Transmittal No. 24-33

Poland – AGM-158B-2 Joint Air-to-Surface Standoff Missile with Extended Range All-Up-Rounds

WASHINGTON, March 12, 2024 - The State Department has made a determination approving a possible Foreign Military Sale to the Government of Poland of AGM-158B-2 Joint Air-to-Surface Standoff Missile with Extended Range All-Up-Rounds and related elements of logistics and program support for an estimated cost of \$1.77 billion. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Poland has requested to buy up to eight hundred twenty-one (821) AGM-158B-2 Joint Air-to-Surface Standoff Missiles with Extended Range (JASSM-ER) All-Up-Rounds. Also included are AGM-158 JASSM classified test equipment; weapon system support; integration and test support and equipment; classified software delivery and support; unclassified publications and technical documentation; transportation; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$1.77 billion.

This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a NATO Ally that is a force for political stability and economic progress in Europe.

The proposed sale will improve Poland's capability to meet current and future threats by providing advanced, long-range strike systems for employment from Polish Air Force air platforms. This sale will further advance the already high level of Polish Air Force interoperability with U.S. joint forces and other regional and NATO forces. Poland already has JASSM-ERs in its inventory and will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin, Orlando, FL. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the Government of Poland.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

The description and dollar value are for the highest estimated quantity and dollar value based on initial requirements. Actual dollar value will be lower depending on final requirements, budget authority, and signed sales agreement(s), if and when concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military-Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.
