Nobina wins electric bus contract for MOVIA in Roskilde

Nobina has secured a new contract from MOVIA to develop and operate bus services in the Roskilde region of Denmark with a new traffic between Fredrikssund and Roskilde. The contract is part of MOVIA A19X and comprises 13 fully electric buses. The contract will commence in December 2022 and is worth a total of approximately DKK 260 million over its term of ten years. Thereafter, the contract includes a two-year extension option.

Nobina already has well-established operations in Roskilde and several contracts with Movia. This new contract will expand services, and places great importance on the environment and electrification of public transport.

“We are delighted that Movia has entrusted us with this new contract to develop public transport and to continue its sustainable transition – with this clear commitment to the deployment of electric buses in Roskilde and Fredrikssund,” says Niels-Peter Nielsen, Managing Director of Nobina Denmark.

About Nobina

This is Nobina. We are the Nordic region's largest public transport operator, with 12,000 employees across four countries. Every day, all year round, one million people choose to travel more sustainably with us. From north to south, in urban and in rural areas. To the next bus stop, or all the way home. Together with our passengers and clients, we are big enough to make a real difference. From a welcoming greeting and a comfortable bus journey, to new smart technology that contributes to more fossil-free travel. A unique opportunity to bring about change.

The Group operates in Sweden, Norway, Denmark and Finland and reported sales of almost SEK 11 billion in 2019. In the Swedish and Danish markets, Nobina also operates special needs transportation under the Samtrans and Örslev brands, respectively. Nobina is listed on Nasdaq Stockholm.

Together, we keep society moving every day.
