have no difficulty absorbing these missiles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Missiles and Defense (RMD), Tucson, AZ. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require U.S. Government and contractor personnel to visit Japan on a temporary basis in conjunction with program technical oversight and support requirements, including program and technical reviews, as well as to provide training and maintenance support in Japan.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law. The description and dollar value is for the highest estimated quantity and dollar value based on initial requirements. Actual dollar value will be lower depending on final requirements, budget authority, and signed sales agreement(s), if and when concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.
